Section A. Overview

These application guidelines are for all Owner Occupied Rehabilitation (OOR) applications. Any eligible applicant must follow the instructions and information within this Chapter in order to apply for any OOR resources.

The purpose of the OOR Category is to promote housing preservation by improving the quality of Nebraska’s existing affordable housing. This is one of the four objectives as identified within the State’s Consolidated Plan as identified within the Housing Priority Need. The State’s Housing Priority Need includes the need to respond to regional needs for affordable, decent, safe, and appropriate housing as part of balanced economic development in Nebraska.

FOR MORE INFORMATION
For further information, please contact the following Primary Contact for this program. See also Chapter 1 for more information and Chapter 10 for the Exhibits for the application.

1. **ELIGIBLE APPLICANTS**
Except as provided in Section 1.03 of the Application Guidelines, eligible applicants include every Nebraska incorporated municipality that is not a CDBG Entitlement Community (including Omaha, Lincoln, Bellevue, and Grand Island). No joint applications or county-wide applications are eligible within the OOR Cycle.

2. **ELIGIBLE ACTIVITIES**
The following activities are eligible within the OOR Program. If any activity is not noted within the list below, please consult a Regional Program Representative in order to determine if any other proposed activities are eligible for the program.
- Rehabilitation (including rehabilitation which promotes energy efficiency) of residential owner-occupied homes.
- Special projects directed to the removal of material and architectural barriers, which restrict the mobility and accessibility of elderly and handicapped persons.
- Payment of reasonable administrative costs related to implementing the program.

For more information, see Section 3.04 of the Application Guidelines.

3. **GRANT AMOUNTS & MATCHING FUNDS**

<table>
<thead>
<tr>
<th>OOR Category – Key Maximums and Requirements</th>
<th>OOR Project Cost</th>
<th>$450,000</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Administration</td>
<td>10% of Project Costs not to exceed $25,000</td>
<td></td>
</tr>
<tr>
<td>Housing Management - does not include lead based paint</td>
<td>10% of Project Costs not to exceed $45,000</td>
<td></td>
</tr>
<tr>
<td>Lead Base Paint (0580a)</td>
<td>Cannot exceed $1,500 per unit</td>
<td></td>
</tr>
</tbody>
</table>

For more information, see Sections 4.01 and 4.02 of the Application Guidelines.

**Matching Funds:** Are not required, however additional points may be awarded if match is provided. See Section 4.02 and 5.03 of the Application Guidelines.

4. **APPLICATION DUE DATES AND PROCESS**
Applications are prepared at the applicants’ expense and costs are not reimbursable. Applications for OOR program category will be accepted as shown in the table below based on US Postal Service postmark date or date of delivery by other means.

Applications will be reviewed by DED on a competitive basis according to the selection criteria established in Section 5.03 of the Application Guidelines. The highest scoring applicants, who also meet all required thresholds, may be recommended for award.

Applications recommended for award through these processes will be presented to DED’s Director for approval. DED will send a formal Notice of Approval Letter to the applicant community upon approval of the recommendation. A letter of non-selection will be issued to those applicants not recommended for award.

Below is a summary of the milestones:

<table>
<thead>
<tr>
<th>Milestone Summary</th>
<th>Date</th>
</tr>
</thead>
<tbody>
<tr>
<td>Required Pre-Application Due</td>
<td>August 3</td>
</tr>
<tr>
<td>Full Application Due</td>
<td>October 5</td>
</tr>
<tr>
<td>Anticipated Award Notification</td>
<td>November</td>
</tr>
</tbody>
</table>

*Pre-Applications are required (please use the OOR Pre-Application document on website and upload to: https://negov.sharefile.com/r-rc42572bb05b44089) and Full OOR Applications should be submitted to:*
5. FUNDABILITY THRESHOLD REQUIREMENTS

Projects are to be completed within twenty-four (24) months following Notice of Approval. Eligible local governments may only receive one OOR grant per cycle in the OOR category. For a complete list of general fundability threshold requirements to apply for resources from any CDBG category and special policies for OOR applicants, see Section 5.01 and 5.02.

CDBG National Objective

All CDBG-funded project activities (including any required match funds) must meet a National Objective of the CDBG Program. A project activity that fails to meet a national objective is ineligible for CDBG resources. These national objectives are briefly described below:

- Benefiting low- to moderate-income persons (LMI), including:
  - LMI Housing (LMH)

For more information, see Section 2.01 of the Application Guidelines.

6. POST AWARD REQUIREMENTS

Each eligible application must also comply with any necessary post award requirements. These requirements include: Environmental Review, Procurement, etc. For more information, and for a complete list of Post Award Requirements, see Section 5.06 of the Application Guidelines.

