**GOOD LIFE**

**2022**  
**ANNUAL REPORT**  
**Nebraska Department of**  
**ECONOMIC DEVELOPMENT**

**NEBRASKA**

Good Life. Great Opportunity.

## ABOUT US

---

Since 1967, the Nebraska Department of Economic Development (DED) has been focused on growing and diversifying the state's economic base, pursuing a good life with great opportunities on behalf of the people of Nebraska. As the state's lead economic development agency, the vision to grow Nebraska is what inspires us each and every day.

## ABOUT THIS REPORT

---

We endeavor to be efficient, effective and customer focused as we operate programs and administer State funding for economic development. This document fulfills our promise to our Governor, the Nebraska State Legislature and the taxpayers we serve to remain transparent, accountable and proactive in the way we report program data and expenditures. Questions about this report? Contact us using the information provided.

## HOW TO CONTACT US

---

We want you to know more about our mission, programs and achievements on behalf of the citizens of Nebraska! For additional information about our agency and what we do – including our entire portfolio of legislative programs and a library of our previous annual reports – visit:

## MESSAGE FROM INTERIM DIRECTOR JOE FOX

---

Governor Pillen, Members of the State Legislature and Fellow Nebraskans:

The Nebraska Department of Economic Development (DED) hereby presents its Legislative Annual Report in fulfillment of the agency's statutory reporting obligations. Teammates at DED worked hard in 2022 to help generate strong growth in the Good Life. Highlights include:

### **Workforce Development**

DED programs are strengthening Nebraska's world-class workforce. Nebraska had a higher percentage of adults engaged in the workforce than any other state in America throughout all of calendar year 2022. By the end of 2022, the state's manufacturing employment was at its highest point in over 20 years and construction employment had reached an all-time high.

### **Business Recruitment**

DED had a banner year attracting new investment to Nebraska and working with existing companies to expand their operations. In June 2022, *Area Development* magazine honored Nebraska with a Silver Shovel award in recognition of Nebraska's successful recruitment of high-value projects.

### **Promoting Nebraska**

During 2022, DED ran a national marketing campaign to promote Nebraska, featuring the state's slogan as "The Good Life." It highlighted the affordability, opportunity, and neighborliness that make Nebraska such a great place to live. The campaign generated over 106 million video views from October 2021 through May 2022, far exceeding the agency's goal of 70 million.

### **Economic Recovery**

In April 2022, the National Bureau of Economic Research gave Nebraska an "A+" for the state's response to the coronavirus pandemic. Over the past year, DED has taken on major responsibility to oversee additional recovery programs. Traditionally, DED manages \$80-\$100 million per year. Bills from the 2022 Legislative Session elevated the agency's managed dollars to \$1+ billion for State Fiscal Year 2022-2023.

### **International Trade**

In 2021, Nebraska obliterated the previous state record for international exports. DED continued to promote Nebraska in international markets in 2022—coordinating State trade missions to Ireland, the United Kingdom, and Japan.

DED teammates showed exemplary focus and adaptability in 2022, supporting these remarkable achievements while moving offices from downtown Lincoln to Fallbrook.

As an agency, DED values relationships and closely cooperates with local governments, chambers of commerce, economic development organizations, utility providers, housing agencies, and educational institutions to grow Nebraska. Thank you to our many partners whose dedicated work contributes to the rising prosperity of our state.

Sincerely,

A handwritten signature in black ink that reads "Joe Fox". The signature is written in a cursive, slightly stylized font.

Joe Fox  
Interim Director

**PART 1:**  
THE NEBRASKA BUSINESS INNOVATION ACT

*From ag robotics to logistics technology, Nebraska startups are at the forefront of inventive product breakthroughs. The ingenuity of the state's entrepreneurs is helping to create jobs and draw investment to the Good Life.*

The Business Innovation Act (BIA) of 2011 authorized a suite of grant and investment programs for Nebraska-based startups and small businesses. BIA programs are a valuable tool for the State to support high-potential, high-tech small businesses at every stage of growth.

In Fiscal Year 2021-2022, DED received 133 requests for funding under BIA programs, totaling a combined \$16,096,663. DED ultimately awarded \$12,205,124 as detailed in the tables below. DED administers the following BIA programs:

**Microenterprise Assistance Program**

The Microenterprise Assistance Program awards funding to nonprofits in Nebraska that specialize in providing technical assistance and loans to small businesses.

DED received four applications for funding in FY 2021-2022 for a total of \$2,900,000. All four applications were funded in the combined amount of \$2,737,000. DED awarded \$1,377,000 to one recipient for Microenterprise Technical Assistance and a combined \$1,360,000 to three organizations for Microenterprise Lending Assistance (Table 1.1).

**Nebraska Seed Investment Program**

The Nebraska Seed Investment Program is an equity investment program that supports early-stage startups in their commercialization of a product, service,

or technology. DED contracts with Invest Nebraska, a nonprofit 501(c)3 venture capital firm, to operate the program. Invest Nebraska conducts due diligence on all applicants and places and holds the equity investments made through the program.

In FY 2021-2022, DED and Invest Nebraska received 15 requests for seed funding in the amount of \$3,750,000. Of these requests, \$2,950,000 of investments were made to 12 applicants (Table 1.2).

**Nebraska Innovation Fund Prototype Grant Program**

The Nebraska Innovation Fund Prototype Grant Program assists companies with initial product development. Applicants must show the proposed product has high-growth potential and must demonstrate that it innovatively answers a market need.

In FY 2021-2022, DED received 68 requests for funding through the program totaling \$7,191,821. The Department awarded \$4,585,500 of prototype grants to 55 applicants (Table 1.3)

**Table 1.1** Microenterprise Assistance Program Awards, FY 2021-2022

Recipient	Amount	Location	Award Type

<b>Total</b>	<b>\$4,585,500</b>		

### Ag Tech Startup Sentinel Fertigation Is Helping Farmers Boost Productivity, Cut Costs

In FY 2021-2022, DED awarded Sentinel Fertigation \$100,000 through a BIA prototype grant and \$250,000 through a BIA seed investment. The ag tech startup, founded by UNL graduate student Jackson Stansell, uses satellite imagery to assess the nitrogen needs of crops. The company's innovative software then analyzes the imagery to provide data-driven recommendations on when to apply fertilizer and how much to use. Given record-high nitrogen fertilizer costs, Sentinel Fertigation is saving farmers money by helping them to avoid over-applying fertilizer, while still ensuring crops get the nutrients they need to grow.

### Innovative Nebraska Ag Startups Earn National Recognition

In January 2022, Nebraska startups won three of the top four honors in the Ag Innovation Challenge, a national competition hosted by the American Farm Bureau Federation to showcase innovative entrepreneurship. DED supported each company with a Business Innovation Act award during State Fiscal Year 2021-2022.

Aurora-based Grain Weevil brought home the top prize. The company has built a robot—resembling a weevil—that can navigate the surface of a grain bin. The robot can safely perform inspections and other tasks inside the bin, allowing farmers to stay out of harm's way.

Birds Eye Robotics in Herman was recognized as the runner-up at the Ag Innovation Challenge. The startup has created a robotics system to do time-consuming upkeep that would otherwise require a farmer to physically walk inside a broiler house.

Marble Technologies, located in Lincoln, also earned recognition as a top-four finalist. It has designed products to automate many of the repetitive, labor-intensive tasks in pork and beef processing facilities. Its technologies have potential to remedy labor shortages that sometimes serve as a bottleneck in meat processing.

### UNL Report Shows Success of Business Innovation Act in Supporting Startups

Every two years, DED surveys companies participating in Business Innovation Act programs. The agency contracts with the University of Nebraska-Lincoln Bureau of Business Research (UNL-BBR) to compile survey data and analyze the effectiveness of BIA programs.

In its 2022 study, UNL-BBR reported that businesses participating in Business Innovation Act programs have earned \$12.23 of revenue per \$1 dollar of State investment. The companies have also raised \$10.68 of capital for every \$1 of state funding. According to the UNL report, "these ratios are considerably larger than reported in earlier studies [2014, 2016, 2018, and 2020] and represent the ability of Nebraska businesses to leverage BIA funding and generate revenue."

Recipients of BIA funds are having a significant impact on Nebraska's economic well-being. In 2022, BIA program participants supported 3,314 jobs with an average annual wage above \$58,500. Combined, they contributed \$16.3 million of state and local taxes to help fund roads, schools, and other critical public services.

