

2019 CAPER Appendix

CDBG Performance & Evaluation Report

INTRODUCTION

This report is submitted according to Section 104(e) of the Housing and Community Development Act and 24 CFR 570.491 which requires grantees to report on the administration of the State and Small Cities Community Development Block Grant Program. This report is submitted annually to the U.S. Department of Housing and Urban Development. All grants made to local governments since 2000 are summarized along with accomplishments and beneficiary data.

BACKGROUND

Congress established the CDBG program through the Housing and Community Development Act of 1974. The Act sought to streamline the application and review process for several categorical grant and loan programs. It also intended to provide local governments a greater voice in determining the best way to meet community development needs.

According to Federal enabling legislation, the CDBG program's primary objective is the development of viable community by providing decent housing, suitable living environments and expanding economic opportunities, principally for low and moderate income persons. This is achieved through eligible activities which must benefit persons of low and moderate income; prevent or eliminate slums and blight; or meet an urgent community development need. The activities by major grouping are public facilities, housing rehabilitation, housing development, comprehensive community/neighborhood revitalization, economic development, business development, and planning.

Prior to 1982 the program was administered by the U.S. Department of Housing and Urban Development for large urban areas and rural areas. With the enactment of the Housing and Community Development Amendments of 1981, state governments had the option of administering the non-entitlement CDBG program.

Nebraska was one of the 35 states that immediately assumed administration of the CDBG program. In September 1981, Governor Charles Thone directed the Nebraska Department of Economic Development (DED) to establish a State CDBG program. The program was initially designed through an extensive process of local consultation with local governments. The program serves all incorporated municipalities under 50,000 population and all counties.

Local design for the program continues to take place on an annual basis with the continuation of the extensive process of local consultation.

Explanations for performance evaluation report

The Performance Evaluation Report is divided into sections for each CDBG allocation year, 2000 through 2019. Each part contains information on the State's performance under each grant received from the U.S. Department of Housing and Urban Development for the Community Development Block Grant Program. Below is an outline for each section of the report

- PART I** Financial Status
 - National Objectives
 - Grant Activities Summary
- PART II** Assessment of Relationship of Use of Funds to State Objective
- PART III** Civil Rights data for program applicants and beneficiaries

PART I - FINANCIAL STATUS AND NATIONAL OBJECTIVES

Grant No.

This is the grant number from the U.S. Department of Housing Development for the Community Development Block Grant to the State of Nebraska. The first two digits following the letter “B” indicate the year of the federal allocation of funds. For example: B-99-DC-31-001 indicates that funds were allocated by the U.S. Department of Housing and Urban development in 1999. Grants awarded to local governments in Nebraska from the 1999 allocation are listed under this grant number.

Data

As required by HUD the information for this report is submitted based on grants awarded from July 1, 2000 through June 30, 2020.

Financial Status

The financial status section of the report summarizes all funds allocated to the state by HUD; program income distributed in the specific grant year; amounts obligated to recipients; amounts drawdown; and amount of allocation to be used for state administration and technical assistance.

National Objective

Each activity, except for administration, must meet a national objective of the Housing and Community Development Act. National objectives are designated as LMI - principally benefits low and moderate-income persons; S/B - prevents or eliminates slums/blight; URG - meets a community development need having a particular urgency. The amounts in this section indicate the amount of each year's allocation, which benefit each of the three national objectives.

National Objectives - Benefit Period

The 1983 amendments to the Housing and Community Development (HCD) Act required that 51% of the aggregate of CDBG funds shall benefit low and moderate income persons for a three year period. The State's initial certification period was 1984-1986. The second benefit period was stated as 1987-1989. The 1987 amendments to the HCD Act required that 60% of the funds benefit lower income persons for a three-year period. The State established the period to be 1988-1990. The Cranston-Gonzalez National Affordable Housing Act of 1990 increased the required benefit to 70%. The current three-year benefit period is 2019-2021. According to 24 CFR 570.484 and the Guide to National Objectives and Eligible Activities for State CDBG Programs, the period during which compliance with the 70 percent benefit requirement will be determined begins on the start date of the first program year which the State has included, and ends when all funds have been expended out of the allocations for the program years the state has included.

PART II - GRANT ACTIVITIES SUMMARY

This part of the Performance Evaluation Report contains summary data on each grant for each of the years which the state has received an allocation for Community Development Block Grant funds.

Recipient

Identifies the city, town, village, or county awarded grant funds.

Project No

This is the project number assigned by the State of Nebraska.

Grant Status

Reports the current grant's stage of a project. For example: Community Project No. XXWW00X is in the Closeout stage in its status. Grant Status runs from the stages, Award to Closeout, with the exception of terminate for projects that have been terminated.

HUD Matrix

List all activities in general categories, for which CDBG funds were received. The activities are presented in general categories as classified by the HUD IDIS Matrix System.

HUD Title

List all the general categories for which CDBG funds were received.

Activity Status

This column is used to indicate new activities, modified budget amounts and completion of an activity. Any grant with new activities since July 1, 2014 will be represented by "N" in this column.

Amount

This column refers to the financial amount approved for each activity. If the project is completed, the actual amount expended is reported. If an activity within a project was funded with money from multiple program years the amount is individually listed with the corresponding year.

IDIS Year

This column refers to the Program Year that the funds for a project originated in.

Purpose

The general purpose for project funding are: ED - Economic Development; PF - Public Facilities; HO - Housing; PL - Planning; and PS - Public Service.

National Objective

Each activity, except for administration, must meet a national objective of the Housing and Community Development Act. The national objective for a project falls under one of three main categories, which are: LMI - principally benefits low and moderate income persons (LMA, LMC, LMH and LMJ); SBA - prevents or eliminates slums/blight; URG - meets a community development need having a particular urgency. The national objective met by each activity is indicated for each grant.

Accomplishment Name

The accomplishment name identifies the type of unit, which is measured. For example, the accomplishment name for housing rehabilitation is "# of housing units" which is the number of housing units rehabilitated.

Proposed and Actual Accomplishments - Units

This number represents the total units proposed or accomplished by the specific grant. For example, there were 15 housing units proposed to be rehabbed under the Alliance 13HO103 grant.

Proposed Beneficiaries – Total and LMI and %

The proposed number of persons benefited under each activity is shown for each grant. The LMI column represents the number of the proposed total beneficiaries that are LMI. The % column gives the percent of the total that is LMI.

Actual Beneficiaries – Total and LMI and %

The actual number of persons benefited under each activity is shown for each grant. The LMI column represents the number of the actual total beneficiaries that are LMI. The % column gives the percent of the total that is LMI.

PART II – NARRATIVE

Part II of the report includes a summary of the relationship of the use of funds to the State's objectives. This is a brief summary, which compares the stated purpose for the use of the CDBG funds in Nebraska with the actual distribution of funds.

PART III - CIVIL RIGHTS

Part III is a listing of all grants made from each grant year and provides Civil Rights characteristics for each activity funded under the grants. A narrative assessment of Civil Rights performance, Fair Housing actions, and Minority and Women-Owned business participation is included with the 2000 through 2019 reports.

Local Government/Project Number

Identifies the city, town, village or county awarded grant funds and the project number assigned by the State of Nebraska.

Activity Number

The activity number, as classified by the Nebraska Department of Economic Development, is shown for each eligible activity.

Beneficiary Data

Beneficiary data is shown using characteristic categories identified by HUD. Beneficiary data should not be considered final until grants are closed.

Nebraska CDBG Performance Evaluation Report:

PART I - FINANCIAL STATUS AND NATIONAL OBJECTIVES

GRANT NO: B-00-DC-31-0001

REPORTING PERIOD

Data as of: June 30, 2020

07/01/2000 - 06/30/2001

1. FINANCIAL STATUS

A. Total Funds	\$13,813,007.00
<i>Allocation</i>	\$13,487,000.00
<i>Program Income</i>	\$326,007.00
B. Amount Obligated To Recipients (Total)	\$12,940,390.00
C. Amount Drawn Down	\$13,487,000.00
D. Amount For State Administration	\$397,740.00
E. Amount For Technical Assistance	\$148,870.00

2. NATIONAL OBJECTIVE

A. Period Specified For Benefit	1998 - 2000
B. Amounts Used To:	
1. Benefit To Low/Moderate Income Persons	\$12,248,296.00
2. Prevent/Eliminate Slums/Blight	\$264,609.00
3. Meet Urgent Community Development Needs	\$0.00
4. Acquisition/Rehabilitation Noncountable	\$0.00
5. Local Administration	\$427,485.00

Part II: Relationship of the Use of Funds to the State's Objectives

The primary objective of the State of Nebraska's 2000 CDBG program was the same as the primary (overall) national objective established in Section 101(c) of the Housing and Urban Development Act of 1974, as amended. This overall national objective is "the development of viable urban communities, by providing decent housing and suitable living environment, and expanding economic opportunities, principally for persons of low and moderate income."

Under the 2000 program guidelines, the Nebraska Department of Economic Development awarded 87 grants in the amount of approximately \$12.5 million. Four funding categories – Community Development, Economic Development, Housing Rehabilitation and Planning – were established for the distribution of the 2000 Program Year awards.

Community Development Category: The primary state objective for this category is to fund basic needs in public works/facilities that are essential to the development of the state's communities and counties. Water/wastewater grants were added as a priority in 1997. Twenty-three (23) grants were awarded for approximately \$5.1 million. Of this amount, \$2.5 million was awarded for twelve (12) public works projects and \$2.6 million was awarded for eleven (11) water/wastewater projects.

Economic Development Category: There are two primary state objectives for this category. One is to support businesses, which expand the state's economic base and create quality jobs for persons in the low-and moderate-income levels. The second primary objective is to invest in communities, which support businesses and its citizens in entrepreneurial opportunities and continual education/training to foster quality lifestyles/communities. Local governments will receive grants to provide appropriate assistance to businesses through working capital and fixed asset loans, loan guarantees, equity investments, job training or public works grants. Financial assistance to local governments will be awarded to diversify the state's economy while leveraging private sector investment, and providing jobs of which at least 51% should be available to low/moderate income persons. Fifteen (15) Economic Development grants totaling approximately \$3 million were awarded. Tourism development grants were added as a new priority in 1997. Six (6) grants were awarded for approximately \$0.85 million.

Housing Rehabilitation Category: The primary state objective of this category is to invest in rehabilitation of existing housing for low and moderate income homeowners using regional and community-level service delivery system. Twelve (12) grants were awarded for approximately \$3 million.

Planning Category: The primary objective is to provide communities the opportunity to solve problems and meet citizens' needs through a community planning process that assesses community needs, develops options for meeting those needs, and packages work plans or carry out processes that lead to successful projects. In total, thirty-one (31) grants were awarded for approximately \$0.54 million.

Summary of Citizens' Comments

One citizen comment was received for the 2000 CAPER. A summary of the comment and DED's response is included in Section One of the report.

Evaluation of Extent of Low and Moderate Income Benefit

Evaluation of benefit to low and moderate income persons is contained in the summary information on grantees as a part of this report. Of the \$7,382,877 which had been obligated to projects, state administration and technical assistance from the 2000 allocation (including program income), 91% of the funds were used to benefit low and moderate income persons. See Part I.

Updated Evaluation of Extent of Low and Moderate Income Benefit from 2019 APR

Evaluation of benefit to low and moderate income persons is contained in the summary information on grantees as a part of this report. A total of \$12,940,390 was obligated to projects (excludes state and grantee administration and technical assistance) from the 2000 allocation, 94.64% of these funds were used to benefit low and moderate income persons. See Part I.

Explanation of Nature and Reasons for Changes in Program Objectives

There were no changes in program objectives.

Changes as Results of Experience

The 2000 Program implemented the following changes due to experience from previous years: (a) adjusting the program year start date from March 1 to July 1; (b) offering workshops and application acceptance dates further out from program year date; (c) announcing awards sooner following the program year start date; and (d) providing technical assistance and project development through a statewide regional delivery system.

Summary of Technical Assistance Funding

The State of Nebraska uses its CDBG Technical Assistance funding to produce the Certified CDBG Administrator Training Workshops. As of March 1, 1996, the State of Nebraska requires the formal certification of all persons administering Community Development Block Grant (CDBG) projects in Nebraska. These workshops are conducted twice a year by the Community and Rural Development Division of DED, with the assistance of the University of Nebraska at Omaha (UNO), and are scheduled to coincide with CDBG funding cycles. Certification can be viewed as an “insurance policy” which protects grantees from unnecessary monitoring findings due to inexperienced grant administrators, and it also helps federal and local governments achieve a higher level of efficiency, which means the needs of constituents are more effectively met. Anyone seeking the certified administrator designation must complete and pass the written exam.

2000 CDBG technical assistance (TA) funds were used in several other projects during the program year.

CDBG TA funds were used with the Mitas Group, Inc. for the maintenance and support of a software database system. MITAS is being used in the development of an online project-tracking tool that will be utilized by State CDBG applicants and recipients. Users will be able to view the history, status, compliance, and financial information of all State CDBG projects. This system will allow recipients to more efficiently track their projects and allow applicants to better assess the needs of their community and region.

CDBG TA funds went towards the creation of an Environmental Review Training for local officials. An independent consultant was contracted to design the presentations and materials that were used in the training, likewise the consultant headed the initial trainings that were held.

CDBG TA funds also went towards the support of the Nebraska Chapter of the American Planning Association (APA), training for local planning officials. These funds were used to support scholarships for

attendees and for training costs not covered by registrations at the Nebraska Chapter APA Institutes in March 2001.

Part III: Civil Rights Summary

State's Review of Civil Rights

All grantees receive training in the civil rights rules and regulations during training sessions. Training sessions are reinforced with notices and updates through the CDBG Bulletin, which is published on an as needed basis.

Each grantee's program eligibility criteria are reviewed to determine whether the criteria or methods of administration may have the effect of subjecting individuals to discrimination on the basis of race, color, age, sex, national origin or disability.

Comparisons are made between recent census data regarding those protected classes and the percentages of those protected classes participating and receiving benefits from CDBG funds.

All grantees are required to maintain, on an ongoing basis, and on file permanently, numerical and percentage documentation and information regarding the following:

1. Total beneficiaries in project
2. Total numbers of males/females.
3. Actual number of Whites, Blacks, Hispanics, Asians, Native Americans, and others.
4. Percentages of males, females, minorities, female heads of household, disabled population, and low to moderate income persons receiving benefits from the project funds.

Program representatives are required to consider this information, compared with census data, and determine if there is any indication any person and/or group of persons were denied benefits or employment on the grounds of race, age, sex, or disability.

In addition, the state reviews the grantee's compliance with Section 504 and the Americans with Disabilities Act. Grantees must have conducted a self-evaluation of their facilities and their programs as they relate to the ADA/Section 504 compliance. In addition, the grantee must have on file, and available for review, a transition plan. The grantee must provide evidence that they are complying or making attempts to comply with these regulations.

Updates and notices regarding ADA/Section 504 compliance are made through the CDBG Bulletin.

The state's review of all information gathered through monitoring visits indicates that grantee CDBG programs are being administered in a manner, which does not deny any benefit or employment on the grounds of race, age, sex, national origin and disability.

States Actions to Affirmatively Further Fair Housing

The Nebraska Department of Economic Development continues to require its grantees to specifically address, as a special contract condition prior to Release of Funds, what actions they will take to affirmatively further fair housing. Grantees are provided a list of suggested items, and the need to take affirmative action regarding fair housing is covered during annual grantee training. Additional resources such as informational pamphlets, model fair housing ordinances and resolutions, posting materials and the HUD Housing Discrimination Complaint form are also provided to each grantee.

As a result of the above effort, a substantial number of communities adopted the model fair housing ordinance during 1995.

Section 3

The state has formulated a Section 3 plan. This plan was funded from HUD SuperNofa funds. The plan establishes a statewide effort that will ensure that, to the greatest extent feasible, that HUD-funded projects provide contracting and employment opportunities for low-income people. Implementation efforts continue to actualize this plan.

State's Actions to Increase WBE/MBE Participation

The state continues to increase minority and women business participation in the CDBG/HOME and other program. All grantees are trained in the importance of increasing small business participation, with an emphasis on HUBS, in our programs.

The state has the HUB (Historically Underutilized Businesses) Directory, for use by grantees. This directory is made available to all grantees and other businesses throughout the state.

PART I - FINANCIAL STATUS AND NATIONAL OBJECTIVES

GRANT NO: B-01-DC-31-0001

REPORTING PERIOD

Data as of: June 30, 2020

07/01/2001 - 06/30/2002

1. FINANCIAL STATUS

A. Total Funds	\$15,854,598.00
<i>Allocation</i>	\$15,457,000.00
<i>Program Income</i>	\$397,598.00
B. Amount Obligated To Recipients (Total)	\$14,893,290.00
C. Amount Drawn Down	\$15,457,000.00
D. Amount For State Administration	\$409,140.00
E. Amount For Technical Assistance	\$154,570.00

2. NATIONAL OBJECTIVE

A. Period Specified For Benefit	2001 - 2003
B. Amounts Used To:	
1. Benefit To Low/Moderate Income Persons	\$14,315,745.00
2. Prevent/Eliminate Slums/Blight	\$167,620.00
3. Meet Urgent Community Development Needs	\$0.00
4. Acquisition/Rehabilitation Noncountable	\$0.00
5. Local Administration	\$409,925.00

Part II: Relationship of the Use of Funds to the State's Objectives

The primary objective of the State of Nebraska's 2001 CDBG program was the same as the primary (overall) national objective established in Section 101(c) of the Housing and Urban Development Act of 1974, as amended.

During the 2001 program year, the Nebraska Department of Economic Development awarded 92 grants in the amount of approximately \$18.85 million. Four funding categories - Community Development, Economic Development, Housing Rehabilitation and Planning - were established for the distribution of the 2001 Program Year awards.

Community Development Category: The primary state objective for this category is to fund basic needs in public works/facilities that are essential to the development of the state's communities and counties. Water/wastewater grants were added as a priority in 1997. Eighteen (18) grants were awarded for approximately \$4.158 million. Of this amount, approximately \$2.158 million was awarded for ten (10) public works projects and \$2 million was awarded for eight (8) water/wastewater projects.

Economic Development Category: There are two primary state objectives for this category. One is to support businesses, which expand the state's economic base and create quality jobs for persons in the low-and moderate-income levels. The second primary objective is to invest in communities, which support businesses and its citizens in entrepreneurial opportunities and continual education/training to foster quality lifestyles/communities. Local governments receive grants to provide appropriate assistance to businesses through working capital and fixed asset loans, loan guarantees, equity investments, job training, or public works grants. Financial assistance to local governments is awarded to diversify the state's economy while leveraging private sector investment, and providing jobs of which at least 51% should be available to low/moderate income persons. Twenty-nine (29) Economic Development grants totaling approximately \$8.3 million were awarded. Six (6) Tourism Development grants were awarded for approximately \$0.368 million.

Housing Rehabilitation Category: The primary state objective of this category is to invest in rehabilitation of existing housing for low and moderate income homeowners using regional and community-level service delivery system. Seventeen (17) grants were awarded for approximately \$5.687 million.

Planning Category: The primary objective is to provide communities the opportunity to solve problems and meet citizens' needs through a community planning process that assesses community needs, develop options for meeting those needs, and package work plans or carry out processes that lead to successful projects. In total, twenty-two (22) grants were awarded for approximately \$0.337 million.

Summary of Citizens' Comments

A summary of the citizen comments and DED's responses are included in Section One of the report.

Evaluation of Extent of Low and Moderate Income Benefit

Evaluation of benefit to low and moderate income persons is contained in the summary information on grantees as a part of this report. Of the \$18,851,974 which had been obligated to projects during the 2001 program year, \$18,230,379 or 97% of the funds were used to benefit low and moderate income persons.

Updated Evaluation of Extent of Low and Moderate Income Benefit from 2019 APR

Evaluation of benefit to low and moderate income persons is contained in the summary information on grantees as a part of this report. A total of \$14,893,290 was obligated to projects (excludes state and grantee administration and technical assistance) from the 2001 allocation, 96.12% of these funds were used to benefit low and moderate income persons. See Part I.

Explanation of Nature and Reasons for Changes in Program Objectives

There were no changes in program objectives.

Changes as Results of Experience

No changes were made to the program during the 2001 program year.

Summary of Technical Assistance Funding

The State of Nebraska uses its CDBG Technical Assistance funding to produce the Certified CDBG Administrator Training Workshops. As of March 1, 1996, the State of Nebraska requires the formal certification of all persons administering Community Development Block Grant (CDBG) projects in Nebraska. These workshops are conducted twice a year by the Community and Rural Development Division of DED and are scheduled to coincide with CDBG funding cycles. Anyone seeking the certified administrator designation must complete and pass the written exam. CDBG TA funds went towards conducting Environmental Review Training for local officials and Certified Administrators. The Community and Rural Development Division staff conducts the environmental training. 2001 CDBG technical assistance (TA) funds were also used in other projects during the program year.

CDBG TA funds went towards the support of the Nebraska Chapter of the American Planning Association (APA), training for local planning officials. Approximately \$7,500 was used to support scholarships for attendees and for training costs not covered by registrations at the Nebraska Chapter APA Institutes in March 2002. CDBG TA funds also went towards the support of the Nebraska Municipal Clerks' Association, "Clerks' Certification School." The school provides the education necessary for municipal clerks to become certified by the International Institution of Municipal Clerks. Approximately \$5,000 was used to help provide scholarships for clerks to attend the training. The training enables clerks to become more professional and efficient in their jobs.

Part III: Civil Rights Summary

State's Review of Civil Rights

All grantees receive training in the civil rights rules and regulations during training sessions. Training sessions are reinforced with notices and updates through the CDBG Bulletin, which is published on an as needed basis.

Each grantee's program eligibility criteria are reviewed to determine whether the criteria or methods of administration may have the effect of subjecting individuals to discrimination on the basis of race, color, age, sex, national origin or disability.

Comparisons are made between recent census data regarding those protected classes and the percentages of those protected classes participating and receiving benefits from CDBG funds.

All grantees are required to maintain, on an ongoing basis, and on file permanently, numerical and percentage documentation and information regarding the following:

1. Total beneficiaries in project
2. Total numbers of males/females.
3. Actual number of Whites, Blacks, Hispanics, Asians, Native Americans, and others.
4. Percentages of males, females, minorities, female heads of household, disabled population, and low to moderate income persons receiving benefits from the project funds.

Program representatives are required to consider this information, compared with census data, and determine if there is any indication any person and/or group of persons were denied benefits or employment on the grounds of race, age, sex, or disability.

In addition, the state reviews the grantee's compliance with Section 504 and the Americans with Disabilities Act. Grantees must have conducted a self-evaluation of their facilities and their programs as they relate to the ADA/Section 504 compliance. In addition, the grantee must have on file, and available for review, a transition plan. The grantee must provide evidence that they are complying or making attempts to comply with these regulations.

Updates and notices regarding ADA/Section 504 compliance are made through the CDBG Bulletin.

The state's review of all information gathered through monitoring visits indicates that grantee CDBG programs are being administered in a manner, which does not deny any benefit or employment on the grounds of race, age, sex, national origin and disability.

States Actions to Affirmatively Further Fair Housing

The Nebraska Department of Economic Development continues to require its grantees to specifically address, as a special contract condition prior to Release of Funds, what actions they will take to affirmatively further fair housing. Grantees are provided a list of suggested items, and the need to take affirmative action regarding fair housing is covered during annual grantee training. Additional resources such as informational pamphlets, model fair housing ordinances and resolutions, posting materials and

the HUD Housing Discrimination Complaint form are also provided to each grantee.

As a result of the above effort, a substantial number of communities adopted the model fair housing ordinance during 1995.

Section 3

The state has formulated a Section 3 plan. This plan was funded from HUD SuperNofa funds. The plan establishes a statewide effort that will ensure that, to the greatest extent feasible, that HUD-funded projects provide contracting and employment opportunities for low-income people. Implementation efforts continue to actualize this plan.

State's Actions to Increase WBE/MBE Participation

The state continues to increase minority and women business participation in the CDBG/HOME and other program. All grantees are trained in the importance of increasing small business participation, with an emphasis on HUBS, in our programs.

The state has the HUB (Historically Underutilized Businesses) Directory, for use by grantees. This directory is made available to all grantees and other businesses throughout the state.

PART I - FINANCIAL STATUS AND NATIONAL OBJECTIVES

GRANT NO: B-02-DC-31-0001

REPORTING PERIOD

Data as of: June 30, 2020

07/01/2002 - 06/30/2003

1. FINANCIAL STATUS

A. Total Funds	\$15,263,080.00
<i>Allocation</i>	\$15,117,000.00
<i>Program Income</i>	\$146,080.00
B. Amount Obligated To Recipients (Total)	\$14,563,490.00
C. Amount Drawn Down	\$15,117,000.00
D. Amount For State Administration	\$402,340.00
E. Amount For Technical Assistance	\$151,170.00

2. NATIONAL OBJECTIVE

A. Period Specified For Benefit	2001 - 2003
B. Amounts Used To:	
1. Benefit To Low/Moderate Income Persons	\$14,039,391.00
2. Prevent/Eliminate Slums/Blight	\$72,800.00
3. Meet Urgent Community Development Needs	\$0.00
4. Acquisition/Rehabilitation Noncountable	\$0.00
5. Local Administration	\$451,299.00

Part II: Relationship of the Use of Funds to the State's Objectives

The primary objective of the State of Nebraska's 2002 CDBG program was the same as the primary (overall) national objective established in Section 101(c) of the Housing and Urban Development Act of 1974, as amended.

During the 2002 program year, the Nebraska Department of Economic Development awarded 85 grants in the amount of approximately \$16.71 million. Four funding categories – Community Development, Economic Development, Housing Rehabilitation and Planning – were established for the distribution of the 2002 Program Year awards.

Community Development Category: The primary state objective for this category is to fund basic needs in public works/facilities that are essential to the development of the state's communities and counties. Water/wastewater grants were added as a priority in 1997. Twenty-four (24) grants were awarded for approximately \$4.81 million. Of this amount, approximately \$3.67 million was awarded for nineteen (19) public works projects and \$1.14 million was awarded for five (5) water/wastewater projects. One (1) Tourism Development grants were awarded for approximately \$0.15 million.

Economic Development Category: There are two primary state objectives for this category. One is to support businesses, which expand the state's economic base and create quality jobs for persons in the low- and moderate-income levels. The second primary objective is to invest in communities, which support businesses and its citizens in entrepreneurial opportunities and continual education/training to foster quality lifestyles/communities. Local governments receive grants to provide appropriate assistance to businesses through working capital and fixed asset loans, loan guarantees, equity investments, job training, or public works grants. Financial assistance to local governments is awarded to diversify the state's economy while leveraging private sector investment, and providing jobs of which at least 51% should be available to low/moderate income persons. Twenty-three (23) Economic Development grants totaling approximately \$8.54 million were awarded.

Housing Rehabilitation Category: The primary state objective of this category is to invest in rehabilitation of existing housing for low and moderate income homeowners using regional and community level service delivery system. Twelve (12) grants were awarded for approximately \$2.78 million.

Planning Category: The primary objective is to provide communities the opportunity to solve problems and meet citizens needs through a community planning process that assesses community needs, develop options for meeting those needs, and package work plans or carry out processes that lead to successful projects. In total, twenty-five (25) grants were awarded for approximately \$4.3 million.

Summary of Citizens' Comments

A summary of the citizen comments and DED's responses are included in Section One of the report.

Evaluation of Extent of Low and Moderate Income Benefit

Evaluation of benefit to low and moderate income persons is contained in the summary information on grantees as a part of this report. Of the \$16,709,668 which had been obligated to projects during the 2002 program year \$420,750 went to the grantees as local administration. Of the \$16,288,918 that went to project activities \$16,261,718 was used to benefit low and moderate income persons or 99%. Of the total amount that was obligated 97% was used to benefit low and moderate income.

Updated Evaluation of Extent of Low and Moderate Income Benefit from 2019 APR

Evaluation of benefit to low and moderate income persons is contained in the summary information on grantees as a part of this report. A total of \$14,563,490 was obligated to projects (excludes state and grantee administration and technical assistance) from the 2002 allocation, 96.40% of these funds were used to benefit low and moderate income persons. See Part I.

Explanation of Nature and Reasons for Changes in Program Objectives

There were no changes in program objectives.

Changes as Results of Experience

No changes were made to the program during the 2002 program year.

Summary of Technical Assistance Funding

The State of Nebraska uses its CDBG Technical Assistance funding to produce the Certified CDBG Administrator Training Workshops. As of March 1, 1996, the State of Nebraska requires the formal certification of all persons administering Community Development Block Grant (CDBG) projects in Nebraska. These workshops are conducted twice a year by the Community and Rural Development Division of DED and are scheduled to coincide with CDBG funding cycles. Anyone seeking the certified administrator designation must complete and pass the written exam. CDBG TA funds went towards conducting Environmental Review Training for local officials and Certified Administrators. The Community and Rural Development Division staff conducts the environmental training.

2002 CDBG technical assistance (TA) funds were also used in other projects during the program year.

CDBG TA funds went towards the support of the Nebraska Chapter of the American Planning Association (APA), training for local planning officials. Approximately \$7,500 was used to support scholarships for attendees and for training costs not covered by registrations at the Nebraska Chapter APA Institutes in March 2003.

CDBG TA funds also went towards the support of the Nebraska Municipal Clerks' Association, "Clerks' Certification School." The school provides the education necessary for municipal clerks to become certified by the International Institution of Municipal Clerks. Approximately \$5,000 was used to help provide scholarships for clerks to attend the training. The training enables clerks to become more professional and efficient in their jobs.