7. APPLICATION SELECTION CRITERIA MATRIX

Each category has a Selection Criteria Matrix used by the respective review committees to score applications. Applicants are required to submit a project description identifying the nature and scope of the project, including match activities (if applicable). Limit your description to no more than one page. A complete and clear project description is the foundation of the application. The description should provide location specific information and geographic boundaries, as well as a delineation of all activities included in the overall scope of the project. Furthermore, Applicants are encouraged to use this description as the basic framework for the forthcoming environmental review record (ERR) project description. Additional details about the decision-making process and benefits of the proposed project are articulated under the subsequent project narrative and any supplemental attachments provided by the applicant to substantiate project need, impact, readiness, and community support. IMPORTANT NOTE: attachments should supplement and not be considered as a replacement for narrative.

For more information see Section B. Application Forms and Instructions Part IV, and for a complete list of selection criteria, see Section 5.03 of the Application Guidelines.
Section B. Application Forms & Instructions

This section contains all forms and exhibits to be submitted so that your application can be scored and ranked effectively. Application narratives should be clear and concise. The Department reserves the right to verify all information, and to consult with other agencies on the proposed project. The Department may non-select any application that does not contain all of the required items and these items cannot be verified.

There are more applicants requesting funds than there are funds available. Applicants must carefully read and review the current program year’s Application Guidelines and the selection criteria described to develop a competitive application.

In submitting your application, these instructions must be followed:

- Submit ORIGINAL, and a complete PDF copy of the application.
- Do not bind, fold, or staple in any way.
- Table of Contents must be included.
- All pages must be numbered in sequence at the bottom of the page.
- All Exhibits must be labeled at the bottom of the page, right-hand corner.
- All Attachments must be labeled at the bottom of the page, right-hand corner.

Failure to follow these instructions will result in your application being returned for you to correct and resubmit. All applicants will be given one week to correct and resubmit their application.

PAGES MUST BE TWO-HOLE PUNCED AT TOP. DO NOT BIND, FOLD, OR STAPLE.

Below is an outline of what an OOR application should look like:

- Cover Sheet (include project name and location)
- Table of Contents (use Table of Contents Checklist)
- Part I. General Information (use required form)
- Part II. Funding Summary (use required form)
  - Budget Calculator
- Part III. Project Budget
- Part IV. Project Description & Scoring Criteria
  - Project Description (follow instructions, See Section 5.03)
  - Scoring Criteria
- Part V. Required Exhibits and Attachments (See Chapter 10 for all Exhibits)
- Part VI. Additional Attachments (supplemental info provided by applicant)
Table of Contents & Checklist

Applicants must attach this Table of Contents to their OOR application. Type in additional attachments items as deemed necessary to your project. List appropriate page numbers under PAGE NUMBER column. ***Please note: Table of Contents continues on the following page***

**Please use the language verbatim in each exhibit. Incorrect language may cause a delay in application review and award, if successful. Also, provide the bracketed information as requested in each exhibit. The omission or incomplete description as requested in bracketed text may cause a delay in application review and awards.**

*See Section 5.02 and 5.03 of the Application Guidelines and Chapter 10 for additional information.
Part I. General Information

Type or print all information except where signatures are required.

1. **Applicant identification:** Enter the name, mailing address, telephone, and fax number of the local government that is the applicant in an individual application or the lead applicant in a joint application. Enter the name of the local government contact person. Such person is the applicant’s employee who is most familiar with the application, and not regional council, or community action agency staff person, consultant, or other applicant non-employee. Include the Federal Tax Identification number and DUNS number of the Applicant. The DUNS number can be obtained via D&B online at [http://fedgov.dnb.com/webform](http://fedgov.dnb.com/webform) or requested by phone at 866-705-5711 or for person with a hearing impairment, the TTY number is 866-814-7818. Enter the e-mail address for the local unit of government or local contact.

2. **Person Preparing Application:** Enter the name, mailing address, and telephone number of the person who prepared the application. If prepared by a firm, identify the staff contact person. Include the Federal Tax Identification number of the firm, development district, or nonprofit. Provide preparer’s e-mail address. Check the appropriate application preparer status box.

3. **Activity Type:** Check the Owner Occupied Rehabilitation box under which funds are being requested.

4. **Funding Sources:** Enter the dollar amounts of CDBG funds requested for this project. Enter the amount of all other funds identified in the application that you are committing to this project. **ROUND AMOUNTS TO THE NEAREST DOLLAR.** (Others funds include matching funds. “Matching Funds” are those project funds identified in Section 4.02. Be certain that the figures are correctly added are the same as provided on the “Total” line for each funding source in Part II and Part III.

5. **Application Type:** Check the appropriate application type box under which funds are being requested.

6. **Service Area:** Provide information on the project area to be served including the City, County, Legislative District, and Congressional District in which the project will be located.

