

## MEF (Municipal Equalization Fund)

The Department of Revenue calculates aid under the formula in March and post the preliminary results on their website. If a city challenges any of the data calculations or any errors are found then corrections can be made; the final calculation is posted in June; we would have a finalized table in June.

1996 - LB 1177 - Created the Municipal Equalization Fund and provided for aid to municipalities that are unable to raise the average amount of property tax revenue per capita with the average property tax levy. The bill also allowed counties to levy a sales tax of up to 1 ½% in areas outside municipalities with a sales tax to support the county share of jointly provided public safety services.

The State Aid that the MEF references, I believe, are all programs for the community- for example, state aid to schools includes aid under the Tax Equity and Educational Opportunities Support Act as well as special education and apportionment. Total state aid to municipalities includes per capita personal property tax replacement aid, municipal equalization aid and road and street aid distributed from the Highway Trust Fund.

State Spending by Function	Percent of Total	Amount
General Government	9%	\$166,978,000
Public Safety	10%	\$196,254,168
Health and Human Services	41%	\$767,888,545
Education	23%	\$425,681,078
Culture and Recreation	2%	\$28,381,561

The MEF takes each cities population and multiplies it by the average per capita property tax levied for the relevant group.

The city's property tax valuation is multiplied by the state average property tax levy. If the city's population average per capita property tax levy is greater than the state-wide average the city qualifies for *aid in the amount of the difference*. If the difference is negative there is no aid... The DED proposes to use the calculation as points; not a percentage of grant funds awarded.

Overall, it was designed to make sure cities and villages with the highest taxes did not get the most aid simply because their taxes were the highest. Hence the "E" in Equalization.

See attached for the current MEF scores.

## MEF Score

**NOTE:** MEF Scores were based on a 100 point scale, so for example if Lexington and Fremont had applications they would receive 100 points and 77 points respectively. It would not be necessary to round for determining a communities final MEF score.