Part III: Civil Rights Summary

State's Review of Civil Rights

All grantees receive training in the civil rights rules and regulations during training sessions. Training sessions are reinforced with notices and updates through the CDBG Bulletin, which is published on an as-needed basis.

Each grantee's program eligibility criteria are reviewed to determine whether the criteria or methods of administration may have the effect of subjecting individuals to discrimination on the basis of race, color, age, sex, national origin or disability.

Comparisons are made between recent census data regarding those protected classes and the percentages of those protected classes participating and receiving benefits from CDBG funds.

All grantees are required to maintain, on an ongoing basis, and on file permanently, numerical and percentage documentation and information regarding the following:

1. Total beneficiaries in project.
2. Total numbers of males/females.
3. Actual number of whites, blacks, Hispanics, Asians, Native Americans and others.
4. Percentages of males, females, minorities, female heads of household, disabled population, and low to moderate income persons receiving benefits from the project funds.

Program representatives are required to consider this information, compared with census data, and determine if there is any indication any person and/or group of persons were denied benefits or employment on the grounds of race, age, sex or disability.

In addition, the state review the grantee's compliance with Section 504 and the Americans with Disabilities Act. Grantees must have conducted a self evaluation of their facilities and their programs as they relate to the ADA/Section 504 compliance. In addition, the grantee must have on file, and available for review, a transition plan. The grantee must provide evidence that they are complying or making attempts to comply with these regulations.

Updates and notices regarding ADA/Section 504 compliance are made through the CDBG Bulletin.

The states review of all information gathered through monitoring visits indicates that grantee CDBG programs are being administered in a manner which does not deny any benefit or employment on the grounds of race, age, sex, national origin and disability.

State's Actions to Affirmatively Further Fair Housing

The Nebraska Department of Economic Development continues to require its grantees to specifically address, as a special contract condition prior to Release of Funds, what actions they will take to affirmatively further fair housing. Grantees are provided a list of suggested items, and the need to take affirmative action regarding fair housing is covered during annual grantee training. Additional resources such as informational pamphlets, model fair housing ordinances and resolutions, posting materials and the HUD Housing Discrimination Complaint form are also provided to each grantee.

As a result of the above effort, a substantial number of communities adopted the model fair housing ordinance during 1995.

Section 3

The state has formulated a Section 3 Plan. This plan was funded from HUD SuperNofa funds. The plan establishes a statewide effort that will ensure that, to the greatest extent feasible, that HUD-funded projects provide contracting and employment opportunities for low-income people. Implementation efforts continue to actualize this plan.

State's Actions to Increase WBE/MBE Participation

The state continues to increase minority and women business participation in the CDBG/HOME and other program. All grantees are trained in the importance of increasing small business participation, with an emphasis on HUBS, in our programs.

The state has the HUB (Historically Underutilized Businesses) Directory, for use by grantees. This directory is made available to all grantees and other businesses throughout the state.

PART I - FINANCIAL STATUS AND NATIONAL OBJECTIVES

GRANT NO: B-03-DC-31-0001

REPORTING PERIOD

Data as of: June 30, 2020

07/01/2003 - 06/30/2004

1. FINANCIAL STATUS

A. Total Funds	\$14,338,871.00
<i>Allocation</i>	\$14,172,000.00
<i>Program Income</i>	\$166,871.00
B. Amount Obligated To Recipients (Total)	\$13,646,840.00
C. Amount Drawn Down	\$14,172,000.00
D. Amount For State Administration	\$383,440.00
E. Amount For Technical Assistance	\$141,720.00

2. NATIONAL OBJECTIVE

A. Period Specified For Benefit	2001 - 2003
B. Amounts Used To:	
1. Benefit To Low/Moderate Income Persons	\$13,104,059.00
2. Prevent/Eliminate Slums/Blight	\$43,513.00
3. Meet Urgent Community Development Needs	\$0.00
4. Acquisition/Rehabilitation Noncountable	\$0.00
5. Local Administration	\$499,268.00

Part II: Relationship of the Use of Funds to the State's Objectives

The primary objective of the State of Nebraska's 2003 CDBG program was the same as the primary (overall) national objective established in Section 101(c) of the Housing and Urban Development Act of 1974, as amended.

During the 2003 program year, the Nebraska Department of Economic Development awarded 84 grants in the amount of approximately \$13.58 million. Four funding categories – Community Development, Economic Development, Housing Rehabilitation and Planning – were established for the distribution of the 2003 Program Year awards.

Community Development Category: The primary state objective for this category is to fund basic needs in public works/facilities that are essential to the development of the state's communities and counties. Water/wastewater grants were added as a priority in 1997. Thirty one (31) grants were awarded for approximately \$6.6 million. Of this amount, approximately \$3.76 million was awarded for sixteen (16) public works projects and \$2.51 million was awarded for eleven (11) water/wastewater projects. Four (4) Tourism Development grants were awarded for \$.33 million.

Economic Development Category: There are two primary state objectives for this category. One is to support businesses, which expand the state's economic base and create quality jobs for persons in the low- and moderate-income levels. The second primary objective is to invest in communities, which support businesses and its citizens in entrepreneurial opportunities and continual education/training to foster quality lifestyles/communities. Local governments receive grants to provide appropriate assistance to businesses through working capital and fixed asset loans, loan guarantees, equity investments, job training, or public works grants. Financial assistance to local governments is awarded to diversify the state's economy while leveraging private sector investment, and providing jobs of which at least 51% should be available to low/moderate income persons. Fifteen (15) Economic Development grants totaling approximately \$5.07 million were awarded.

Housing Rehabilitation and Down payment Assistance Category: The primary state objective of this category is to invest in rehabilitation of existing housing for low and moderate income homeowners using regional and community level service delivery system. Objectives for down payment assistance were included in this category as well in the 2003 program year. Seven (7) grants were awarded for approximately \$1.37 million.

Planning Category: The primary objective is to provide communities the opportunity to solve problems and meet citizens needs through a community planning process that assesses community needs, develop options for meeting those needs, and package work plans or carry out processes that lead to successful projects. In total, thirty-one (31) grants were awarded for approximately \$.54 million.

Summary of Citizens' Comments

A summary of the citizen comments and DED's responses are included in Section One of the report.

Evaluation of Extent of Low and Moderate Income Benefit

Evaluation of benefit to low and moderate income persons is contained in the summary information on grantees as a part of this report. Of the \$13,598,631 which had been obligated to projects during the 2003 program year \$594,156 went to the grantees as local administration. Of the \$13,004,475 that went to project activities \$12,973,093 was used to benefit low and moderate-income persons or 99.7%. Of the total amount that was obligated 59.07% was used to benefit low and moderate income.

Updated Evaluation of Extent of Low and Moderate Income Benefit from 2019 APR

Evaluation of benefit to low and moderate income persons is contained in the summary information on grantees as a part of this report. A total of \$13,646,840 was obligated to projects (excludes state and grantee administration and technical assistance) from the 2003 allocation (including program income), 96.02% of these funds were used to benefit low and moderate income persons. See Part I.

Explanation of Nature and Reasons for Changes in Program Objectives

There were no changes in program objectives.

Changes as Results of Experience

No changes were made to the program during the 2003 program year.

Summary of Technical Assistance Funding

The State of Nebraska uses its CDBG Technical Assistance funding to produce the Certified CDBG Administrator Training Workshops. As of March 1, 1996, the State of Nebraska requires the formal certification of all persons administering Community Development Block Grant (CDBG) projects in Nebraska. These workshops are conducted twice a year by the Community and Rural Development Division of DED and are scheduled to coincide with CDBG funding cycles. Anyone seeking the certified administrator designation must complete and pass the written exam. CDBG TA funds went towards conducting Environmental Review Training, Labor Standards, and Compliance Monitoring for local officials and Certified Administrators. The Community and Rural Development Division staff conducts the environmental training.

2003 CDBG technical assistance (TA) funds were also used in other projects during the program year.

CDBG TA funds went towards the support of the Nebraska Chapter of the American Planning Association (APA), training for local planning officials. Approximately \$7,500 was used to support scholarships for attendees and for training costs not covered by registrations at the Nebraska Chapter APA Institutes in March 2004.

CDBG TA funds also went towards the support of the Nebraska Municipal Clerks' Association, "Clerks' Certification School." The school provides the education necessary for municipal clerks to become certified by the International Institution of Municipal Clerks. Approximately \$5,000 was used to help provide scholarships for clerks to attend the training. The training enables clerks to become more professional and efficient in their jobs.

Part III: Civil Rights Summary

State's Review of Civil Rights

All grantees receive training in the civil rights rules and regulations during training sessions. Training sessions are reinforced with notices and updates through the CDBG Bulletin, which is published on an as-needed basis.

Each grantee's program eligibility criteria are reviewed to determine whether the criteria or methods of administration may have the effect of subjecting individuals to discrimination on the basis of race, color, age, sex, national origin or disability.

Comparisons are made between recent census data regarding those protected classes and the percentages of those protected classes participating and receiving benefits from CDBG funds.

All grantees are required to maintain, on an ongoing basis, and on file permanently, numerical and percentage documentation and information regarding the following:

1. Total beneficiaries in project.
2. Total numbers of males/females.
3. Actual number of whites, blacks, Hispanics, Asians, Native Americans and others.
4. Percentages of males, females, minorities, female heads of household, disabled population, and low to moderate income persons receiving benefits from the project funds.

Program representatives are required to consider this information, compared with census data, and determine if there is any indication any person and/or group of persons were denied benefits or employment on the grounds of race, age, sex or disability.

In addition, the state review the grantee's compliance with Section 504 and the Americans with Disabilities Act. Grantees must have conducted a self evaluation of their facilities and their programs as they relate to the ADA/Section 504 compliance. In addition, the grantee must have on file, and available for review, a transition plan. The grantee must provide evidence that they are complying or making attempts to comply with these regulations.

Updates and notices regarding ADA/Section 504 compliance are made through the CDBG Bulletin.

The states review of all information gathered through monitoring visits indicates that grantee CDBG programs are being administered in a manner which does not deny any benefit or employment on the grounds of race, age, sex, national origin and disability.

State's Actions to Affirmatively Further Fair Housing

The Nebraska Department of Economic Development continues to require its grantees to specifically address, as a special contract condition prior to Release of Funds, what actions they will take to affirmatively further fair housing. Grantees are provided a list of suggested items, and the need to take affirmative action regarding fair housing is covered during annual grantee training. Additional resources such as informational pamphlets, model fair housing ordinances

and resolutions, posting materials and the HUD Housing Discrimination Complaint form are also provided to each grantee.

As a result of the above effort, a substantial number of communities adopted the model fair housing ordinance during 1995.

Section 3

The state has formulated a Section 3 Plan. This plan was funded from HUD SuperNofa funds. The plan establishes a statewide effort that will ensure that, to the greatest extent feasible, that HUD-funded projects provide contracting and employment opportunities for low-income people. Implementation efforts continue to actualize this plan.

State's Actions to Increase WBE/MBE Participation

The state continues to increase minority and women business participation in the CDBG/HOME and other program. All grantees are trained in the importance of increasing small business participation, with an emphasis on HUBS, in our programs.

The state has the HUB (Historically Underutilized Businesses) Directory, for use by grantees. This directory is made available to all grantees and other businesses throughout the state.

Nebraska CDBG Performance Evaluation Report:

Grant No: B-04-DC-31-0001

- PART I:
 - *Financial Status*
 - *National Objectives*
 - *Grant Activities Summary*

- PART II:
 - *Assessment of Relationships of Use of Funds to State Objectives*

- PART III:
 - *Civil Rights Data for Program Applicants & Beneficiaries*

PART I - FINANCIAL STATUS AND NATIONAL OBJECTIVES

GRANT NO: B-04-DC-31-0001

REPORTING PERIOD

Data as of: June 30, 2020

07/01/2004 - 06/30/2005

1. FINANCIAL STATUS

A. Total Funds	\$14,827,996.35
<i>Allocation</i>	\$14,434,170.00
<i>Program Income</i>	\$393,826.35
B. Amount Obligated To Recipients (Total)	\$13,901,146.00
C. Amount Drawn Down	\$14,434,170.00
D. Amount For State Administration	\$388,683.00
E. Amount For Technical Assistance	\$144,341.00

2. NATIONAL OBJECTIVE

A. Period Specified For Benefit	2004 - 2006
B. Amounts Used To:	
1. Benefit To Low/Moderate Income Persons	\$12,875,992.00
2. Prevent/Eliminate Slums/Blight	\$517,500.00
3. Meet Urgent Community Development Needs	\$0.00
4. Acquisition/Rehabilitation Noncountable	\$0.00
5. Local Administration	\$507,654.00

Part II: Relationship of the Use of Funds to the State's Objectives

The primary objective of the State of Nebraska's 2004 CDBG program was the same as the primary (overall) national objective established in Section 101(c) of the Housing and Urban Development Act of 1974, as amended.

During the 2004 program year, the Nebraska Department of Economic Development awarded 90 grants in the amount of approximately \$16.37 million. Four funding categories – Community Development, Economic Development, Housing Rehabilitation and Planning – were established for the distribution of the 2004 Program Year awards.

Community Development Category: The primary state objective for this category is to fund basic needs in public works/facilities that are essential to the development of the state's communities and counties. Water/wastewater grants were added as a priority in 1997. Twenty-six (26) grants were awarded for approximately \$5.61 million. Of this amount, approximately \$3.46 million was awarded for 13 public works projects and \$2.15 million was awarded for 13 water/wastewater projects. Two (2) Tourism Development grants were awarded with \$263,000.

Economic Development Category: There are two primary state objectives for this category. One is to support businesses, which expand the state's economic base and create quality jobs for persons in the low- and moderate-income levels. The second primary objective is to invest in communities, which support businesses and its citizens in entrepreneurial opportunities and continual education/training to foster quality lifestyles/communities. Local governments receive grants to provide appropriate assistance to businesses through working capital and fixed asset loans, loan guarantees, equity investments, job training, or public works grants. Financial assistance to local governments is awarded to diversify the state's economy while leveraging private sector investment, and providing jobs of which at least 51% should be available to low/moderate income persons. Twenty-two (22) Economic Development grants totaling approximately \$7.89 million were awarded.

Housing Rehabilitation and Down payment Assistance Category: The primary state objective of this category is to invest in rehabilitation of existing housing for low and moderate income homeowners using regional and community level service delivery system. Objectives for down payment assistance were included in this category as well in the 2004 program year. Twelve (12) grants were awarded for approximately \$2.07 million.

Planning Category: The primary objective is to provide communities the opportunity to solve problems and meet citizens' needs through a community planning process that assesses community needs, develops options for meeting those needs, and packages work plans or carry out processes that lead to successful projects. In total, 28 grants were awarded with \$533,380.

Summary of Citizens' Comments

A summary of the citizen comments and DED's responses are included in Section One of the report.

Evaluation of Extent of Low and Moderate Income Benefit

Evaluation of benefit to low-and-moderate income persons is contained in the summary information on grantees as a part of this report. Of the \$10,293,608, which had been obligated to projects during the 2004 program year \$371,876 went to the grantees as local administration. Of the \$9,921,732 that went

to project activities \$9,414,232 was used to benefit low and moderate-income persons or 94.88%. Of the total amount that was obligated 66.9% was used to benefit low and moderate income.

Updated Evaluation of Extent of Low and Moderate Income Benefit from 2019 APR

Evaluation of benefit to low and moderate income persons is contained in the summary information on grantees as a part of this report. A total of \$13,901,146 was obligated to projects (excludes state and grantee administration and technical assistance) from the 2004 allocation, 92.63% of these funds were used to benefit low and moderate income persons. See Part I.

Explanation of Nature and Reasons for Changes in Program Objectives

There were no changes in program objectives.

Changes as Results of Experience

No changes were made to the program during the 2004 program year.

Summary of Technical Assistance Funding

The State of Nebraska uses its CDBG Technical Assistance funding to produce the Certified CDBG Administrator Training Workshops. As of March 1, 1996, the State of Nebraska requires the formal certification of all persons administering Community Development Block Grant (CDBG) projects in Nebraska. These workshops are conducted twice a year by the Community and Rural Development Division of DED and are scheduled to coincide with CDBG funding cycles. Anyone seeking the certified administrator designation must complete and pass the written exam. CDBG TA funds went towards conducting Environmental Review Training, Labor Standards, and Compliance Monitoring for local officials and Certified Administrators. The Community and Rural Development Division staff conducts the environmental training.

2004 CDBG technical assistance (TA) funds were also used in other projects during the program year.

CDBG TA funds went towards the support of the Nebraska Chapter of the American Planning Association (APA), training for local planning officials. Approximately \$7500 was used to support scholarships for attendees and for training costs not covered by registrations at the Nebraska Chapter APA Institutes in March 2004.

CDBG TA funds were distributed towards the support of the Nebraska Municipal Clerks' Association, "Clerks' Certification School." The school provides the education necessary for municipal clerks to become certified by the International Institution of Municipal Clerks. Approximately \$10,000 was used to help provide scholarships for clerks to attend the training. The training enables clerks to become more professional and efficient in their jobs.

CDBG TA funds were also used towards the support of the Nebraska Community Improvement Program, training youth for entrepreneurship and leadership development. Approximately \$7,000 were used to support scholarships for attendees and for training costs not covered by registrations at the 2004 Annual Conference held in Lincoln, Nebraska on November 11, 2004.

CDBG TA funds were distributed to the Nebraska Housing Developers Association to assist with costs associated with training costs not covered by registrations for housing development non-profit organizations and local governments at the Annual Housing Conference held in Kearney, Nebraska in August, 2004.

Part III: Civil Rights Summary

State's Review of Civil Rights

All grantees receive training in the civil rights rules and regulations during training sessions. Training sessions are reinforced with notices and updates through the CDBG Bulletin, which is published on an as-needed basis.

Each grantee's program eligibility criteria are reviewed to determine whether the criteria or methods of administration may have the effect of subjecting individuals to discrimination on the basis of race, color, age, sex, national origin or disability.

Comparisons are made between recent census data regarding those protected classes and the percentages of those protected classes participating and receiving benefits from CDBG funds.

All grantees are required to maintain, on an ongoing basis, and on file permanently, numerical and percentage documentation and information regarding the following:

1. Total beneficiaries in project.
2. Total numbers of males/females.
3. Actual number of whites, blacks, Hispanics, Asians, Native Americans and others.
4. Percentages of males, females, minorities, female heads of household, disabled population, and low to moderate income persons receiving benefits from the project funds.

Program representatives are required to consider this information, compared with census data, and determine if there is any indication any person and/or group of persons were denied benefits or employment on the grounds of race, age, sex or disability.

In addition, the state reviews the grantee's compliance with Section 504 and the Americans with Disabilities Act. Grantees must have conducted a self evaluation of their facilities and their programs as they relate to the ADA/Section 504 compliance. In addition, the grantee must have on file, and available for review, a transition plan. The grantee must provide evidence that they are complying or making attempts to comply with these regulations.

Updates and notices regarding ADA/Section 504 compliance are made through the CDBG Bulletin.

The states review of all information gathered through monitoring visits indicates that grantee CDBG programs are being administered in a manner which does not deny any benefit or employment on the grounds of race, age, sex, national origin and disability.

State's Actions to Affirmatively Further Fair Housing

The Nebraska Department of Economic Development continues to require its grantees to specifically address, as a special contract condition prior to Release of Funds, what actions they will take to affirmatively further fair housing. Grantees are provided a list of suggested items, and the need to take affirmative action regarding fair housing is covered during annual grantee training. Additional resources

such as informational pamphlets, model fair housing ordinances and resolutions, posting materials and the HUD Housing Discrimination Complaint form are also provided to each grantee.

As a result of the above effort, a substantial number of communities adopted the model fair housing ordinance during 1995.

Section 3

The state has formulated a Section 3 Plan. This plan was funded from HUD SuperNofa funds. The plan establishes a statewide effort that will ensure that, to the greatest extent feasible, that HUD-funded projects provide contracting and employment opportunities for low-income people. Implementation efforts continue to actualize this plan.

State's Actions to Increase WBE/MBE Participation

The state continues to increase minority and women business participation in the CDBG/HOME and other program. All grantees are trained in the importance of increasing small business participation, with an emphasis on HUBS, in our programs.

The state has the HUB (Historically Underutilized Businesses) Directory, for use by grantees. This directory is made available to all grantees and other businesses throughout the state.

Nebraska CDBG Performance Evaluation Report:

Grant No: B-05-DC-31-0001

- PART I:
 - *Financial Status*
 - *National Objectives*
 - *Grant Activities Summary*

- PART II:
 - *Assessment of Relationships of Use of Funds to State Objectives*

- PART III:
 - *Civil Rights Data for Program Applicants & Beneficiaries*

PART I - FINANCIAL STATUS AND NATIONAL OBJECTIVES

GRANT NO: B-05-DC-31-0001

REPORTING PERIOD

Data as of: June 30, 2020

07/01/2005 - 06/30/2006

1. FINANCIAL STATUS

A. Total Funds	\$14,163,395.60
<i>Allocation</i>	\$13,716,048.00
<i>Program Income</i>	\$447,347.60
B. Amount Obligated To Recipients (Total)	\$13,204,567.00
C. Amount Drawn Down	\$13,716,048.00
D. Amount For State Administration	\$374,321.00
E. Amount For Technical Assistance	\$137,160.00

2. NATIONAL OBJECTIVE

A. Period Specified For Benefit	2004 - 2006
B. Amounts Used To:	
1. Benefit To Low/Moderate Income Persons	\$12,588,192.00
2. Prevent/Eliminate Slums/Blight	\$37,021.00
3. Meet Urgent Community Development Needs	\$0.00
4. Acquisition/Rehabilitation Noncountable	\$0.00
5. Local Administration	\$579,354.00

Part II: Relationship of the Use of Funds to the State's Objectives

“The primary national CDBG objective is to develop viable urban communities by providing decent housing, suitable living environments, and expanding economic opportunities, principally for low- and moderate-income persons (LMI).” The State of Nebraska’s 2005 CDBG program furthered this national objective through investing in quality communities and quality projects designed to meet the objectives for three priorities: Housing, Community Development, and Economic Development.

During the 2005 program year, the Nebraska Department of Economic Development awarded 92 grants in the amount of approximately \$15.9 million. Three funding categories – Community Development, Economic Development, and Housing – were established for the distribution of the 2005 Program Year awards.

Community Development Category: The primary state objective for this category is to strengthen Nebraska communities through community development programs and services, which provide a stable platform for economic development. Water/wastewater grants were added as a priority in 1997. Forty-One (41) grants were awarded for approximately \$7.4 million. Of this amount, approximately \$3 million was awarded for twelve (12) public works projects. Approximately \$2.6 million was awarded for twelve (12) water/wastewater projects. Three (3) Tourism Development grants were awarded with \$339,500 and fourteen (14) Community Revitalization Grants were awarded with approximately \$1.4 million.

Economic Development Category: The primary state objective for this category is to foster the competitiveness of Nebraska’s business and industrial sector—and as a result—assist in the economic development of Nebraska’s communities and people. Local governments receive grants to provide appropriate assistance to businesses through working capital and fixed asset loans, loan guarantees, equity investments, job training, or public works grants. Financial assistance to local governments is awarded to diversify the state's economy while leveraging private sector investment, and providing jobs of which at least 51% should be available to low/moderate income persons. Eighteen (18) Economic Development grants totaling approximately \$5.9 million were awarded.

Housing Category: The primary state objective of this category is to respond to regional needs for affordable, decent, safe and appropriate housing as part of balanced economic development in Nebraska. The state invests in rehabilitation of existing housing for low and moderate-income homeowners using regional and community level service delivery system. Nine (9) grants were awarded for approximately \$2 million.

Planning Category: The primary objective is to provide communities the opportunity to solve problems and meet citizens’ needs through a community planning process that assesses community needs, develops options for meeting those needs, and packages work plans, or carry out processes that lead to successful projects. In total, twenty-four (24) grants were awarded with \$443,688.

Summary of Citizens' Comments

As described in Section One of the report, there were no citizens' comments during the 2005 Consolidated Annual Performance Report's public comment period.

Evaluation of Extent of Low and Moderate Income Benefit

Evaluation of benefit to low-and-moderate income persons is contained in the summary information on grantees as a part of this report. Of the \$10,633,990, which had been obligated to projects during the 2005 program year, \$455,400 went to the grantees as local administration. Of the \$10,178,596 that went to project activities, \$10,133,506 was used to benefit low and moderate-income persons or 95.29%. Of the total amount that was obligated to projects during the 2005 year, 75.99% was used to benefit low and moderate-income persons.

Updated Evaluation of Extent of Low and Moderate Income Benefit - 2019 APR

Evaluation of benefit to low and moderate income persons is contained in the summary information on grantees as a part of this report. A total of \$13,204,567 was obligated to projects (excludes state and grantee administration and technical assistance) from the 2005 allocation, 95.33% of these funds were used to benefit low and moderate income persons. See Part I.

Explanation of Nature and Reasons for Changes in Program Objectives

There were no changes in program objectives.

Changes as Results of Experience

No changes were made to the program during the 2005 program year.

Summary of Technical Assistance Funding

The State of Nebraska uses its CDBG Technical Assistance funding to produce the Certified CDBG Administrator Training Workshops. As of March 1, 1996, the State of Nebraska requires the formal certification of all persons administering Community Development Block Grant (CDBG) projects in Nebraska. These workshops are conducted annually by the Community and Rural Development Division of DED and are scheduled to coincide with CDBG funding cycles. Anyone seeking the certified administrator designation must complete and pass the written exam. CDBG TA funds went towards conducting Environmental Review Training, Labor Standards, Financial Management and Compliance Monitoring for local officials and Certified Administrators. The Community and Rural Development Division staff conducts the environmental training.

2005 CDBG technical assistance (TA) funds were also used in other projects during the program year.

CDBG TA funds went towards the support of the Nebraska Chapter of the American Planning Association (APA), training for local planning officials. Approximately \$7,500 was used to support scholarships for attendees and for training costs not covered by registrations at the Nebraska Chapter APA Institutes in March 2005.

CDBG TA funds were distributed towards the support of the Nebraska Municipal Clerks' Association, "Clerks' Certification School." The school provides the education necessary for municipal clerks to become certified by the International Institution of Municipal Clerks.

Approximately \$10,000 was used to help provide scholarships for clerks to attend the training. The training enabled clerks to become more professional and efficient in their jobs.

CDBG TA funds were distributed to the Nebraska Housing Developers Association to assist with costs associated with training costs not covered by registrations for housing development non-profit organizations and local governments at the Annual Housing Conference held in Kearney, Nebraska in August 2005.

Part III: Civil Rights Summary

State's Review of Civil Rights

All grantees receive training in the civil rights rules and regulations during training sessions. Training sessions are reinforced with notices and updates through the CDBG Bulletin, which is published on an as needed basis.

Each grantee's program eligibility criteria are reviewed to determine whether the criteria or methods of administration may have the effect of subjecting individuals to discrimination on the basis of race, color, age, sex, national origin or disability.

Comparisons are made between recent census data regarding those protected classes and the percentages of those protected classes participating and receiving benefits from CDBG funds.

All grantees are required to maintain, on an ongoing basis, and on file permanently, numerical and percentage documentation and information regarding the following:

1. Total beneficiaries in project
2. Total numbers of males/females.
3. Actual number of Whites, Blacks, Hispanics, Asians, Native Americans, and others.
4. Percentages of males, females, minorities, female heads of household, disabled population, and low to moderate income persons receiving benefits from the project funds.

Program representatives are required to consider this information, compared with census data, and determine if there is any indication any person and/or group of persons were denied benefits or employment on the grounds of race, age, sex, or disability.

In addition, the state reviews the grantee's compliance with Section 504 and the Americans with Disabilities Act. Grantees must have conducted a self-evaluation of their facilities and their programs as they relate to the ADA/Section 504 compliance. In addition, the grantee must have on file, and available for review, a transition plan. The grantee must provide evidence that they are complying or making attempts to comply with these regulations.

Updates and notices regarding ADA/Section 504 compliance are made through the CDBG Bulletin.

The state's review of all information gathered through monitoring visits indicates that grantee CDBG programs are being administered in a manner, which does not deny any benefit or employment on the grounds of race, age, sex, national origin and disability.

States Actions to Affirmatively Further Fair Housing

The Nebraska Department of Economic Development continues to require its grantees to specifically address, as a special contract condition prior to Release of Funds, what actions they will take to affirmatively further fair housing. Grantees are provided a list of suggested items, and the need to take affirmative action regarding fair housing is covered during annual grantee

training. Additional resources such as informational pamphlets, model fair housing ordinances and resolutions, posting materials and the HUD Housing Discrimination Complaint form are also provided to each grantee.

As a result of the above effort, a substantial number of communities adopted the model fair housing ordinance during 1995.

Section 3

The state has formulated a Section 3 plan. This plan was funded from HUD SuperNofa funds. The plan establishes a statewide effort that will ensure that, to the greatest extent feasible, that HUD-funded projects provide contracting and employment opportunities for low-income people. Implementation efforts continue to actualize this plan.

State's Actions to Increase WBE/MBE Participation

The state continues to increase minority and women business participation in the CDBG/HOME and other program. All grantees are trained in the importance of increasing small business participation, with an emphasis on HUBS, in our programs.

The state has the HUB (Historically Underutilized Businesses) Directory, for use by grantees. This directory is made available to all grantees and other businesses throughout the state.