**Nebraska Academic R&D Grant Program**

The Nebraska Academic R&D Grant Program supports companies who engage with an institution of higher education in Nebraska on activities that lead to new or improved products. These activities include applied research, the licensure of intellectual property, or use of core facilities.

R&D awards are available during two phases. Phase I grants are typically awarded to first-time recipients and often support proof-of-concept activities. Phase II grants are awarded to companies who have successfully completed the first phase, and typically represent technical assistance for product design and development. For FY

2021-2022 all Academic R&D awards were for Phase I projects.

DED received 16 applicants for Academic R&D grants in FY 2021-2022 requesting \$1,249,842 of funding. The Department issued 14 awards for a sum total of \$957,624 (Table 1.4).

**Table 1.4** Nebraska Academic R&D Grant Program Awards, FY 2021-2022

Award Type (Phase I,II)	Company	Award	Location	Special Fund
Phase I	A+ Berry, LLC	\$100,000	Lincoln	Value-Added Ag
Phase I	Agricultural Flaming Innovations	\$100,000	Lincoln	Value-Added Ag
Phase I	Agricultural Flaming Innovations	\$100,000	Lincoln	Value-Added Ag
Phase I	Baystride inc, DBA Rayne Nutrition	\$98,000	Lincoln	
Phase I	DataFeel Inc	\$46,886	Omaha	
Phase I	DNA Genetics LLC	\$100,000	Columbus	Value-Added Ag
Phase I	Global Fiber Processing	\$45,400	Giltner	Value-Added Ag
Phase I	Impower Health Inc	\$7,750	Omaha	
Phase I	Inspire Me, Rosa	\$10,000	Lincoln	Value-Added Ag
Phase I	KZValve	\$100,000	Ashland	Value-Added Ag
Phase I	NuTek Natural Ingredients	\$100,000	Omaha	Value-Added Ag
Phase I	Oxbow Animal Health	\$6,088	Omaha	
Phase I	Pacific Engineering, Inc.	\$100,000	Roca	Value-Added Ag
Phase I	Progressive Neuro	\$43,500	Ravenna	
<b>Total</b>		<b>\$957,624</b>		

The Business Innovation Act of 2011 specifically authorizes funds to encourage value-added agriculture (increasing the worth of ag products through innovative processing and practices). Companies funded through the Value-added Agriculture Program are listed in the BIA program award tables. In FY 2021-2022, DED awarded \$3,177,600 through the Value-added Agriculture Program.

The Unicameral passed legislation in 2017 to create the Bioscience Innovation Program under the BIA. The program supports small enterprises in the bioscience sector by providing financial assistance for research and development of products such as biofuels, biotechnologies, and biopharmaceuticals. Recipients of Bioscience Innovation Program funds are indicated in the BIA program award tables. In FY 2021-2022, DED awarded \$175,000 through the Bioscience Innovation Program.

**Nebraska Small Business Innovation Research/Small Business Transfer (SBIR/STTR) Grant Program**

The Nebraska SBIR/STTR Grant Program supports companies applying for or making use of funding through the federal Small Business Innovation Research/Small Business Technology Transfer initiative. Awards are available in three phases:

- ▶ Phase 0 grants provide financial assistance to small businesses
- ▶ Phase I grants are state matching funds available to Nebraska small businesses who have won federal SBIR/STTR grants to research the feasibility of a proposed product or service.
- ▶ Phase II grants are state matching funds available to Nebraska small businesses who have successfully completed Phase I feasibility research and have received additional federal SBIR/STTR

applying for federal SBIR/STTR funds.

funding to turn their research into commercially viable innovations.

In FY 2021-2022, DED received 30 applications for funding totaling \$1,005,000. The agency issued 24 SBIR/STTR grants for a combined award amount of \$975,000 (Table 1.5).

**Table 1.5 Nebraska SBIR/STTR Grant Program Awards, FY 2021-2022**

Award Type (Phase 0,I,II)	Recipient	Award	Location	Special Fund

<b>Total</b>		<b>\$975,000</b>		

## PART 2: THE NEBRASKA OPERATIONAL ASSISTANCE PROGRAM

*Turning a promising idea into a profitable business is a major challenge. Through the Nebraska Operational Assistance Program, the State helps provide the strategic guidance, access to capital, and other resources entrepreneurs need to succeed.*

The Nebraska Operational Assistance Program was established in 2007 to serve as a support network for high-potential startups. DED collaborates with Invest Nebraska to strengthen the State's venture capital ecosystem.

Invest Nebraska—a nonprofit 501(c)3—specializes in advising and investing in early-stage companies. It is governed by a 12-member volunteer board. Invest Nebraska's leadership team and board members have wide-ranging expertise in fields such as finance,

management, intellectual property law, ag tech and insurtech entrepreneurship, university research, and commercialization.

Since 2012, Invest Nebraska has provided financial assistance totaling \$34,995,082 to 221 Nebraska startups in the form of loans, convertible debt and equity, while providing operating assistance to 1,995 companies. As of 2021, these businesses had received a total of \$231,291,470 in co-invested capital in addition to financial assistance from Invest Nebraska. From 2012-

2021, these companies created 937 direct jobs paying an average of \$66,921 and received 227 patents. In 2022, Invest Nebraska:

- ▶ Reviewed 256 business plans/pitches/models.
- ▶ Engaged 278 entrepreneurs.
- ▶ Provided \$5,820,082 in financial assistance to 36 Nebraska businesses.
- ▶ Provided operational assistance to 365 total businesses.

### Nebraska's Thriving Startup Scene

In August 2022, Invest Nebraska released the 2022 Nebraska Venture Capital Report, analyzing a decade of data (2012-2021) on venture capital investment into up-and-coming, Nebraska-based companies. In 2021, the state's startups attracted an all-time high of \$317.6 million in venture capital. That more than doubled the previous record of \$153.3 million set in 2018.

**PART 3:**  
THE CIVIC AND COMMUNITY CENTER FINANCING FUND

*Nebraska's welcoming communities are great places to put down roots, raise a family, and do business. They're the reason why Nebraska is known as the Good Life. Through the Civic and Community Center Financing Fund (CCCFF) the State supports municipalities as they develop superb facilities to enhance the quality of life for their residents.*

The Nebraska Department of Economic Development awards CCCFF funds to help develop cultural centers, aquatic facilities, recreation centers, auditoriums, libraries, and other inviting spaces for communities to gather. CCCFF also supports the development of historic buildings and districts.

CCCFF is funded through a turn-back of 30% of state sales tax generated by arenas and nearby retailers. Due to the impact of the coronavirus pandemic on these venues, the amount available for award during FY 2021-2022, corresponding with the 2022 Application Cycle, was less than usual.

Based on current projections, by 2024, the amount of aid available for award should near pre-pandemic levels.

A CCCFF grant can account for up to 50% of a project's total costs. Recipients must match grant funds at least equally from other sources (1:1 local cost-share).

Nebraska municipalities, including rural cities and villages, may apply for CCCFF grants. Due to legislation passed in 2022 that amended state statute, tribal governments are also eligible to apply for CCCFF beginning with the 2023 Application Cycle.

Per statutory limitations, the cities of Omaha, Lincoln, Kearney, and Ralston are ineligible since each has received assistance under the Convention Center Facility Financing Assistance Act or the Sports Arena Facility Financial Assistance Act.

**2022 Application Cycle**

DED received 39 letters of intent and 37 applications for award during the 2022 CCCFF program cycle, amounting to over \$11.36 million in requested aid and \$68 million in local matching funds. DED subsequently awarded a total of \$1.4 million to eight applicants (Table 3.1).