7. **Project Name and Location:** Provide the name of project and the primary location of the project.

8. **Use Summary:** Provide a short, explicit summary of the project activities in measurable terms for which funds are requested. **There is no need to include funding information. EXAMPLE: Creation of single-family owner-occupied rehab program in order to rehab 8 households.** In addition, check the box and **ATTACH A PROJECT DESCRIPTION.** For more information about the project description, see Section 5.03 of the Application Guidelines.

9. **Certifying Official:** Only the signature of the applicant’s chief elected official will be accepted. Blue ink for signature is advisable. Alternate signatures (e.g. city council president, city manager) are not allowed, except where there exist extenuating circumstances (e.g. chief elected official is out for an extended period), and the applicant receives prior within approval from DED. Type the name and title of both signers and the date of their signature.

Individuals who are hearing and/or speech impaired and have a TTY, may contact the Department through the Statewide Relay System by calling (711) INSTATE (800) 833-7352 (TTY) or (800) 833-0920 (voice). The relay operator should be asked to call DED at (800) 426-6505 or (402) 471-3111. Additional information is at the Nebraska Relay website at [http://www.nebraskarelay.com/](http://www.nebraskarelay.com/). Nebraska Relay offers Spanish relay service for our Spanish-speaking customers. Spanish-to-Spanish (711) or 1-888-272-5528/Spanish-to-English (711) or 1-877-564-3503. Nebraska le ofrece el servicio de relevo a nuestros clientes en español. Los consumidores de TTY pueden escribir por maquina en español y las conversaciones seran retransmitidas en español y ingles.

**CHAPTER 7 – OWNER OCCUPIED REHABILITATION** | June 2018
Part II. Funding Summary Instructions

INSTRUCTIONS: Using the activity code number and description provided on the Funding Summary, enter the national objective code for each activity (as identified on the application form).

Enter the dollar amount of CDBG funds requested for each major activity. Enter the amount of other funds that you are committing to each activity and identify the source. All matching funds shown on the application must comply with all CDBG requirements. Select the single most specific code to describe the nature of the activity being funded. For example, if property will be acquired and a senior center be constructed with CDBG funds, code the activities 0091 Senior Center rather than 0010 Acquisition. You would include appraisal, acquisition, architectural, and construction costs with 0091 Senior Center. You would include costs for environmental review, fair housing activities, labor standards enforcement, record keeping, progress reports, general office expenses, contractual services for administration, and audits under 0181 General Administration.

Limited Funding Summary to allowable CDBG eligible costs incurred during the CDBG program period only. Exclude any “other” project costs not eligible for CDBG reimbursement or match (i.e. test holes completed, preliminary architectural, or engineering fees incurred or obligated prior to Release of Funds, fees for services not procured by CDBG guidelines, equipment, or furnishings not affixed to buildings, etc.). Written documentation of commitment of source matching funds must be included as Exhibit Q.

Identify the sources of matching funds and provide written documentation (Exhibit Q) of availability of matching funds. Please be certain that the figures are correctly added and the column totals are consistent throughout. Ultimately, the information provided is used as the foundation for your CDBG contract sources and uses table, if selected for an award.

For more information, see Sections 4.01 and 4.02 of the Application Guidelines.
## Part II. Funding Summary

**ROUND AMOUNTS TO THE NEAREST DOLLAR.** Questions on any activities contact DED staff. Check that the figures are correctly added and the column totals are the same as provided in Part I, Box 4. Funding Sources.

**1000 TOTAL AMOUNT**

*For each activity enter the most appropriate National Objective Code and complete the summary information below. The CDBG National Objectives include LMH (Benefit Low- and Moderate-Income Households).

**Proposed Units of Accomplishment types include: People, Public Facilities, Housing Units, and Businesses. List the most appropriate proposed primary beneficiary group. Identify the most appropriate proposed type of primary beneficiary group in the table and list the proposed number of beneficiaries below.

### NATIONAL OBJECTIVE SUMMARY INFORMATION

**INSTRUCTIONS:** Check all that apply and provide requested summary information.

- **LMH:** Benefit Low/Moderate Income Households.
  Number of LMI Households: _____.

Enter the dollar amount of CDBG funds requested for each activity. Enter the amount of other funds that you are committing to each activity and identify the source. Be sure to distinguish cost among the proper activities. You would include costs for environmental review, fair housing activities, record keeping, progress reports, general office expenses, contractual services for administration, and audits under code 0181 General Administration. Utilize the OOR Budget Calculator for determining funding amounts based on the number of units within the project and the recommended maximums. Include the OOR Budget Calculator in the application after this Part II.