Nebraska CDBG Performance Evaluation Report:

Grant No: B-06-DC-31-0001

- PART I:
 - *Financial Status*
 - *National Objectives*
 - *Grant Activities Summary*

- PART II:
 - *Assessment of Relationships of Use of Funds to State Objectives*

- PART III:
 - *Civil Rights Data for Program Applicants & Beneficiaries*

PART I - FINANCIAL STATUS AND NATIONAL OBJECTIVES

GRANT NO: B-06-DC-31-0001

REPORTING PERIOD

Data as of: June 30, 2020

07/01/2006 - 06/30/2007

1. FINANCIAL STATUS

A. Total Funds	\$13,497,881.13
<i>Allocation</i>	\$12,346,602.00
<i>Program Income</i>	\$1,151,279.13
B. Amount Obligated To Recipients (Total)	\$11,876,204.00
C. Amount Drawn Down	\$12,346,602.00
D. Amount For State Administration	\$346,932.00
E. Amount For Technical Assistance	\$123,466.00

2. NATIONAL OBJECTIVE

A. Period Specified For Benefit	2004 - 2006
B. Amounts Used To:	
1. Benefit To Low/Moderate Income Persons	\$10,051,284.00
2. Prevent/Eliminate Slums/Blight	\$1,204,770.00
3. Meet Urgent Community Development Needs	\$0.00
4. Acquisition/Rehabilitation Noncountable	\$0.00
5. Local Administration	\$620,150.00

Part II: Relationship of the Use of Funds to the State's Objectives

“The primary national CDBG objective is to develop viable urban communities by providing decent housing, suitable living environments, and expanding economic opportunities, principally for low- and moderate-income persons (LMI).” The State of Nebraska’s 2006 CDBG program furthered this national objective through investing in quality communities and quality projects designed to meet the objectives for three priorities: Housing, Community Development, and Economic Development.

During the 2006 program year, the Nebraska Department of Economic Development awarded 58 grants in the amount of approximately \$9 million. Three funding categories – Community Development, Economic Development, and Housing – were established for the distribution of the 2006 Program Year awards.

Community Development Category: The primary state objective for this category is to strengthen Nebraska communities through community development programs and services, which provide a stable platform for economic development. Water/wastewater grants were added as a priority in 1997. Twenty-six (26) grants were awarded for approximately \$5.1 million. Of this amount, approximately \$3 million was awarded for Seventeen (17) public works projects. Approximately \$2 million was awarded for eight (8) water/wastewater projects. One (1) Tourism Development grant was awarded with \$118,000. No Community Revitalization Grants were awarded.

Economic Development Category: The primary state objective for this category is to foster the competitiveness of Nebraska’s business and industrial sector—and as a result—assist in the economic development of Nebraska’s communities and people. Local governments receive grants to provide appropriate assistance to businesses through working capital and fixed asset loans, loan guarantees, equity investments, job training, or public works grants. Financial assistance to local governments is awarded to diversify the state's economy while leveraging private sector investment, and providing jobs of which at least 51% should be available to low/moderate income persons. Ten (10) Economic Development grants totaling approximately \$2.6 million were awarded.

Housing Category: The primary state objective of this category is to respond to regional needs for affordable, decent, safe and appropriate housing as part of balanced economic development in Nebraska. The state invests in rehabilitation of existing housing for low and moderate-income homeowners using regional and community level service delivery system. Four (4) grants were awarded for approximately \$1 million.

Planning Category: The primary objective is to provide communities the opportunity to solve problems and meet citizens’ needs through a community planning process that assesses community needs, develop options for meeting those needs, and package work plans or carry out processes that lead to successful projects. In total, eighteen (18) grants were awarded with \$274,300.

Summary of Citizens' Comments

As described in Section One of the report, there were no citizens' comments during the 2006 Consolidated Annual Performance Report's public comment period.

Evaluation of Extent of Low and Moderate Income Benefit

Evaluation of benefit to low-and-moderate income persons is contained in the summary information on grantees as a part of this report. Of the \$4,917,189 of 2006 funds which had been obligated to projects during the 2006 program year, \$256,095 went to the grantees as local administration. Of the \$4,661,094 that went to project activities, \$4,179,094 was used to benefit low and moderate-income persons or 84.98%. Of the total amount of 2006 funds that were obligated to projects during the 2006 year, 32% was used to benefit low and moderate-income persons. At end of the 2006 program year, the Department had obligated only a small portion of the 2006 allocation, and therefore this percentage has increased as these funds were obligated to projects.

Updated Evaluation of Extent of Low and Moderate Income Benefit - 2019 APR

Evaluation of benefit to low and moderate income persons is contained in the summary information on grantees as a part of this report. A total of \$11,876,204 was obligated to projects (excludes state and grantee administration and technical assistance) from the 2006 allocation, 84.63% of these funds were used to benefit low and moderate income persons. See Part I.

Explanation of Nature and Reasons for Changes in Program Objectives

There were no changes in program objectives.

Changes as Results of Experience

No changes were made to the program during the 2006 program year.

Summary of Technical Assistance Funding

The State of Nebraska uses its CDBG Technical Assistance funding to produce the Certified CDBG Administrator Training Workshops. As of March 1, 1996, the State of Nebraska requires the formal certification of all persons administering Community Development Block Grant (CDBG) projects in Nebraska. These workshops are conducted annually by the Community and Rural Development Division of DED and are scheduled to coincide with CDBG funding cycles. Anyone seeking the certified administrator designation must complete and pass the written exam. CDBG TA funds went towards conducting Environmental Review Training, Labor Standards, Financial Management and Compliance Monitoring for local officials and Certified Administrators. The Community and Rural Development Division staff conducts the environmental training. CDBG technical assistance (TA) funds were also used in other projects during the program year.

CDBG TA funds went towards the support of the Nebraska Chapter of the American Planning Association (APA), training for local planning officials. Approximately \$7,500 was used to support scholarships for attendees and for training costs not covered by registrations at the Nebraska Chapter APA Institutes in April 2006.

CDBG TA funds were distributed towards the support of the Nebraska Municipal Clerks' Association, "Clerks' Certification School." The school provides the education necessary for municipal clerks to become certified by the International Institution of Municipal Clerks.

Approximately \$10,000 was used to help provide scholarships for clerks to attend the training. The training enabled clerks to become more professional and efficient in their jobs.

CDBG TA funds were distributed to the Nebraska Housing Developers Association to assist with costs associated with training costs not covered by registrations for housing development non-profit organizations and local governments at the Annual Housing Conference held in Kearney, Nebraska in August 2006.

Part III: Civil Rights Summary

State's Review of Civil Rights

All grantees receive training in the civil rights rules and regulations during training sessions. Training sessions are reinforced with notices and updates through the CDBG Bulletin, which is published on an as needed basis.

Each grantee's program eligibility criteria are reviewed to determine whether the criteria or methods of administration may have the effect of subjecting individuals to discrimination on the basis of race, color, age, sex, national origin or disability.

Comparisons are made between recent census data regarding those protected classes and the percentages of those protected classes participating and receiving benefits from CDBG funds.

All grantees are required to maintain, on an ongoing basis, and on file permanently, numerical and percentage documentation and information regarding the following:

1. Total beneficiaries in project
2. Total numbers of males/females.
3. Actual number of Whites, Blacks, Hispanics, Asians, Native Americans, and others.
4. Percentages of males, females, minorities, female heads of household, disabled population, and low to moderate income persons receiving benefits from the project funds.

Program representatives are required to consider this information, compared with census data, and determine if there is any indication any person and/or group of persons were denied benefits or employment on the grounds of race, age, sex, or disability.

In addition, the state reviews the grantee's compliance with Section 504 and the Americans with Disabilities Act. Grantees must have conducted a self-evaluation of their facilities and their programs as they relate to the ADA/Section 504 compliance. In addition, the grantee must have on file, and available for review, a transition plan. The grantee must provide evidence that they are complying or making attempts to comply with these regulations.

Updates and notices regarding ADA/Section 504 compliance are made through the CDBG Bulletin.

The state's review of all information gathered through monitoring visits indicates that grantee CDBG programs are being administered in a manner, which does not deny any benefit or employment on the grounds of race, age, sex, national origin and disability.

States Actions to Affirmatively Further Fair Housing

The Nebraska Department of Economic Development continues to require its grantees to specifically address, as a special contract condition prior to Release of Funds, what actions they will take to affirmatively further fair housing. Grantees are provided a list of suggested items, and the need to take affirmative action regarding fair housing is covered during annual grantee

training. Additional resources such as informational pamphlets, model fair housing ordinances and resolutions, posting materials and the HUD Housing Discrimination Complaint form are also provided to each grantee.

As a result of the above effort, a substantial number of communities adopted the model fair housing ordinance during 1995.

Section 3

The state has formulated a Section 3 plan. This plan was funded from HUD SuperNofa funds. The plan establishes a statewide effort that will ensure that, to the greatest extent feasible, that HUD-funded projects provide contracting and employment opportunities for low-income people. Implementation efforts continue to actualize this plan.

State's Actions to Increase WBE/MBE Participation

The state continues to increase minority and women business participation in the CDBG/HOME and other program. All grantees are trained in the importance of increasing small business participation, with an emphasis on HUBS, in our programs.

The state has the HUB (Historically Underutilized Businesses) Directory, for use by grantees. This directory is made available to all grantees and other businesses throughout the state.

Nebraska CDBG Performance Evaluation Report:

Grant No: B-07-DC-31-0001

- PART I:
 - *Financial Status*
 - *National Objectives*
 - *Grant Activities Summary*

- PART II:
 - *Assessment of Relationships of Use of Funds to State Objectives*

- PART III:
 - *Civil Rights Data for Program Applicants & Beneficiaries*

PART I - FINANCIAL STATUS AND NATIONAL OBJECTIVES

GRANT NO: B-07-DC-31-0001

REPORTING PERIOD

Data as of: June 30, 2020

07/01/2007 - 06/30/2008

1. FINANCIAL STATUS

A. Total Funds	\$13,466,687.84
<i>Allocation</i>	\$12,708,790.00
<i>Program Income</i>	\$757,897.84
B. Amount Obligated To Recipients (Total)	\$12,227,528.00
C. Amount Drawn Down	\$12,708,790.00
D. Amount For State Administration	\$354,175.00
E. Amount For Technical Assistance	\$127,087.00

2. NATIONAL OBJECTIVE

A. Period Specified For Benefit	2007 - 2009
B. Amounts Used To:	
1. Benefit To Low/Moderate Income Persons	\$11,152,419.00
2. Prevent/Eliminate Slums/Blight	\$488,507.00
3. Meet Urgent Community Development Needs	\$0.00
4. Acquisition/Rehabilitation Noncountable	\$0.00
5. Local Administration	\$586,602.00

Part II: Relationship of the Use of Funds to the State's Objectives

“The primary national CDBG objective is to develop viable urban communities by providing decent housing, suitable living environments, and expanding economic opportunities, principally for low- and moderate-income persons (LMI).” The State of Nebraska’s 2007 CDBG program furthered this national objective through investing in quality communities and quality projects designed to meet the objectives for three priorities: Housing, Community Development, and Economic Development.

During the 2007 program year, the Nebraska Department of Economic Development awarded seventy-two (72) grants in the amount of approximately \$10.8 million. Three funding categories – Community Development, Economic Development, and Housing – were established for the distribution of the 2007 Program Year awards.

Community Development Category: The primary state objective for this category is to strengthen Nebraska communities through community development programs and services, which provide a stable platform for economic development. Water/wastewater grants were added as a priority in 1997. Twenty-eight (28) grants were awarded for approximately \$5.8 million. Of this amount, approximately \$3.3 million was awarded for fifteen (15) public works projects. Approximately \$1.3 million was awarded for six (6) water/wastewater projects. Approximately \$1.2 million was awarded for seven (7) community revitalization grants.

Economic Development Category: The primary state objective for this category is to foster the competitiveness of Nebraska’s business and industrial sector—and as a result—assist in the economic development of Nebraska’s communities and people. Local governments receive grants to provide appropriate assistance to businesses through working capital and fixed asset loans, loan guarantees, equity investments, job training, or public works grants. Financial assistance to local governments is awarded to diversify the state's economy while leveraging private sector investment, and providing jobs of which at least 51% should be available to low/moderate income persons. Ten (10) economic development grants totaling \$2.1 million were awarded. No tourism development grants were awarded in 2007.

Housing Category: The primary state objective of this category is to respond to regional needs for affordable, decent, safe and appropriate housing as part of balanced economic development in Nebraska. The state invests in rehabilitation of existing housing for low and moderate-income homeowners using regional and community level service delivery system. Ten (10) grants were awarded for approximately \$2.3 million.

Planning Category: The primary objective is to provide communities the opportunity to solve problems and meet citizens’ needs through a community planning process that assesses community needs, develop options for meeting those needs, and package work plans or carry out processes that lead to successful projects. In total, twenty-four (24) grants were awarded with approximately \$456,900.

Summary of Citizens' Comments

As described in Section One of the report, there were no citizens’ comments during the 2006 Consolidated Annual Performance Report’s public comment period.

Evaluation of Extent of Low and Moderate Income Benefit

Evaluation of benefit to low-and-moderate income persons is contained in the summary information on grantees as a part of this report. Of the \$4,614,754 of 2007 funds which had been obligated to projects during the 2007 program year, \$278,000 went to the grantees as local administration. Of the \$4,336,754 that went to project activities, \$4,336,754 was used to benefit low and moderate-income persons or 100%. Of the total amount of 2007 funds that were obligated to projects during the 2007 year, 33% was used to benefit low and moderate-income persons. At end of the 2007 program year, the Department had obligated only a small portion of the 2007 allocation, and therefore this percentage will increase as these funds are obligated to projects.

Updated Evaluation of Extent of Low and Moderate Income Benefit – 2019 APR

Evaluation of benefit to low and moderate income persons is contained in the summary information on grantees as a part of this report. A total of \$12,227,528 was obligated to projects (excludes state and grantee administration and technical assistance) from the 2007 allocation, 91.01% of these funds were used to benefit low and moderate income persons. See Part I.

Explanation of Nature and Reasons for Changes in Program Objectives

There were no changes in program objectives.

Changes as Results of Experience

The tourism development category was moved from the Community Development Priority to the Economic Development Priority in 2007. The tourism category itself was not changed, but the relocation was made because tourism projects fit more appropriately in the Economic Development Category, as they promote long-term economic development and result in the creation of jobs.

Summary of Technical Assistance Funding

The State of Nebraska uses its CDBG Technical Assistance funding to produce the Certified CDBG Administrator Training Workshops. As of March 1, 1996, the State of Nebraska requires the formal certification of all persons administering Community Development Block Grant (CDBG) projects in Nebraska. These workshops are conducted annually by the Community and Rural Development Division of DED and are scheduled to coincide with CDBG funding cycles. Anyone seeking the certified administrator designation must complete and pass the written exam. CDBG TA funds went towards conducting Environmental Review Training, Labor Standards, Financial Management and Compliance Monitoring for local officials and Certified Administrators. The Community and Rural Development Division staff conducts the environmental training. CDBG technical assistance (TA) funds were also used in other projects during the program year.

CDBG TA funds went towards the support of the Nebraska Chapter of the American Planning Association (APA), training for local planning officials. Approximately \$7,500 was used to support scholarships for attendees and for training costs not covered by registrations at the Nebraska Chapter APA Institutes in April 2007.

CDBG TA funds were distributed towards the support of the Nebraska Municipal Clerks' Association, "Clerks' Certification School." The school provides the education necessary for municipal clerks to become certified by the International Institution of Municipal Clerks. Approximately \$10,000 was used to help provide scholarships for clerks to attend the training. The training enabled clerks to become more professional and efficient in their jobs.

CDBG TA funds were distributed to the Nebraska Housing Developers Association to assist with costs associated with training costs not covered by registrations for housing development non-profit organizations and local governments at the Annual Housing Conference held in Kearney, Nebraska in August 2007.

Part III: Civil Rights Summary

State's Review of Civil Rights

All grantees receive training in the civil rights rules and regulations during training sessions. Training sessions are reinforced with notices and updates through the CDBG Bulletin, which is published on an as needed basis.

Each grantee's program eligibility criteria are reviewed to determine whether the criteria or methods of administration may have the effect of subjecting individuals to discrimination on the basis of race, color, age, sex, national origin or disability.

Comparisons are made between recent census data regarding those protected classes and the percentages of those protected classes participating and receiving benefits from CDBG funds.

All grantees are required to maintain, on an ongoing basis, and on file permanently, numerical and percentage documentation and information regarding the following:

1. Total beneficiaries in project
2. Total numbers of males/females.
3. Actual number of Whites, Blacks, Hispanics, Asians, Native Americans, and others.
4. Percentages of males, females, minorities, female heads of household, disabled population, and low to moderate income persons receiving benefits from the project funds.

Program representatives are required to consider this information, compared with census data, and determine if there is any indication any person and/or group of persons were denied benefits or employment on the grounds of race, age, sex, or disability.

In addition, the state reviews the grantee's compliance with Section 504 and the Americans with Disabilities Act. Grantees must have conducted a self-evaluation of their facilities and their programs as they relate to the ADA/Section 504 compliance. In addition, the grantee must have on file, and available for review, a transition plan. The grantee must provide evidence that they are complying or making attempts to comply with these regulations.

Updates and notices regarding ADA/Section 504 compliance are made through the CDBG Bulletin.

The state's review of all information gathered through monitoring visits indicates that grantee CDBG programs are being administered in a manner, which does not deny any benefit or employment on the grounds of race, age, sex, national origin and disability.

States Actions to Affirmatively Further Fair Housing

The Nebraska Department of Economic Development continues to require its grantees to specifically address, as a special contract condition prior to Release of Funds, what actions they will take to affirmatively further fair housing. Grantees are provided a list of suggested items, and the need to take affirmative action regarding fair housing is covered during annual grantee training. Additional resources such as informational pamphlets, model fair housing ordinances and resolutions, posting materials and the HUD Housing Discrimination Complaint form are also provided to each grantee.

As a result of the above effort, a substantial number of communities adopted the model fair housing ordinance during 1995.

Section 3

The state has formulated a Section 3 plan. This plan was funded from HUD SuperNofa funds. The plan establishes a statewide effort that will ensure that, to the greatest extent feasible, that HUD-funded projects provide contracting and employment opportunities for low-income people. Implementation efforts continue to actualize this plan.

State's Actions to Increase WBE/MBE Participation

The state continues to increase minority and women business participation in the CDBG/HOME and other program. All grantees are trained in the importance of increasing small business participation, with an emphasis on HUBS, in our programs.

The state has the HUB (Historically Underutilized Businesses) Directory, for use by grantees. This directory is made available to all grantees and other businesses throughout the state.

Nebraska CDBG Performance Evaluation Report:

Grant No: B-08-DC-31-0001

- PART I:
 - *Financial Status*
 - *National Objectives*
 - *Grant Activities Summary*

- PART II:
 - *Assessment of Relationships of Use of Funds to State Objectives*

- PART III:
 - *Civil Rights Data for Program Applicants & Beneficiaries*

PART I - FINANCIAL STATUS AND NATIONAL OBJECTIVES

GRANT NO: B-08-DC-31-0001

REPORTING PERIOD

Data as of: June 30, 2020

07/01/2008 - 06/30/2009

1. FINANCIAL STATUS

A. Total Funds	\$13,222,428.44
<i>Allocation</i>	\$12,348,630.00
<i>Program Income</i>	\$873,798.44
B. Amount Obligated To Recipients (Total)	\$11,878,172.00
C. Amount Drawn Down	\$12,348,630.00
D. Amount For State Administration	\$346,972.00
E. Amount For Technical Assistance	\$123,486.00

2. NATIONAL OBJECTIVE

A. Period Specified For Benefit	2007 - 2009
B. Amounts Used To:	
1. Benefit To Low/Moderate Income Persons	\$8,755,873.11
2. Prevent/Eliminate Slums/Blight	\$2,482,134.89
3. Meet Urgent Community Development Needs	\$0.00
4. Acquisition/Rehabilitation Noncountable	\$0.00
5. Local Administration	\$640,164.00

Part II: Relationship of the Use of Funds to the State's Objectives

"The primary national CDBG objective is to develop viable urban communities by providing decent housing, suitable living environments, and expanding economic opportunities, principally for low- and moderate-income persons (LMI)." The State of Nebraska's 2008 CDBG program furthered this national objective through investing in quality communities and quality projects designed to meet the objectives for three priorities: Housing, Community Development, and Economic Development.

During the 2008 program year, the Nebraska Department of Economic Development awarded eighty-six (86) grants in the amount of approximately \$15.2 million. Three funding categories – Community Development, Economic Development, and Housing – were established for the distribution of the 2008 Program Year awards.

Community Development Category: The primary state objective for this category is to strengthen Nebraska communities through community development programs and services, which provide a stable platform for economic development. Thirty-seven (37) grants were awarded for approximately \$7.1 million. Of this amount, approximately \$3.3 million was awarded for fifteen (15) public works projects. Approximately \$1.2 million was awarded for five (5) water/wastewater projects. Approximately \$1.2 million was awarded for seven (7) community revitalization grants. The downtown revitalization category was added in 2008, and approximately \$1.3 million was awarded for ten (10) projects.

Economic Development Category: The primary state objective for this category is to foster the competitiveness of Nebraska's business and industrial sector—and as a result—assist in the economic development of Nebraska's communities and people. Local governments receive grants to provide appropriate assistance to businesses through working capital and fixed asset loans, loan guarantees, equity investments, job training, or public works grants. Financial assistance to local governments is awarded to diversify the state's economy while leveraging private sector investment, and providing jobs of which at least 51% should be available to low/moderate income persons. Twelve (12) economic development grants totaling approximately \$3.6 million were awarded. One (1) tourism development grants was awarded at \$200,000.

Housing Category: The primary state objective of this category is to respond to regional needs for affordable, decent, safe and appropriate housing as part of balanced economic development in Nebraska. The state invests in rehabilitation of existing housing for low and moderate-income homeowners using regional and community level service delivery system. Fourteen (14) grants were awarded for approximately \$3.8 million.

Planning Category: The primary objective is to provide communities the opportunity to solve problems and meet citizens' needs through a community planning process that assesses community needs, develop options for meeting those needs, and package work plans or carry out processes that lead to successful projects. In total, twenty-two (22) grants were awarded with \$486,250.

Summary of Citizens' Comments

As described in Section One of the report, there were no citizens' comments during the 2008 Consolidated Annual Performance Report's public comment period.

Evaluation of Extent of Low and Moderate Income Benefit

Evaluation of benefit to low-and-moderate income persons is contained in the summary information on grantees as a part of this report. Of the \$5,607,725 of 2008 funds which had been obligated to projects during the 2008 program year, \$347,510 went to the grantees as local administration. Of the \$5,260,215 that went to project activities, \$4,399,468 was used to benefit low and moderate-income persons or 83.6%. Of the total amount of 2008 funds that were obligated to projects during the 2008 year, 35% was used to benefit low and moderate-income persons. At end of the 2008 program year, the Department had obligated only a small portion of the 2008 allocation, and therefore this percentage will increase as these funds are obligated to projects.

Updated Evaluation of Extent of Low and Moderate Income Benefit - 2019 APR

Evaluation of benefit to low and moderate income persons is contained in the summary information on grantees as a part of this report. A total of \$ \$11,878,172 was obligated to projects (excludes state and grantee administration and technical assistance) from the 2008 allocation, 73.71% of these funds were used to benefit low and moderate income persons. See Part I.

Explanation of Nature and Reasons for Changes in Program Objectives

There were no changes in program objectives.

Changes as Results of Experience

There were no changes as a result of experience.

Summary of Technical Assistance Funding

The State of Nebraska uses its CDBG Technical Assistance funding to produce the Certified CDBG Administrator Training Workshops. As of March 1, 1996, the State of Nebraska requires the formal certification of all persons administering Community Development Block Grant (CDBG) projects in Nebraska. These workshops are conducted annually by the Community and Rural Development Division of DED and are scheduled to coincide with CDBG funding cycles. Anyone seeking the certified administrator designation must complete and pass the written exam. CDBG TA funds went towards conducting Environmental Review Training, Labor Standards, Financial Management and Compliance Monitoring for local officials and Certified Administrators. The Community and Rural Development Division staff conducts the environmental training. CDBG technical assistance (TA) funds were also used in other projects during the program year.

CDBG TA funds went towards the support of the Nebraska Chapter of the American Planning Association (APA), training for local planning officials. Approximately \$7,500 was used to support scholarships for attendees and for training costs not covered by registrations at the Nebraska Chapter APA Institutes in April 2008.

CDBG TA funds were distributed towards the support of the Nebraska Municipal Clerks' Association, "Clerks' Certification School." The school provides the education necessary for municipal clerks to become certified by the International Institution of Municipal Clerks. Approximately \$10,000 was used to help provide scholarships for clerks to attend the training. The training enables clerks to become more professional and efficient in their jobs.

Funds were also distributed to the Lincoln Commission on Human Rights to assist with costs associated with fair housing training at the Annual Fair Housing Conference held in Lincoln, Nebraska.

Part III: Civil Rights Summary

State's Review of Civil Rights

All grantees receive training in the civil rights rules and regulations during training sessions. Training sessions are reinforced with notices and updates through the CDBG Bulletin, which is published on an as needed basis.

Each grantee's program eligibility criteria are reviewed to determine whether the criteria or methods of administration may have the effect of subjecting individuals to discrimination on the basis of race, color, age, sex, national origin or disability.

Comparisons are made between recent census data regarding those protected classes and the percentages of those protected classes participating and receiving benefits from CDBG funds.

All grantees are required to maintain, on an ongoing basis, and on file permanently, numerical and percentage documentation and information regarding the following:

1. Total beneficiaries in project
2. Total numbers of males/females.
3. Actual number of Whites, Blacks, Hispanics, Asians, Native Americans, and others.
4. Percentages of males, females, minorities, female heads of household, disabled population, and low to moderate income persons receiving benefits from the project funds.

Program representatives are required to consider this information, compared with census data, and determine if there is any indication any person and/or group of persons were denied benefits or employment on the grounds of race, age, sex, or disability.

In addition, the state reviews the grantee's compliance with Section 504 and the Americans with Disabilities Act. Grantees must have conducted a self-evaluation of their facilities and their programs as they relate to the ADA/Section 504 compliance. In addition, the grantee must have on file, and available for review, a transition plan. The grantee must provide evidence that they are complying or making attempts to comply with these regulations.

Updates and notices regarding ADA/Section 504 compliance are made through the CDBG Bulletin.

The state's review of all information gathered through monitoring visits indicates that grantee CDBG programs are being administered in a manner, which does not deny any benefit or employment on the grounds of race, age, sex, national origin and disability.

States Actions to Affirmatively Further Fair Housing

The Nebraska Department of Economic Development continues to require its grantees to specifically address, as a special contract condition prior to Release of Funds, what actions they will take to affirmatively further fair housing. Grantees are provided a list of suggested items, and the need to take affirmative action regarding fair housing is covered during annual grantee training. Additional resources such as informational pamphlets, model fair housing ordinances and resolutions, posting materials and the HUD Housing Discrimination Complaint form are also provided to each grantee.

As a result of the above effort, a substantial number of communities adopted the model fair housing ordinance during 1995.

Section 3

The state has formulated a Section 3 plan. This plan was funded from HUD SuperNofa funds. The plan establishes a statewide effort that will ensure that, to the greatest extent feasible, that HUD-funded projects provide contracting and employment opportunities for low-income people. Implementation efforts continue to actualize this plan.

State's Actions to Increase WBE/MBE Participation

The state continues to increase minority and women business participation in the CDBG/HOME and other program. All grantees are trained in the importance of increasing small business participation, with an emphasis on HUBS, in our programs.

The state has the HUB (Historically Underutilized Businesses) Directory, for use by grantees. This directory is made available to all grantees and other businesses throughout the state.

Nebraska CDBG Performance Evaluation Report:

Grant No: B-09-DC-31-0001

- PART I:
 - *Financial Status*
 - *National Objectives*
 - *Grant Activities Summary*

- PART II:
 - *Assessment of Relationships of Use of Funds to State Objectives*

- PART III:
 - *Civil Rights Data for Program Applicants & Beneficiaries*

PART I - FINANCIAL STATUS AND NATIONAL OBJECTIVES

GRANT NO: B-09-DC-31-0001

REPORTING PERIOD

Data as of: June 30, 2020

07/01/2009 - 06/30/2010

1. FINANCIAL STATUS

A. Total Funds	\$14,329,115.28
<i>Allocation</i>	\$12,527,752.00
<i>Program Income</i>	\$1,801,363.28
B. Amount Obligated To Recipients (Total)	\$12,051,920.00
C. Amount Drawn Down	\$12,527,752.00
D. Amount For State Administration	\$350,555.00
E. Amount For Technical Assistance	\$125,277.00

2. NATIONAL OBJECTIVE

A. Period Specified For Benefit	2007 - 2009
B. Amounts Used To:	
1. Benefit To Low/Moderate Income Persons	\$8,923,042.89
2. Prevent/Eliminate Slums/Blight	\$2,595,513.11
3. Meet Urgent Community Development Needs	\$0.00
4. Acquisition/Rehabilitation Noncountable	\$0.00
5. Local Administration	\$533,364.00

Part II: Relationship of the Use of Funds to the State's Objectives

"The primary national CDBG objective is to develop viable urban communities by providing decent housing, suitable living environments, and expanding economic opportunities, principally for low- and moderate-income persons (LMI)." The State of Nebraska's 2009 CDBG program furthered this national objective through investing in quality communities and quality projects designed to meet the objectives for three priorities: Housing, Community Development, and Economic Development.

During the 2009 program year, the Nebraska Department of Economic Development awarded eighty-three (83) grants in the amount of approximately \$13.3 million. Three funding categories – Community Development, Economic Development, and Housing – were established for the distribution of the 2009 Program Year awards.