**Table 3.1** Civic and Community Center Financing Funds, Awards, FY 2021-2022

Municipality	Award Type	Amount Awarded	Matching Funds	Project Budget
City of Bellevue*	Capital Construction	\$669,779.55	\$2,809,530.45	\$3,479,310.00
City of Lexington	Capital Construction	\$600,000.00	\$1,800,000.00	\$2,400,000.00
City of Pawnee City	Capital Construction	\$75,000.00	\$75,000.00	\$150,000.00
City of Bayard	Planning	\$15,000.00	\$35,000.00	\$50,000.00
City of Gretna	Planning	\$15,000.00	\$15,000.00	\$30,000.00
City of Ponca	Planning	\$15,000.00	\$15,000.00	\$30,000.00
City of Wisner	Planning	\$15,000.00	\$15,000.00	\$30,000.00
Village of Callaway	Planning	\$15,000.00	\$15,000.00	\$30,000.00
<b>Total</b>		<b>\$1,419,779.55</b>	<b>\$4,779,530.45</b>	<b>\$6,199,310.00</b>

\*The City of Bellevue requested \$1,125,000 and was originally awarded \$483,415. Subsequently, the award amount was increased to \$669,779.55 as more monies became available to DED due to the deobligation of other funds.

*A CCCFF award in Program Year 2020 supported renovations to the municipal swimming pool in the City of Cambridge.*

**2022 CCCFF Awarded Projects, Narrative Descriptions**

▶ **The City of Bayard** received a \$15,000 award to plan a community center with a kitchen, open rentable “party” rooms, and a gym with basketball/volleyball courts. The City is planning the project in partnership with Bayard Public Schools.

▶ **The City of Bellevue** received a \$669,779.55 award to remodel and expand an existing building to create a new public library. Its location is less than one mile from the current library, within the city limits, and sits in a census tract with more than 50% of residents living at low to moderate income. The site of the new library is easily accessible to military families living on nearby Offutt Air Force Base. Due to insufficient available aid, DED was unable to award the full requested amount of \$1.125 million.

▶ **The City of Gretna** received a \$15,000 planning award to hire a capital campaign consultant to study the feasibility of building a new, \$8-\$10 million public library. The study assessed the community’s fundraising capability for the project, determined donors’ interest in supporting the new library, and identified the strategies and resources necessary to conduct a successful campaign.

▶ **The City of Lexington** received a construction award of \$600,000 to develop an indoor racquet sports facility to meet citizen demand for additional recreational opportunities. The proposed 29,000-square-foot facility includes four indoor tennis courts, restrooms, storage space, and spectator seating. The facility is intended to accommodate tennis, pickleball, and other related activities. The City of Lexington will own and operate the facility, and coordinate with Lexington Parks & Recreation, Lexington High School, Lexington Tennis Association, and the Orthman Community YMCA on programming.

▶ **The City of Pawnee City** received a construction grant of \$75,000 to renovate the interior of the Cornerstone Community Building located in the City’s Historic Commercial District. The Cornerstone Building has served the City for over 100 years, first as a bank and more recently as a dental office prior to municipal ownership. The proposed interior improvements will allow the City to operate a community meeting room within the historic building by providing for public restrooms compliant with the Americans with Disabilities Act (ADA) and by making improvements to the HVAC, electrical, and lighting systems.

▶ **The City of Ponca** received a planning award to evaluate two options: 1) renovating the existing city hall / community center or 2) constructing a new facility on the same site. The study examined costs and benefits to the community for each option. Ponca is considered the gateway to Ponca State Park, which welcomes over 900,000 visitors annually. As the park’s conference center is solidly booked for most of the year, both visitors and Ponca residents stand to benefit from Ponca’s proposed new facilities.

▶ **The City of Wisner** received \$15,000 to plan for a new aquatic center. In 2017, the Village had hired a firm to conduct an engineering evaluation of Dinklage Park Municipal Swimming Pool, which had served Wisner residents for over four decades. The evaluation identified a need for preventative maintenance at an estimated cost of more than \$1.7 million. The CCCFF award helped the community to determine whether investing in a new aquatic center would be preferable to incurring the costs of renovation.

▶ **The Village of Callaway** received a \$15,000 award to determine costs and prepare a site plan for a new pool and bathhouse. The project is intended to replace the current pool located in Morgan Park in the center of the Village, which was built in 1971.

The City of Laurel constructed a new civic center with assistance from a CCCFF grant received through the 2020 Application Cycle.

**CCCFF Financial Information**

Tables 3.2-3.5 provide detailed data on CCCFF program financials for the 2021-2022 Fiscal Year, as well as projected expenditures in FY 2022-2023.

**Factors Affecting Future CCCFF Program Years**

Available aid in the 2023 Application Cycle was near pre-pandemic levels. While the amount of aid available to award was less than DED’s legislative authority for CCCFF, the thresholds set in statute for increasing maximum amounts for construction grants was met. Current projections suggest the aid available for award in the 2024 Application Cycle will enable DED to award its full legislative authority.

During the 2022 legislative session, LB927 incorporated the use of Creative Districts into CCCFF for fiscal year 2023-2024. This corresponds with the 2024 CCCFF application cycle. Accordingly, DED is coordinating with the Nebraska Arts Council.

**Table 3.2 CCCFF Revenue Generated for the Fund, FY 2021-2022**

Interest Earned	\$52,953.71
Cancelled Funds	\$0.00
Sales Tax Revenue Generated	\$2,650,194.65
(Operating Transfers Out)	-\$343,900.00
<b>Total Receipts FY 2020-2021</b>	<b>\$2,359,248.36</b>

**Table 3.3 CCCFF Actual Expenditures, FY 2021-2022**

Operating (Non-Aid)	\$32,835.70
Aid	\$3,301,144.86
<b>Total Actual Expenditures</b>	<b>\$3,333,980.56</b>

**Table 3.4 CCCFF Current Budget, FY 2021-2022**

Operating (Non-Aid)	\$186,184.00
Aid	\$12,654,229.00
<b>Total Projected Expenses</b>	<b>\$12,840,413.00</b>

**CCCFF Non-Selected Projects**

The CCCFF is consistently a competitive program. DED received many outstanding applications for award during the program’s 2022 Application Cycle. A review committee scrupulously scored all applications using the statutory review criteria, selecting awardees based on each applicant’s potential to benefit their community’s financial and civic vitality. As with prior application cycles, the requested amount of funding exceeded the amount available for award (see Table 3.6 for a list of non-selected applications).

The CCCFF committee values creativity, resourcefulness, and collaborative local leadership in communities’ development planning. While the non-selected projects listed in Table 3.6 scored lower than awarded projects, the committee encourages applicants to continue strengthening public-private partnerships and prioritizing community development projects. All applications are reviewed for compliance with the statutory thresholds for project location, project ownership, project operation, local match, and—where the project involves a historic property—documentation of approval from the State Historic Preservation Officer.

Applications for planning projects are scored for financial support; assistance from the fund shall be matched at least equally from local sources. At least fifty percent of the local match must be in cash. Projects with a higher level of local matching funds are preferred over those with a lower level of matching funds.

Applications for capital construction projects are scored for five criteria as described below.

1. **Retention Impact:** Funding decisions by DED are based on the likelihood of the project retaining existing residents in the community where the project is located; developing, sustaining, and fostering community connections; and enhancing the potential for economic growth in a manner that will sustain the quality of life and promote long-term economic development.
2. **New Resident Impact:** Funding decisions by DED are based on the likelihood of the project attracting new residents to the community where the project is located.

3. **Visitor Impact:** Funding decisions by DED are based on the likelihood of the project enhancing or creating an attraction that would increase the potential of visitors to the community where the project is located.

4. **Readiness and Local Public Support:** Funding decisions by DED are based on the fiscal, economic, and operational capacity of the applicant—and of any political subdivision that owns the eligible facility jointly with the applicant—to finance and manage the project, and to operate the eligible facility.

5. **Project Planning:** In making funding decisions, DED gives preference to projects with completed technical assistance and feasibility studies over those with no prior planning.

The narratives on pages 24-28 provide the CCCFF review committee’s scoring rationale for applicants not selected to receive funding during the 2022 Application Cycle.