---

¹Relocation is a support activity and must be done in conjunction with another housing activity

²Matching funds are sources such as public and/or private funds, or in-kind services such as materials, labor, or other items that are directly related to the project. Other funds are

³Housing Management (does not include Lead Based Paint costs) is 10% of Project Costs, not to exceed $45,000

⁴Lead Based Paint (LBP) testing, risk assessments, and clearance testing are limited to $1,500 per unit.

⁵General Administration is 10% of Project Costs, not to exceed $25,000
Part III. Project Budget

The proposed budget includes project delivery costs (project and supporting project costs) and general administration costs. All items listed as match and CDBG costs must be allowable and eligible under the CDBG Program. Utilize the OOR Budget Calculator in order to determine estimated budget amounts based on the number of units that will be rehabilitated within the project.

Provide the following information on separate sheet(s) of paper behind Part II of the application. Information provided in this section will be used to evaluate the accuracy and reasonableness of activities and cost estimate shown in the application. Indicate the date and source of cost estimates. Provide name, address, phone, and e-mail of person(s) who prepared the estimates.

Note: If your community has CDBG Program Income, identify where in the budget the program income will be incorporated. Remember CDBG program income must be expended on the project activities prior to drawing down additional CDBG funds under the grant. Refer to Section 4.01.

Project Costs

Provide a breakdown of the costs for the project. Common line item costs are real property acquisition, legal expenses, architectural and engineering fees, project inspection fees, site work, demolition and removal, construction, equipment, miscellaneous (detailed information) and contingencies (detailed information). If the project includes work to be performed by volunteers or in-kind contributions by the local government or other organizations, include the value of the volunteer or in-kind donations under the appropriate budget line item.

Please note that project costs not eligible for CDBG reimbursement or match and not claimed on the Part II Funding Summary may be identified here as a separate subtotal to clarify total project costs. Such “other” costs may include: architectural or engineering fees incurred or obligated prior to Release of Funds, fees for services not procured, equipment, or furnishings not affixed to buildings, etc.

Supporting Project Costs

The housing management (activity number 0580) costs include: finance-related costs; credit reports, title binders and insurance; surety fees; recordation fees, transaction taxes; legal and accounting fees, including; cost certification; appraisals; environmental reviews; builders’ or developers’ fees; architectural, engineering, and related professional services; homeowner counseling; project audit costs; affirmative marketing and fair housing services to prospective tenants of an assisted project; and staff costs directly related to projects. Overall this includes any costs that are related to the specific units and applicants served by the rehabilitation project.

Lead Based Paint (LBP) testing, risk assessments, and clearance testing are limited to $1,500 per unit. This item is a subset of 0580 and recorded as 0580a.

General Administration Costs

The general administration (activity number 0181) budget includes those costs that are administrative in nature with the exception of pre-program costs, such as payments, or reimbursement of application preparation fees, cost of conducting local surveys, etc. Common line item costs are environmental review, fair housing activities, financial audit (if necessary), preparation of required grant progress reports and drawdowns. If many of the general administration duties are to be performed by local government personnel, it is acceptable to use salaries and benefits as a line item cost. However, it should be noted what specific duties are to be performed under the salaries and benefits line items.
Part IV. Project Description & Scoring Criteria

Applicants use this portion of the application to define the challenges and opportunities within the service area and describe how the proposed project addresses identified housing needs. In this section, Applicants provide specific information about the issues and/or problems addressed by the project, line item budget, preliminary schedule, and how the project fulfills the selected National Objective.

Project Description Instructions

Applicants are required to submit a brief summary describing the nature and scope of the project, including match activities. Limit your summary to no more than one page. A complete and clear project description is the foundation of the application. The summary should provide location specific information and geographic boundaries, as well as a delineation of all activities included in the overall scope of the project.

This summary is of vital importance to review and score an application based on the criteria and thresholds set forth in this program category. Applicants are encouraged to use this summary as the basic framework for the forthcoming environmental review record (ERR) project description. Additional details about the benefits of the proposed project are articulated under the subsequent project narrative and any supplemental attachments provided by the applicant to substantiate project need, impact, readiness, and collaboration.

IMPORTANT NOTE: attachments should supplement and not be considered as a replacement for narrative.

For complete instructions, see Section 5.03 of the Application Guidelines.

The Matrix below describes each selection criteria as a numerical score within the OOR Program. The maximum number of points available within any application is 625 points. A minimum score of 200 points is required and certain criteria require a minimum score as noted below. All selection criteria will be scored in five point increments and shall be scored on a scale.

Part V. Exhibits and Attachments

This Chapter contains specific information on the Exhibits that are required for the project as well as any necessary Attachments that must also be provided in order for the applicant to submit a complete application.

The list of required exhibits is identified below as well as provided within the Table of Contents Checklist. All Exhibit information and templates will be found in Chapter 10 of these Application Guidelines. Any required Attachment information is provided within this Chapter below.

