# 2012 Calendar Year Legislative Annual Report

# January 1, 2012 - December 31, 2012

Nebraska Department of Economic Development 301 Centennial Mall South P.O. Box 94666 Lincoln, NE 68509-4666 www.neded.org

Dear Governor Heineman, Members of the Nebraska Legislature, Fellow Nebraskans:

It is my honor and privilege to present to you the Nebraska Department of Economic Development's 2012 Calendar Year Annual Report.

Featured here, you will find synopses of the programs required by the Legistature for annual reporting, including the Business Innovation Act, Civic and Convention Center Financing Fund, Customized Job Training, InternNE, Nebraska Affordable Housing Trust Fund, Nebraska Operational Assistance Act, and Site and Building Development Fund.

As you will see, we have continued a course in excellence, helping bolster Nebraska's economy through a variety of programs all targeted toward meeting our communities' most critical needs.

Sincerely,

Catherine Doging

Catherine D. Lang Director

#### **Business Innovation Act**

The Business Innovation Act (BIA) provided grant funding or commercialization investment to 41 companies, helping spur entrepreneurship, and support the transfer of Nebraska-based technology and innovation throughout Nebraska. Specifically, the BIA assisted high-growth, high technology companies, small businesses, and microenterprises that create wealth and quality jobs.

Through the BIA, DED provided more than \$4.2 million in funding and leveraged over \$3.3 million in non-state investment for innovation projects. Through the Microenterprise Assistance Program, 129 new loans totaling \$1.7 million were made and 1,410 clients were provided technical assistance. While it is too early to evaluate the Act's performance based on recipients' documented goals (as a majority of these are still progressing through funded projects), many have reported that the BIA funding allowed them to move forward with a project, product, or technology they otherwise wouldn't have been able to advance or initiate.

### **Civic and Convention Center Financing Fund**

After receiving 49 Preliminary Applications and 21 Full Applications, the Department of Economic Development awarded one Civic and Community Center Financing Fund (CCCFF) project in the 2012 project year. A total of \$250,000 was awarded to the Sidney Civic Center for a \$5.2 million convention and training facility.

Home to Cabela's World Headquarters, and in close proximity to other large companies such as 21st Century Equipment; Sidney is an obvious location for hosting conventions however, existing facilities lack the capacity to host events exceeding 250 attendees. With ample lodging accommodations, restaurants, amenities, and demand for large convention space, the new facility is planned at 30,000 square feet with the capacity to seat anywhere from 800 banquet attendees to 1,000 attendees in a theatre style setting.

The Sidney Convention and Training Center will be available for all types of events from weddings and social gatherings to conventions and training meetings. Design components include attention to and allowance for the flexibility of hosting events with the use of industry-leading technologies. No such facility in the Panhandle presently offers such consideration and amenities.

A number of companies and commissions are expected to select Sidney for conventions as they have a geographical advantage; located only 9 miles from the border of Colorado, 55 miles from Wyoming, at the crossing of the two main rail lines of Union Pacific and Burlington-Northern Santa-Fe Railroad, and at the intersection of four major highways; attracting business from both outside and inside of the state. In addition, UNL–Extension and Western Nebraska Community College have expressed their interest and support for the new training and event facilities, Sidney Public School officials anticipate using the space to host regional sporting and academic events, and the presence of Cabela's will continue to draw interest to the area.

At the time of application, the city was under contract with a Hunden Strategic Partners of Chicago, a real estate development consulting firm, to analyze the impact of the new facility on the existing conditions in the community, provide recommendations for future supplementary and complementary development, and provide financial projections.

The completed project is expected to act as a beacon in the southern Panhandle, capturing events that might otherwise locate in bordering states and encouraging travel intrastate travel from throughout Nebraska.

## **Customized Job Training**

The Customized Job Training Program oversaw 64 job training projects representing training for 3,581 employees at a total planned cost of \$6,688,961. The average award per employee was \$1,868. Of these projects, 15 were newly-awarded (476 employees with a total cost of \$874,000) and 12 were completed (490 employees with a total cost of \$1,382,064). The remaining 37 projects were awarded before the start of 2012 and remain open until completion. Total Customized Job Training expenditures were \$2,432,032.

Of the 64 active projects, 26 (40.6%) were for businesses located in counties outside the Lincoln and Omaha Metropolitan Statistical Areas (MSA). Thirteen projects were in the Lincoln MSA (Lancaster and Seward counties) and 26 were located in the Omaha MSA (Cass, Douglas, Sarpy, Saunders, and Washington counties).

The majority of projects awarded Customized Job Training funds elected for in-house training (89%). The remaining projects either partnered with a community college or university for training.

#### Intern Nebraska (InternNE)

The InternNE program had a total of 175 projects during 2012. Of these projects, 41 were closed between January 1, 2012 and December 31, 2012 leaving 134 as active projects at the end of 2012. All together 445 internship positions were approved and \$2,088,500 granted to the participating companies. Of the awarded positions, 254 were filled within the 2012 calendar year. The InternNE program disbursed \$490,232, where 44% was reimbursed to the 41 companies with contracts that closed during 2012. Of the 175 projects in 2012, 111 were for businesses located within Lancaster, Douglas or Sarpy Counties.