**Table 3.6 CCCFF Non-Select Projects, 2022 Program Year**

Municipality	Category/Subcategory	Award	Matching Funds	Total Project Budget
City of Alliance	Civic Center: Library	\$375,000.00	\$625,000.00	\$1,000,000.00
City of Bassett	Civic Center: Community Hall/Community Center	\$375,000.00	\$1,816,745.00	\$2,191,745.00
City of Cozad	Recreation Center: Aquatic Center	\$375,000.00	\$375,000.00	\$750,000.00
City of Fremont	Civic Center: Library	\$750,000.00	\$8,653,224.00	\$9,403,224.00
City of Gibbon	Civic Center: Community Hall/Community Center	\$375,000.00	\$695,700.00	\$1,070,700.00

Municipality	Category/Subcategory	Award	Matching Funds	Total Project Budget
City of Gothenburg	Civic Center: Conference or Convention Center	\$375,000.00	\$11,189,505.00	\$11,564,505.00
City of Hastings	Civic Center: Community Hall/Community Center	\$750,000.00	\$1,768,700.00	\$2,518,700.00
City of Humphrey	Recreation Center: Aquatic Center	\$375,000.00	\$3,885,387.00	\$4,260,387.00
City of North Platte	Recreation Center: Park	\$192,500.00	\$192,500.00	\$385,000.00
City of Papillion	Recreation Center: Park	\$750,000.00	\$750,000.00	\$1,500,000.00
City of Peru	Public Space: Outdoor Plaza	\$100,000.00	\$100,000.00	\$200,000.00
City of Scottsbluff	Public Space: Outdoor Plaza	\$465,000.00	\$469,950.00	\$934,950.00
City of Seward	Recreation Center: Wellness Center	\$375,000.00	\$17,598,558.00	\$17,973,558.00
City of Sidney	Recreation Center: Park	\$30,000.00	\$15,000.00	\$45,000.00
City of Waverly	Recreation Center: Aquatic Center	\$375,000.00	\$5,625,000.00	\$6,000,000.00
City of Wayne	Recreation Center: Gymnasium or Indoor Rec Facility	\$375,000.00	\$5,575,779.00	\$5,950,779.00
Santee Sioux Nation	Recreation Center: Gymnasium or Indoor Rec Facility	\$345,000.00	\$345,000.00	\$690,000.00
Village of Brownville	Public Space: Outdoor Plaza	\$375,000.00	\$375,000.00	\$750,000.00
Village of Bruning	Recreation Center: Park	\$212,000.00	\$212,000.00	\$424,000.00
Village of Hubbard	Civic Center: Community Hall/Community Center	\$87,500.00	\$87,500.00	\$175,000.00
Village of Kenesaw	Civic Center: Community Hall/Community Center	\$375,000.00	\$375,000.00	\$750,000.00
Village of Malcolm	Recreation Center: Park	\$375,000.00	\$828,758.00	\$1,203,758.00
Village of Nemaha	Civic Center: Community Hall/Community Center	\$375,000.00	\$488,611.00	\$863,611.00
Village of Palisade	Recreation Center: Park	\$11,540.00	\$11,540.00	\$23,080.00
Village of Potter	Civic Center: Community Hall/Community Center	\$300,000.00	\$300,000.00	\$600,000.00
Village of Staplehurst	Recreation Center: Gymnasium or Indoor Rec Facility	\$375,000.00	\$725,000.00	\$1,100,000.00
Village of Trenton	Civic Center: Community Hall/Civic Center	\$15,000.00	\$15,000.00	\$30,000.00
Village of Utica	Recreation Center: Park	\$210,000.00	\$210,000.00	\$420,000.00
Village of Venango	Recreation Center: Park	\$19,181.00	\$19,181.00	\$38,362.00
<b>Totals</b>		<b>\$9,487,721.00</b>	<b>\$63,328,638.00</b>	<b>\$72,816,359.00</b>

## CCCFF Non-Select Project Narrative Descriptions, Application Year 2022

- ▶ **The City of Alliance** proposed to replace HVAC systems throughout the Alliance Learning Center Building.

*Reason for non-selection:* The committee wanted more project- and community-specific narrative in the areas of retention, new resident, and visitor impact about how the proposed improvements to the existing library facility would affect residents and visitors. The City could improve its application by including specific information regarding library usage and how it would be impacted without making these updates. Additionally, more detailed information regarding a technical study completed in July 2021 may have improved scoring under the project planning category.

- ▶ **The City of Bassett** proposed to build the Rock County Community Center, a public, multi-use community center to serve as a gathering place for residents of Bassett and members of neighboring communities.

*Reason for non-selection:* Compared to the awarded projects, the application was not as competitive in the areas of retention impact, new resident impact, and readiness and local public support. Moreover, the amount of secured funds on hand was less than those of awarded projects.

- ▶ **The City of Cozad** proposed repairs and improvements to its outdoor municipal pool facility.

*Reason for non-selection:* It was unclear to the review committee what influence the improvements would have on any expanded or enhanced use of the facility. While it is likely the project will address commu-

nity need, the application did not include adequate community- and project-specific information as compared to awarded projects. Additional information regarding the operational capacity and feasibility of the facility with the current equipment may have improved scoring in retention, new resident, and visitor impact. While the review committee made note of the extensive project planning, the review committee would have appreciated more information regarding results of each of these studies, the community's role in providing input, and how this ultimately impacted project decisions. This may have improved scoring in project planning, readiness, and local public support.

- ▶ **The City of Fremont** applied for an award to help renovate and expand the Keene Memorial Library. The project, estimated at \$9.4 million, included demolition of the existing East Annex Building, renovation of current space, and new construction of a two-story addition.

*Reason for non-selection:* Although the application highlighted that the current, historic library space is small and existing technology resources are maxed out, the review committee noted that additional detail and concrete examples regarding how the current facility does not meet growing capacity needs based on community usage may have improved overall scoring compared to awarded projects.

- ▶ **The City of Gibbon** proposed the renovation of the existing fire hall into a new community center.

*Reason for non-selection:* In order to understand the importance of the project and its real impact, the committee wanted more project-specific narrative in the areas of retention, new resident, and visitor

impact. These narrative responses were too broad in scope and did not fully address the respective criteria as compared to awarded projects. Additional information about who used the facility and how it's used, including details about programming and scheduled or anticipated events, may have provided more context as to the importance of the project for the community. Additionally, the application indicated the community center portion of the project would not have begun until April 2023; awarded projects demonstrated readiness to implement the project immediately.

- ▶ **The City of Gothenburg** proposed building the Gothenburg Impact Center—a newly constructed building across the street from the school and adjacent to existing ballfields. The proposed building would include a civic center.

*Reason for non-selection:* Compared to awarded projects, the application did not include detailed project-specific information about who uses the facility and how it is used—including details about facility programming and reoccurring events or activities—to provide additional context as to the importance of the project to the community. Moreover, the amount of secured funds on hand was less than those of awarded projects.

- ▶ **The City of Hastings** proposed development of the Hastings Civic and Cultural Center by making renovations to the current community center to add an additional 9,500 square feet of space and create a paved parking area.

*Reason for non-selection:* Compared to awarded projects, the application was not as competitive in the areas of retention impact, new resident impact, readiness and local

public support, and planning. The inclusion of more project-specific information and concrete examples of how the proposed upgrades will enhance facility usage may have resulted in a higher score in the areas of retention impact and new resident impact. Additionally, the inclusion of information regarding the lack of alternative event spaces in the area may have better demonstrated the need for such an event space. Finally, the review committee could not clearly determine the source of certain matching funds described in the Cost-Share Commitment letter.

- ▶ **The City of Humphrey** proposed to construct the Humphrey Aquatic Center, providing the area with a \$4.2 million inclusive, zero-depth entry pool.

*Reason for non-selection:* Compared to awarded projects, the application was not as competitive in the areas of retention impact and new resident impact. Scoring in these areas may have been improved by the inclusion of more project-specific information regarding potential community member interest in and usage of the proposed facility, along with information showing the lack of alternatives in the surrounding area.

- ▶ **The City of North Platte** proposed to renovate and rebuild the existing tennis courts in Cody Park to create nine dedicated pickleball courts and two tennis courts.

*Reason for non-selection:* Compared to awarded projects, the application was not as competitive in retention impact. The review committee noted the application narrative's focus on placemaking and community-based participation, but the inclusion of more targeted, project-specific information, including

concrete examples of community member interest and usage may have improved scoring.

- ▶ **The City of Papillion** proposed redeveloping the Papillion City Park. Proposed changes to the historic downtown park included adding a new destination playground and amenities at the west entrance, creating more parking, adding walking trails and decorative fencing, making landscape improvements, and enhancing seating areas with pedestrian scale lighting.