The following Exhibits include the certification and documentation requirements for the OOR application. These Exhibits must be submitted with the application.

- **Exhibit A:** Notice of Public Hearing (including Proof of Publication or Certificate of Posting and summary of citizen’s comments)
- **Exhibit B:** Authorizing Resolution (Original or Certified copy)
- **Exhibit C1:** Statement of Assurances and Certification
- **Exhibit C2:** Citizen Participation Plan
- **Exhibit D:** Residential Anti-Displacement and Relocation Assistance Plan
- **Exhibit K1a:** Waiver of Procurement Process and Narrative*
- **Exhibit K1b:** Waiver of Procurement Process and Narrative (Development Districts)*
- **Exhibit K2:** Procurement Process Completed Prior to Application (narrative)*
- **Exhibit L:** FFATA Federal Funding Accountability and Transparency Act Form
- **Exhibit N:** System for Award Management (SAM) record and clearance documentation
- **Exhibit O1:** Four Factor Analysis Assessing Limited English Proficiency
- **Exhibit O2:** Language Access Plan (optional at the time of application)
- **Exhibit P:** Owner Occupied Rehabilitation Activity Guidelines and Reuse Plan
- **Exhibit Q:** Local Cost Share (Documentation of Local Matching)

*See Section 5.02 and 5.03 of the application guidelines and Chapter 10 for additional information.

Any additional attachments that are provided within the application should be appropriate labeled and noted as the information provided within the OOR Table of Contents Checklist. These attachments would be included at the end of the application.
Section C. Application Guidelines

The primary objective of Nebraska’s non-entitlement Community Development Block Grant (CDBG) Program is to develop viable communities and counties by providing decent housing, suitable living environments, and expanding economic opportunities principally for low- and moderate-income (LMI) persons. As the designated state administering agency, the Nebraska Department of Economic Development (DED) accomplishes this objective by funding activities authorized under the federal Housing and Community Development category. These particular guidelines concern owner occupied rehabilitation. **If additional guidance from HUD is received, DED will notify all applicants of any new requirement by Policy Memo.**

Section 1.01 Eligible Applicants
Except as provided in **Section 1.03** of the Application Guidelines, eligible applicants include every Nebraska incorporated municipality and are not classified as a CDBG Entitlement Community (including Omaha, Lincoln, Bellevue, and Grand Island).

Section 1.02 Types of Applicant
Eligible applicants may submit one type of application:

**Individual:** Except as provided in **Section 1.03**, an eligible municipality may apply only for projects within its corporate limits.

Section 1.03 Special Policies for Applicants
Special policies affecting **Section 1.01** and **Section 1.02** are:

1. A municipality may not submit an application for projects undertaken outside its corporate limits unless the projects either:
   - a. Occur within its zoning jurisdiction; or
   - b. Involve property acquired by the municipality prior to project implementation through purchase, donations, or a permanent easement.

2. If an application requires participation of entities that are not eligible applicants, each such entity must provide written assurance that it concurs with the project and is committing its resources, if any, as stated in this application. A grantee/sub-grantee agreement that stipulates the decision-making authority, administration, contract compliance, reporting, etc. should be executed and submitted with the application. In all instances, the grantee has the final responsibility for implementation of the project and must retain environmental and financial responsibility.

3. Eligible applicants may provide CDBG funds to a sub grantee neighborhood-based nonprofit organization **NOTE:** *proof of nonprofit status, such as Secretary of State designation, must be included with the application.*

Section 2.01 Compliance with the CDBG National Objective
The primary national CDBG objective is the development of viable communities by providing decent housing, suitable living environments, and expanding economic opportunities, principally for low- and moderate-income persons. Under these guidelines, this is accomplished by funding projects that meet at least one of three national objectives.

Based on the amended 1974 HCD Act and HUD guidance, the national objectives are defined and clarified by DED as follows:

1. **Benefit to low-and moderate-income persons** (referred to through this document as LMI persons): LMI persons are defined as a member of a family having an income equal to or less than the income limits established by HUD for their resident county. The income limits as published by HUD at
Activities meeting one or more of the following criteria, in the absence of substantial evidence to the contrary, will be considered to meet this national objective.

a. **Housing activities**: Housing activities. An eligible activity carried out for the purpose of providing or improving permanent residential structures that, upon completion, will be occupied by low and moderate income households. This would include, but not necessarily be limited to, the acquisition or rehabilitation of property by the unit of general local government, a subrecipient, an entity eligible to receive assistance under section 105(a)(15) of the Act, a developer, an individual homebuyer, or an individual homeowner; conversion of nonresidential structures; and new housing construction. If the structure contains two dwelling units, at least one must be so occupied, and if the structure contains more than two dwelling units, at least 51 percent of the units must be so occupied. If two or more rental buildings being assisted are or will be located on the same or contiguous properties, and the buildings will be under common ownership and management, the grouped buildings may be considered for this purpose as a single structure.