#### Nebraska Affordable Housing Trust Fund

The Nebraska Affordable Housing Trust Fund (NAHTF) was created by the 1996 Nebraska Affordable Housing Act to enhance economic development in the State and provide safe, affordable housing to Nebraska's citizens. Funding is received from the revenue generated through the State's Documentary Stamp Tax. For the 2012 program year, it awarded \$4,271,470, matched by \$3,359,384; created 139 housing units; and generated employment in the amount of 116.8.

## Nebraska Operational Assistance Act

The Nebraska Operational Assistance Act requires DED to develop a program to assist potential high-growth businesses to establish a foundation sufficient for the attraction of private equity.

This assistance includes:

- market analysis;
- executive recruitment;
- sales and marketing;
- financial planning;
- business structure;
- business plan review; and
- intellectual property development.

The program, provided under the Act, may also include:

- cooperating with other service entities to facilitate the effectiveness of the overall program,
- developing a statewide system to facilitate venture capital investing;
- identifying potential investors and providing those investors with information about investment opportunities in Nebraska;
- identifying entrepreneurs and high-growth businesses and providing them with information about investors seeking investment opportunities;
- developing a clearinghouse and access point for information about venture capital investment opportunities in Nebraska;
- serving as the central organization and establishing means of delivering appropriate education and training programs for potential investors in business enterprises;
- facilitating the formation of private venture capital funds; and
- helping form intrastate or industry-specific venture capital networks.

#### Nebraska Operational Assistance Act (Continued)

Invest Nebraska Corporation, a non-profit, 501(c)(3) venture development organization, was selected by the Department in December 2011 to develop the program under the Act. The organization advises and invests in early stage businesses across the state. Invest Nebraska is governed by a twelve-member volunteer board of directors. These directors bring a wealth of experience to the organization that includes: university research and commercialization, venture capital, accounting, investment portfolio management, angel investing, private equity, early-stage entrepreneurial development, patent law, transaction law, and banking. The organization is led by an entrepreneur with significant venture capital experience.

Since 2009, Invest Nebraska has provided operational assistance totaling \$488,000 to start-up businesses in Nebraska. This financial assistance has come in form of low-interest loans and equity ownership. As of 12/31/12, these businesses received a total of \$3.9 million in follow-on capital. For each dollar of financial assistance provided by Invest Nebraska, \$8 in outside capital was received by the various portfolio companies.

During calendar year 2012, the technical assistance provided by Invest Nebraska included:

- Reviewing 47 business plans
- Engaging 77 entrepreneurs to discuss their ideas and/or businesses
- Listening to 54 pitches and providing valuable follow-up feedback
- Conducting due diligence on 13 companies for possible investment
- Collaborating with DED and hosting 35 community meetings across Nebraska for entrepreneurs, service providers, economic development professionals, and elected leaders with a total attendance of 437

Invest Nebraska also engaged 14 institutional investors representing private equity, angel investors, venture capital, and mezzanine financing organizations. Developing these relationships helps move Nebraska forward in further developing a network of institutional capital investing in Nebraska startups and businesses.

#### Nebraska Operational Assistance Act (Continued)

Invest Nebraska also developed an online clearinghouse and access point for information about angel investment opportunities in Nebraska. Invest Nebraska has selected the gust platform (<u>www.gust.com</u>) as this clearinghouse. Gust, formerly known as angelsoft, provides a global platform for the sourcing and management of early-stage investments. The platform is endorsed by the Angel Capital Association, the World Business Angels Association, the National Angel Capital Organization, and the National Association of Seed and Venture Funds.

Potential or interested accredited angel investors contact Invest Nebraska for access to the clearinghouse. The investors are then e-invited to be members of the "deal room." Individuals then receive an email from Invest Nebraska granting them access. In this deal room, interested angels can review material provided by the company, due diligence information completed by Invest Nebraska, and possible comments about the deal. If the angel requires additional information regarding the company, they then contact Invest Nebraska or the owner of the company.

## Site and Building Development Fund

The Site and Building Development Fund program continued the project approval process for Application Cycle 1(begun October 2011), started accepting applications for Cycle 2, and welcomed applications for First Priority Projects.

DED approved two First Priority Project applications. The Scotts Bluff Airport Authority received a \$250,000 grant to assist in locating EagleMed LCC. The City of Papillion received a \$750,000 grant to assist in locating Fidelity Investments.

DED approved two of seven applications submitted for Cycle 1. Gothenburg Improvement Corporation received a \$500,000 grant for the Gothenburg Rail Served Industrial Park, and the Lincoln Airport Authority received a \$750,000 grant for the Nebraska Rail Park.

DED received five applications for Cycle 2, which began in March 2012. The Department approved two. Dawson Area Development received a \$250,000 grant for the Orthman Building in Lexington, and the Sarpy County Economic Development Corporation received a \$25,000 grant for the Sarpy County Power Park.