*Reason for non-selection:* Compared to awarded projects, the application was not as competitive in the areas of planning, retention impact, and readiness and local public support. The application identified park improvements as part of the city's Parks and Recreation Master Plan. However, compared to awarded projects, the application did not clearly identify the residents' unmet need. The inclusion of more project-specific, concrete information regarding park usage and resident input and community involvement related to project development may have increased scoring in the areas of retention impact and readiness and local public support. Additionally, while the review committee noted the park improvements as a priority identified in the Parks and Recreation Master Plan, other applications included more detailed timelines, operational capacity, and planning documents to implement the proposed projects.

- ▶ **The City of Peru** applied for funds to reopen a splash pad and rebuild a children's playground at Sid Brown Memorial Park.

*Reason for non-selection:* In order to understand the importance of the project and its real impact, the committee noted the need for

more targeted, project-specific narrative in four areas: new resident impact, visitor impact, readiness and local support, and planning. These narrative responses were too broad in scope and did not fully address the respective criteria as compared to awarded projects. Additional information, including more detailed information on how the project will address community need based on specific community feedback, potential reoccurring activities or events in the park, a clear implementation plan, and stronger project planning may have improved scoring in these areas. Moreover, the amount of secured funds on hand was less than those of awarded projects.

- ▶ **The City of Scottsbluff** sought CCCFF funds to support the final construction phase of 18th Street Plaza—a gathering space designed to host community events in downtown Scottsbluff.

*Reason for non-selection:* The review committee wanted more project- and community-specific narrative in the areas of retention, new resident, and visitor impact. The application noted there is increased usage in the plaza, but the committee did not have adequate information about the types of the events held at the plaza nor how often the plaza is used. Additional information on the use of the plaza, including reoccurring events and/or activities and attendance figures, may have provided more context as to the importance of the project for the community.

- ▶ **The City of Seward** proposed to develop a city-owned wellness facility adjacent to the current Seward Middle School to offer exercise and recreation opportunities.

*Reason for non-selection:* The amount of secured funds on hand

was less than those of awarded projects, resulting in a below-average score in project readiness. The committee would have also appreciated a project timeline illustrating the project's anticipated progression during the term of the CCCFF award.

- ▶ **The City of Sidney** requested funds to replace the current equipment and ground surfaces at the playground at Legion Park.

*Reason for non-selection:* Compared to awarded projects, the application was not as competitive in the areas of visitor impact and project planning. The inclusion of more project-specific information regarding how the proposed project interacts with existing events held at or near the park may have improved project scoring in these areas. Additionally, the application did not sufficiently describe the amount of public participation involved in the planning and final design process.

- ▶ **The City of Waverly** requested a CCCFF award to help convert a baseball field into a new aquatic facility at Wayne Park.

*Reason for non-selection:* The inclusion of narrative detailing the lack of local alternatives for the proposed activities and programming may have bolstered scoring of various categories that were lower than those of awarded projects.

- ▶ **The City of Wayne** requested funds to renovate and expand its Community Activity Center.

*Reason for non-selection:* Compared to awarded projects, the application was not as competitive in retention impact, readiness and local public support, and planning. The application included reference to the city's long-term strategy,

including obtaining resident input. The inclusion of additional narrative detailing public input and support for the project, including concrete data on community activity center usage and interest in expanded activities, may have improved scoring in these areas. Moreover, the amount of secured funds on-hand was less than those of awarded projects. The committee would have also appreciated a project timeline illustrating the project's anticipated progression during the term of the CCCFF award.

- ▶ **The Santee Sioux Nation** proposed to construct a recreational center dedicated to youth.

*Reason for non-selection:* The committee would have appreciated additional information on the process that informed the final planning and design and how the final design directly addresses identified existing community need. This additional information may have improved scoring in the area of project planning. Additionally, the committee noted a concern regarding the overall project budget. It was unclear how the community anticipated addressing the gap between estimated project costs and the secured funds identified in the application.

- ▶ **The Village of Brownville** sought CCCFF funds to revitalize sidewalks, trails, and campsites in Brownville Riverside Park and the community's greater riverfront area.

*Reason for non-selection:* Compared to the awarded projects, the application was not as competitive in all five areas: retention impact, new resident impact, visitor impact, readiness and local support, and project planning. The review committee noted the damage and deterioration caused by the 2019 flooding; the village could improve

its application by including more information about how the planned updates address the community void created by the flooding event. The application highlights the potential impacts to tourism; a more detailed discussion on projected impacts to current and new residents may have improved scoring in those areas. Finally, the application was unclear whether the requested funding and local match would fully cover the cost of the planning concepts included in the application. Additional information regarding implementation of the design concepts, associated costs, and corresponding timeline may have improved scoring in the areas of project readiness and project planning.

- ▶ **The Village of Bruning** proposed renovating its existing playground in the Village Park adjacent to the downtown business district.

*Reason for non-selection:* The review committee noted that additional examples of how the park improvements will improve or expand current community events located at or near the park may have further strengthened scoring in various categories. Compared to awarded projects, the application scored lower in the planning category. Additional detail on the feasibility of the splash pad and concrete data reflecting local input may have improved overall scoring in this area.

- ▶ **The Village of Hubbard** proposed to renovate and expand its existing community center.

*Reason for non-selection:* To understand the importance of the project and its real impact, the committee noted the need for more targeted, project-specific narrative in all five areas: retention, new resident im-

pact, visitor impact, readiness and local support, and planning. The narrative responses were too broad in scope and did not fully address the respective criteria as compared to awarded projects. Concrete examples and data demonstrating need and interest for expanded activities and services may have improved overall scoring in these areas. The review committee noted evidence of local support of the project in the letters of support. However, the review committee would have appreciated more information regarding community input throughout the application. This may have improved scoring in the area of project readiness and local public support.

- ▶ **The Village of Kenesaw** applied for an award to support construction of a new design-build office with attached community room.

*Reason for non-selection:* Compared to the awarded projects, the application was not as competitive in all five areas: retention impact, new resident impact, visitor impact, readiness and local support, and project planning. To understand the importance of the project and its real impact, the committee noted the need for more targeted, project-specific narrative in all five areas. These narrative responses were too broad in scope and did not fully address the respective criteria as compared to awarded projects. Additional information about who uses the facility and how it is used may have provided more context as to the importance of the project for the community.

- ▶ **The Village of Malcolm**, in partnership with the Malcolm Youth Sports Association, proposed to construct two new ballfields, along with a facility to provide both concessions and on-site

restrooms to support youth baseball and softball programs.

*Reason for non-selection:* Unlike the awarded projects, the application did not include a project implementation timeline. Additionally, compared to awarded projects, the application was not as competitive in the areas of retention and new resident impact. Additional information regarding the role and impact of the ballfields on the larger Malcolm community may have improved scoring in these areas.

- ▶ **The Village of Nemaha** requested funds to construct a new community center that is ADA compliant and accessible for all residents. The new center would replace an outdated facility that is in disrepair.

*Reason for non-selection:* The committee noted initial planning to be complete but found the narrative to be scarce on details of the planning processes undertaken and information regarding project management and implementation. Additionally, the committee wanted more project- and community-specific narrative in the areas of retention, new resident, and visitor impact. Facility programming is unclear where other applications for similar projects included specific information about collaborating organizations, frequency of use, reoccurring events and/or activities, etc. Concrete examples and data in the narrative may have improved overall scoring in these areas.

- ▶ **The Village of Palisade** proposed a project to install underground water systems and seeding for the football/baseball field area at F.C. Krotter Park as well as to make parking more accessible.

*Reason for non-selection:* To understand the importance of the project

and its real impact, the committee noted the need for more project- and community-specific information about how the improvements to the existing park identified in the application would affect retention, new residents, and visitors. This may have improved overall scoring in these areas. The review committee also noted additional detail regarding capacity to manage and maintain the project once complete may have strengthened demonstration of project readiness. Additionally, the grant request in the amount of \$11,540 was less than the statutory minimum required for capital construction projects (\$15,000).

- ▶ **The Village of Potter** proposed additional renovations to the existing, historic community hall and construction of an annex to provide barrier-free bathrooms and kitchen amenities.

*Reason for non-selection:* Compared to this year's awarded projects, the narrative regarding retention, new resident, and visitor impact did not articulate how the requested additional CCCFF funds would further meet community needs above and beyond those described in the village's successful 2018 CCCFF application. Additional information regarding how project setbacks have impacted building availability and usage may have improved scoring in these areas. Moreover, the amount of secured funds on hand was less than those of awarded projects, resulting in an average score for project readiness and local public support.