### Section 2.02 Compliance with State Housing Objective

Several activities are eligible for assistance under Section 105(a) of the amended 1974 HCD Act. Although the state may not refuse to distribute CDBG funds for any eligible activity, the state can use criteria that have the effect of increasing the likelihood of certain activities being funded. Under the state program, CDBG funds will be distributed for all the eligible activities listed in **Section 3.04** that comply with the state priorities. In addition, all improvements must be either publicly owned or owned by a nonprofit and operated so as to be open to the general public during all normal hours of operation.

### Section 2.03 Compliance with State Priorities

The State of Nebraska identified five priorities, which summarize the goals of the five-year Consolidated Plan. The main priorities and objectives within the current Program Year Annual Action Plan (AAP) include:

- Housing Priority Need
- Community Development Priority Need
- Economic Development Priority Need
- Homeless Services Priority Need
- HOPWA Services Priority Need

Through the development of the Consolidated Plan it was determined that there were **three objectives** guiding the proposed activities that include:

- Provide Decent Housing
- Provide a Suitable Living Environment
- Expand Economic Opportunity

**Three outcomes** were developed to show how programs and activities would benefit a community or the persons within a community served. The three outcomes that will illustrate the benefits of each activity funding by the CDBG, HOME, HTF, ESG, or HOPWA Programs were:

- Improved availability/accessibility
- Improved affordability
- Improved sustainability

### Section 3.01 Compliance with State Housing Priorities

The State’s Housing Priority Need includes the necessity to respond to regional needs for affordable, decent, safe, and appropriate housing as part of balanced economic development in Nebraska. The purpose of the OOR Category is to
promote housing preservation by improving the quality of Nebraska’s existing affordable housing; which is one of four objectives as identified within Housing Priority Need section of the State’s Consolidated Plan.

Section 3.02  Special Policies for Activities
Special policies affecting activities listed in Section 3.04 are:

1. **Facilities containing both eligible and ineligible uses:**
   A public facility otherwise for assistance under the CDBG program may be provided with CDBG funds even if it part of a multiple use building containing ineligible uses, if:
   a) The facility which is otherwise eligible and proposed for assistance will occupy a designated and discrete area within the larger facility; and
   b) The grantee can determine the costs attributable to the facility proposed for assistance as separate and distinct from the overall costs of the multiple-use building and/or facility. Allowable costs are limited to those attributable to all eligible portion of the building or facility.

2. **Fees for use of facility:**
   Reasonable fees may be charged for the use of the facilities assisted with CDBG funds, but charges, such as excessive membership fees, which will have the effect of precluding LMI persons from using the facilities, are not permitted.

3. **Special Assessments:**
   The term special assessment means the recovery of the capital costs of a public improvement, such as streets, water, or sewer lines, curbs, and gutters, through a fee or charge levied or filled as a lien against a parcel of real estate as a direct result of benefit derived from the installation of a public improvement, or a one-time charge made as a condition of access to a public improvement. This term does not relate to taxes on property or the establishment of the value of real estate for the purpose of levying real estate, property, or ad valorem taxes, and does not include periodic charges based on the use of a public improvement, such as water or sewer user charges, even if such charges include the recovery of all or some portion of the capital costs of the public improvement.

   Where CDBG funds are used to pay all or part of the cost of a public improvement, special assessments may be used to recover capital costs as follows:
   a) Special assessments to recover the CDBG funds may be made only against properties not owned and occupied by LMI persons (such assessments are program income), or
   b) Special assessments to recover the non-CDBG portion may be made provided that CDBG funds are used to pay the special assessment on behalf of all properties owned and occupied by LMI persons; except that CDBG funds need not be used to pay the special assessments on behalf of properties owned and occupied by moderate income persons if the grantee certifies that it does not have sufficient CDBG funds to pay the assessments on behalf of all of the LMI owner-occupant persons (funds collected through such special assessments are not program income).

4. **Target area definition:**
   A target area is contiguous and substantial. Generally, substantial means a concentration of 100 or more families and primarily residential in character. A contiguous target area is generally delineated along block lines and by natural/man-made boundaries, such as streets, highways, railroads, and streams. Alleys and lot lines do not delineate target area boundaries exclusively. The entire community is considered the target area if there are less than 100 families. All target areas will be reviewed for direct effects of the assisted activity to LMI persons and other persons inside or outside the target area as well.