Community Development Category: The primary state objective for this category is to strengthen Nebraska communities through community development programs and services, which provide a stable platform for economic development. Forty (40) grants were awarded for approximately \$7.6 million.

- **Public Works:** Fourteen (14) grants were awarded for \$3.6 million.
- **Water/Wastewater:** Five (5) grants were awarded for \$1.7 million.
- **Community Revitalization:** Fourteen (14) grants were awarded for \$1.4 million.
- **Downtown Revitalization:** Seven (7) grants were awarded for \$800,000.

Economic Development Category: The primary state objective for this category is to foster the competitiveness of Nebraska's business and industrial sector—and as a result—assist in the economic development of Nebraska's communities and people. Local governments receive grants to provide appropriate assistance to businesses through working capital and fixed asset loans, loan guarantees, equity investments, job training, or public works grants. Financial assistance to local governments is awarded to diversify the state's economy while leveraging private sector investment, and providing jobs of which at least 51% should be available to low/moderate income persons. Nine (9) economic development grants totaling approximately \$1.8 million were awarded. One (1) tourism development grants were awarded at \$200,000.

Housing Category: The primary state objective of this category is to respond to regional needs for affordable, decent, safe and appropriate housing as part of balanced economic development in Nebraska. The state invests in rehabilitation of existing housing for low and moderate-income homeowners using regional and community level service delivery system. Thirteen (13) grants were awarded for approximately \$3.1 million.

Planning Category: The primary objective is to provide communities the opportunity to solve problems and meet citizens' needs through a community planning process that assesses community needs, develops options for meeting those needs, and packages work plans or carry out processes that lead to successful projects. In total, twenty (20) grants were awarded with \$462,300.

Summary of Citizens' Comments

As described in Section One of the report, there were no citizens' comments during the 2009 Consolidated Annual Performance Report's public comment period.

Evaluation of Extent of Low and Moderate Income Benefit

Evaluation of benefit to low-and-moderate income persons is contained in the summary information on grantees as a part of this report. Of the \$5,207,912 of 2009 funds which had been obligated to projects during the 2009 program year, \$261,100 went to the grantees as local administration. Of the \$4,946,812 that went to project activities, \$4,102,121 was used to benefit low and moderate-income persons or 82.9%. Of the total 2009 allocation available for project awards, so far, 34% has been used to benefit low and moderate-income persons. At end of the 2009 program year, the Department had obligated only a small portion of the 2009 allocation, and therefore this percentage will increase as these funds are obligated to projects.

Updated Evaluation of Extent of Low and Moderate Income Benefit - 2019 APR

Evaluation of benefit to low and moderate income persons is contained in the summary information on grantees as a part of this report. A total of \$12,051,920 was obligated to projects (excludes state and grantee administration and technical assistance) from the 2009 allocation, 74.04% of these funds were used to benefit low and moderate income persons. See Part I.

Explanation of Nature and Reasons for Changes in Program Objectives

There were no changes in program objectives.

Changes as Results of Experience

There were no changes as a result of experience.

Summary of Technical Assistance Funding

The State of Nebraska uses its CDBG Technical Assistance funding to produce the Certified CDBG Administrator Training Workshops. As of March 1, 1996, the State of Nebraska requires the formal certification of all persons administering Community Development Block Grant (CDBG) projects in Nebraska. These workshops are conducted annually by the Community and Rural Development Division of DED and are scheduled to coincide with CDBG funding cycles. Anyone seeking the certified administrator designation must complete and pass the written exam. CDBG TA funds went towards conducting Environmental Review Training, Labor Standards, Property Acquisition and Compliance Monitoring for local officials and Certified Administrators. The Community and Rural Development Division staff conducts the environmental training. CDBG technical assistance (TA) funds were also used in other projects during the program year.

CDBG TA funds went towards the support of the Nebraska Chapter of the American Planning Association (APA), training for local planning officials. Approximately \$7,500 was used to support scholarships for attendees and for training costs not covered by registrations at the Nebraska Chapter APA Institutes in April 2009.

CDBG TA funds were distributed towards the support of the Nebraska Municipal Clerks' Association, "Clerks' Certification School." The school provides the education necessary for municipal clerks to become certified by the International Institution of Municipal Clerks. Approximately \$5,000 was used to help provide scholarships for clerks to attend the training. The training enabled clerks to become more professional and efficient in their jobs. Funds were also distributed to the Lincoln Commission on Human Rights to assist with costs associated with fair housing training at the Annual Fair Housing Conference held in Lincoln, Nebraska.

Part III: Civil Rights Summary

State's Review of Civil Rights

All grantees receive training in the civil rights rules and regulations during training sessions. Training sessions are reinforced with notices and updates through the CDBG Bulletin, which is published on an as needed basis.

Each grantee's program eligibility criteria are reviewed to determine whether the criteria or methods of administration may have the effect of subjecting individuals to discrimination on the basis of race, color, age, sex, national origin or disability.

Comparisons are made between recent census data regarding those protected classes and the percentages of those protected classes participating and receiving benefits from CDBG funds.

All grantees are required to maintain, on an ongoing basis, and on file permanently, numerical and percentage documentation and information regarding the following:

1. Total beneficiaries in project
2. Total numbers of males/females.
3. Actual number of Whites, Blacks, Hispanics, Asians, Native Americans, and others.
4. Percentages of males, females, minorities, female heads of household, disabled population, and low to moderate income persons receiving benefits from the project funds.

Program representatives are required to consider this information, compared with census data, and determine if there is any indication any person and/or group of persons were denied benefits or employment on the grounds of race, age, sex, or disability.

In addition, the state reviews the grantee's compliance with Section 504 and the Americans with Disabilities Act. Grantees must have conducted a self-evaluation of their facilities and their programs as they relate to the ADA/Section 504 compliance. In addition, the grantee must have on file, and available for review, a transition plan. The grantee must provide evidence that they are complying or making attempts to comply with these regulations.

Updates and notices regarding ADA/Section 504 compliance are made through the CDBG Bulletin.

The state's review of all information gathered through monitoring visits indicates that grantee CDBG programs are being administered in a manner, which does not deny any benefit or employment on the grounds of race, age, sex, national origin and disability.

States Actions to Affirmatively Further Fair Housing

The Nebraska Department of Economic Development continues to require its grantees to specifically address, as a special contract condition prior to Release of Funds, what actions they will take to affirmatively further fair housing. Grantees are provided a list of suggested items, and the need to take affirmative action regarding fair housing is covered during annual grantee training. Additional resources such as informational pamphlets, model fair housing ordinances and resolutions, posting materials and the HUD Housing Discrimination Complaint form are also provided to each grantee.

As a result of the above effort, a substantial number of communities adopted the model fair housing ordinance during 1995.

Section 3

The state has formulated a Section 3 plan. This plan was funded from HUD SuperNofa funds. The plan establishes a statewide effort that will ensure that, to the greatest extent feasible, that HUD-funded projects provide contracting and employment opportunities for low-income people. Implementation efforts continue to actualize this plan.

State's Actions to Increase WBE/MBE Participation

The state continues to increase minority and women business participation in the CDBG/HOME and other program. All grantees are trained in the importance of increasing small business participation, with an emphasis on HUBS, in our programs.

The state has the HUB (Historically Underutilized Businesses) Directory, for use by grantees. This directory is made available to all grantees and other businesses throughout the state.

Nebraska CDBG Performance Evaluation Report:

Grant No: B-10-DC-31-0001

- PART I:
 - *Financial Status*
 - *National Objectives*
 - *Grant Activities Summary*

- PART II:
 - *Assessment of Relationships of Use of Funds to State Objectives*

- PART III:
 - *Civil Rights Data for Program Applicants & Beneficiaries*

PART I - FINANCIAL STATUS AND NATIONAL OBJECTIVES

GRANT NO: B-10-DC-31-0001

REPORTING PERIOD

Data as of: June 30, 2020

07/01/2010 - 06/30/2011

1. FINANCIAL STATUS

A. Total Funds	\$14,995,135.63
<i>Allocation</i>	\$13,581,017.00
<i>Program Income</i>	\$1,414,118.63
B. Amount Obligated To Recipients (Total)	\$13,073,587.00
C. Amount Drawn Down	\$13,577,631.03
D. Amount For State Administration	\$371,620.00
E. Amount For Technical Assistance	\$135,810.00

2. NATIONAL OBJECTIVE

A. Period Specified For Benefit	2010 - 2012
B. Amounts Used To:	
1. Benefit To Low/Moderate Income Persons	\$11,154,290.50
2. Prevent/Eliminate Slums/Blight	\$1,383,954.60
3. Meet Urgent Community Development Needs	\$0.00
4. Acquisition/Rehabilitation Noncountable	\$0.00
5. Local Administration	\$535,341.90

Part II: Relationship of the Use of Funds to the State's Objectives

"The primary national CDBG objective is to develop viable urban communities by providing decent housing, suitable living environments, and expanding economic opportunities, principally for low- and moderate-income persons (LMI)." The State of Nebraska's 2010 CDBG program furthered this national objective through investing in quality communities and quality projects designed to meet the objectives for three priorities: Housing, Community Development, and Economic Development.

During the 2010 program year, the Nebraska Department of Economic Development awarded sixty-seven (67) grants in the amount of approximately \$16.8 million. Three funding categories – Community Development, Economic Development, and Housing – were established for the distribution of the 2010 Program Year awards and included:

Community Development Category: The primary state objective for this category is to strengthen Nebraska communities through community development programs and services, which provide a stable platform for economic development. This category includes: planning, public works, water/wastewater, comprehensive revitalization, and downtown revitalization. Forty (40) grants were awarded for approximately \$6.4 million and included:

- **Planning:** The primary objective is to provide communities the opportunity to solve problems and meet citizens' needs through a community planning process that assesses community needs, develops options for meeting those needs, and packages work plans or carry out processes that lead to successful projects. In total, twelve (12) grants were awarded for a total of \$252,400.
- **Public Works:** Six (6) grants were awarded for \$1,852,130.
- **Water/Wastewater:** Six (6) grants were awarded for \$1,917,000.
- **Comprehensive Revitalization:** Six (6) grants were awarded for \$1,145,020.
- **Downtown Revitalization:** Ten (10) grants were awarded for \$1,256,760.

Economic Development Category: The primary state objective for this category is to foster the competitiveness of Nebraska's business and industrial sector—and as a result—assist in the economic development of Nebraska's communities and people. Local governments receive grants to provide appropriate assistance to businesses through working capital and fixed asset loans, loan guarantees, equity investments, job training, or public works grants. Financial assistance to local governments is awarded to diversify the state's economy while leveraging private sector investment, and providing jobs of which at least 51% should be available to low/moderate income persons. Seventeen (17) economic development grants totaling approximately \$7.9 million were awarded. Four (4) tourism development grants were also awarded totaling approximately \$795,000.

Housing Category: The primary state objective of this category is to respond to regional needs for affordable, decent, safe and appropriate housing as part of balanced economic development in Nebraska. The state invests in rehabilitation of existing housing for low and moderate-income homeowners using a regional and community level service delivery system. Six (6) grants were awarded for approximately \$1.6 million.

Summary of Citizens' Comments

As described in Section One of the report, there were no citizens' comments during the 2010 Consolidated Annual Performance Report's public comment period.

Evaluation of Extent of Low and Moderate Income Benefit

Evaluation of benefit to low-and-moderate income persons is contained in the summary information on grantees as a part of this report. Of the \$7,012,583 of 2010 funds which had been obligated to projects during the 2010 program year, \$283,100 went to grantees as local administration. Of the \$6,729,483 that went to project activities, \$5,945,982 was used to benefit low and moderate-income persons or 88.3%. Of the total 2010 allocation available for project awards, so far, 45% has been used to benefit low and moderate-income persons. At end of the 2010 program year, the Department had obligated only a small portion of the 2010 allocation, and therefore this percentage will increase as these funds are obligated to projects.

Updated Evaluation of Extent of Low and Moderate Income Benefit – 2019 APR

Evaluation of benefit to low and moderate income persons is contained in the summary information on grantees as a part of this report. A total of \$13,073,587 was obligated to projects (excludes state and grantee administration and technical assistance) from the 2010 allocation, 85.32% of these funds were used to benefit low and moderate income persons. See Part I.

Explanation of Nature and Reasons for Changes in Program Objectives

There were no changes in program objectives.

Changes as Results of Experience

There were no changes as a result of experience.

Summary of Technical Assistance Funding

The State of Nebraska uses its CDBG Technical Assistance funding to produce the Certified CDBG Administrator Training Workshops. As of March 1, 1996, the State of Nebraska requires the formal certification of all persons administering Community Development Block Grant (CDBG) projects in Nebraska. These workshops are conducted annually by the Community and Rural Development Division of DED and are scheduled to coincide with CDBG funding cycles. Anyone seeking the certified administrator designation must complete and pass the written exam. CDBG TA funds went towards conducting Environmental Review Training, Labor Standards, Property Acquisition and Compliance Monitoring for local officials and Certified Administrators. The Community and Rural Development Division staff conducts the environmental training. CDBG technical assistance (TA) funds were also used in other projects during the program year.

CDBG TA funds went towards the support of the Nebraska Chapter of the American Planning Association (APA), training for local planning officials. Approximately \$7,500 was used to support scholarships for attendees and for training costs not covered by registrations at the Nebraska Chapter APA Institutes in April 2010.

CDBG TA funds were distributed towards the support of the Nebraska Municipal Clerks' Association, "Clerks' Certification School." The school provides the education necessary for municipal clerks to become certified by the International Institution of Municipal Clerks. Approximately \$5,000 was used to help provide scholarships for clerks to attend the training. The training enables clerks to become more professional and efficient in their jobs.

CDBG TA funds were distributed to the Lincoln Commission on Human Rights to assist with costs associated with fair housing training at the Annual Fair Housing Conference held in Lincoln, Nebraska.

Part III: Civil Rights Summary

State's Review of Civil Rights

All grantees receive training in the civil rights rules and regulations during training sessions. Training sessions are reinforced with notices and updates through the CDBG Bulletin, which is published on an as needed basis.

Each grantee's program eligibility criteria are reviewed to determine whether the criteria or methods of administration may have the effect of subjecting individuals to discrimination on the basis of race, color, age, sex, national origin or disability.

Comparisons are made between recent census data regarding those protected classes and the percentages of those protected classes participating and receiving benefits from CDBG funds.

All grantees are required to maintain, on an ongoing basis, and on file permanently, numerical and percentage documentation and information regarding the following:

1. Total beneficiaries in project
2. Total numbers of males/females.
3. Actual number of Whites, Blacks, Hispanics, Asians, Native Americans, and others.
4. Percentages of males, females, minorities, female heads of household, disabled population, and low to moderate income persons receiving benefits from the project funds.

Program representatives are required to consider this information, compared with census data, and determine if there is any indication any person and/or group of persons were denied benefits or employment on the grounds of race, age, sex, or disability.

In addition, the state reviews the grantee's compliance with Section 504 and the Americans with Disabilities Act. Grantees must have conducted a self-evaluation of their facilities and their programs as they relate to the ADA/Section 504 compliance. In addition, the grantee must have on file, and available for review, a transition plan. The grantee must provide evidence that they are complying or making attempts to comply with these regulations.

Updates and notices regarding ADA/Section 504 compliance are made through the CDBG Bulletin.

The State's review of all information gathered through monitoring visits indicates that grantee CDBG programs are being administered in a manner, which does not deny any benefit or employment on the grounds of race, age, sex, national origin and disability.

States Actions to Affirmatively Further Fair Housing

The Nebraska Department of Economic Development continues to require its grantees to specifically address, as a special contract condition prior to Release of Funds, what actions they will take to affirmatively further fair housing. Grantees are provided a list of suggested items and this list was updated in September of 2010 to reflect HUD's guidance and emphasis on AFFH efforts, and the need to take affirmative action regarding fair housing is covered during annual grantee training. Additional resources

such as informational pamphlets, model fair housing ordinances and resolutions, posting materials and the HUD Housing Discrimination Complaint form are also provided to each grantee.

As a result of the above effort, a substantial number of communities have attended the annual Civil Rights conference hosted by the Lincoln Commission on Human Rights (and sponsored by the Department) to learn more about Fair Housing outreach efforts and implemented ideas gained from attending this educational event.

The Department of Economic Development began undertaking an updated Analysis of Impediments to Fair Housing Choice and Fair Housing Plan during this plan year.

Section 3

The State provided training to grant administrators on Section 3 outreach and responsibilities. In addition, the State modified and provided Certification as a Section 3 Resident and Certification as a Section 3 Business Concern forms made easily accessible on the Department web-site for communities to use for Certification and outreach to Section 3 residents and businesses.

State's Actions to Increase WBE/MBE Participation – The state provided guidance and training to administrators and grantees on appropriate procurement and bidding procedures to allow for more WBE/MBE business opportunities.

Nebraska CDBG Performance Evaluation Report:

Grant No: B-11-DC-31-0001

- PART I:
 - *Financial Status*
 - *National Objectives*
 - *Grant Activities Summary*

- PART II:
 - *Assessment of Relationships of Use of Funds to State Objectives*

- PART III:
 - *Civil Rights Data for Program Applicants & Beneficiaries*

PART I - FINANCIAL STATUS AND NATIONAL OBJECTIVES

GRANT NO: B-11-DC-31-0001

REPORTING PERIOD

Data as of: June 30, 2020

07/01/2011 - 06/30/2012

1. FINANCIAL STATUS

A. Total Funds	\$12,393,947.00
<i>Allocation</i>	\$11,183,238.00
<i>Program Income</i>	\$1,210,709.00
B. Amount Obligated To Recipients (Total)	\$10,747,740.86
C. Amount Drawn Down	\$11,182,900.69
D. Amount For State Administration	\$323,664.00
E. Amount For Technical Assistance	\$111,833.14

2. NATIONAL OBJECTIVE

A. Period Specified For Benefit	2010 - 2012
B. Amounts Used To:	
1. Benefit To Low/Moderate Income Persons	\$9,029,696.59
2. Prevent/Eliminate Slums/Blight	\$1,201,247.44
3. Meet Urgent Community Development Needs	\$0.00
4. Acquisition/Rehabilitation Noncountable	\$0.00
5. Local Administration	\$516,796.83

Part II: Relationship of the Use of Funds to the State's Objectives

"The primary national CDBG objective is to develop viable urban communities by providing decent housing, suitable living environments, and expanding economic opportunities, principally for low- and moderate-income persons (LMI)." The State of Nebraska's 2011 CDBG program furthered this national objective through investing in quality communities and quality projects designed to meet the objectives for three priorities: Housing, Community Development, and Economic Development.

During the 2011 Program Year, the Nebraska Department of Economic Development fifty-seven (57) grants in the amount of approximately \$14.5 million. CDBG funding was distributed within the Community Development, Economic Development, and Housing Categories. A detailed breakdown of these categories included:

Community Development Category: The primary state objective for this category is to strengthen Nebraska communities through community development programs and services, which provide a stable platform for economic development. This category includes: planning, public works, water/wastewater, comprehensive revitalization, and downtown revitalization. Forty-six (46) grants were awarded for approximately \$7.9 million and included:

- **Planning:** The primary objective is to provide communities the opportunity to solve problems and meet citizens' needs through a community planning process that assesses community needs, develops options for meeting those needs, and packages work plans or carry out processes that lead to successful projects. In total, fifteen (15) grants were awarded for a total of \$315,700.
- **Public Works:** Seven (7) grants were awarded for approximately \$1,928,951.
- **Water/Wastewater:** Five (5) grants were awarded for \$1,526,815.
- **Comprehensive Revitalization:** Six (6) grants were awarded for \$1,145,010.
- **Downtown Revitalization:** Thirteen (13) grants were awarded for \$3,049,000.

Economic Development Category: The primary state objective for this category is to foster the competitiveness of Nebraska's business and industrial sector—and as a result—assist in the economic development of Nebraska's communities and people. Local governments receive grants to provide appropriate assistance to businesses through working capital and fixed asset loans, loan guarantees, equity investments, job training, or public works grants. Financial assistance to local governments is awarded to diversify the state's economy while leveraging private sector investment, and providing jobs of which at least 51% should be available to low/moderate income persons. Nine (9) economic development grants totaling approximately \$3.9 million were awarded. Three (3) tourism development grants were also awarded totaling approximately \$628,000.

Housing Category: The primary state objective of this category is to respond to regional needs for affordable, decent, safe and appropriate housing as part of balanced economic development in Nebraska. The state invests in rehabilitation of existing housing for low and moderate-income homeowners using a regional and community level service delivery system. Eight (8) grants were awarded for approximately \$1.9 million.

Summary of Citizens' Comments

As described in Section One of the report, there were no citizens' comments during the 2011 Consolidated Annual Performance Report's public comment period.

Evaluation of Extent of Low and Moderate Income Benefit

Evaluation of benefit to low-and-moderate income persons is contained in the summary information on grantees as a part of this report. Of the \$5,819,439 of 2011 funds which had been obligated to projects during the 2011 Program Year, \$295,636 went to grantees as local administration. Of the \$5,523,803 that went to project activities, the entire amount was used to benefit low and moderate-income persons or 100%. Of the total 2011 allocation available for project awards, so far, 95% has been used to benefit low and moderate-income persons. At end of the 2011 Program Year, the Department had obligated only a small portion of the 2011 allocation, and therefore this percentage will increase as these funds are obligated to projects.

Updated Evaluation of Extent of Low and Moderate Income Benefit -2019 APR

Evaluation of benefit to low and moderate income persons is contained in the summary information on grantees as a part of this report. A total of \$10,747,740.86 was obligated to projects (excludes state and grantee administration and technical assistance) from the 2011 allocation, 84.01% of these funds were used to benefit low and moderate income persons. See Part I.

Explanation of Nature and Reasons for Changes in Program Objectives

There were no changes in program objectives.

Changes as Results of Experience

There were no changes as a result of experience.

Summary of Technical Assistance Funding

The State of Nebraska uses its CDBG Technical Assistance funding to produce the Certified CDBG Administrator Training Workshops. As of March 1, 1996, the State of Nebraska requires the formal certification of all persons administering Community Development Block Grant (CDBG) projects in Nebraska. These workshops are conducted annually by the Community and Rural Development Division of DED and are scheduled to coincide with CDBG funding cycles. Anyone seeking the certified administrator designation must complete and pass the written exam. CDBG TA funds went towards conducting Environmental Review Training, Labor Standards, Property Acquisition and Compliance Monitoring for local officials and Certified Administrators. The Community and Rural Development Division staff conducts the environmental training. CDBG technical assistance (TA) funds were also used in other projects during the program year.

CDBG TA funds went towards the support of the Nebraska Chapter of the American Planning Association (APA), training for local planning officials. Approximately \$7,500 was used to support scholarships for attendees and for training costs not covered by registrations at the Nebraska Chapter APA Institutes in April 2011.

CDBG TA funds were also distributed to the Lincoln Commission on Human Rights to assist with costs associated with fair housing training at the Annual Fair Housing Conference held in Lincoln, Nebraska.

Part III: Civil Rights Summary

State's Review of Civil Rights

All grantees receive training in the civil rights rules and regulations during training sessions. Training sessions are reinforced with notices and updates through the CDBG Bulletin, which is published on an as needed basis.

Each grantee's program eligibility criteria are reviewed to determine whether the criteria or methods of administration may have the effect of subjecting individuals to discrimination on the basis of race, color, age, sex, national origin or disability.

Comparisons are made between recent census data regarding those protected classes and the percentages of those protected classes participating and receiving benefits from CDBG funds.

All grantees are required to maintain, on an ongoing basis, and on file permanently, numerical and percentage documentation and information regarding the following:

1. Total beneficiaries in project
2. Total numbers of males/females.
3. Actual number of Whites, Blacks, Hispanics, Asians, Native Americans, and others.
4. Percentages of males, females, minorities, female heads of household, disabled population, and low to moderate income persons receiving benefits from the project funds.

Program representatives are required to consider this information, compared with census data, and determine if there is any indication any person and/or group of persons were denied benefits or employment on the grounds of race, age, sex, or disability.

In addition, the state reviews the grantee's compliance with Section 504 and the Americans with Disabilities Act. Grantees must have conducted a self-evaluation of their facilities and their programs as they relate to the ADA/Section 504 compliance. In addition, the grantee must have on file, and available for review, a transition plan. The grantee must provide evidence that they are complying or making attempts to comply with these regulations.

Updates and notices regarding ADA/Section 504 compliance are made through the CDBG Bulletin.

The state's review of all information gathered through monitoring visits indicates that grantee CDBG programs are being administered in a manner, which does not deny any benefit or employment on the grounds of race, age, sex, national origin and disability.

States Actions to Affirmatively Further Fair Housing

The Nebraska Department of Economic Development continues to require its grantees to specifically address, as a special contract condition prior to Release of Funds, what actions they will take to affirmatively further fair housing. Grantees are provided a list of suggested items and this list was updated in September of 2010 to reflect HUD's guidance and emphasis on AFFH efforts, and the need to take affirmative action regarding fair housing is covered during annual grantee training. Additional

resources such as informational pamphlets, model fair housing ordinances and resolutions, posting materials and the HUD Housing Discrimination Complaint form are also provided to each grantee.

As a result of the above effort, a substantial number of communities have attended the annual Civil Rights conference hosted by the Lincoln Commission on Human Rights (and sponsored by the Department) to learn more about Fair Housing outreach efforts and implemented ideas gained from attending this educational event.

An Analysis of Impediments to Fair Housing Choice (AI) was prepared in support of the *Consolidated Plan*. The State of Nebraska is required by HUD to complete an Analysis of Impediments to Fair Housing Choice; take actions to overcome the effects of any impediments identified; and maintain records reflecting the actions taken in response to the analysis. The purpose of the Analysis of Impediments is to foster a careful examination on a state-wide basis, those factors which restrict or preclude fair housing choice.

The Department contracted with Western Economic Services (WES) to prepare the AI. Excerpts from the AI are provided within Section 8 that pertain to the Impediments and Suggested Actions (See Section 8-5 through 8-11). A copy of the entire Analysis of Impediments that has been prepared by WES is available on the DED website at: <http://www.neded.org/community/community-info/documentslibrary-a-forms>.

Section 3

The State provided training to grant administrators on Section 3 outreach and responsibilities. In addition, the State modified and provided Certification as a Section 3 Resident and Certification as a Section 3 Business Concern forms made easily accessible on the Department web-site for communities to use for Certification and outreach to Section 3 residents and businesses.

State's Actions to Increase WBE/MBE Participation – The state provided guidance and training to administrators and grantees on appropriate procurement and bidding procedures to allow for more WBE/MBE business opportunities.

Nebraska CDBG Performance Evaluation Report:

Grant No: B-12-DC-31-0001

- PART I:
 - *Financial Status*
 - *National Objectives*
 - *Grant Activities Summary*

- PART II:
 - *Assessment of Relationships of Use of Funds to State Objectives*

- PART III:
 - *Civil Rights Data for Program Applicants & Beneficiaries*

PART I - FINANCIAL STATUS AND NATIONAL OBJECTIVES

GRANT NO: B-12-DC-31-0001

REPORTING PERIOD

Data as of: June 30, 2020

07/01/2012 - 06/30/2013

1. FINANCIAL STATUS

A. Total Funds	\$12,750,193.00
<i>Allocation</i>	\$9,937,502.00
<i>Program Income</i>	\$2,812,691.00
B. Amount Obligated To Recipients (Total)	\$9,509,458.41
C. Amount Drawn Down	\$9,893,974.65
D. Amount For State Administration	\$298,750.00
E. Amount For Technical Assistance	\$99,375.00

2. NATIONAL OBJECTIVE

A. Period Specified For Benefit	2010 - 2012
B. Amounts Used To:	
1. Benefit To Low/Moderate Income Persons	\$7,541,403.39
2. Prevent/Eliminate Slums/Blight	\$1,411,188.48
3. Meet Urgent Community Development Needs	\$0.00
4. Acquisition/Rehabilitation Noncountable	\$0.00
5. Local Administration	\$556,866.54

Part II: Relationship of the Use of Funds to the State's Objectives

"The primary national CDBG objective is to develop viable urban communities by providing decent housing, suitable living environments, and expanding economic opportunities, principally for low- and moderate-income persons (LMI)." The State of Nebraska's 2012 CDBG program furthered this national objective through investing in quality communities and quality projects designed to meet the objectives for three priorities: Housing, Community Development, and Economic Development.

During the 2012 Program Year, the Nebraska Department of Economic Development awarded thirty-nine (39) grants in the amount of approximately \$6.8 million. CDBG funding was distributed within the Community Development, Economic Development, and Housing Categories. A detailed breakdown of these categories included:

Community Development Category: The primary state objective for this category is to strengthen Nebraska communities through community development programs and services, which provide a stable platform for economic development. This category includes: planning, public works, water/wastewater, comprehensive revitalization, and downtown revitalization. Twenty-seven (27) grants were awarded for approximately \$4.1 million and included:

- **Planning:** The primary objective is to provide communities the opportunity to solve problems and meet citizens' needs through a community planning process that assesses community needs, develops options for meeting those needs, and packages work plans or carry out processes that lead to successful projects. In total, nine (9) grants were awarded for a total of approximately \$212,500.
- **Public Works:** Five (5) grants were awarded for approximately \$1,737,000.
- **Water/Wastewater:** Four (4) grants were awarded for approximately \$1,400,000.
- **Comprehensive Revitalization:** Seven (7) grants were awarded for \$78,782.
- **Downtown Revitalization:** Two (2) grants were awarded for \$700,000.