- ▶ **The Village of Staplehurst** applied for funds to help build a recreational center in partnership with Our Redeemer Lutheran Church/School of Staplehurst.

*Reason for non-selection:* Compared to awarded projects, the ap-

plication was not as competitive in the areas of retention impact, new resident impact, and readiness and local public support. The narrative indicated the potential for delays in the construction timeline, whereas awarded project applications demonstrated capacity to move forward with the proposed projects without delay. Additionally, although the application mentioned the proposed recreation center would contain a separate entrance from the school, allowing for controlled access and full use of the proposed recreation center year-round, the review committee noted concern with community member access to the facility when the space is in use by the school. Additional project-specific information on anticipated facility programming to serve community members may have improved scoring in these areas.

- ▶ **The Village of Trenton** sought funds to begin the planning process to refurbish a building into a community center.

*Reason for non-selection:* Compared to the awarded planning projects, the application did not provide narrative detailing the intended use of grant funds. The review committee noted that providing additional

detail on the overall goal of the planning process with additional detail on the current community center and the community's desired goals to achieve through the planning process would have strengthened the application. Additionally, the budget information appeared to be inconsistent throughout the application.

- ▶ **The Village of Utica** applied for funds to improve Conns Park (aka Pool Park) and the South Ball Park. The proposed improvements at Conns Park included a new picnic shelter and ADA-accessible restrooms. The proposed improvements to the South Ball Park included a new concession stand and ADA-accessible restrooms.

*Reason for non-selection:* Compared to awarded projects, the application was not as competitive in the areas of retention impact, new resident impact, visitor impact, and project planning. While the review committee noted the park improvements as a priority identified in a community survey and the village's 2021-2031 Comprehensive Plan, other applications included specific planning documents and designs to

implement the proposed projects. Additionally, the review committee noted, specifically for the South Ball Park, the current facility lacks the capacity to meet current need. The review committee noted the planned improvements would improve conditions for current residents and visitors attending games, however other applications provided more compelling arguments as to how proposed projects would increase potential visitors to the community.

- ▶ **The Village of Venango** applied for an award to help create a downtown public park, including basketball courts.

*Reason for non-selection:* Compared to awarded projects, the application was not as competitive in retention impact, new resident impact, and visitor impact. The inclusion of more project-specific information, including concrete examples of potential community member usage and how this area may be used to attract new residents and visitors, including events held at or near the park or other complementary attractions, may have improved overall scoring in these areas.

A CCCFF award in Program Year 2020 helped the City of Hooper renovate its baseball field.

**PART 4:**  
THE NEBRASKA AFFORDABLE HOUSING TRUST FUND

*DED endeavors to create opportunities for all families to enjoy the Good Life, whatever their level of income. Through the Nebraska Affordable Housing Trust Fund (NAHTF), the Department provides financial assistance to help communities develop homes priced within reach of families with low to moderate incomes. NAHTF was established in 1996 through the Nebraska Affordable Housing Act. It is funded with a portion of the Nebraska Documentary Stamp Tax.*

DED serves as an investor in NAHTF projects, seeking to award applicants who demonstrate the strongest ability to use state resources to develop affordable homes. DED also partners with award winners to provide input into project design and to address any challenges that arise during project implementation.

NAHTFs are available to units of local government, public housing authorities, community action agencies, and community-based, neighborhood-based or reservation-based nonprofits and for-profit entities working in conjunction with one of the aforementioned eligible applicants. Awards support a range of activities including new home or

rental construction, rehabilitation of housing units, and homeowner down payment assistance.

The awards may also be used for support activities related to the development of housing units such as the acquisition of a vacant lot or demolition of a blighted structure.

NAHTF funds are awarded for projects that benefit households at or below 120% of the area median income.

**NAHTF Financial Information, Calendar Year 2022**

In 2022, revenue deposits from the documentary stamp tax to the NAHTF totaled \$17,368,498.66. Additionally, the fund earned interest of \$533,772.85.

DED received 43 full applications for NAHTF assistance in calendar year 2022, totaling \$18,735,465. Forty applicants were selected for award, in the combined amount of \$17,482,102. Table 4.1 displays information on award recipients, and Table 4.2 lists non-selected applicants.

Appropriated funds expended by the Department totaled \$11,289,336.80. All available funds were contracted to projects for the program year. The year-end NAHTF balance as of December 31, 2022, was \$34,671,869.04. The Department's current estimated budget for administration of the NAHTF (spending authority for July 1, 2023-June 30, 2024) is \$1,250,000; the budget for aid during the same time period is \$12,750,000.

**NAHTF Awards and Outcomes, Calendar Year 2022**

DED awarded \$17,482,102 to 40 applicants in the 2022 NAHTF Program Year. These awards have made a tremendous impact across the state.

- ▶ Supporting the development of 385 housing units across Nebraska, with a combined value of \$26,246,995 in project costs.
- ▶ Generating \$2,337,900 in local cash match funds and more than \$45.3 million in community investment. These sums are evidence of the program's importance as a catalyst for local action to address housing needs.
- ▶ Leveraging \$6,426,993 in funding.
- ▶ Creating an estimated 153 jobs in construction, the skilled trades and other related fields.

Table 4.1 provides detailed data on NAHTF awards for the calendar year.

**Table 4.1 NAHTF Awarded Projects, Calendar Year 2022**

Congressional District	Application Awarded	Organization Awarded	Project Location	Project Description	Project Summary	Grant Amount Requested	Amount Awarded	Amount of Cash Match	Percent of Cash Match	Amount Leveraged	Percent of Leverage	Total Project Cost	# of Units	Occupancy Rate	Expected Monthly Rent	Employment Generated	Community Investment

### NAHTF Non-Selected Projects, Calendar Year 2022

For NAHTF funding requests under the 2022 Annual Cycle, DED first examined all applications to determine they met threshold criteria (e.g., documentation of required match, eligible applicant, eligible activities, etc.) before scoring written housing proposals based on the following selection criteria:

- ▶ Project design (100 points possible)
- ▶ Need and impact (100 points possible)
- ▶ Project financing (100 points possible)
- ▶ Capacity and collaboration (100 points possible)
- ▶ Disaster recovery (10 points possible)
- ▶ Affordability period (25 points possible)
- ▶ New units created (25 points possible)
- ▶ Matching funds (50 points possible)

For the 2022 Annual Cycle, three housing project applications did not meet the minimum score threshold for award and were not funded. Details on these applications are listed in Table 4.2.

During the 2022 Annual Cycle, all full applications for non-technical assistance received funding.

**Table 4.2** NAHTF Non-Selected Projects, Calendar Year 2022

Applicant	Project Location	Project Description	Project Category	Amount Requested	Cash Match
Western Nebraska Housing Opportunities	City of Kimball; Morrill and Scotts Bluff counties	Homebuyer Assistance	Homebuyer	\$310,000	\$20,000
City of Sidney	Cheyenne County	New Construction, Homebuyer Assistance, Acquisition, Developer Fee	Homebuyer	\$500,000	\$100,000
New Beginnings Apostolic Church dba New Beginnings Sub-Divisions	Douglas County	Homebuyer Assistance, New Construction	Homebuyer	\$423,563	\$0
<b>Total</b>				<b>\$1,233,563</b>	<b>\$120,000</b>

In December 2022, Custer Economic Development Corporation and the community of Callaway broke ground on a new single-family home that was developed with the help of NAHTF funds.

### NAHTF Award Helps Build Students' Skills, Affordable Homes in North Omaha

NeighborWorks Home Solutions and Metro Community College (MCC) have partnered to create a unique program for both students and the community. Students in the Construction Technology program receive hands-on experience constructing single-family units for households in North Omaha. Each single-story unit is approximately 1,100 square feet and includes three bedrooms, two bathrooms, a kitchen, dining room, living room, laundry area, and a one-car garage. The homes are built on the MCC campus by students, and then transported to the housing site. DED has invested over \$300,000 of Nebraska Affordable Housing Trust Funds into this project, which is helping to grow both the state's workforce and its inventory of homes.

Students take measurements as they construct a home at Metropolitan Community College in Omaha.

Above: A home built by students at MCC nears completion after being transported to a lot in North Omaha.

Left: Students assemble the roof of a home at MCC as part of a NAHTF housing project.