   The target area for a county is a contiguous and substantial area of concentrated families or the entire unincorporated area. County applications exclude the incorporated areas, unless the county is a lead applicant in a joint application submitted in conformance with Section 1.03(3).
Target area must be appropriately designed to coincide with the project service area. Separate activities may suggest different target areas or a combined target area to be most effective.

**Section 3.03 Ineligible Activities**

The following activities are ineligible within the OOR category. If any activity is not noted within the list below, and is not listed as an eligible activity, please consult a CDBG Program Representative in order to determine if any other proposed activities are eligible for the category.

1. General administrative and audit costs that exceed the allowable 10% of the total amount of CDBG project costs, not to exceed $25,000.

2. Construction management costs, where applicable, that exceed the allowable $10,000 maximum.

3. Housing management costs, where applicable, that exceed the allowable 10% of the total amount of CDBG project costs, not to exceed $45,000.

4. Buildings, or portions thereof, used predominantly for the general conduct of government cannot be assisted with CDBG funds. Such buildings are defined as city and village halls, county administrative buildings, state capitols, or office buildings or other facilities in which the legislative or general administrative affairs of the government are conducted. This definition does not include such facilities as neighborhood service centers or special purpose buildings located in LMI areas that house various non-legislative functions or services provided by government at decentralized locations. This does not exclude, however, the removal of architectural barriers in order to make public buildings accessible to elderly and handicapped persons.

5. General government expenses cannot be paid with CDBG funds, except for those costs that are directly attributable to administration of a local CDBG program and are documented as such. (Eligible cost expenses are detailed in 2 CFR Part 200).

6. CDBG funds cannot be used to pay for facilities or equipment used for political purposes or to engage in other political activities such as candidate forums, voter transportation, or voter registration. However, a facility originally financed in whole or in part with CDBG funds may be used on an incidental basis to hold political meetings, candidate forums, or voter registration campaigns, provided that all parties and organizations have access to the facility on an equal basis, and are assessed equal rent or use charges, if any.

7. The purchase of equipment with CDBG funds is generally ineligible, except (a) the purchase of construction equipment is ineligible, but compensation for the use of such equipment through leasing, depreciation, or use allowances pursuant to 2 CFR Part 200 as applicable for an otherwise eligible activity is an eligible use of CDBG funds. However, the purchase of construction equipment for use as part of a solid waste disposal facility is eligible; and (c) that purchase of equipment, fixtures, motor vehicles, furnishings, or other personal property not an integral structural fixture is generally ineligible. CDBG funds may be used, however, to purchase or to pay depreciation or use allowances (in accordance with 2 CFR Part 200, as applicable) for such items when necessary for use by a municipality or country in the administration of activities assisted with CDBG funds, or when eligible as firefighting equipment, or when such items constitute all or part of a public service.

8. The general rule is that any expense associated with repairing, operating, or maintaining public facilities, improvements, and services is ineligible. Specific exceptions to this general rule are operating and maintenance expenses associated with public service activities, interim assistance, and office space for program staff employed in carrying out the CDBG program. For example, the use of CDBG funds to pay the allocable costs of operating and maintaining a facility used in providing a public service would be eligible, even if no other costs of providing such a service are assisted with such funds.
Examples of ineligible operating and maintenance expenses are: (a) maintenance and repair of streets, parks, playgrounds, water and sewer facilities, neighborhood facilities, senior centers, centers for the handicapped, parking and similar public facilities. Examples of maintenance and repair activities for which CDBG funds may not be used include the filling of pot holes in streets, repairing of cracks in sidewalks, the mowing of recreational areas, and the replacement of expended street light bulbs; and (b) payment of salaries for staff, utility costs, and similar expenses necessary for the operation of public works and facilities.

9. The general rule is that CDBG funds cannot be used for income payments for housing or any other purpose. Example of ineligible income payments include: payments for income maintenance, housing allowances, down payments, and mortgage subsidies. One time payments made on behalf of persons or families to meet emergency needs such as housing or essential utilities is not an income payment and is eligible.

10. CDBG funds may be used for the construction of new permanent residential structures or for any program to subsidize or assist such new construction when required to provide last resort housing under the Uniform Relocation Act. Activities in support of the development of LMI housing including clearance, site assemblage, provision of site improvements and public improvements and certain housing preconstruction costs are considered activities to subsidize or assist new residential construction.

Section 3.04a Eligible Activities
Activities eligible for assistance under the state’s CDBG program are only those authorized in Section 105(a) of the amended 1974 HCD Act. The general rule is that any activity listed in Section 105(a) may be funded in whole or in part with CDBG funds. Below is a partial list of activities from Section 105(a). Communities should be aware that although an activity may be legally eligible under Federal statute and HUD regulations, it may not be competitive under the guidelines and ranking system in the Nebraska CDBG Program. The State has adopted priorities, listed in Section 3.01, which increase the likelihood of funding of certain activities. Restrictions are identified in Sections 3.02 and 3.03 above.