Economic Development Category: The primary state objective for this category is to foster the competitiveness of Nebraska's business and industrial sector—and as a result—assist in the economic development of Nebraska's communities and people. Local governments receive grants to provide appropriate assistance to businesses through working capital and fixed asset loans, loan guarantees, equity investments, job training, or public works grants. Financial assistance to local governments is awarded to diversify the state's economy while leveraging private sector investment, and providing jobs of which at least 51% should be available to low/moderate income persons. One (1) economic development grants totaling approximately \$150,000 were awarded. Two (2) tourism development grants were awarded totaling approximately \$600,000.

Housing Category: The primary state objective of this category is to respond to regional needs for affordable, decent, safe and appropriate housing as part of balanced economic

development in Nebraska. The state invests in rehabilitation of existing housing for low and moderate-income homeowners using a regional and community level service delivery system. Nine (9) grants were awarded for approximately \$1.9 million.

Summary of Citizens' Comments

As described in Section One of the report, there were no citizens' comments during the 2012 Consolidated Annual Performance Report's public comment period.

Evaluation of Extent of Low and Moderate Income Benefit

Evaluation of benefit to low-and-moderate income persons is contained in the summary information on grantees as a part of this report. Of the \$3,999,000 of 2012 funds which had been obligated to projects during the 2012 Program Year, \$225,883 went to grantees as local administration. Of the \$3,773,117 that went to project activities, 98% percent was used to benefit low and moderate-income persons. Of the total 2012 allocation available for project awards, so far, 30% has been used to benefit low and moderate-income persons. At end of the 2012 Program Year, the Department had obligated only a small portion of the 2012 allocation, and therefore this percentage will increase as these funds are obligated to projects.

Updated Evaluation of Extent of Low and Moderate Income Benefit – 2019 APR

Evaluation of benefit to low and moderate income persons is contained in the summary information on grantees as a part of this report. A total of \$9,509,458.41 was obligated to project activities (excludes state and grantee administration and technical assistance) from the 2012 allocation, 79.30% percent of these funds were used to benefit low and moderate income persons. See Part I.

Explanation of Nature and Reasons for Changes in Program Objectives

There were no changes in program objectives.

Changes as Results of Experience

There were no changes as a result of experience.

Summary of Technical Assistance Funding

The State of Nebraska uses its CDBG Technical Assistance funding to produce the Certified CDBG Administrator Training Workshops. As of March 1, 1996, the State of Nebraska requires the formal certification of all persons administering Community Development Block Grant (CDBG) projects in Nebraska. These workshops are conducted annually by the Community and Rural Development Division of DED and are scheduled to coincide with CDBG funding cycles. Anyone seeking the certified administrator designation must complete and pass the written exam. CDBG TA funds went towards conducting Environmental Review Training, Labor Standards, Property Acquisition and Compliance Monitoring for local officials and Certified Administrators. The Community and Rural Development Division staff conducts the environmental training. CDBG technical assistance (TA) funds were also used in other projects during the program year.

CDBG TA funds went towards the support of the Nebraska Chapter of the American Planning Association (APA), training for local planning officials. Approximately \$7,500 was used to support scholarships for attendees and for training costs not covered by registrations at the Nebraska Chapter APA Institutes in April 2012.

CDBG TA funds were also distributed to the Lincoln Commission on Human Rights to assist with costs associated with fair housing training at the Annual Fair Housing Conference held in Lincoln, Nebraska.

Part III: Civil Rights Summary

State's Review of Civil Rights

All grantees receive training in the civil rights rules and regulations during training sessions. Training sessions are reinforced with notices and updates through the CDBG Bulletin, which is published on an as needed basis.

Each grantee's program eligibility criteria are reviewed to determine whether the criteria or methods of administration may have the effect of subjecting individuals to discrimination on the basis of race, color, age, sex, national origin or disability.

Comparisons are made between recent census data regarding those protected classes and the percentages of those protected classes participating and receiving benefits from CDBG funds.

All grantees are required to maintain, on an ongoing basis, and on file permanently, numerical and percentage documentation and information regarding the following:

1. Total beneficiaries in project
2. Total numbers of males/females.
3. Actual number of Whites, Blacks, Hispanics, Asians, Native Americans, and others.
4. Percentages of males, females, minorities, female heads of household, disabled population, and low to moderate income persons receiving benefits from the project funds.

Program representatives are required to consider this information, compared with census data, and determine if there is any indication any person and/or group of persons were denied benefits or employment on the grounds of race, age, sex, or disability.

In addition, the state reviews the grantee's compliance with Section 504 and the Americans with Disabilities Act. Grantees must have conducted a self-evaluation of their facilities and their programs as they relate to the ADA/Section 504 compliance. In addition, the grantee must have on file, and available for review, a transition plan. The grantee must provide evidence that they are complying or making attempts to comply with these regulations.

Updates and notices regarding ADA/Section 504 compliance are made through the CDBG Bulletin.

The State's review of all information gathered through monitoring visits indicates that grantee CDBG programs are being administered in a manner, which does not deny any benefit or employment on the grounds of race, age, sex, national origin and disability.

States Actions to Affirmatively Further Fair Housing

The State of Nebraska recognizes it shares responsibility with federal and local governments for shaping a regulatory climate that encourages housing while maintaining needed health, safety, environmental, and consumer protections. The cost, benefits, and tradeoffs of various regulations must be weighed carefully so they promote the affordability and availability of housing. In addition, the administration of regulations must be done in a way that reduces costs and delays.

DED's Housing Strategies are developed to remove barriers to affordable housing and foster and maintain affordable housing. Please refer to the Housing Priority Section of the 2012 Annual Performance Report to review that information for the 2012 Program Year.

DED recognizes that it can, and where appropriate DED does, take action to overcome impediments to fair housing choice within the State of Nebraska. During the 2012 Program Year, DED undertook the following actions:

DED trained 52 community representatives on housing law, including education about the fair housing complaint system, as well as design and construction standards at CDBG certification trainings.

DED actively participated on the Fair Housing Conference planning committee to ensure that appropriate training and educational opportunities were offered to communities and other representatives across the state regarding fair housing and the barriers to fair housing choice.

The Housing Priority of the Annual Action Plan addresses how the State attempts to remove barriers to affordable housing. An Analysis of Impediments to Fair Housing Choice (AI) was prepared in support of the *Consolidated Plan*. The State of Nebraska is required by HUD to complete an Analysis of Impediments to Fair Housing Choice; take actions to overcome the effects of any impediments identified; and maintain records reflecting the actions taken in response to the analysis. The purpose of the Analysis of Impediments is to foster a careful examination on a state-wide basis, those factors which restrict or preclude fair housing choice.

In the summer of 2011, the Department of Economic Development (DED) contracted with Western Economic Services (WES) of Portland Oregon to satisfy the first requirement which is to conduct an Analysis of Impediments to fair housing choices outside of the Omaha, Lincoln metro area.

A copy of the entire Analysis of Impediments that has been prepared by WES is available on the DED website at: <http://www.neded.org/community/community-info/documentslibrary-a-forms> under the Section titled Nebraska Fair Housing Strategy.

Additional information within the Nebraska Fair Housing Strategy Section also includes information from the AI Presentation and information from previous AI's completed by the Department.

In the preparation of the Analysis of Impediments to Fair Housing Choice (AI) Western Economic Services performed both qualitative and quantitative research which included:

- Socio-economic and housing data from the U.S. Census Bureau;
- Employment data from the U.S. Bureau of Labor Statistics;
- Economic data from the U.S. Bureau of Economic Analysis;
- Investment data from the Community Reinvestment Act;
- Home purchase data from the Home Mortgage Disclosure Act; and
- Housing complaint data from the U.S. Department of Housing and Urban Development and the Nebraska Equal Opportunity Commission.

As well as:

- A fair housing survey of 690 stakeholders throughout the area to investigate fair housing issues in the private and public sectors;

- A planning and zoning survey to identify possible barriers to fair housing choice in established zoning and land use decisions; and
- A fair housing forum broadcast to several locations throughout the state to allow public input and reaction to preliminary findings of the AI.

From that research, WES was able to identify nine (9) public sector and seven (7) private sector impediments. These impediments included:

- Refusal to rent by rental property managers
- Lack of local code enforcement
- Lack of local fair housing policies, ordinances, or regulations
- Inadequate fair housing outreach and education activities
- Insufficient establishment and enforcement of building codes regarding special needs housing
- Discriminatory terms and conditions offered in rental markets
- Failure to make reasonable accommodations
- Lack of actions for affirmatively furthering fair housing by CDBG sub-recipients
- Shortage of fair housing services
- Issuance of predatory-type loans in the home purchase markets
- Denial of home purchase loans
- Lack of statewide fair housing cooperation
- Steering in the real estate markets
- Lack of collaboration among fair housing agencies to contribute to the AI process
- Discriminatory terms and conditions relating to sale
- Language barriers in permitting processes

From this information the Department developed a 2011 Analysis of Impediments to Fair Housing Choice Implementation Plan. This two year plan included measurable and observable objectives that DED would periodically monitor for progress towards the goals of alleviating or eliminating these impediments to fair housing choice.

During the 2012 Program Year, the Department, in coordination with a variety of organizations who had experience working within the fair housing arena and which included: the Nebraska Equal Opportunity Commission (NEOC); the Nebraska Housing Developers Association; High Plains CDC; and Family Housing Advisory Services worked on developing an action plan in which the impediments identified within the AI were prioritized and resources were allocated to a number of activities (See the Sources and Uses Table on following page).

The Department continued to monitor the progress of these activities during the 2012 Program Year and will continue to review the actions taken during the 2013 Program Year as well. The Implementation of the Plan included the Department committed \$200,000 in Administration and Technical Assistance funds and \$75,000 in project funds from the Nebraska Affordable Housing Trust Fund in each of the next two years to address these impediments. The exact mechanism for the distribution of these funds is yet to be decided, but a proposal is noted in the Fair Housing Table. Some of the actions identified in the Table began in 2012, but accomplishments will not be fully realized until the end of the 2013 Program Year (June 2014).

Overall, the Implementation Plan is intended to be a dynamic plan to address the impediments to Fair Housing Choice as identified in the 2011 AI. The impediments that have been identified as the most pressing have been discussed by the various participating groups as have the proposed actions to be taken.

The Department believes there is a general consensus of the goals of the plan although there has been some discussion of who best can carry out some of those actions. One of the unstated impediments, but certainly one of the goals, is to further cooperation and collaboration of the various fair housing organizations.

The Department has requested progress reports from each of the groups identified within the Sources and Uses Table, and will make adjustments to the implementation plan based on those findings. The current status of each of the goals is noted within the Table:

SOURCES→	CDBG Admin	CDBG TA	HOME Admin	TF Admin	NSP ¹ Admin	TF Project	TOTALS
USES (Activities)							
Fair Housing Testing (Underway)							
NEOC			\$14,000				\$14,000
Family Housing Advisory Services, Inc. ²		\$14,000					\$14,000
High Plains Community Development Corporation, Inc. ³		\$7,000					\$7,000

Making Homes Accessible / Grant (Underway)						\$75,000	\$75,000
Development of a Guidebook for Property Maintenance Standards and Special Needs Housing (Being Evaluated)		\$15,000	\$15,000	\$15,000			\$45,000
Local policy inventory (Being Evaluated)	\$20,000				\$40,000 ⁵		\$60,000
Fair Housing Conference (financial support) (Completed)		\$10,000					\$10,000
TOTALS:	\$45,000	\$46,000	\$54,000	\$20,000	\$40,000	\$75,000	\$275,000

¹ Can only be used in: (1) Central City; (2) Cozad; (3) Hastings; and (4) Kearney

^{2,3,4} For educational activities related to Cities and Counties

⁵ \$10,000 each, Central City, Cozad, Hastings, and Kearney

Section 3

The State provided training to grant administrators on Section 3 outreach and responsibilities. In addition, the State modified and provided Certification as a Section 3 Resident and Certification as a Section 3 Business Concern forms made easily accessible on the Department web-site for communities to use for Certification and outreach to Section 3 residents and businesses.

State's Actions to Increase WBE/MBE Participation – The state provided guidance and training to administrators and grantees on appropriate procurement and bidding procedures to allow for more WBE/MBE business opportunities.

PART I - FINANCIAL STATUS AND NATIONAL OBJECTIVES

GRANT NO: B-13-DC-31-0001

REPORTING PERIOD

Data as of: June 30, 2020

07/01/2013 - 06/30/2014

1. FINANCIAL STATUS

A. Total Funds	\$12,721,532.00
<i>Allocation</i>	\$10,423,511.00
<i>Program Income</i>	\$2,298,021.00
B. Amount Obligated To Recipients (Total)	\$10,010,806.00
C. Amount Drawn Down	\$10,325,733.76
D. Amount For State Administration	\$308,470.00
E. Amount For Technical Assistance	\$104,235.33

2. NATIONAL OBJECTIVE

A. Period Specified For Benefit	2013 - 2015
B. Amounts Used To:	
1. Benefit To Low/Moderate Income Persons	\$8,787,842.60
2. Prevent/Eliminate Slums/Blight	\$677,889.00
3. Meet Urgent Community Development Needs	\$0.00
4. Acquisition/Rehabilitation Noncountable	\$0.00
5. Local Administration	\$545,074.40

Part II: Relationship of the Use of Funds to the State's Objectives

"The primary national CDBG objective is to develop viable urban communities by providing decent housing, suitable living environments, and expanding economic opportunities, principally for low- and moderate-income persons (LMI)." The State of Nebraska's 2013 CDBG program furthered this national objective through investing in quality communities and quality projects designed to meet the objectives for three priorities: Housing, Community Development, and Economic Development.

During the 2013 Program Year, the Nebraska Department of Economic Development awarded fifty-nine (59) grants in the amount of approximately \$9.5 million. CDBG funding was distributed within the Community Development, Economic Development, and Housing Categories. A detailed breakdown of these categories included:

Community Development Category: The primary state objective for this category is to strengthen Nebraska communities through community development programs and services, which provide a stable platform for economic development. This category includes: planning, public works, water/wastewater, comprehensive revitalization, comprehensive investment & stabilization, and downtown revitalization. Forty-seven (47) grants were awarded for approximately \$6 million and included:

- **Planning:** The primary objective is to provide communities the opportunity to solve problems and meet citizens' needs through a community planning process that assesses community needs, develops options for meeting those needs, and packages work plans or carry out processes that lead to successful projects. In total, thirteen (13) grants were awarded for a total of \$288,725.
- **Public Works:** Six (6) grants were awarded for \$1,166,000.
- **Water/Wastewater:** Three (3) grants were awarded for \$750,000.
- **Comprehensive Revitalization:** Thirteen (13) grants were awarded for \$3,293,400.
- **Comprehensive Investment & Stabilization:** Six (6) grants were awarded for \$59,000.
- **Downtown Revitalization:** Three (3) grants were awarded for \$456,000.

Economic Development Category: The primary state objective for this category is to foster the competitiveness of Nebraska's business and industrial sector—and as a result—assist in the economic development of Nebraska's communities and people. Local governments receive grants to provide appropriate assistance to businesses through working capital and fixed asset loans, loan guarantees, equity investments, job training, or public works grants. Financial assistance to local governments is awarded to diversify the state's economy while leveraging private sector investment, and providing jobs of which at least 51% should be available to low/moderate income persons. Three (3) economic development grants totaling \$1,218,000 were awarded. Zero (0) tourism development grant was awarded totaling \$0.

Housing Category: The primary state objective of this category is to respond to regional needs for affordable, decent, safe and appropriate housing as part of balanced economic development in Nebraska. The state invests in rehabilitation of existing housing for low and moderate-income homeowners using a regional and community level service delivery system. Nine (9) grants were awarded for \$2,325,000.

Summary of Citizens' Comments

As described in Section One of the report, there were no citizens' comments during the 2013 Consolidated Annual Performance Report's public comment period.

Evaluation of Extent of Low and Moderate Income Benefit

Evaluation of benefit to low-and-moderate income persons is contained in the summary information on grantees as a part of this report. Of the \$2,513,719.45 of 2013 funds which had been obligated to projects during the 2013 Program Year, \$192,845 went to grantees as local administration. Of the \$2,320,874.45 that went to project activities, 100% was used to benefit low and moderate-income persons. Of the total 2013 allocation available for project awards, so far, 19% has been used to benefit low and moderate-income persons. At end of the 2013 Program Year, the Department had obligated only a small portion of the 2013 allocation, and therefore this percentage will increase as these funds are obligated to projects.

Updated Evaluation of Extent of Low and Moderate Income Benefit - 2019 APR

Evaluation of benefit to low and moderate income persons is contained in the summary information on grantees as a part of this report. A total of \$10,010,806 was obligated to projects (excludes state and grantee administration and technical assistance) from the 2013 allocation, 87.78% of these funds were used to benefit low and moderate income persons. See Part I.

Explanation of Nature and Reasons for Changes in Program Objectives

There were no changes in program objectives.

Changes as Results of Experience

There were no changes as a result of experience.

Summary of Technical Assistance Funding

The State of Nebraska uses its CDBG Technical Assistance funding to produce the Certified CDBG Administrator Training Workshops. As of March 1, 1996, the State of Nebraska requires the formal certification of all persons administering Community Development Block Grant (CDBG) projects in Nebraska. These workshops are conducted annually by the Community and Rural Development Division of DED and are scheduled to coincide with CDBG funding cycles. Anyone seeking the certified administrator designation must complete and pass the written exam. CDBG TA funds went towards conducting Environmental Review Training, Labor Standards, Property Acquisition and Compliance Monitoring for local officials and Certified Administrators. The Community and Rural Development Division staff conducts the

environmental training. CDBG technical assistance (TA) funds were also used in other projects during the program year.

CDBG TA funds went towards the support of the Nebraska Chapter of the American Planning Association (APA), training for local planning officials. Approximately \$7,500 was used to support scholarships for attendees and for training costs not covered by registrations at the Nebraska Chapter APA Institutes in April 2013.

CDBG TA funds were also distributed to the Lincoln Commission on Human Rights to assist with costs associated with fair housing training at the Annual Fair Housing Conference held in Lincoln, Nebraska.

Part III: Civil Rights Summary

State's Review of Civil Rights

All grantees receive training in the civil rights rules and regulations during training sessions. Training sessions are reinforced with notices and updates through the CDBG Bulletin, which is published on an as needed basis.

Each grantee's program eligibility criteria are reviewed to determine whether the criteria or methods of administration may have the effect of subjecting individuals to discrimination on the basis of race, color, age, sex, national origin or disability.

Comparisons are made between recent census data regarding those protected classes and the percentages of those protected classes participating and receiving benefits from CDBG funds.

All grantees are required to maintain, on an ongoing basis, and on file permanently, numerical and percentage documentation and information regarding the following:

1. Total beneficiaries in project
2. Total numbers of males/females.
3. Actual number of Whites, Blacks, Hispanics, Asians, Native Americans, and others.
4. Percentages of males, females, minorities, female heads of household, disabled population, and low to moderate income persons receiving benefits from the project funds.

Program representatives are required to consider this information, compared with census data, and determine if there is any indication any person and/or group of persons were denied benefits or employment on the grounds of race, age, sex, or disability.

In addition, the state reviews the grantee's compliance with Section 504 and the Americans with Disabilities Act. Grantees must have conducted a self-evaluation of their facilities and their programs as they relate to the ADA/Section 504 compliance. In addition, the grantee must have on file, and available for review, a transition plan. The grantee must provide evidence that they are complying or making attempts to comply with these regulations.

Updates and notices regarding ADA/Section 504 compliance are made through the CDBG Bulletin.

The State's review of all information gathered through monitoring visits indicates that grantee CDBG programs are being administered in a manner, which does not deny any benefit or employment on the grounds of race, age, sex, national origin and disability.

States Actions to Affirmatively Further Fair Housing

The State of Nebraska recognizes it shares responsibility with federal and local governments for shaping a regulatory climate that encourages housing while maintaining needed health, safety, environmental, and consumer protections. The cost, benefits, and tradeoffs of various regulations must be weighed carefully so they promote the affordability and availability of housing. In addition, the administration of regulations must be done in a way that reduces costs and delays.

DED's Housing Strategies are developed to remove barriers to affordable housing and foster and maintain affordable housing. Please refer to the Housing Priority Section of the 2013 Annual Performance Report to review that information for the 2013 Program Year.

DED recognizes that it can, and where appropriate DED does, take action to overcome impediments to fair housing choice within the State of Nebraska. During the 2013 Program Year, DED undertook the following actions:

DED trained 50 community representatives on housing law, including education about the fair housing complaint system, as well as design and construction standards at CDBG certification trainings.

DED actively participated on the Fair Housing Conference planning committee to ensure that appropriate training and educational opportunities were offered to communities and other representatives across the state regarding fair housing and the barriers to fair housing choice.

The Housing Priority of the Annual Action Plan addresses how the State attempts to remove barriers to affordable housing. An Analysis of Impediments to Fair Housing Choice (AI) was prepared in support of the *Consolidated Plan*. The State of Nebraska is required by HUD to complete an Analysis of Impediments to Fair Housing Choice; take actions to overcome the effects of any impediments identified; and maintain records reflecting the actions taken in response to the analysis. The purpose of the Analysis of Impediments is to foster a careful examination on a state-wide basis, those factors which restrict or preclude fair housing choice.

In the summer of 2011, the Department of Economic Development (DED) contracted with Western Economic Services (WES) of Portland Oregon to satisfy the first requirement which is to conduct an Analysis of Impediments to fair housing choices outside of the Omaha, Lincoln metro area.

A copy of the entire Analysis of Impediments that has been prepared by WES is available on the DED website at: <http://www.neded.org/community/community-info/documentslibrary-a-forms> under the Section titled Nebraska Fair Housing Strategy.

Additional information within the Nebraska Fair Housing Strategy Section also includes information from the AI Presentation and information from previous AI's completed by the Department.

In the preparation of the Analysis of Impediments to Fair Housing Choice (AI) Western Economic Services performed both qualitative and quantitative research which included:

- Socio-economic and housing data from the U.S. Census Bureau;
- Employment data from the U.S. Bureau of Labor Statistics;
- Economic data from the U.S. Bureau of Economic Analysis;
- Investment data from the Community Reinvestment Act;
- Home purchase data from the Home Mortgage Disclosure Act; and
- Housing complaint data from the U.S. Department of Housing and Urban Development and the Nebraska Equal Opportunity Commission.

As well as:

- A fair housing survey of 690 stakeholders throughout the area to investigate fair housing issues in the private and public sectors;

- A planning and zoning survey to identify possible barriers to fair housing choice in established zoning and land use decisions; and
- A fair housing forum broadcast to several locations throughout the state to allow public input and reaction to preliminary findings of the AI.

From that research, WES was able to identify nine (9) public sector and seven (7) private sector impediments. These impediments included:

- Refusal to rent by rental property managers
- Lack of local code enforcement
- Lack of local fair housing policies, ordinances, or regulations
- Inadequate fair housing outreach and education activities
- Insufficient establishment and enforcement of building codes regarding special needs housing
- Discriminatory terms and conditions offered in rental markets
- Failure to make reasonable accommodations
- Lack of actions for affirmatively furthering fair housing by CDBG sub-recipients
- Shortage of fair housing services
- Issuance of predatory-type loans in the home purchase markets
- Denial of home purchase loans
- Lack of statewide fair housing cooperation
- Steering in the real estate markets
- Lack of collaboration among fair housing agencies to contribute to the AI process
- Discriminatory terms and conditions relating to sale
- Language barriers in permitting processes

From this information the Department developed a 2011 Analysis of Impediments to Fair Housing Choice Implementation Plan. This two year plan included measurable and observable objectives that DED would periodically monitor for progress towards the goals of alleviating or eliminating these impediments to fair housing choice.

During the 2012 Program Year, the Department, in coordination with a variety of organizations who had experience working within the fair housing arena and which included: the Nebraska Equal Opportunity Commission (NEOC); the Nebraska Housing Developers Association; High Plains CDC; and Family Housing Advisory Services worked on developing an action plan in which the impediments identified within the AI were prioritized and resources were allocated to a number of activities (See the Sources and Uses Table on following page).

The Department continued to monitor the progress of these activities during the 2013 Program Year and will continue to review the actions taken during the 2014 Program Year as well. The Implementation of the Plan included the Department committed \$200,000 in Administration and Technical Assistance funds and \$75,000 in project funds from the Nebraska Affordable Housing Trust Fund in each of the next two years to address these impediments. The exact mechanism for the distribution of these funds is yet to be decided, but a proposal is noted in the Fair Housing Table. Some of the actions identified in the Table began in 2012, but accomplishments will not be fully realized until the end of the 2013 Program Year (June 2014).

Overall, the Implementation Plan is intended to be a dynamic plan to address the impediments to Fair Housing Choice as identified in the 2011 AI. The impediments that have been identified as the most pressing have been discussed by the various participating groups as have the proposed actions to be taken.

The Department believes there is a general consensus of the goals of the plan although there has been some discussion of who best can carry out some of those actions. One of the unstated impediments, but certainly one of the goals, is to further cooperation and collaboration of the various fair housing organizations.

The Department has requested progress reports from each of the groups identified within the Sources and Uses Table, and will make adjustments to the implementation plan based on those findings. The current status of each of the goals is noted within the Table on the following page.

SOURCES→	CDBG Admin	CDBG TA	HOME Admin	TF Admin	NSP ¹ Admin	TF Project	TOTALS

¹ Can only be used in: (1) Central City; (2) Cozad; (3) Hastings; and (4) Kearney

^{2,3,4} For educational activities related to Cities and Counties

⁵ \$10,000 each, Central City, Cozad, Hastings, and Kearney

Section 3

The State provided training to grant administrators on Section 3 outreach and responsibilities. In addition, the State modified and provided *Certification as a Section 3 Resident* and *Certification as a Section 3 Business Concern* forms made easily accessible on the Department web-site for communities to use for certification and outreach to Section 3 residents and businesses.

State's Actions to Increase WBE/MBE Participation – The state provided guidance and training to administrators and grantees on appropriate procurement and bidding procedures to allow for more WBE/MBE business opportunities.

Nebraska CDBG Performance Evaluation Report:

Grant No: B-14-DC-31-0001

- PART I:
 - *Financial Status*
 - *National Objectives*
 - *Grant Activities Summary*

- PART II:
 - *Assessment of Relationships of Use of Funds to State Objectives*

- PART III:
 - *Civil Rights Data for Program Applicants & Beneficiaries*

PART I - FINANCIAL STATUS AND NATIONAL OBJECTIVES

GRANT NO: B-14-DC-31-0001

REPORTING PERIOD

Data as of: June 30, 2020

07/01/2014 - 06/30/2015

1. FINANCIAL STATUS

A. Total Funds	\$11,836,761.00
<i>Allocation</i>	\$10,348,471.00
<i>Program Income</i>	\$1,488,290.00
B. Amount Obligated To Recipients (Total)	\$9,751,316.24
C. Amount Drawn Down	\$9,773,411.97
D. Amount For State Administration	\$306,969.00
E. Amount For Technical Assistance	\$103,485.00

2. NATIONAL OBJECTIVE

A. Period Specified For Benefit	2013 - 2015
B. Amounts Used To:	
1. Benefit To Low/Moderate Income Persons	\$7,911,245.18
2. Prevent/Eliminate Slums/Blight	\$1,164,524.86
3. Meet Urgent Community Development Needs	\$0.00
4. Acquisition/Rehabilitation Noncountable	\$0.00
5. Local Administration	\$675,546.20

Part II: Relationship of the Use of Funds to the State's Objectives

"The primary national CDBG objective is to develop viable urban communities by providing decent housing, suitable living environments, and expanding economic opportunities, principally for low- and moderate-income persons (LMI)." The State of Nebraska's 2014 CDBG program furthered this national objective through investing in quality communities and quality projects designed to meet the objectives for three priorities: Housing, Community Development, and Economic Development.

During the 2014 Program Year, the Nebraska Department of Economic Development awarded fifty-one (51) grants in the amount of \$8.5 million. CDBG funding was distributed within the Community Development, Economic Development, and Housing Categories. A detailed breakdown of these categories included:

Community Development Category: The primary state objective for this category is to strengthen Nebraska communities through community development programs and services, which provide a stable platform for economic development. This category includes: planning, public works, water/wastewater, comprehensive revitalization, comprehensive investment & stabilization, and downtown revitalization. Thirty-nine (39) grants were awarded for approximately \$5 million and included:

- **Planning:** The primary objective is to provide communities the opportunity to solve problems and meet citizens' needs through a community planning process that assesses community needs, develops options for meeting those needs, and packages work plans or carry out processes that lead to successful projects. In total, ten (10) grants were awarded for a total of \$246,784.
- **Public Works:** Eight (8) grants were awarded for \$1,779,800.
- **Water/Wastewater:** Three (3) grants were awarded for \$750,000.
- **Comprehensive Revitalization:** Twelve (12) grants were awarded for \$2,295,000.
- **Comprehensive Investment & Stabilization:** Zero (0) there were no CIS projects awarded during the 2014 Program Year.
- **Downtown Revitalization:** Six (6) grants were awarded for \$75,350.

Economic Development Category: The primary state objective for this category is to foster the competitiveness of Nebraska's business and industrial sector—and as a result—assist in the economic development of Nebraska's communities and people. Local governments receive grants to provide appropriate assistance to businesses through working capital and fixed asset loans, loan guarantees, equity investments, job training, or public works grants. Financial assistance to local governments is awarded to diversify the state's economy while leveraging private sector investment, and providing jobs of which at least 51% should be available to low/moderate income persons. Two (2) economic development grants totaling approximately \$872,955 were awarded. Two (2) tourism development grants were awarded totaling \$463,400.

Housing Category: The primary state objective of this category is to respond to regional needs for affordable, decent, safe and appropriate housing as part of balanced economic development in Nebraska. The state invests in rehabilitation of existing housing for low and moderate-income homeowners using a regional and community level service delivery system. Eight (8) grants were awarded for \$2,044,535.