Per the requirements of the Nebraska Affordable Housing Act and NAHTF regulations, DED made its best effort to allocate no less than 30% of NAHTF monies to each of Nebraska's three U.S. Congressional Districts, reflecting 90% of the estimated NAHTF allocation. The remaining 10% of the NAHTF allocation was invested in housing projects within U.S. Congressional District 3. A breakdown of program funding by district is displayed in Table 4.3.

**Table 4.3** NAHTF Funding by Congressional District, Calendar Year 2022

District	Amount Awarded	Percentage of Funds Awarded
Congressional District 1	\$5,353,325	30.6%
Congressional District 2	\$5,138,500	29.4%
Congressional District 3	\$6,990,277	40.0%
<b>Total</b>	<b>\$17,482,102</b>	<b>100%</b>

### Community of Clearwater Adds Housing with Assistance from NAHTF

In October 2022, the community of Clearwater celebrated the groundbreaking of a new duplex project supported with an award from the Nebraska Affordable Housing Trust Fund. The duplex will be equally divided into two housing units, each 1,400 square feet, having zero-entry accommodations. Areas within each housing unit will include a kitchen/dining room/living room open floor plan area, along with two bedrooms, one bathroom, a laundry room and an attached garage. DED has invested \$221,000 of Nebraska Affordable Housing Trust Funds in this project.

Construction moves forward on the NAHTF duplex project in the Village of Clearwater.

**PART 5:**  
THE RURAL WORKFORCE HOUSING FUND

*The availability of attractive, affordable homes is a major selling point for a community when seeking to welcome new families and recruit business investment. The Rural Workforce Housing Fund (RWHF) was established in 2017 through the Rural Workforce Housing Investment Act. DED administers the RWHF to support the development of affordable housing in counties with populations under 100,000.*

On a competitive basis, DED provides RWHF awards to non-profit development organizations, who invest the funding to develop high-quality, affordable housing. RWHF applicants must supply a match to be eligible for award, and they often partner with local businesses and financial institutions to raise the local match.

Many awardees use the RWHF dollars to create revolving loan funds. These funds are used to finance the

construction of homes for working families. Upon sale of the homes, the money is repaid to the fund so that it can be loaned again. This creates an ongoing funding instrument for housing development.

**RWHF Round 1 Funding**

In 2018, DED announced the first round of RWHF funding, awarding \$7,009,000 to 14 nonprofit development organizations. A 1:1 match was required of all recipients. That initial round of funding has since

resulted in the construction or substantial rehabilitation of 842 housing units across Nebraska.

As of December 31, 2022, investments of 2018 RWHF awards were supporting 195 additional housing units under development. During calendar year 2022, recipients of the first round of RWHF funding invested \$2.91 million of combined award and match funds into housing projects. Table 5.1 reports these investments.

**Table 5.1** Rural Workforce Housing Fund, Investments in 2022 Made by Recipients of RWHF Round 1

Awardee	Project Area	RWHF Investment	Match Amount
Central Nebraska Economic Development, Inc.	Valentine	\$65,000	\$135,000

South Central Development District, Inc.	Central City	\$14,691	\$222,377
<b>Total</b>		<b>\$1,444,332</b>	<b>\$1,468,114</b>

**Community of Valentine Celebrates Workforce Housing Accomplishment**

Central Nebraska Economic Development, Inc. (CNED) received a Rural Workforce Housing award in 2018, allocating portions of it for housing development in Valentine. The community of Valentine contributed matching funds to create a Workforce Housing Investment Fund to finance construction of two new homes, with additional match contributed by the Nebraska Investment Finance Authority.

Then-Lieutenant Governor Mike Foley joined project leaders in Valentine on March 11, 2022, to cut the ribbon on two new homes made possible by the Rural Workforce Housing Fund.

A new home in the City of Valentine constructed with financial assistance from the Rural Workforce Housing Fund.

**RWHF Round 2 Funding in 2021**

Given the tremendous success of RWHF Round 1, the Unicameral authorized an additional \$10 million to the fund in 2020. During 2021, DED awarded these funds to 17 recipients who contributed a total of \$10.7 million in local match. As of the end of 2022, the RWHF Round 2 had resulted in the construction of 56 housing

units with another 238 in progress. Round 2 RWHF recipients invested a combined \$14.15 million of award and match into housing projects during 2022. These investments are displayed in Table 5.2.

Note that data provided in Tables 5.1 and 5.2 are only for those RWHF awardees who made new

investments in 2022. Historic data for RWHF recipients is provided in DED's previous annual reports to the Nebraska Legislature, which are available at [opportunity.nebraska.gov/programs/plans-reports](http://opportunity.nebraska.gov/programs/plans-reports).

**Table 5.2** Rural Workforce Housing Fund, Investments in 2022 Made by Recipients of RWHF Round 2

Awardee	Project Area	RWHF Investment	Match Amount
Aurora Housing Development Corporation	Aurora	\$810,000	\$266,196

<b>Total</b>		<b>\$7,523,584</b>	<b>\$6,621,671</b>

**Rural Workforce Housing Fund Supports Major Housing Projects in Columbus**

NeighborWorks Northeast Nebraska received Rural Workforce Housing Fund awards in both 2018 and 2021. They worked with SERC, LLC on the Centennial Housing Project to develop 34 new duplexes. Through a partnership with 4J Capital LLC, they have also financed apartment construction at The Flats at 5th. Phase I completed 180 new units at East 5th Ave and East 25th St. Phase II of the project resulted in 60 additional rental units at the Flats at 5th.

*A duplex under construction in the Centennial Housing Project in Columbus.*

*The Flats at 5th in Columbus, a project supported by RWHF funds.*

**PART 6:**  
THE MIDDLE INCOME WORKFORCE HOUSING ACT

Nebraska's urban areas have seen impressive growth in recent years. They've built major data centers; expanded university campuses; and attracted investments from manufacturers, food processors, insurers, and financial service companies. The Middle Income Workforce Housing Investment Fund (MWHF) is helping meet the demand for housing as Nebraska's metro areas rapidly generate new jobs.

In 2020, Nebraska enacted the Middle Income Workforce Housing Investment Act, which created the MWHF. DED administers the fund to help nonprofits develop affordable homes in older or underserved urban neighborhoods with a demonstrated need for housing. Awards are available for housing projects within qualified census tracts in Douglas County, Sarpy County, and the City of Lincoln.

In 2021, DED awarded over \$9.6 million from the MWHF to 10 recipients. Each awardee supplied a match equal to the award amount. The Nebraska Investment Finance Authority (NIFA) provided \$5 million to support MWHF recipients in raising their required match.

In calendar year 2022, 10 housing units were completed with financial assistance from the MWHF

and 10 additional units were in progress. During 2022, four MWHF recipients invested nearly \$4.69 million of combined MWHF awards and match. Details are displayed in Table 6.1 below. Other MWHF awardees were still in the pre-development phase of their housing projects as of December 31, 2022.

**Table 6.1** Middle Income Workforce Housing Fund, Investments by Recipients in 2022

Awardee	Project Area	MWHF Investment	Matching Investment
Habitat for Humanity Omaha	Omaha	\$455,172	\$1,000,000
Holy Name Housing Corp	Omaha	\$1,000,000	\$1,000,000
NeighborWorks Lincoln	Lincoln	\$287,923	\$288,096
Canopy South	Omaha	\$438,621	\$219,310
<b>Total</b>		<b>\$2,181,716</b>	<b>\$2,507,406</b>

**MWHF Finances Affordable Homes in Lincoln**

In 2021, DED awarded \$1 million to NeighborWorks Lincoln through the MWHF. The award was supplemented by an additional \$1 million of combined match from NIFA, Lincoln Community Foundation, and NeighborWorks Lincoln's own organizational fund. NeighborWorks Lincoln has used the award and match to establish a fund to finance the development of moderately priced homes (\$125,000 to \$325,000) in neighborhoods with an acute need for more housing options.

A home rehabilitation in Lincoln completed by NeighborWorks with financial support from the MWHF.

A new home developed by Habitat for Humanity of Omaha using an award from the MWHF.

