

HRP EVALUATION AND SCORING MATRIX

Following the Threshold Criteria section, applications will be scored on each criterion in the Tiering and Competitive Scoring section. Scores will be based on the level of detail provided by the Applicant.

Threshold		Tiering & Competitive			
Criteria	Score	Criteria	Max Points	Points Awarded	
Applicant is an eligible entity.	Pass <input type="checkbox"/> Fail <input type="checkbox"/>	Tiering	Service Area meets LMI National Objective	5	
Applicant identified an eligible service area.	Pass <input type="checkbox"/> Fail <input type="checkbox"/>		Located in HUD-defined MID	5	
Project demonstrates direct or indirect “tie-back” to the Disaster (i.e., geographic service area was part of a DR-4420 declared disaster area). (If applicable, include alignment with needs outlined in the Action Plan Unmet Needs Assessment.)	Pass <input type="checkbox"/> Fail <input type="checkbox"/>		Planning goals enhance community recovery and resilience against future flooding and flood-related disasters. ¹	2	
Applicant or its agent has grant funding experience, including staff and board expertise adhering to state and federal funding requirements (e.g., Uniform Grants Guidance, NEPA).	Pass <input type="checkbox"/> Fail <input type="checkbox"/>		Planning goals support and address needs of Vulnerable Populations.	1	
Project planning activities focus on reducing flood vulnerability in the service area.	Pass <input type="checkbox"/> Fail <input type="checkbox"/>		Planning goals address restoration housing available to LMI populations, including efforts	1	

¹ Pursuant to the Federal Register Notice (see [83 FR 5844](https://www.federalregister.gov/documents/2018/02/09/2018-0214) at 5856, February 9, 2018), HRP Program plans should include an assessment of natural hazard risks, including anticipated effects of future extreme weather events and other hazards. Additional resources to assist in this process are available on the HUD exchange website: <https://www.hudexchange.info/programs/cdbg-dr/resources/#natural-hazard-risk-and-resilience-tools>.

Threshold		Tiering & Competitive		
		focused on known LMI census tracts.		
Project planning activities address one <u>or</u> more of the following areas of focus:	Pass <input type="checkbox"/> Fail <input type="checkbox"/>	Planning goals address affordable housing available to LMI populations.	1	
<p>(1) Housing recovery, which supports communities in gathering data about existing housing stock and damages and implementing programs that help communities recover by using available funds.</p> <p>(2) Housing resilience, which allows communities to determine their existing risks and vulnerabilities and develop actions that increase resilience against future disasters. Communities can use funding to further assess their long-term recovery needs.</p> <p>(3) Affordable housing, which helps communities develop programs that preserve existing affordable housing and encourage the development of new affordable housing.</p>		Alignment with long-term local or regional planning efforts, including demonstration of local support from community leaders, residents, and businesses for the proposed project.	1	
		Cost reasonableness and project readiness. Applicant outlined how the estimated budget was determined for the proposed project and demonstrated overall project readiness.	2