Summary of Citizens' Comments

As described in Section One of the report, there were no citizens' comments during the 2014 Consolidated Annual Performance Report's public comment period.

Evaluation of Extent of Low and Moderate Income Benefit 2014 APR

Evaluation of benefit to low-and-moderate income persons is contained in the summary information on grantees as a part of this report. Of the \$3,822,237.72 of 2014 funds which had been obligated to projects during the 2014 Program Year, \$279,915 went to grantees as local administration. Of the \$3,542,322.72 that went to project activities, 100% was used to benefit low and moderate-income persons. Of the total 2014 allocation available for project awards, so far, 32% has been used to benefit low and moderate-income persons. At end of the 2014 Program Year, the Department had obligated only a small portion of the 2014 allocation, and therefore this percentage will increase as these funds are obligated to projects.

Updated Evaluation of Extent of Low and Moderate Income Benefit 2019 APR

Evaluation of benefit to low and moderate income persons is contained in the summary information on grantees as a part of this report. A total of \$9,924,757 was obligated to project activities (excludes state and grantee administration and technical assistance) from the 2014 allocation, 81.13% percent of these funds were used to benefit low and moderate income persons. See Part I.

Explanation of Nature and Reasons for Changes in Program Objectives

There were no changes in program objectives.

Changes as Results of Experience

There were no changes as a result of experience.

Summary of Technical Assistance Funding

The State of Nebraska uses its CDBG Technical Assistance funding to produce the Certified CDBG Administrator Training Workshops. As of March 1, 1996, the State of Nebraska requires the formal certification of all persons administering Community Development Block Grant (CDBG) projects in Nebraska. These workshops are conducted annually by the Housing and Community Development Division of DED and are scheduled to coincide with CDBG funding cycles. Anyone seeking the certified administrator designation must complete and pass the written exam. CDBG TA funds went towards conducting Environmental Review Training, Labor Standards, Property Acquisition and Compliance Monitoring for local officials and Certified Administrators. The Housing and Community Development staff conducts the environmental

training. CDBG technical assistance (TA) funds were also used in other projects during the program year.

CDBG TA funds went towards the support of the Nebraska Chapter of the American Planning Association (APA), training for local planning officials. Approximately \$7,500 was used to support scholarships for attendees and for training costs not covered by registrations at the Nebraska Chapter APA Institutes in April 2013.

CDBG TA funds were distributed to the Lincoln Commission on Human Rights to assist with costs associated with fair housing training at the Annual Civil Rights Conference held in Lincoln, Nebraska.

Part III: Civil Rights Summary

State's Review of Civil Rights

All grantees receive training in the civil rights rules and regulations during training sessions. Training sessions are reinforced with notices and updates through the CDBG Bulletin, which is published on an as needed basis.

Each grantee's program eligibility criteria are reviewed to determine whether the criteria or methods of administration may have the effect of subjecting individuals to discrimination on the basis of race, color, age, sex, national origin or disability.

Comparisons are made between recent census data regarding those protected classes and the percentages of those protected classes participating and receiving benefits from CDBG funds.

All grantees are required to maintain, on an ongoing basis, and on file permanently, numerical and percentage documentation and information regarding the following:

1. Total beneficiaries in project
2. Total numbers of males/females.
3. Actual number of Whites, Blacks, Hispanics, Asians, Native Americans, and others.
4. Percentages of males, females, minorities, female heads of household, disabled population, and low to moderate income persons receiving benefits from the project funds.

Program representatives are required to consider this information, compared with census data, and determine if there is any indication any person and/or group of persons were denied benefits or employment on the grounds of race, age, sex, or disability.

In addition, the state reviews the grantee's compliance with Section 504 and the Americans with Disabilities Act. Grantees must have conducted a self-evaluation of their facilities and their programs as they relate to the ADA/Section 504 compliance. In addition, the grantee must have on file, and available for review, a transition plan. The grantee must provide evidence that they are complying or making attempts to comply with these regulations.

Updates and notices regarding ADA/Section 504 compliance are made through the CDBG Bulletin.

The State's review of all information gathered through monitoring visits indicates that grantee CDBG programs are being administered in a manner, which does not deny any benefit or employment on the grounds of race, age, sex, national origin and disability.

States Actions to Affirmatively Further Fair Housing

The State of Nebraska recognizes it shares responsibility with federal and local governments for shaping a regulatory climate that encourages housing while maintaining needed health, safety, environmental, and consumer protections. The cost, benefits, and tradeoffs of various regulations must be weighed carefully so they promote the affordability and availability of housing. In addition, the administration of regulations must be done in a way that reduces costs and delays.

DED's Housing Strategies are developed to remove barriers to affordable housing and foster and maintain affordable housing. Please refer to the Housing Priority Section of the 2014 Annual Performance Report to review that information for the 2014 Program Year.

DED recognizes that it can, and where appropriate DED does, take action to overcome impediments to fair housing choice within the State of Nebraska. During the 2014 Program Year, DED undertook the following actions:

DED trained 45 community representatives on housing law, including education about the fair housing complaint system, as well as design and construction standards at CDBG certification trainings.

The Housing Priority of the Annual Action Plan addresses how the State attempts to remove barriers to affordable housing. An Analysis of Impediments to Fair Housing Choice (AI) was prepared in support of the *Consolidated Plan*. The State of Nebraska is required by HUD to complete an Analysis of Impediments to Fair Housing Choice; take actions to overcome the effects of any impediments identified; and maintain records reflecting the actions taken in response to the analysis. The purpose of the Analysis of Impediments is to foster a careful examination on a state-wide basis, those factors which restrict or preclude fair housing choice.

In the summer of 2011, the Department of Economic Development (DED) contracted with Western Economic Services (WES) of Portland Oregon to satisfy the first requirement which is to conduct an Analysis of Impediments to fair housing choices outside of the Omaha, Lincoln metro area.

A copy of the entire Analysis of Impediments that has been prepared by WES is available on the DED website at: <http://www.neded.org/community/community-info/documentslibrary-a-forms> under the Section titled Nebraska Fair Housing Strategy.

Additional information within the Nebraska Fair Housing Strategy Section also includes information from the AI Presentation and information from previous AI's completed by the Department.

In the preparation of the Analysis of Impediments to Fair Housing Choice (AI) Western Economic Services performed both qualitative and quantitative research which included:

- Socio-economic and housing data from the U.S. Census Bureau;
- Employment data from the U.S. Bureau of Labor Statistics;
- Economic data from the U.S. Bureau of Economic Analysis;
- Investment data from the Community Reinvestment Act;
- Home purchase data from the Home Mortgage Disclosure Act; and
- Housing complaint data from the U.S. Department of Housing and Urban Development and the Nebraska Equal Opportunity Commission.

as well as:

- A fair housing survey of 690 stakeholders throughout the area to investigate fair housing issues in the private and public sectors;
- A planning and zoning survey to identify possible barriers to fair housing choice in established zoning and land use decisions; and
- A fair housing forum broadcast to several locations throughout the state to allow public input and reaction to preliminary findings of the AI.

From that research, WES was able to identify nine (9) public sector and seven (7) private sector impediments. These impediments included:

- Refusal to rent by rental property managers
- Lack of local code enforcement
- Lack of local fair housing policies, ordinances, or regulations
- Inadequate fair housing outreach and education activities
- Insufficient establishment and enforcement of building codes regarding special needs housing
- Discriminatory terms and conditions offered in rental markets
- Failure to make reasonable accommodations
- Lack of actions for affirmatively furthering fair housing by CDBG sub-recipients
- Shortage of fair housing services
- Issuance of predatory-type loans in the home purchase markets
- Denial of home purchase loans
- Lack of statewide fair housing cooperation
- Steering in the real estate markets
- Lack of collaboration among fair housing agencies to contribute to the AI process
- Discriminatory terms and conditions relating to sale
- Language barriers in permitting processes

From this information the Department developed a 2011 Analysis of Impediments to Fair Housing Choice Implementation Plan. This two-year plan included measurable and observable objectives that DED would periodically monitor for progress towards the goals of alleviating or eliminating these impediments to fair housing choice.

During the 2012 Program Year, the Department, in coordination with a variety of organizations who had experience working within the fair housing arena and which included: the Nebraska Equal Opportunity Commission (NEOC); the Nebraska Housing Developers Association; High Plains CDC; and Family Housing Advisory Services worked on developing an action plan in which the impediments identified within the AI were prioritized and resources were allocated to a number of activities (See the Sources and Uses Table on following page).

The Department continued to monitor the progress of these activities during the 2013 Program Year and will continue to review the actions taken during the 2014 Program Year as well. The Implementation of the Plan included the Department committed \$200,000 in Administration and Technical Assistance funds and \$75,000 in project funds from the Nebraska Affordable Housing Trust Fund in each of the next two years to address these impediments. The exact mechanism for the distribution of these funds is yet to be decided, but a proposal is noted in the Fair Housing Table. Some of the actions identified in the Table began in 2012, but accomplishments will not be fully realized until the end of the 2014 Program Year (June 2015).

Overall, the Implementation Plan is intended to be a dynamic plan to address the impediments to Fair Housing Choice as identified in the 2011 AI. The impediments that have been identified as the most pressing have been discussed by the various participating groups as have the proposed actions to be taken. The Department believes there is a general consensus of the goals of the plan although there has been some discussion of who best can carry out some of those actions. One of the unstated impediments, but certainly one of the goals, is to further cooperation and collaboration of the various fair housing organizations.

The Department has requested progress reports from each of the groups identified within the Sources and Uses Table, and will make adjustments to the implementation plan based on those findings. The current status of each of the goals is noted within the Table below.

SOURCES→	CDBG Admin	CDBG TA	HOME Admin	TF Admin	NSP ¹ Admin	TF Project	TOTALS

Fair Housing Conference (financial support) (Completed)		\$10,000					\$10,000
TOTALS:	\$45,000	\$46,000	\$54,000	\$20,000	\$40,000	\$75,000	\$275,000

¹ Can only be used in: (1) Central City; (2) Cozad; (3) Hastings; and (4) Kearney

^{2, 3, 4} For educational activities related to Cities and Counties

⁵ \$10,000 each, Central City, Cozad, Hastings, and Kearney

During the 2014 Program, the State reviewed its strategy to affirmatively further fair housing which included:

- Testing, enforcement, and education for landlords and property managers to better understand some barriers to affordable housing;
- Improvements to guidance on barriers to affordable housing and monitoring by DED;
- Partnering with the NEOC (Nebraska Equal Opportunity Commission) and the Fair Housing Center of Nebraska and Iowa in order to improve outreach and education;
- Educating grantees about potential barriers to affordable housing.

In addition, the State continues to include the following actions:

- Evaluating ways in which to attract additional residential contractors, particularly those that are willing to construct moderate priced homes in communities. Some incentives have been proposed which include: providing zero interest loans to contractors to build residential units; providing low priced or free residential lots for development; and also to provide additional points in housing applications for those applicants that compile lists of interested contractors that may work on projects if applications are funded;
- Working with developers and contractors to identify any cost saving measures that might be appropriate to implement in order to save on the cost of materials and labor. In some instances, the State is able to partner with community colleges and high school students who are interested in the trades in working on the development of residential units. These collaborative efforts have been utilized in some housing projects and are encouraged within project development.

- Partnering with housing developers, non-profit entities, and communities in creating additional housing stock throughout the state.
- Working to assist in infrastructure improvements and development for residential areas. This is completed through many of the State's initiatives including through the Nebraska Affordable Housing Program (NHAP).
- Assistance with code enforcement development and implementation is encouraged and implemented in many communities through State programs that include: Comprehensive Revitalization, Comprehensive Investment & Stabilization, and in many other housing initiatives.
- The State will continue to improve the housing conditions of persons who are living in substandard housing by assisting within owner occupied rehabilitation and new residential construction of quality affordable housing.
- The State will continue to reduce the risk of lead based paint hazards in aging housing stock by continuing lead based compliance and reduction efforts for houses that are assisted with state and federal resources.

Section 3

The State provided training to grant administrators on Section 3 outreach and responsibilities. In addition, the State modified and provided *Certification as a Section 3 Resident* and *Certification as a Section 3 Business Concern* forms made easily accessible on the Department web-site for communities to use for certification and outreach to Section 3 residents and businesses.

State's Actions to Increase WBE/MBE Participation – The state provided guidance and training to administrators and grantees on appropriate procurement and bidding procedures to allow for more WBE/MBE business opportunities.

Nebraska CDBG Performance Evaluation Report:

Grant No: B-15-DC-31-0001

- PART I:
 - *Financial Status*
 - *National Objectives*
 - *Grant Activities Summary*

- PART II:
 - *Assessment of Relationships of Use of Funds to State Objectives*

- PART III:
 - *Civil Rights Data for Program Applicants & Beneficiaries*

PART I - FINANCIAL STATUS AND NATIONAL OBJECTIVES

GRANT NO: B-15-DC-31-0001

REPORTING PERIOD

Data as of: June 30, 2020

07/01/2015 - 06/30/2016

1. FINANCIAL STATUS

A. Total Funds	\$11,089,928.00
<i>Allocation</i>	\$9,464,002.00
<i>Program Income</i>	\$1,625,926.00
B. Amount Obligated To Recipients (Total)	\$9,021,626.46
C. Amount Drawn Down	\$8,832,675.70
D. Amount For State Administration	\$383,920.06
E. Amount For Technical Assistance	\$0.00

2. NATIONAL OBJECTIVE

A. Period Specified For Benefit	2013 - 2015
B. Amounts Used To:	
1. Benefit To Low/Moderate Income Persons	\$5,924,668.00
2. Prevent/Eliminate Slums/Blight	\$2,325,274.15
3. Meet Urgent Community Development Needs	\$0.00
4. Acquisition/Rehabilitation Noncountable	\$0.00
5. Local Administration	\$771,684.31

Part II: Relationship of the Use of Funds to the State's Objectives

"The primary national CDBG objective is to develop viable urban communities by providing decent housing, suitable living environments, and expanding economic opportunities, principally for low- and moderate-income persons (LMI)." The State of Nebraska's 2015 CDBG program furthered this national objective through investing in quality communities and quality projects designed to meet the objectives for three priorities: Housing, Community Development, and Economic Development.

During the 2015 Program Year, the Nebraska Department of Economic Development awarded fifty-four (54) grants in the amount of approximately \$9.4. CDBG funding was distributed within the Community Development, Economic Development, and Housing Categories. A detailed breakdown of these categories included:

Community Development Category: The primary state objective for this category is to strengthen Nebraska communities through community development programs and services, which provide a stable platform for economic development. This category includes: planning, public works, water/wastewater, comprehensive revitalization, comprehensive investment & stabilization, and downtown revitalization. Forty-seven (47) grants were awarded for approximately \$7.6 million and included:

- **Planning:** The primary objective is to provide communities the opportunity to solve problems and meet citizens' needs through a community planning process that assesses community needs, develops options for meeting those needs, and packages work plans or carry out processes that lead to successful projects. In total, eleven (11) grants were awarded for a total of \$178,795.
- **Public Works:** Seven (7) grants were awarded for \$1,692,193.
- **Water/Wastewater:** Four (4) grants were awarded for \$861,000.
- **Comprehensive Revitalization:** Six (6) grants were awarded for \$1,834,010.
- **Comprehensive Investment & Stabilization:** Six (6) grants were awarded for \$1,150,000.
- **Downtown Revitalization:** Thirteen (13) grants were awarded for \$1,965,290.

Economic Development Category: The primary state objective for this category is to foster the competitiveness of Nebraska's business and industrial sector—and as a result—assist in the economic development of Nebraska's communities and people. Local governments receive grants to provide appropriate assistance to businesses through working capital and fixed asset loans, loan guarantees, equity investments, job training, or public works grants. Financial assistance to local governments is awarded to diversify the state's economy while leveraging private sector investment, and providing jobs of which at least 51% should be available to low/moderate income persons. Zero (0) economic development grants were awarded. Zero (0) tourism development grant was awarded totaling \$0.

Housing Category: The primary state objective of this category is to respond to regional needs for affordable, decent, safe and appropriate housing as part of balanced economic development in Nebraska. The state invests in rehabilitation of existing housing for low and moderate-income homeowners using a regional and community level service delivery system. Seven (7) grants were awarded for \$1,847,600.

Summary of Citizens' Comments

As described in Section One of the report, there were no citizens' comments during the 2015 Consolidated Annual Performance Report's public comment period.

Evaluation of Extent of Low and Moderate Income Benefit

Evaluation of benefit to low-and-moderate income persons is contained in the summary information on grantees as a part of this report. Of the \$3,522,192.11 of 2015 funds which had been obligated to projects during the 2015 Program Year, \$273,449 went to grantees as local administration. Of the \$3,248,743.10 that went to project activities, 99% was used to benefit low and moderate-income persons. At end of the 2015 Program Year, the Department had obligated only a small portion of the 2015 allocation, and therefore this percentage will increase as these funds are obligated to projects.

Update of Evaluation of Extent of Low and Moderate Income Benefit – 2019 APR

Evaluation of benefit to low and moderate income persons is contained in the summary information on grantees as a part of this report. A total of \$9,021,626.46 was obligated to project activities (excludes state and grantee administration and technical assistance) from the 2015 allocation, 65.67% percent of these funds were used to benefit low and moderate income persons. See Part I.

Explanation of Nature and Reasons for Changes in Program Objectives

There were no changes in program objectives.

Changes as Results of Experience

There were no changes as a result of experience.

Summary of Technical Assistance Funding

The State of Nebraska uses its CDBG Technical Assistance funding to produce the Certified CDBG Administrator Training Workshops. As of March 1, 1996, the State of Nebraska requires the formal certification of all persons administering Community Development Block Grant (CDBG) projects in Nebraska. These workshops are conducted annually by the Housing and Community Development Division of DED and are scheduled to coincide with CDBG funding cycles. Anyone seeking the certified administrator designation must complete and pass the written exam. CDBG TA funds went towards conducting Environmental Review Training, Labor Standards, Property Acquisition and Compliance Monitoring for local officials and Certified Administrators. The Housing and Community Development staff conducts the environmental training. CDBG technical assistance (TA) funds were also used in other projects during the program year.

CDBG TA funds went towards the support of the Nebraska Chapter of the American Planning Association (APA), training for local planning officials.

CDBG TA funds were distributed to the Lincoln Commission on Human Rights to assist with costs associated with fair housing training at the Annual Civil Rights Conference held in Lincoln, Nebraska.

Part III: Civil Rights Summary

State's Review of Civil Rights

All grantees receive training in the civil rights rules and regulations during training sessions. Training sessions are reinforced with notices and updates through the CDBG Bulletin, which is published on an as needed basis.

Each grantee's program eligibility criteria are reviewed to determine whether the criteria or methods of administration may have the effect of subjecting individuals to discrimination on the basis of race, color, age, sex, national origin or disability.

Comparisons are made between recent census data regarding those protected classes and the percentages of those protected classes participating and receiving benefits from CDBG funds.

All grantees are required to maintain, on an ongoing basis, and on file permanently, numerical and percentage documentation and information regarding the following:

1. Total beneficiaries in project
2. Total numbers of males/females.
3. Actual number of Whites, Blacks, Hispanics, Asians, Native Americans, and others.
4. Percentages of males, females, minorities, female heads of household, disabled population, and low to moderate income persons receiving benefits from the project funds.

Program representatives are required to consider this information, compared with census data, and determine if there is any indication any person and/or group of persons were denied benefits or employment on the grounds of race, age, sex, or disability.

In addition, the state reviews the grantee's compliance with Section 504 and the Americans with Disabilities Act. Grantees must have conducted a self-evaluation of their facilities and their programs as they relate to the ADA/Section 504 compliance. In addition, the grantee must have on file, and available for review, a transition plan. The grantee must provide evidence that they are complying or making attempts to comply with these regulations.

Updates and notices regarding ADA/Section 504 compliance are made through the CDBG Bulletin.

The State's review of all information gathered through monitoring visits indicates that grantee CDBG programs are being administered in a manner, which does not deny any benefit or employment on the grounds of race, age, sex, national origin and disability.

States Actions to Affirmatively Further Fair Housing

The State of Nebraska recognizes it shares responsibility with federal and local governments for shaping a regulatory climate that encourages housing while maintaining needed health, safety, environmental, and consumer protections. The cost, benefits, and tradeoffs of various regulations must be weighed carefully so they promote the affordability and availability of housing. In addition, the administration of regulations must be done in a way that reduces costs and delays.

DED's Housing Strategies are developed to remove barriers to affordable housing and foster and maintain affordable housing. Please refer to the Housing Priority Section of the 2014 Annual Performance Report to review that information for the 2014 Program Year.

DED recognizes that it can, and where appropriate DED does, take action to overcome impediments to fair housing choice within the State of Nebraska. During the 2014 Program Year, DED undertook the following actions:

DED trained 45 community representatives on housing law, including education about the fair housing complaint system, as well as design and construction standards at CDBG certification trainings.

The Housing Priority of the Annual Action Plan addresses how the State attempts to remove barriers to affordable housing. An Analysis of Impediments to Fair Housing Choice (AI) was prepared in support of the Consolidated Plan. The State of Nebraska is required by HUD to complete an Analysis of Impediments to Fair Housing Choice; take actions to overcome the effects of any impediments identified; and maintain records reflecting the actions taken in response to the analysis. The purpose of the Analysis of Impediments is to foster a careful examination on a state-wide basis, those factors which restrict or preclude fair housing choice.

In the summer of 2011, the Department of Economic Development (DED) contracted with Western Economic Services (WES) of Portland Oregon to satisfy the first requirement which is to conduct an Analysis of Impediments to fair housing choices outside of the Omaha, Lincoln metro area.

A copy of the entire Analysis of Impediments that has been prepared by WES is available on the DED website at: <http://www.neded.org/community/community-info/documentslibrary-a-forms> under the Section titled Nebraska Fair Housing Strategy.

Additional information within the Nebraska Fair Housing Strategy Section also includes information from the AI Presentation and information from previous AI's completed by the Department.

In the preparation of the Analysis of Impediments to Fair Housing Choice (AI) Western Economic Services performed both qualitative and quantitative research which included:

- Socio-economic and housing data from the U.S. Census Bureau;
- Employment data from the U.S. Bureau of Labor Statistics;

- Economic data from the U.S. Bureau of Economic Analysis;
- Investment data from the Community Reinvestment Act;
- Home purchase data from the Home Mortgage Disclosure Act; and
- Housing complaint data from the U.S. Department of Housing and Urban Development and the Nebraska Equal Opportunity Commission.

As well as:

- A fair housing survey of 690 stakeholders throughout the area to investigate fair housing issues in the private and public sectors;
- A planning and zoning survey to identify possible barriers to fair housing choice in established zoning and land use decisions; and
- A fair housing forum broadcast to several locations throughout the state to allow public input and reaction to preliminary findings of the AI.

From that research, WES was able to identify nine (9) public sector and seven (7) private sector impediments. These impediments included:

- Refusal to rent by rental property managers
- Lack of local code enforcement
- Lack of local fair housing policies, ordinances, or regulations
- Inadequate fair housing outreach and education activities
- Insufficient establishment and enforcement of building codes regarding special needs housing
- Discriminatory terms and conditions offered in rental markets
- Failure to make reasonable accommodations
- Lack of actions for affirmatively furthering fair housing by CDBG sub-recipients
- Shortage of fair housing services
- Issuance of predatory-type loans in the home purchase markets
- Denial of home purchase loans
- Lack of statewide fair housing cooperation
- Steering in the real estate markets
- Lack of collaboration among fair housing agencies to contribute to the AI process
- Discriminatory terms and conditions relating to sale
- Language barriers in permitting processes

From this information the Department developed a 2011 Analysis of Impediments to Fair Housing Choice Implementation Plan. This two-year plan included measurable and observable objectives that DED would periodically monitor for progress towards the goals of alleviating or eliminating these impediments to fair housing choice.

During the 2012 Program Year, the Department, in coordination with a variety of organizations who had experience working within the fair housing arena and which included: the Nebraska Equal Opportunity Commission (NEOC); the Nebraska Housing Developers Association; High Plains CDC; and Family Housing Advisory Services worked ad developing an action plan in which

the impediments identified within the AI were prioritized and resources were allocated to a number of activities (See the Sources and Uses Table on following page).

The Department continued to monitor the progress of these activities during the 2013 Program Year and will continue to review the actions taken during the 2014 Program Year as well. The Implementation of the Plan included the Department committed \$200,000 in Administration and Technical Assistance funds and \$75,000 in project funds from the Nebraska Affordable Housing Trust Fund in each of the next two years to address these impediments. The exact mechanism for the distribution of these funds is yet to be decided, but a proposal is noted in the Fair Housing Table. Some of the actions identified in the Table began in 2012, but accomplishments will not be fully realized until the end of the 2014 Program Year (June 2015).

Overall, the Implementation Plan is intended to be a dynamic plan to address the impediments to Fair Housing Choice as identified in the 2011 AI. The impediments that have been identified as the most pressing have been discussed by the various participating groups as have the proposed actions to be taken. The Department believes there is a general consensus of the goals of the plan although there has been some discussion of who best can carry out some of those actions. One of the unstated impediments, but certainly one of the goals, is to further cooperation and collaboration of the various fair housing organizations.

The Department has requested progress reports from each of the groups identified within the Sources and Uses Table, and will make adjustments to the implementation plan based on those findings. The current status of each of the goals is noted within the Table below.

During the 2015 Program, the State reviewed its strategy to affirmatively further fair housing which included:

- Testing, enforcement, and education for landlords and property managers to better understand some barriers to affordable housing;
- Improvements to guidance on barriers to affordable housing and monitoring by DED;
- Partnering with the NEOC (Nebraska Equal Opportunity Commission) and the Fair Housing Center of Nebraska and Iowa in order to improve outreach and education;
- Educating grantees about potential barriers to affordable housing.
- In addition, the State continues to include the following actions:
 - Evaluating ways in which to attract additional residential contractors, particularly those that are willing to construct moderate priced homes in communities. Some incentives have been proposed which include: providing zero interest loans to contractors to build residential units; providing low priced or free residential lots for development; and also to provide additional points in housing applications for those applicants that compile lists of interested contractors that may work on projects if applications are funded;
 - Working with developers and contractors to identify any cost saving measures that might be appropriate to implement in order to save on the cost of materials and labor. In some instances, the State is able to partner with community colleges and high school students who are interested in the trades in working on the

development of residential units. These collaborative efforts have been utilized in some housing projects and are encouraged within project development.

- Partnering with housing developers, non-profit entities, and communities in creating additional housing stock throughout the state.
- Working to assist in infrastructure improvements and development for residential areas. This is completed through many of the State's initiatives including through the Nebraska Affordable Housing Program (NHAP).
- Assistance with code enforcement development and implementation is encouraged and implemented in many communities through State programs that include: Comprehensive Revitalization, Comprehensive Investment & Stabilization, and in many other housing initiatives.
- The State will continue to improve the housing conditions of persons who are living in substandard housing by assisting within owner occupied rehabilitation and new residential construction of quality affordable housing.
- The State will continue to reduce the risk of lead based paint hazards in aging housing stock by continuing lead based compliance and reduction efforts for houses that are assisted with state and federal resources.

Section 3

The State provided training to grant administrators on Section 3 outreach and responsibilities. In addition, the State modified and provided Certification as a Section 3 Resident and Certification as a Section 3 Business Concern forms made easily accessible on the Department web-site for communities to use for certification and outreach to Section 3 residents and businesses.

State's Actions to Increase WBE/MBE Participation – The state provided guidance and training to administrators and grantees on appropriate procurement and bidding procedures to allow for more WBE/MBE business opportunities.

PART I - FINANCIAL STATUS AND NATIONAL OBJECTIVES

GRANT NO: B-16-DC-31-0001

REPORTING PERIOD

Data as of: June 30, 2020

07/01/2016 - 06/30/2017

1. FINANCIAL STATUS

A. Total Funds	\$10,723,984.00
<i>Allocation</i>	\$9,944,180.00
<i>Program Income</i>	\$779,804.00
B. Amount Obligated To Recipients (Total)	\$9,531,997.47
C. Amount Drawn Down	\$7,176,813.33
D. Amount For State Administration	\$398,325.40
E. Amount For Technical Assistance	\$0.00

2. NATIONAL OBJECTIVE

A. Period Specified For Benefit	2016 - 2018
B. Amounts Used To:	
1. Benefit To Low/Moderate Income Persons	\$7,014,386.49
2. Prevent/Eliminate Slums/Blight	\$1,670,347.14
3. Meet Urgent Community Development Needs	\$0.00
4. Acquisition/Rehabilitation Noncountable	\$0.00
5. Local Administration	\$847,263.84

Part II: Relationship of the Use of Funds to the State's Objectives

"The primary national CDBG objective is to develop viable urban communities by providing decent housing, suitable living environments, and expanding economic opportunities, principally for low- and moderate-income persons (LMI)." The State of Nebraska's 2016 CDBG program furthered this national objective through investing in quality communities and quality projects designed to meet the objectives for three priorities: Housing, Community Development, and Economic Development.