**PART 7:**  
THE CUSTOMIZED JOB TRAINING PROGRAM

*Given the rapid pace of technological innovation, the most adaptable companies are best positioned to succeed. The Customized Job Training (CJT) Program provides funds to help businesses in Nebraska train their employees in the use of new equipment and technologies. By helping to develop a highly skilled, tech-savvy workforce, DED is keeping Nebraska on the leading edge of technological change.*

CJT grants provides financial assistance for employee training initiatives that create or retain quality jobs in Nebraska. The program gives preference to projects resulting in increased investment and employment in the state. Eligible activities within the CJT program include on-the-job training, classroom instruction, educational costs such as tuition and fees, and costs of training materials.

CJT awards must be used to train full-time, permanent, in-state employees who are not involved in administrative support, management, or facility maintenance. Businesses have one to three years to complete training for employees under CJT. All CJT grant recipients must maintain their employee baseline as of the time of application for at least two years.

**CJT Active Grants, 2022 Program Year**

Seven CJT contracts were active during the 2022 program year, representing \$4,678,200 in awards. Combined, these contracts have supported the training of 957 new employees and the retention of 10 additional employees. As of June 2023, expenditures for these seven contracts totaled \$4,543,671. Table 7.1 displays data for each of the contracts.

**Table 7.1 Customized Job Training Active Contracts, 2022 Program Year**

Business Name	Award	Expenditures to Date	New Employees Trained	Existing Employees Trained	Training Period Start Date	Training Period End Date
Malco Products	\$20,000.00	\$19,999.84	10	0	1/29/2019	1/29/2022
Lincoln Premium Poultry	\$4,400,000.00	\$4,349,888.22	800	0	6/1/2019	6/1/2022

**PART 8:**  
INTERN NEBRASKA (InternNE)

*The State's workforce development strategy begins with recruiting in our own backyard. DED is creating pathways for Nebraska's students to stay in-state after they graduate and launch careers here. To do this, the agency supports internships that offer students valuable experience in growing, high-wage career fields. The goal is for students to get plugged into a Nebraska workplace, develop mentoring relationships with local leaders, and make connections volunteering in the community years before they finish school. That way, upon graduation, students already have strong vocational ties to Nebraska and a vision of how they can make an impact as civic leaders in our state.*

The Intern Nebraska Grant Program (InternNE) provides financial assistance to employers to make it easier and more cost-effective for them to create internships. During 2022, the InternNE program reimbursed up to 50% for an intern's wages, up to \$5,000 per internship. For undergraduate interns receiving a federal Pell Grant, InternNE

reimbursed up to 75% for wages, up to \$7,500 per internship.

Legislation passed during 2022 will significantly expand Intern Nebraska in the coming years. Under the redesigned program, businesses will be able to apply for financial assistance to cover additional internship costs. These

include tuition reimbursement, intern housing, transportation costs, and recruitment expenses. The program's enhanced flexibility will be especially beneficial for small businesses and startups looking to create an internship program. The Department prepared to roll out the InternNE upgrades in 2022 and will award its first grants under the redesigned program in the latter half of 2023.

Since its inception in 2011, InternNE has helped companies in Nebraska create more than 3,700 internships. During the 2022 program year, DED awarded a total of \$375,000 through InternNE to more than 100 employers. These awards supported 154 internships. See Table 8.1 for details.

**Table 8.1** Intern Nebraska Awards, Fiscal Year 2021-2022

Business	Number of Internships Awarded	Total Grant Amount
Allo Communications	1	\$3,000

**PART 9:**  
THE SITE AND BUILDING DEVELOPMENT FUND

*Through the Site and Building Development Fund (SBDF), DED helps Nebraska’s communities prepare the places and spaces needed to support business growth. Having industry-ready facilities strengthens recruitment and retention of high-wage job creators. SBDF gives communities a competitive advantage when seeking to attract investment—whether from a new venture or existing company looking to expand.*

The Site and Building Development Fund was established in Nebraska through legislation passed in 2011. Its purpose is to assist communities in readying industrial sites and facilities to create conditions favorable to growth. DED competitively awards SBDF grants to local governments and nonprofits, such as economic development organizations. Grants can be used to acquire land, to buy or construct buildings, to renovate existing structures, or to develop land for industrial use. SBDF grants can also be used for planning, design, and engineering costs. SBDF grants

require a dollar-for-dollar match from all recipients.

DED awarded \$1.83 million of SBDF funds for 12 projects with a start date in calendar year 2022, as displayed in Table 9.1. Of these funds, 52% were awarded to applicants in nonmetropolitan areas (counties with a population under 100,000), and 48% were awarded to support projects in metropolitan areas (counties with a population of 100,000 or more).

In its 2021 Annual Report, DED reported SBDF awards on a fiscal

year basis (July 1, 2020 to June 30, 2021). Table 9.2 displays SBDF awards for projects that started in calendar year 2021 but were not included in last year’s annual report since they began in State Fiscal Year 2022 (July 1, 2021 to June 30, 2022).

Tables 9.1 and 9.2 provide data on SBDF grants awarded by DED. Awarded funds are not disbursed unless and until the benefiting business meets the requirements specified in the SBDF award contract.

**Table 9.1 Site and Building Development Fund Awards, Calendar Year 2022**

Eligible Applicant	Benefiting Business	County	Award
City of Norfolk	Norfolk Crush, LLC	Madison	\$200,000
Hastings Economic Development Corporation	Bruckman Rubber	Adams	\$200,000
Merrick County Development Corp.	Banks Wraps & Signs	Merrick	\$50,000
Ravenna Economic Development Corporation	L&M Machine Tool, LTD	Buffalo	\$50,000
Omaha Development Council, Inc.	Syngenta Crop Protection, LLC	Douglas	\$250,000
City of Arapahoe	Ag Valley Cooperative	Furnas	\$100,000
Omaha Development Council, Inc.	3M	Douglas	\$350,000
City of Gothenburg	Wearparts Tillage Tool	Dawson	\$250,000
Lincoln Partnership for Economic Development	Bestorq, Inc.	Lancaster	\$75,000
City of Sidney	New Freedom Yurt Structures, LLC	Cheyenne	\$75,000
Lincoln Partnership for Economic Development	Duncan Aviation	Lancaster	\$200,000
Valley County Economic Development	Sonpower Industries, LLC	Valley	\$30,000
<b>Total</b>			<b>\$1,830,000</b>

**Table 9.2 Site and Building Development Fund Awards, State Fiscal Year 2022\***

Eligible Applicant	Benefiting Business	County	Award
Grand Island Area Economic Development Corp.	Hornady Manufacturing Company	Hall	\$150,000
Hastings Economic Development Corporation	Nebraska Aluminum Castings, Inc.	Adams	\$70,000
Pender Community Development	Automatic Equipment Manufacturing Co.	Thurston	\$200,000
Economic Development Council of Buffalo County, Inc.	JEET, LLC (affiliated with PAX Lighting)	Buffalo	\$50,000
York County Development Corporation	Preferred Popcorn	York	\$175,000
Merrick County Development Corp.	Strobel Fabrication	Merrick	\$200,000
Lincoln Airport Authority	Lincoln Airport Authority	Lancaster	\$150,000
Keith County Area Development	VK Design, LLC	Keith	\$150,000
Lincoln Partnership for Economic Development**	MI Industries, Inc.	Lancaster	\$500,000
<b>Total</b>			<b>\$1,645,000</b>

\*Table 9.2 is not a comprehensive list of SBDF awards for State Fiscal Year 2022; it includes those projects from FY 2021-2022 not listed in DED’s 2021 Annual Report.

\*\*The SBDF award to Lincoln Partnership for Economic Development took place near the end of FY 2020-2021. It was not included DED’s 2021 Annual Report due to the cut-off date for the report’s publication.

**Wearparts Expands in Gothenburg**

*Wearparts, which manufactures and distributes ag tillage tools, has offices in Georgia; Texas; and Gothenburg, Nebraska. When planning a recent expansion, the company considered multiple locations. Gothenburg Improvement Corporation, the City of Gothenburg, and DED teamed up to assist Wearparts with its site and infrastructure needs. Ultimately, the support of state and local agencies—along with a loyal workforce—convinced Wearparts to grow in Gothenburg. The manufacturer is consolidating five locations into a new, 80,000 square-foot building at Gothenburg Industrial Park. An SBDF award has helped develop the infrastructure to support Wearparts’ expansion. The company anticipates adding nearly 40 jobs after completing the \$8+ million project.*

*Construction in progress at the new Wearparts facility in Gothenburg Industrial Park*