During the 2016 Program Year, the Nebraska Department of Economic Development awarded fifty-four (54) grants in the amount of approximately \$9.9 million. Three funding categories – Community Development, Economic Development, and Housing – were established for the distribution of the 2016 Program Year awards and included:

Community Development Category: The primary state objective for this category is to strengthen Nebraska communities through community development programs and services, which provide a stable platform for economic development. This category includes: planning, public works, water/wastewater, comprehensive development, and downtown revitalization. Forty-two (42) grants were awarded for approximately \$5.4 million and included:

- **Planning:** The primary objective is to provide communities the opportunity to solve problems and meet citizens' needs through a community planning process that assesses community needs, develops options for meeting those needs, and packages work plans or carry out processes that lead to successful projects. In total, eleven (11) grants were awarded for a total of \$284,625.
- **Public Works:** Four (4) grants were awarded for \$1,000,000.
- **Water/Wastewater:** Four (4) grants were awarded for \$887,600.
- **Comprehensive Development:** Eight (8) grants were awarded for \$229,200.
- **Downtown Revitalization:** Fifteen (15) grants were awarded for \$3,006,550.

Economic Development Category: The primary state objective for this category is to foster the competitiveness of Nebraska's business and industrial sector—and as a result—assist in the economic development of Nebraska's communities and people. Local governments receive grants to provide appropriate assistance to businesses through working capital and fixed asset loans, loan guarantees, equity investments, job training, or public works grants. Financial assistance to local governments is awarded to diversify the state's economy while leveraging private sector investment, and providing jobs of which at least 51% should be available to low/moderate income persons. Four (4) economic development grants were awarded for \$1,694,000. Two (2) tourism development grant was awarded totaling \$700,000.

Housing Category: The primary state objective of this category is to respond to regional needs for affordable, decent, safe and appropriate housing as part of balanced economic development in Nebraska. The state invests in rehabilitation of existing housing for low and

moderate-income homeowners using a regional and community level service delivery system. Six (6) grants were awarded for approximately \$2,120,000.

Summary of Citizens' Comments

As described in Section One of the report, there were no citizens' comments during the 2016 Consolidated Annual Performance Report's public comment period.

Evaluation of Extent of Low and Moderate Income Benefit

Evaluation of benefit to low-and-moderate income persons is contained in the summary information on grantees as a part of this report. Of the \$1,028,675 of 2016 funds which had been obligated to projects during the 2016 Program Year, \$58,000 went to grantees as local administration. Of the \$970,675 that went to project activities, 86% was used to benefit low and moderate-income persons. At end of the 2016 Program Year, the Department had obligated only a small portion of the 2016 allocation, and therefore this percentage will increase as these funds are obligated to projects.

Update of Evaluation of Extent of Low and Moderate Income Benefit – 2019 APR

Evaluation of benefit to low and moderate income persons is contained in the summary information on grantees as a part of this report. A total of \$9,531,997.47 was obligated to project activities (excludes state and grantee administration and technical assistance) from the 2016 allocation, 73.58% percent of these funds were used to benefit low and moderate income persons. See Part I.

Explanation of Nature and Reasons for Changes in Program Objectives

There were no changes in program objectives.

Changes as Results of Experience

There were no changes as a result of experience.

Summary of Technical Assistance Funding

The State of Nebraska uses its CDBG Technical Assistance funding to produce the Certified CDBG Administrator Training Workshops. As of March 1, 1996, the State of Nebraska requires the formal certification of all persons administering Community Development Block Grant (CDBG) projects in Nebraska. These workshops are conducted annually by the Housing and Community Development Division of DED and are scheduled to coincide with CDBG funding cycles. Anyone seeking the certified administrator designation must complete and pass the written exam. CDBG TA funds went towards conducting Environmental Review Training, Labor Standards, Property Acquisition and Compliance Monitoring for local officials and Certified Administrators. The Housing and Community Development staff conducts the environmental training. CDBG technical assistance (TA) funds were also used in other projects during the program year.

CDBG TA funds went towards the support of the Nebraska Chapter of the American Planning Association (APA), training for local planning officials.

CDBG TA funds were distributed to the Lincoln Commission on Human Rights to assist with costs associated with fair housing training at the Annual Civil Rights Conference held in Lincoln, Nebraska.

Part III: Civil Rights Summary

State's Review of Civil Rights

All grantees receive training in the civil rights rules and regulations during training sessions. Training sessions are reinforced with notices and updates through the CDBG Bulletin, which is published on an as needed basis.

Each grantee's program eligibility criteria are reviewed to determine whether the criteria or methods of administration may have the effect of subjecting individuals to discrimination on the basis of race, color, age, sex, national origin or disability.

Comparisons are made between recent census data regarding those protected classes and the percentages of those protected classes participating and receiving benefits from CDBG funds. All grantees are required to maintain, on an ongoing basis, and on file permanently, numerical and percentage documentation and information regarding the following:

1. Total beneficiaries in project
2. Total numbers of males/females.
3. Actual number of Whites, Blacks, Hispanics, Asians, Native Americans, and others.
4. Percentages of males, females, minorities, female heads of household, disabled population, and low to moderate income persons receiving benefits from the project funds.

Program representatives are required to consider this information, compared with census data, and determine if there is any indication any person and/or group of persons were denied benefits or employment on the grounds of race, age, sex, or disability.

In addition, the state reviews the grantee's compliance with Section 504 and the Americans with Disabilities Act. Grantees must have conducted a self-evaluation of their facilities and their programs as they relate to the ADA/Section 504 compliance. In addition, the grantee must have on file, and available for review, a transition plan. The grantee must provide evidence that they are complying or making attempts to comply with these regulations.

Updates and notices regarding ADA/Section 504 compliance are made through the CDBG Bulletin.

The State's review of all information gathered through monitoring visits indicates that grantee CDBG programs are being administered in a manner, which does not deny any benefit or employment on the grounds of race, age, sex, national origin and disability.

States Actions to Affirmatively Further Fair Housing

The State of Nebraska recognizes it shares responsibility with federal and local governments for shaping a regulatory climate that encourages housing while maintaining needed health, safety, environmental, and consumer protections. The cost, benefits, and tradeoffs of various regulations must be weighed carefully so they promote the affordability and availability of housing. In addition, the administration of regulations must be done in a way that reduces costs and delays.

DED's Housing Strategies are developed to remove barriers to affordable housing and foster and maintain affordable housing. Please refer to the Housing Priority Section of the 2014 Annual Performance Report to review that information for the 2016 Program Year.

DED recognizes that it can, and where appropriate DED does, take action to overcome impediments to fair housing choice within the State of Nebraska. During the 2016 Program Year, DED undertook the following actions:

DED trained community representatives on housing law, including education about the fair housing complaint system, as well as design and construction standards at CDBG certification trainings.

The Housing Priority of the Annual Action Plan addresses how the State attempts to remove barriers to affordable housing. An Analysis of Impediments to Fair Housing Choice (AI) was prepared in support of the Consolidated Plan. The State of Nebraska is required by HUD to complete an Analysis of Impediments to Fair Housing Choice; take actions to overcome the effects of any impediments identified; and maintain records reflecting the actions taken in response to the analysis. The purpose of the Analysis of Impediments is to foster a careful examination on a state-wide basis, those factors which restrict or preclude fair housing choice.

In the summer of 2011, the Department of Economic Development (DED) contracted with Western Economic Services (WES) of Portland Oregon to satisfy the first requirement which is to conduct an Analysis of Impediments to fair housing choices outside of the Omaha, Lincoln metro area.

A copy of the entire Analysis of Impediments that has been prepared by WES is available on the DED website at: <https://opportunity.nebraska.gov/wp-content/uploads/2017/09/2011-Analysis-of-Impediments-to-Fair-Housing-Choice-Volume-I.pdf> under the Section titled "Fair Housing Strategy."

Additional information within the Nebraska Fair Housing Strategy Section also includes information from the AI Presentation and information from previous AI's completed by the Department.

In the preparation of the Analysis of Impediments to Fair Housing Choice (AI) Western Economic Services performed both qualitative and quantitative research which included:

- Socio-economic and housing data from the U.S. Census Bureau;

- Employment data from the U.S. Bureau of Labor Statistics;
- Economic data from the U.S. Bureau of Economic Analysis;
- Investment data from the Community Reinvestment Act;
- Home purchase data from the Home Mortgage Disclosure Act; and Housing complaint data from the U.S. Department of Housing and Urban Development and the Nebraska Equal Opportunity Commission.

As well as:

- A fair housing survey of 690 stakeholders throughout the area to investigate fair housing issues in the private and public sectors;
- A planning and zoning survey to identify possible barriers to fair housing choice in established zoning and land use decisions; and
- A fair housing forum broadcast to several locations throughout the state to allow public input and reaction to preliminary findings of the AI.

From that research, WES was able to identify nine (9) public sector and seven (7) private sector impediments. These impediments included:

- Refusal to rent by rental property managers
- Lack of local code enforcement
- Lack of local fair housing policies, ordinances, or regulations
- Inadequate fair housing outreach and education activities
- Insufficient establishment and enforcement of building codes regarding special needs housing
- Discriminatory terms and conditions offered in rental markets
- Failure to make reasonable accommodations
- Lack of actions for affirmatively furthering fair housing by CDBG sub-recipients
- Shortage of fair housing services
- Issuance of predatory-type loans in the home purchase markets
- Denial of home purchase loans
- Lack of statewide fair housing cooperation
- Steering in the real estate markets
- Lack of collaboration among fair housing agencies to contribute to the AI process
- Discriminatory terms and conditions relating to sale
- Language barriers in permitting processes

From this information the Department developed a 2011 Analysis of Impediments to Fair Housing Choice Implementation Plan. This two-year plan included measurable and observable objectives that DED would periodically monitor for progress towards the goals of alleviating or eliminating these impediments to fair housing choice.

During the 2012 Program Year, the Department, in coordination with a variety of organizations who had experience working within the fair housing arena and which included: the Nebraska Equal Opportunity Commission (NEOC); the Nebraska Housing Developers Association; High Plains CDC; and Family Housing Advisory Services worked ad developing an action plan in which

the impediments identified within the AI were prioritized and resources were allocated to a number of activities (See the Sources and Uses Table on following page).

The Department continued to monitor the progress of these activities during the 2013 Program Year and will continue to review the actions taken during the 2014 Program Year as well. The Implementation of the Plan included the Department committed \$200,000 in Administration and Technical Assistance funds and \$75,000 in project funds from the Nebraska Affordable Housing Trust Fund in each of the next two years to address these impediments. The exact mechanism for the distribution of these funds is yet to be decided, but a proposal is noted in the Fair Housing Table. Some of the actions identified in the Table began in 2012, but accomplishments will not be fully realized until the end of the 2014 Program Year (June 2015).

Overall, the Implementation Plan is intended to be a dynamic plan to address the impediments to Fair Housing Choice as identified in the 2011 AI. The impediments that have been identified as the most pressing have been discussed by the various participating groups as have the proposed actions to be taken. The Department believes there is a general consensus of the goals of the plan although there has been some discussion of who best can carry out some of those actions. One of the unstated impediments, but certainly one of the goals, is to further cooperation and collaboration of the various fair housing organizations.

The Department has requested progress reports from each of the groups identified within the Sources and Uses Table, and will make adjustments to the implementation plan based on those findings. The current status of each of the goals is noted within the Table below.

During the 2016 Program Year, the State continues to include the following actions:

- Evaluating ways in which to attract additional residential contractors, particularly those that are willing to construct moderate priced homes in communities. Some incentives have been proposed which include: providing zero interest loans to contractors to build residential units; providing low priced or free residential lots for development; and also to provide additional points in housing applications for those applicants that compile lists of interested contractors that may work on projects if applications are funded;
- Working with developers and contractors to identify any cost saving measures that might be appropriate to implement in order to save on the cost of materials and labor. In some instances, the State is able to partner with community colleges and high school students who are interested in the trades in working on the development of residential units. These collaborative efforts have been utilized in some housing projects and are encouraged within project development.
- Partnering with housing developers, non-profit entities, and communities in creating additional housing stock throughout the state.
- Working to assist in infrastructure improvements and development for residential areas. This is completed through many of the State's initiatives including through the Nebraska Affordable Housing Program (NHAP).
- Assistance with code enforcement development and implementation is encouraged and implemented in many communities through State programs that include:

Comprehensive Revitalization, Comprehensive Investment & Stabilization, and in many other housing initiatives.

- The State will continue to improve the housing conditions of persons who are living in substandard housing by assisting within owner occupied rehabilitation and new residential construction of quality affordable housing.
- The State will continue to reduce the risk of lead based paint hazards in aging housing stock by continuing lead based compliance and reduction efforts for houses that are assisted with state and federal resources.

Section 3

The State provided training to grant administrators on Section 3 outreach and responsibilities. In addition, the State modified and provided Certification as a Section 3 Resident and Certification as a Section 3 Business Concern forms made easily accessible on the Department web-site for communities to use for certification and outreach to Section 3 residents and businesses.

State's Actions to Increase WBE/MBE Participation – The state provided guidance and training to administrators and grantees on appropriate procurement and bidding procedures to allow for more WBE/MBE business opportunities.

Nebraska CDBG Performance Evaluation Report:

Grant No: B-17-DC-31-0001

- PART I:
 - *Financial Status*
 - *National Objectives*
 - *Grant Activities Summary*

- PART II:
 - *Assessment of Relationships of Use of Funds to State Objectives*

- PART III:
 - *Civil Rights Data for Program Applicants & Beneficiaries*

PART I - FINANCIAL STATUS AND NATIONAL OBJECTIVES

GRANT NO: B-17-DC-31-0001

REPORTING PERIOD

Data as of: June 30, 2020

07/01/2017 - 06/30/2018

1. FINANCIAL STATUS

A. Total Funds	\$10,949,879.75
<i>Allocation</i>	\$9,789,119.00
<i>Program Income</i>	\$1,160,760.75
B. Amount Obligated To Recipients (Total)	\$9,395,445.43
C. Amount Drawn Down	\$5,156,330.13
D. Amount For State Administration	\$291,836.78
E. Amount For Technical Assistance	\$101,836.79

2. NATIONAL OBJECTIVE

A. Period Specified For Benefit	2016 - 2018
B. Amounts Used To:	
1. Benefit To Low/Moderate Income Persons	\$7,580,684.87
2. Prevent/Eliminate Slums/Blight	\$1,192,138.91
3. Meet Urgent Community Development Needs	\$0.00
4. Acquisition/Rehabilitation Noncountable	\$0.00
5. Local Administration	\$622,621.65

Part II: Relationship of the Use of Funds to the State's Objectives

"The primary national CDBG objective is to develop viable urban communities by providing decent housing, suitable living environments, and expanding economic opportunities, principally for low- and moderate-income persons (LMI)." The State of Nebraska's 2017 CDBG program furthered this national objective through investing in quality communities and quality projects designed to meet the objectives for three priorities: Housing, Community Development, and Economic Development.

During the 2017 program year, the Nebraska Department of Economic Development awarded fifty-five (55) grants in the amount of approximately \$13.3 million. Of those awarded during the 2017 program year a total of approximately \$4.5 million used the 2017 CDBG allocation. The Performance Evaluation Report is run on the last day of the program year from the State financial database, and so if projects are loaded into the database they are documented on the PER. CDBG funding was distributed within the Community Development, Economic Development, and Housing priorities. A detailed breakdown of these priorities include:

Community Development Priority: The primary state objective for this priority is to strengthen Nebraska communities through community development programs and services, which provide a stable platform for economic development. This priority includes: planning, public works, water/wastewater, comprehensive development, and downtown revitalization. Thirty-nine (39) grants were awarded for approximately \$9.2 million and included:

- **Planning:** Nine (9) grants were awarded for a total of \$249,492.
- **Public Works:** Ten (10) grants were awarded for \$2,382,365.
- **Water/Wastewater:** Three (3) grants were awarded for \$712,600.
- **Comprehensive Development:** Seven (7) grants were awarded for \$2,450,000.
- **Downtown Revitalization:** Ten (10) grants were awarded for \$3,500,000.

Economic Development Priority: The primary state objective for this priority is to foster the competitiveness of Nebraska's business and industrial sector—and as a result—assist in the economic development of Nebraska's communities and people. Local governments receive grants to provide appropriate assistance to businesses through working capital and fixed asset loans, loan guarantees, equity investments, job training, or public works grants. Financial assistance to local governments is awarded to diversify the state's economy while leveraging private sector investment, and providing jobs of which at least 51% are available to low/moderate income persons. Two (2) economic development grants were awarded for \$1,010,000. One (1) tourism development grant was awarded totaling \$346,000.

Housing Priority: The primary state objective of this Priority is to respond to regional needs for affordable, decent, safe and appropriate housing as part of balanced economic development in Nebraska. The state invests in rehabilitation of existing housing for low and moderate-income

homeowners using a community level service delivery system. Thirteen (13) grants were awarded for approximately \$2,705,000.

Summary of Citizens' Comments

The Public Comment Period for the 2017 Proposed CAPER occurs January 17 – 31, 2019.

Comment #1: The reporting information related to the CDBG program incorrectly identifies a total allocation of \$4,909,134.57 for the State's 2017 CDBG allocation (as identified in the Financial Status Section), when the reality is the State received approximately \$9,789,119 as noted in the State's 2017 Annual Action Plan. The Department of Economic Development, who serves as the lead for the State's Consolidated Plan, needs to ensure that accurate information is presented to the public in order for the public to be able to have a clear picture of the State's programs it is administering.

- **Response:** The 2017 CDBG allocation amount corrected by the DED as \$9,789,119.00

Comment #2: The CAPER is due to HUD at the end of the federal fiscal year, which is generally September 30th of each year. The State's Proposed CAPER was not presented to the public for review until January of 2019, which is well past the necessary time frame in which the CAPER should have been finalized related to the previous federal fiscal year. The Department of Economic Development, who serves as the lead for the State's Consolidated Plan, needs to ensure it has adequate capacity for its programs in order to provide quality customer service and to meet necessary federal deadlines. A lack of capacity may impact future and current funding allocations, and thus would negatively impact funding opportunities for projects throughout the state.

- **Response:** DED has addressed timeliness and capacity to meet reporting deadlines.

Comment #3: The State's proposed CAPER identifies the various CDBG National Objectives that are utilized for CDBG projects with both local and State CDBG resources. The State should allow for the Slum and Blight National Objective to be utilized more in the coming State fiscal year so that communities can have additional options for project development. The public understands the need to ensure that at least 70 percent of the State's CDBG resources are used for Low to Moderate Income persons, and the State noted that it is well above the 70 percent threshold with over 87% for the benefit period of 2016, 2017, and 2018. It is for these reasons that more resources need to be made available using the Slum and Blight National Objective, particularly at the local level using local CDBG program income.

- **Response:** DED has taken the comment under consideration.

Comment #4: The State's information on HOME match, and the HOME Match Log, is unclear as the Table related to Match Contribution does not identify which fiscal year in which the match information of over \$402,000 is provided. Assuming the federal fiscal year referenced is from October 1, 2016 through September 30, 2017, it is unclear why there was only one single matching project identified in 2016 (i.e. 16-TFHP-36009H) and not any other projects that would provide matching resources for the State's HOME program. The Department needs to ensure that accurate information is presented to the public in order for the public to be able to have a clear picture of the State's programs it is administering.

- **Response:** DED continues to collect HOME Match data from grantees and records the data as of the date received.

Comment #5: The State described its actions completed in relation to the Analysis of Impediments to Fair Housing Choice (AI), but it appears these actions were limited and the AI the State is currently

operating under is outdated, as it was completed in 2011. The State needs to ensure that it is complying with their obligations under the AI, and making progress in ensuring that an Assessment of Fair Housing (AFH), or other similar report as an AI, is completed in a timely manner, and with significant citizen participation. The State should look to hiring outside partners, particularly Economic Development Districts, consultants, and contractors in order to obtain assistance in completing the AFH, or equivalent, in a timely manner in order to ensure the State received continued federal funding for needed programs throughout Nebraska.

- **Response:** DED has taken the comment under consideration and addressing the issue.

Comment #6: Not all HOME projects requiring monitoring appear to be properly identified within the CAPER, and thus it appears that the Department of Economic Development, is more current, and up to date, in its housing monitoring than is the case. There are likely hundreds of outstanding monitoring visits that have yet to be completed based on the Department completing very few monitoring visits over the past five years.

The Department of Economic Development, who serves as the lead for the State's Consolidated Plan, needs to ensure that accurate information is presented to the public in order for the public to be able to have a clear picture of the State's programs it is administering. Please provide the public with accurate and complete information related to the outstanding number of HOME initial and ongoing rental monitoring visits that are yet to be completed.

The Department should look to hiring outside partners, particularly Economic Development Districts, consultants, and contractors in order to obtain assistance in catching up on the backlog of monitoring. The significant lack of monitoring may impact future and current funding allocations, and thus would negatively impact funding opportunities for projects throughout the state.

- **Response:** DED has reviewed the list of projects monitored during the 2017 Program Year, along with the list of projects that are outstanding and need to be monitored. The information provided in the CAPER is a reflection of the progress the DED has made in monitoring in the 2017 Program Year, along with what still needs to be addressed.

Comment #7: The State should develop program guidelines that would better allow for the State's ED RLF fund to be utilized for a variety of economic development activities that would better assist communities. The State has the opportunity to fund projects from the State RLF that meet a number of national objectives, including low to moderate income and SBA. The Department should create guidelines that will better allow RLF funds to be used, and not only for job creation, but also for ADA accessibility; slum and blight; and other eligible activities. A greater number of communities could be assisted if the Department provided greater emphasis on educating local governments and working on showing how eligible activities could be funded through the State's ED revolving loan fund.

- **Response:** DED has taken the comment under consideration.

Comment #8: The State is commended for its efforts to provide improved monitoring techniques in the CDBG program, but requests that the Risk Analysis tool only be utilized once for each community and not for each project. This creates a burden as some communities have multiple applications and thus are having to complete the risk analysis every time (in some instances several times). The risk analysis item should be required only annually and per community, not per project.

- **Response:** DED has taken the comment under consideration.

Comment #9: The State should increase the amount of general administration, housing management, and construction management resources that are made available for projects in order to more adequately cover the costs of administering and completing projects. This should be the case for economic development, housing, and community development programs.

- **Response:** DED has taken the comment under consideration.

Comment #10: The HTF information in the CAPER noted that limited resources were awarded in 2017, and continue to be awarded for the program. The Department should make greater efforts to market and promote the National Housing Trust Fund (HTF) and work with those organizations that serve persons at or below 30% of the Area Median Income as this is the income that the HTF program serves. If the Department should look towards better partnering with DHHS, NIFA, and other organizations to better administer the program and to idea successful ways in which HTF funds can be utilized. There is a significant need for these HTF resources, and significant interest by the very low income service providers, but the Department needs to make better outreach efforts to better implement this much needed program.

- **Response:** DED continues to collaborate, market and partner with the DHHS, the Nebraska Investment Finance Authority and other organizations to discuss the National Housing Trust Fund, share information on the program and discuss potential projects.

Evaluation of Extent of Low and Moderate Income Benefit

Evaluation of benefit to low-and-moderate income persons is contained in the summary information on grantees as a part of this report. Of the \$4,515,461 of 2017 funds which had been obligated to projects during the 2017 Program Year, \$319,807 were awarded to grantees as local administration. Of the \$4,195,654 that went to project activities, 74% was awarded to benefit low and moderate-income persons. At end of the 2017 Program Year, the Department had obligated a portion of the 2017 allocation, and therefore this percentage will increase as all 2017 funds are obligated to additional projects.

Update of Evaluation of Extent of Low and Moderate Income Benefit – 2019 APR

Evaluation of benefit to low and moderate income persons is contained in the summary information on grantees as a part of this report. A total of \$9,395,445.43 was obligated to project activities (excludes state and grantee administration and technical assistance) from the 2017 allocation, 80.68% percent of these funds were used to benefit low and moderate income persons. See Part I.

Explanation of Nature and Reasons for Changes in Program Objectives

There were no changes in program objectives.

Changes as Results of Experience

There were no changes as a result of experience.

Summary of Technical Assistance Funding

The State of Nebraska uses its CDBG Technical Assistance funding to produce the Certified CDBG Administrator Training Workshops. As of March 1, 1996, the State of Nebraska requires

the formal certification of all persons administering Community Development Block Grant (CDBG) projects in Nebraska. These workshops are conducted annually by the Housing and Community Development Division of DED and are scheduled to coincide with CDBG funding cycles. Anyone seeking the certified administrator designation must complete the training and pass the written exam. CDBG TA funds went towards conducting Environmental Review Training, Labor Standards, Property Acquisition and Compliance Monitoring for local officials and Certified Administrators. The Housing and Community Development staff conducts the environmental training. CDBG technical assistance (TA) funds were also used in other projects during the program year.

CDBG TA funds went towards the support of the Nebraska Chapter of the American Planning Association (APA), training for local planning officials. Twenty-eight (28) scholarships were provided for the 2018 Nebraska APA Conference held on March 7-9, 2018 in Kearney, NE.

Part III: Civil Rights Summary

All grantees receive training in the civil rights rules and regulations during training sessions. Training sessions are reinforced with notices and updates through the Nebraska DED notifications, which is published on an as needed basis.

Each grantee's program eligibility criteria are reviewed to determine whether the criteria or methods of administration may have the effect of subjecting individuals to discrimination on the basis of race, color, age, sex, national origin or disability.

Comparisons are made between recent census data regarding those protected classes and the percentages of those protected classes participating and receiving benefits from CDBG funds.

All grantees are required to maintain, on an ongoing basis, and on file permanently, numerical and percentage documentation and information regarding the following:

1. Total beneficiaries in project
2. Total numbers of males/females.
3. Actual number of Whites, Blacks, Hispanics, Asians, Native Americans, and others.
4. Percentages of males, females, minorities, female heads of household, disabled population, and low to moderate income persons receiving benefits from the project funds.

Program representatives are required to consider this information, compared with census data, and determine if there is any indication any person and/or group of persons were denied benefits or employment on the grounds of race, age, sex, or disability.

In addition, the state reviews the grantee's compliance with Section 504 and the Americans with Disabilities Act. Grantees must have conducted a self-evaluation of their facilities and their programs as they relate to the ADA/Section 504 compliance. In addition, the grantee must have on file, and available for review, a transition plan. The grantee must provide evidence that they are complying or making attempts to comply with these regulations.

Updates and notices regarding ADA/Section 504 compliance are made through Nebraska DED notifications.

The State's review of all information gathered through monitoring visits indicates that grantee's CDBG programs are being administered in a manner, which does not deny any benefit or employment on the grounds of race, age, sex, national origin and disability.

States Actions to Affirmatively Further Fair Housing

The State of Nebraska recognizes it shares responsibility with federal and local governments for shaping a regulatory climate that encourages housing while maintaining needed health, safety, environmental, and consumer protections. The cost, benefits, and tradeoffs of various

regulations must be weighed carefully so they promote the affordability and availability of housing. In addition, the administration of regulations must be done in a way that reduces costs and delays.

DED's Housing Strategies are developed to remove barriers to affordable housing and foster and maintain affordable housing. DED recognizes that it can, and where appropriate DED does, take action to overcome impediments to fair housing choice within the State of Nebraska. During the 2017 Program Year, DED undertook the following actions: DED trained community representatives on housing law, including education about the fair housing complaint system, as well as design and construction standards at CDBG certification trainings.

The Housing Priority of the Annual Action Plan addresses how the State attempts to remove barriers to affordable housing. An Analysis of Impediments to Fair Housing Choice (AI) was prepared in support of the Consolidated Plan. The State of Nebraska is required by HUD to complete an Analysis of Impediments to Fair Housing Choice; take actions to overcome the effects of any impediments identified; and maintain records reflecting the actions taken in response to the analysis. The purpose of the Analysis of Impediments is to foster a careful examination on a state-wide basis, those factors which restrict or preclude fair housing choice.

In the summer of 2011, the Department of Economic Development (DED) contracted with Western Economic Services (WES) of Portland Oregon to satisfy the first requirement which is to conduct an Analysis of Impediments to fair housing choices outside of the Omaha, Lincoln metro area.

A copy of the entire Analysis of Impediments that has been prepared by WES is available on the DED website at: <https://opportunity.nebraska.gov/reports> under the Section titled "Fair Housing Strategy."

Additional information within the Nebraska Fair Housing Strategy Section also includes information from the AI Presentation and information from previous AI's completed by the Department.

In the preparation of the Analysis of Impediments to Fair Housing Choice (AI) Western Economic Services performed both qualitative and quantitative research which included:

- Socio-economic and housing data from the U.S. Census Bureau;
- Employment data from the U.S. Bureau of Labor Statistics;
- Economic data from the U.S. Bureau of Economic Analysis;
- Investment data from the Community Reinvestment Act;
- Home purchase data from the Home Mortgage Disclosure Act; and
- Housing complaint data from the U.S. Department of Housing and Urban Development and the Nebraska Equal Opportunity Commission.

As well as:

- A fair housing survey of 690 stakeholders throughout the area to investigate fair housing issues in the private and public sectors;
- A planning and zoning survey to identify possible barriers to fair housing choice in established zoning and land use decisions; and
- A fair housing forum broadcast to several locations throughout the state to allow public input and reaction to preliminary findings of the AI.

From that research, WES was able to identify nine (9) public sector and seven (7) private sector impediments. These impediments included:

- Refusal to rent by rental property managers
- Lack of local code enforcement
- Lack of local fair housing policies, ordinances, or regulations
- Inadequate fair housing outreach and education activities
- Insufficient establishment and enforcement of building codes regarding special needs housing
- Discriminatory terms and conditions offered in rental markets
- Failure to make reasonable accommodations
- Lack of actions for affirmatively furthering fair housing by CDBG sub-recipients
- Shortage of fair housing services
- Issuance of predatory-type loans in the home purchase markets
- Denial of home purchase loans
- Lack of statewide fair housing cooperation
- Steering in the real estate markets
- Lack of collaboration among fair housing agencies to contribute to the AI process
- Discriminatory terms and conditions relating to sale
- Language barriers in permitting processes

From this information the Department developed a 2011 Analysis of Impediments to Fair Housing Choice Implementation Plan. This two-year plan included measurable and observable objectives that DED would periodically monitor for progress towards the goals of alleviating or eliminating these impediments to fair housing choice.

During the 2012 Program Year, the Department, in coordination with a variety of organizations who had experience working within the fair housing arena and which included: the Nebraska Equal Opportunity Commission (NEOC); the Nebraska Housing Developers Association; High Plains CDC; and Family Housing Advisory Services worked on developing an action plan in which the impediments identified within the AI were prioritized and resources were allocated to a number of activities.

Overall, the Implementation Plan is intended to be a dynamic plan to address the impediments to Fair Housing Choice as identified in the 2011 AI. The impediments that have been identified as the most pressing have been discussed by the various participating groups as have the proposed actions to be taken. The Department believes there is a general consensus of the

goals of the plan although there has been some discussion of who best can carry out some of those actions. One of the unstated impediments, but certainly one of the goals, is to further cooperation and collaboration of the various fair housing organizations.

The Department continued to monitor the progress of these activities.

During the 2017 Program Year, the State continues to include the following actions:

- Evaluating ways in which to attract additional residential contractors, particularly those that are willing to construct moderate priced homes in communities. Some incentives have been proposed which include: providing zero interest loans to contractors to build residential units; providing low priced or free residential lots for development; and also to provide additional points in housing applications for those applicants that compile lists of interested contractors that may work on projects if applications are funded;
- Working with developers and contractors to identify any cost saving measures that might be appropriate to implement in order to save on the cost of materials and labor. In some instances, the State is able to partner with community colleges and high school students who are interested in the trades in working on the development of residential units. These collaborative efforts have been utilized in some housing projects and are encouraged within project development.
- Partnering with housing developers, non-profit entities, and communities in creating additional housing stock throughout the state.
- Working to assist in infrastructure improvements and development for residential areas. This is completed through many of the State's initiatives including through the Nebraska Affordable Housing Program (NAHP).
- The State will continue to improve the housing conditions of persons who are living in substandard housing by assisting within owner occupied rehabilitation and new residential construction of quality affordable housing.
- The State will continue to reduce the risk of lead based paint hazards in aging housing stock by continuing lead based compliance and reduction efforts for houses that are assisted with state and federal resources.

Section 3

The State provided training to grant administrators on Section 3 outreach and responsibilities. In addition, the State modified and provided Certification as a Section 3 Resident and Certification as a Section 3 Business Concern forms made easily accessible on the Department website for communities to use for certification and outreach to Section 3 residents and businesses.

State's Actions to Increase WBE/MBE Participation

The state provided guidance and training to administrators and grantees on appropriate procurement and bidding procedures to allow for more WBE/MBE business opportunities.

Nebraska CDBG Performance Evaluation Report:

Grant No: B-18-DC-31-0001

- PART I:
 - *Financial Status*
 - *National Objectives*
 - *Grant Activities Summary*

- PART II:
 - *Assessment of Relationships of Use of Funds to State Objectives*

- PART III:
 - *Civil Rights Data for Program Applicants & Beneficiaries*

PART I - FINANCIAL STATUS AND NATIONAL OBJECTIVES

GRANT NO: B-18-DC-31-0001

REPORTING PERIOD

Data as of: June 30, 2020

07/01/2018 - 06/30/2019

1. FINANCIAL STATUS

A. Total Funds	\$11,069,115.66
<i>Allocation</i>	\$10,754,320.00
<i>Program Income</i>	\$314,795.66
B. Amount Obligated To Recipients (Total)	\$10,331,690.40
C. Amount Drawn Down	\$837,206.93
D. Amount For State Administration	\$261,314.80
E. Amount For Technical Assistance	\$161,314.80

2. NATIONAL OBJECTIVE

A. Period Specified For Benefit	2016 - 2018
B. Amounts Used To:	
1. Benefit To Low/Moderate Income Persons	\$9,823,897.17
2. Prevent/Eliminate Slums/Blight	\$0.00
3. Meet Urgent Community Development Needs	\$0.00
4. Acquisition/Rehabilitation Noncountable	\$0.00
5. Local Administration	\$507,793.23

Part II: Relationship of the Use of Funds to the State's Objectives

"The primary national CDBG objective is to develop viable urban communities by providing decent housing, suitable living environments, and expanding economic opportunities, principally for low- and moderate-income persons (LMI)." The State of Nebraska's 2018 CDBG program furthered this national objective through investing in quality communities and quality projects designed to meet the objectives for three priorities: Housing, Community Development, and Economic Development.

During the 2018 program year, the Nebraska Department of Economic Development awarded thirty-nine (39) grants in the amount of approximately \$13.8 million. Of those awarded during the 2018 program year a total of approximately \$6.1 million used the 2018 CDBG allocation. The Performance Evaluation Report is run on the last day of the program year from the State financial database, and so if projects are loaded into the database they are documented on the PER. CDBG funding was distributed within the Community Development, Economic Development, and Housing priorities. A detailed breakdown of these priorities include:

Community Development Priority: The primary state objective for this priority is to strengthen Nebraska communities through community development programs and services, which provide a stable platform for economic development. This priority includes: planning, public works, water/wastewater, comprehensive development, emergent threat and downtown revitalization. Twenty-three (23) grants were awarded for approximately \$7.6 million and included:

- **Planning:** Four (4) grants were awarded for a total of \$132,900.
- **Public Works:** Eight (8) grants were awarded for \$2,816,735.
- **Water/Wastewater:** Four (4) grants were awarded for \$1,405,000.
- **Comprehensive Development:** Six (6) grants were awarded for \$2,831,000.
- **Downtown Revitalization:** One (1) grant was awarded for \$445,000.
- **Emergent Threat:** Zero grants were awarded through this category.

Economic Development Priority: The primary state objective for this priority is to foster the competitiveness of Nebraska's business and industrial sector—and as a result—assist in the economic development of Nebraska's communities and people. Local governments receive grants to provide appropriate assistance to businesses through working capital and fixed asset loans, loan guarantees, equity investments, job training, or public works grants. Financial assistance to local governments is awarded to diversify the state's economy while leveraging private sector investment, and providing jobs of which at least 51% are available to low/moderate income persons.

- **Economic Development:** Three (3) grants were awarded for \$1,557,800.
- **Tourism Development:** Four (4) grants were awarded for \$1,700,000.

Housing Priority: The primary state objective of this Priority is to respond to regional needs for affordable, decent, safe and appropriate housing as part of balanced economic development in Nebraska. The state invests in rehabilitation of existing housing for low and moderate-income homeowners using a community level service delivery system.

- Owner Occupied Rehabilitation: Nine (9) grants were awarded for \$2,977,004.

Summary of Citizens' Comments

The Public Comment Period for the Proposed 2018 CAPER occurs August 29, 2019 through September 12, 2019. No public comments were received.

Evaluation of Extent of Low and Moderate Income Benefit

Evaluation of benefit to low-and-moderate income persons is contained in the summary information on grantees as a part of this report. Of the \$6,120,592.67 of 2018 funds which had been obligated to projects during the 2018 Program Year, \$349,944.53 was awarded to grantees as local administration. Of the \$5,770,648.14 that went to project activities, 100% was awarded to benefit low and moderate-income persons. At end of the 2018 Program Year, the Department had obligated a portion of the 2018 allocation, and therefore this percentage will adjust as all 2018 funds are obligated to additional projects.

Update of Evaluation of Extent of Low and Moderate Income Benefit – 2019 APR

Evaluation of benefit to low and moderate income persons is contained in the summary information on grantees as a part of this report. A total of \$10,331,690.40 was obligated to project activities (excludes state and grantee administration and technical assistance) from the 2018 allocation, 95.09% percent of these funds were used to benefit low and moderate income persons. See Part I.

Explanation of Nature and Reasons for Changes in Program Objectives

There were no changes in program objectives.

Changes as Results of Experience

There were no changes as a result of experience.

Summary of Technical Assistance Funding

The State of Nebraska uses its CDBG Technical Assistance funding to produce the Certified CDBG Administrator Training Workshops. As of March 1, 1996, the State of Nebraska requires the formal certification of all persons administering Community Development Block Grant (CDBG) projects in Nebraska. These workshops are conducted annually by the Housing and Community Development Division of DED and are scheduled to coincide with CDBG funding cycles. Anyone seeking the certified administrator designation must complete the training and pass the written exam. CDBG TA funds went towards conducting Environmental Review Training, Labor Standards, Property Acquisition and Compliance Monitoring for local officials and Certified Administrators. The Housing and Community Development staff conducts the environmental training. CDBG technical assistance (TA) funds were also used in other projects during the program year.

CDBG TA funds went towards the support of the Nebraska Chapter of the American Planning Association (APA), training for local planning officials. Thirty-one (31) scholarships were provided for the 2019 Nebraska APA Conference held on March 6-8, 2018 in Kearney, NE.

Part III: Civil Rights Summary

All grantees receive training in the civil rights rules and regulations during training sessions. Training sessions are reinforced with notices and updates through the Nebraska DED notifications, which is published on an as needed basis.

Each grantee's program eligibility criteria are reviewed to determine whether the criteria or methods of administration may have the effect of subjecting individuals to discrimination on the basis of race, color, age, sex, national origin or disability.

Comparisons are made between recent census data regarding those protected classes and the percentages of those protected classes participating and receiving benefits from CDBG funds.

All grantees are required to maintain, on an ongoing basis, and on file permanently, numerical and percentage documentation and information regarding the following:

1. Total beneficiaries in project
2. Total numbers of males/females.
3. Actual number of Whites, Blacks, Hispanics, Asians, Native Americans, and others.
4. Percentages of males, females, minorities, female heads of household, disabled population, and low to moderate income persons receiving benefits from the project funds.

Program representatives are required to consider this information, compared with census data, and determine if there is any indication any person and/or group of persons were denied benefits or employment on the grounds of race, age, sex, or disability.

In addition, the state reviews the grantee's compliance with Section 504 and the Americans with Disabilities Act. Grantees must have conducted a self-evaluation of their facilities and their programs as they relate to the ADA/Section 504 compliance. In addition, the grantee must have on file, and available for review, a transition plan. The grantee must provide evidence that they are complying or making attempts to comply with these regulations.

Updates and notices regarding ADA/Section 504 compliance are made through Nebraska DED notifications.

The State's review of all information gathered through monitoring visits indicates that grantee's CDBG programs are being administered in a manner, which does not deny any benefit or employment on the grounds of race, age, sex, national origin and disability.

States Actions to Affirmatively Further Fair Housing

The State of Nebraska recognizes it shares responsibility with federal and local governments for shaping a regulatory climate that encourages housing while maintaining needed health, safety, environmental, and consumer protections. The cost, benefits, and tradeoffs of various

regulations must be weighed carefully so they promote the affordability and availability of housing. In addition, the administration of regulations must be done in a way that reduces costs and delays.

DED's Housing Strategies are developed to remove barriers to affordable housing and foster and maintain affordable housing. DED recognizes that it can, and where appropriate DED does, take action to overcome impediments to fair housing choice within the State of Nebraska. During the 2018 Program Year, DED undertook the following actions: DED trained community representatives on housing law, including education about the fair housing complaint system, as well as design and construction standards at CDBG certification trainings.

The Housing Priority of the Annual Action Plan addresses how the State attempts to remove barriers to affordable housing. An Analysis of Impediments to Fair Housing Choice (AI) was prepared in support of the Consolidated Plan. The State of Nebraska is required by HUD to complete an Analysis of Impediments to Fair Housing Choice; take actions to overcome the effects of any impediments identified; and maintain records reflecting the actions taken in response to the analysis. The purpose of the Analysis of Impediments is to foster a careful examination on a state-wide basis, those factors which restrict or preclude fair housing choice.

In the summer of 2011, the Department of Economic Development (DED) contracted with Western Economic Services (WES) of Portland Oregon to satisfy the first requirement which is to conduct an Analysis of Impediments to fair housing choices outside of the Omaha, Lincoln metro area.

A copy of the entire Analysis of Impediments that has been prepared by WES is available on the DED website at: <https://opportunity.nebraska.gov/reports> under the Section titled "Fair Housing Strategy."

Additional information within the Nebraska Fair Housing Strategy Section also includes information from the AI Presentation and information from previous AI's completed by the Department.

In the preparation of the Analysis of Impediments to Fair Housing Choice (AI) Western Economic Services performed both qualitative and quantitative research which included:

- Socio-economic and housing data from the U.S. Census Bureau;
- Employment data from the U.S. Bureau of Labor Statistics;
- Economic data from the U.S. Bureau of Economic Analysis;
- Investment data from the Community Reinvestment Act;
- Home purchase data from the Home Mortgage Disclosure Act; and
- Housing complaint data from the U.S. Department of Housing and Urban Development and the Nebraska Equal Opportunity Commission.

As well as:

- A fair housing survey of 690 stakeholders throughout the area to investigate fair housing issues in the private and public sectors;
- A planning and zoning survey to identify possible barriers to fair housing choice in established zoning and land use decisions; and
- A fair housing forum broadcast to several locations throughout the state to allow public input and reaction to preliminary findings of the AI.

From that research, WES was able to identify nine (9) public sector and seven (7) private sector impediments. These impediments included:

- Refusal to rent by rental property managers
- Lack of local code enforcement
- Lack of local fair housing policies, ordinances, or regulations
- Inadequate fair housing outreach and education activities
- Insufficient establishment and enforcement of building codes regarding special needs housing
- Discriminatory terms and conditions offered in rental markets
- Failure to make reasonable accommodations
- Lack of actions for affirmatively furthering fair housing by CDBG sub-recipients
- Shortage of fair housing services
- Issuance of predatory-type loans in the home purchase markets
- Denial of home purchase loans
- Lack of statewide fair housing cooperation
- Steering in the real estate markets
- Lack of collaboration among fair housing agencies to contribute to the AI process
- Discriminatory terms and conditions relating to sale
- Language barriers in permitting processes

From this information the Department developed a 2011 Analysis of Impediments to Fair Housing Choice Implementation Plan. This two-year plan included measurable and observable objectives that DED would periodically monitor for progress towards the goals of alleviating or eliminating these impediments to fair housing choice.

During the 2012 Program Year, the Department, in coordination with a variety of organizations who had experience working within the fair housing arena and which included: the Nebraska Equal Opportunity Commission (NEOC); the Nebraska Housing Developers Association; High Plains CDC; and Family Housing Advisory Services worked on developing an action plan in which the impediments identified within the AI were prioritized and resources were allocated to a number of activities.

Overall, the Implementation Plan is intended to be a dynamic plan to address the impediments to Fair Housing Choice as identified in the 2011 AI. The impediments that have been identified as the most pressing have been discussed by the various participating groups as have the proposed actions to be taken. The Department believes there is a general consensus of the

goals of the plan although there has been some discussion of who best can carry out some of those actions. One of the unstated impediments, but certainly one of the goals, is to further cooperation and collaboration of the various fair housing organizations.

The Department continued to monitor the progress of these activities.

During the 2018 Program Year, the State continues to include the following actions:

- Evaluating ways in which to attract additional residential contractors, particularly those that are willing to construct moderate priced homes in communities. Some incentives have been proposed which include: providing zero interest loans to contractors to build residential units; providing low priced or free residential lots for development; and also to provide additional points in housing applications for those applicants that compile lists of interested contractors that may work on projects if applications are funded;
- Working with developers and contractors to identify any cost saving measures that might be appropriate to implement in order to save on the cost of materials and labor. In some instances, the State is able to partner with community colleges and high school students who are interested in the trades in working on the development of residential units. These collaborative efforts have been utilized in some housing projects and are encouraged within project development.
- Partnering with housing developers, non-profit entities, and communities in creating additional housing stock throughout the state.
- Working to assist in infrastructure improvements and development for residential areas. This is completed through many of the State's initiatives including through the Nebraska Affordable Housing Program (NAHP).
- The State will continue to improve the housing conditions of persons who are living in substandard housing by assisting within owner occupied rehabilitation and new residential construction of quality affordable housing.
- The State will continue to reduce the risk of lead based paint hazards in aging housing stock by continuing lead based compliance and reduction efforts for houses that are assisted with state and federal resources.

Section 3

The State provided training to grant administrators on Section 3 outreach and responsibilities. In addition, the State modified and provided Certification as a Section 3 Resident and Certification as a Section 3 Business Concern forms made easily accessible on the Department website for communities to use for certification and outreach to Section 3 residents and businesses.

State's Actions to Increase WBE/MBE Participation

The state provided guidance and training to administrators and grantees on appropriate procurement and bidding procedures to allow for more WBE/MBE business opportunities.

Nebraska CDBG Performance Evaluation Report:

Grant No: B-19-DC-31-0001

- PART I:
 - *Financial Status*
 - *National Objectives*
 - *Grant Activities Summary*

- PART II:
 - *Assessment of Relationships of Use of Funds to State Objectives*

- PART III:
 - *Civil Rights Data for Program Applicants & Beneficiaries*

PART I - FINANCIAL STATUS AND NATIONAL OBJECTIVES

GRANT NO: B-19-DC-31-0001

REPORTING PERIOD

Data as of: June 30, 2020

07/01/2019 - 06/30/2020

1. FINANCIAL STATUS

A. Total Funds	\$11,418,131.67
<i>Allocation</i>	\$10,721,667.00
<i>Program Income</i>	\$696,464.67
B. Amount Obligated To Recipients (Total)	\$6,088,349.33
C. Amount Drawn Down	\$467,715.31
D. Amount For State Administration	\$300,375.01
E. Amount For Technical Assistance	\$121,275.00

2. NATIONAL OBJECTIVE

A. Period Specified For Benefit	2019 - 2021
B. Amounts Used To:	
1. Benefit To Low/Moderate Income Persons	\$3,401,313.03
2. Prevent/Eliminate Slums/Blight	\$2,246,007.00
3. Meet Urgent Community Development Needs	\$0.00
4. Acquisition/Rehabilitation Noncountable	\$0.00
5. Local Administration	\$441,029.30

Part II: Relationship of the Use of Funds to the State's Objectives

"The primary national CDBG objective is to develop viable urban communities by providing decent housing, suitable living environments, and expanding economic opportunities, principally for low- and moderate-income persons (LMI)." The State of Nebraska's 2019 CDBG program furthered this national objective through investing in quality communities and quality projects designed to meet the objectives for three priorities: Housing, Community Development, and Economic Development.

During the 2019 program year, the Nebraska Department of Economic Development awarded forty-one (41) grants in the amount of approximately \$13 million. Of those awarded during the 2019 program year a total of approximately \$6 million used the 2019 CDBG allocation. The Performance Evaluation Report is run on the last day of the program year from the State financial database, and so if projects are loaded into the database they are documented on the PER. CDBG funding was distributed within the Community Development, Economic Development, and Housing priorities. A detailed breakdown of these priorities include:

Community Development Priority: The primary state objective for this priority is to strengthen Nebraska communities through community development programs and services, which provide a stable platform for economic development. This priority includes: planning, public works, water/wastewater, emergent threat and downtown revitalization. Thirty-five (35) grants were awarded for approximately \$10.7 million and included:

- **Planning:** Ten (10) grants were awarded for a total of \$410,739.
- **Public Works:** Seven (7) grants were awarded for \$2,780,307.
- **Water/Wastewater:** Six (6) grants were awarded for \$2,337,905.
- **Downtown Revitalization:** Seven (7) grants were awarded for \$2,826,490.
- **Emergent Threat:** Five (5) grants were awarded for \$2,356,370.

Economic Development Priority: The primary state objective for this priority is to foster the competitiveness of Nebraska's business and industrial sector—and as a result—assist in the economic development of Nebraska's communities and people. Local governments receive grants to provide appropriate assistance to businesses through working capital and fixed asset loans, loan guarantees, equity investments, job training, or public works grants. Financial assistance to local governments is awarded to diversify the state's economy while leveraging private sector investment, and providing jobs of which at least 51% are available to low/moderate income persons.

- **Tourism Development:** Two (2) grants were awarded for \$850,000.

Housing Priority: The primary state objective of this Priority is to respond to regional needs for affordable, decent, safe and appropriate housing as part of balanced economic development in Nebraska. The state invests in rehabilitation of existing housing for low and moderate-income homeowners using a community level service delivery system.

- Owner Occupied Rehabilitation: Four (4) grants were awarded for \$1,492,000.

Summary of Citizens' Comments

The Public Comment Period for the Proposed 2019 CAPER occurs February 16, 2021 through February 22, 2021. No public comments were received.

Evaluation of Extent of Low and Moderate Income Benefit

Evaluation of benefit to low-and-moderate income persons is contained in the summary information on grantees as a part of this report. Of the \$6,088,349.33 of 2019 funds which had been obligated to projects during the 2019 Program Year, \$441,029.30 was awarded to grantees as local administration. Of the \$5,647,320.03 that went to project activities, 55.87% was awarded to benefit low and moderate-income persons. At end of the 2019 Program Year, the Department had obligated a portion of the 2019 allocation, and therefore this percentage will adjust as all 2019 funds are obligated to additional projects.

Explanation of Nature and Reasons for Changes in Program Objectives

There were no changes in program objectives.

Changes as Results of Experience

There were no changes as a result of experience.

Summary of Technical Assistance Funding

The State of Nebraska uses its CDBG Technical Assistance funding to produce the Certified CDBG Administrator Training Workshops. As of March 1, 1996, the State of Nebraska requires the formal certification of all persons administering Community Development Block Grant (CDBG) projects in Nebraska. These workshops are conducted annually by the Housing and Community Development Division of DED and are scheduled to coincide with CDBG funding cycles. Anyone seeking the certified administrator designation must complete the training and pass the written exam. CDBG TA funds went towards conducting Environmental Review Training, Labor Standards, Property Acquisition and Compliance Monitoring for local officials and Certified Administrators. The Housing and Community Development staff conducts the environmental training. CDBG technical assistance (TA) funds were also used in other projects during the program year.

Part III: Civil Rights Summary

All grantees receive training in the civil rights rules and regulations during training sessions. Training sessions are reinforced with notices and updates through the Nebraska DED notifications, which is published on an as needed basis.

Each grantee's program eligibility criteria are reviewed to determine whether the criteria or methods of administration may have the effect of subjecting individuals to discrimination on the basis of race, color, age, sex, national origin or disability.

Comparisons are made between recent census data regarding those protected classes and the percentages of those protected classes participating and receiving benefits from CDBG funds.

All grantees are required to maintain, on an ongoing basis, and on file permanently, numerical and percentage documentation and information regarding the following:

1. Total beneficiaries in project
2. Total numbers of males/females.
3. Actual number of Whites, Blacks, Hispanics, Asians, Native Americans, and others.
4. Percentages of males, females, minorities, female heads of household, disabled population, and low to moderate income persons receiving benefits from the project funds.

Program representatives are required to consider this information, compared with census data, and determine if there is any indication any person and/or group of persons were denied benefits or employment on the grounds of race, age, sex, or disability.

In addition, the state reviews the grantee's compliance with Section 504 and the Americans with Disabilities Act. Grantees must have conducted a self-evaluation of their facilities and their programs as they relate to the ADA/Section 504 compliance. In addition, the grantee must have on file, and available for review, a transition plan. The grantee must provide evidence that they are complying or making attempts to comply with these regulations.

Updates and notices regarding ADA/Section 504 compliance are made through Nebraska DED notifications.

The State's review of all information gathered through monitoring visits indicates that grantee's CDBG programs are being administered in a manner, which does not deny any benefit or employment on the grounds of race, age, sex, national origin and disability.

States Actions to Affirmatively Further Fair Housing

The State of Nebraska recognizes it shares responsibility with federal and local governments for shaping a regulatory climate that encourages housing while maintaining needed health, safety, environmental, and consumer protections. The cost, benefits, and tradeoffs of various

regulations must be weighed carefully so they promote the affordability and availability of housing. In addition, the administration of regulations must be done in a way that reduces costs and delays.

DED's Housing Strategies are developed to remove barriers to affordable housing and foster and maintain affordable housing. DED recognizes that it can, and where appropriate DED does, take action to overcome impediments to fair housing choice within the State of Nebraska. During the 2019 Program Year, DED undertook the following actions: DED trained community representatives on housing law, including education about the fair housing complaint system, as well as design and construction standards at CDBG certification trainings.

The Housing Priority of the Annual Action Plan addresses how the State attempts to remove barriers to affordable housing. An Analysis of Impediments to Fair Housing Choice (AI) was prepared in support of the Consolidated Plan. The State of Nebraska is required by HUD to complete an Analysis of Impediments to Fair Housing Choice; take actions to overcome the effects of any impediments identified; and maintain records reflecting the actions taken in response to the analysis. The purpose of the Analysis of Impediments is to foster a careful examination on a state-wide basis, those factors which restrict or preclude fair housing choice.

In the summer of 2011, the Department of Economic Development (DED) contracted with Western Economic Services (WES) of Portland Oregon to satisfy the first requirement which is to conduct an Analysis of Impediments to fair housing choices outside of the Omaha, Lincoln metro area.

A copy of the entire Analysis of Impediments that has been prepared by WES is available on the DED website at: <https://opportunity.nebraska.gov/reports> under the Section titled "Fair Housing Strategy."

Additional information within the Nebraska Fair Housing Strategy Section also includes information from the AI Presentation and information from previous AI's completed by the Department.

In the preparation of the Analysis of Impediments to Fair Housing Choice (AI) Western Economic Services performed both qualitative and quantitative research which included:

- Socio-economic and housing data from the U.S. Census Bureau;
- Employment data from the U.S. Bureau of Labor Statistics;
- Economic data from the U.S. Bureau of Economic Analysis;
- Investment data from the Community Reinvestment Act;
- Home purchase data from the Home Mortgage Disclosure Act; and
- Housing complaint data from the U.S. Department of Housing and Urban Development and the Nebraska Equal Opportunity Commission.

As well as:

- A fair housing survey of 690 stakeholders throughout the area to investigate fair housing issues in the private and public sectors;
- A planning and zoning survey to identify possible barriers to fair housing choice in established zoning and land use decisions; and
- A fair housing forum broadcast to several locations throughout the state to allow public input and reaction to preliminary findings of the AI.

From that research, WES was able to identify nine (9) public sector and seven (7) private sector impediments. These impediments included:

- Refusal to rent by rental property managers
- Lack of local code enforcement
- Lack of local fair housing policies, ordinances, or regulations
- Inadequate fair housing outreach and education activities
- Insufficient establishment and enforcement of building codes regarding special needs housing
- Discriminatory terms and conditions offered in rental markets
- Failure to make reasonable accommodations
- Lack of actions for affirmatively furthering fair housing by CDBG sub-recipients
- Shortage of fair housing services
- Issuance of predatory-type loans in the home purchase markets
- Denial of home purchase loans
- Lack of statewide fair housing cooperation
- Steering in the real estate markets
- Lack of collaboration among fair housing agencies to contribute to the AI process
- Discriminatory terms and conditions relating to sale
- Language barriers in permitting processes

From this information the Department developed a 2011 Analysis of Impediments to Fair Housing Choice Implementation Plan. This two-year plan included measurable and observable objectives that DED would periodically monitor for progress towards the goals of alleviating or eliminating these impediments to fair housing choice.

During the 2012 Program Year, the Department, in coordination with a variety of organizations who had experience working within the fair housing arena and which included: the Nebraska Equal Opportunity Commission (NEOC); the Nebraska Housing Developers Association; High Plains CDC; and Family Housing Advisory Services worked on developing an action plan in which the impediments identified within the AI were prioritized and resources were allocated to a number of activities.

Overall, the Implementation Plan is intended to be a dynamic plan to address the impediments to Fair Housing Choice as identified in the 2011 AI. The impediments that have been identified as the most pressing have been discussed by the various participating groups as have the proposed actions to be taken. The Department believes there is a general consensus of the

goals of the plan although there has been some discussion of who best can carry out some of those actions. One of the unstated impediments, but certainly one of the goals, is to further cooperation and collaboration of the various fair housing organizations.

The Department continued to monitor the progress of these activities. At the end of the program year 2019, the Department completed the State of Nebraska's Analysis of Impediments to Fair Housing Choice.

During the 2019 Program Year, the State continues to include the following actions:

- Evaluating ways in which to attract additional residential contractors, particularly those that are willing to construct moderate priced homes in communities. Some incentives have been proposed which include: providing zero interest loans to contractors to build residential units; providing low priced or free residential lots for development; and also to provide additional points in housing applications for those applicants that compile lists of interested contractors that may work on projects if applications are funded;
- Working with developers and contractors to identify any cost saving measures that might be appropriate to implement in order to save on the cost of materials and labor. In some instances, the State is able to partner with community colleges and high school students who are interested in the trades in working on the development of residential units. These collaborative efforts have been utilized in some housing projects and are encouraged within project development.
- Partnering with housing developers, non-profit entities, and communities in creating additional housing stock throughout the state.
- Working to assist in infrastructure improvements and development for residential areas. This is completed through many of the State's initiatives including through the Nebraska Affordable Housing programs.
- The State will continue to improve the housing conditions of persons who are living in substandard housing by assisting within owner occupied rehabilitation and new residential construction of quality affordable housing.
- The State will continue to reduce the risk of lead based paint hazards in aging housing stock by continuing lead based compliance and reduction efforts for houses that are assisted with state and federal resources.

Section 3

The State provided training to grant administrators on Section 3 outreach and responsibilities. In addition, the State modified and provided Certification as a Section 3 Resident and Certification as a Section 3 Business Concern forms made easily accessible on the Department website for communities to use for certification and outreach to Section 3 residents and businesses.

State's Actions to Increase WBE/MBE Participation

The state provided guidance and training to administrators and grantees on appropriate procurement and bidding procedures to allow for more WBE/MBE business opportunities.