1. The acquisition of real property (including air rights, water rights, and other interests therein) which is
   a. Blighted, deteriorated, deteriorating, undeveloped, or inappropriately developed from the standpoint of sound community development and growth;
   b. Appropriate for rehabilitation or conservation activities
   c. Appropriate for the preservation or restoration of historic sites, the beautification of urban land, the conservation of open spaces, natural resources, and scenic areas, the provision of recreational opportunities, or the guidance of urban development;
   d. To be used for the provision of public works, facilities, and improvements eligible for assistance under this program; or
   e. To be used for other public purposes.

2. The acquisition, construction, reconstruction, or installation (including design features and improvements with respect to such construction, reconstruction or installation that promote energy efficiency) of public works, facilities (except for buildings for the general conduct of government), and site or other improvements.

3. Code enforcement in deteriorated or deteriorating areas in which such enforcement, together with public improvements and services to be provided, may be expected to arrest the decline of the area.

4. Clearance, demolition, removal, and rehabilitation (including rehabilitation which promotes energy efficiency) of buildings and improvements (including interim assistance, and finance public or private acquisition for rehabilitation, and rehabilitation, or privately owned properties and including the renovation of closed school buildings).

5. Special projects directed to the removal of material and architectural barriers which restrict the mobility and accessibility of elderly and handicapped persons.
6. Payments to housing owners for losses of rental income incurred in holding for temporary periods housing units to be utilized for relocation of individuals and families displaced by CDBG activities.

7. Disposition (through sale, lease, donation, or otherwise) of any real property acquired with CDBG funds or its retention for public purposes.

8. Payment of the nonfederal share required in connection with a federal grant in-aid program undertaken as part of activities assisted under this program.

9. Relocation payments and assistance for displaced individuals, families, businesses, organizations, and farm operations, when determines by the grantee to be appropriate activities.

10. Payment of reasonable administrative costs and carrying charges related to the planning and execution of the community development and housing activities, including the provision of information and resources to residents of areas in which community development and housing activities are to be concentrated with respect to the planning and execution of such activities, and including the carrying out of activities as described in Section 701(e) of the Housing Act of 1954 on the date prior to the enactment of the Housing and Community Development Amendments of 1981.

11. Activities which are carried out by public or private nonprofit entities, including:
   a. Acquisition of real property;
   b. Acquisition, construction, reconstruction, rehabilitation, or installation of public facilities (except for buildings for the general conduct of government),
   c. Site improvements, and
   d. Utilities.

Section 3.04b Priority Eligible Activities within the Nebraska CDBG Program
The following activities are eligible within the OOR Program and are considered priorities. If any activity is not noted within the list below, please consult a Regional Program Representative.

- Rehabilitation (including rehabilitation which promotes energy efficiency) of residential owner-occupied homes.
- Special projects directed to the removal of material and architectural barriers, which restrict the mobility and accessibility of elderly and handicapped persons.
- Payment of reasonable administrative costs related to implementing the program.

Section 4.01 Maximum Grant Amount
The maximum amount for project costs is $450,000, exclusive of supporting project costs and general administration. For the current program year, anticipated allocations by category see the Annual Action Plan, available for download at http://opportunity.nebraska.gov/AAP.

General Administration include includes those costs that are administrative in nature with exception of pre-program costs, such as payment or reimbursement of application preparation fees, costs of conducting local surveys, etc. Common line items costs are environmental review, fair housing activities, financial audit (if necessary), labor standards enforcement, preparation of required grant progress reports and drawdowns. Matching funds are not required. Up to 10% of project costs can be used for general administration, not to exceed $25,000.

Housing Management (0580) costs include finance-related costs; credit reports, title binders and insurance; surety fees; recordation fees, transaction taxes; legal and accounting fees, including; cost certification; appraisals; environmental reviews; builders’ or developers’ fees; architectural, engineering, and related professional services; homeowner counseling; project audit costs; affirmative marketing and fair housing services to prospective tenants of an assisted project; and staff costs directly related to projects. Overall this includes any costs that are related to the specific units and
applicants served by the rehabilitation project. Up to 10% of housing Project Costs for Housing Management activities may be requested, not to exceed $45,000

**IMPORTANT NOTE:** Lead Based Paint (LBP) testing, risk assessments, and clearance testing are limited to $1,500 per unit. This item is a subset of 0580 and recorded as 0580a.

### Section 4.02 Matching Funds

**Match is not required,** however per **Section 5.03,** additional points may be available if match is committed to the project. Match is proportionally injected into the project as CDBG-funded activities are drawn down.

Consideration for match will be given for such sources as public and/or private funds, or in-kind services such as materials, labor, or other items that are directly related to the project. However, the local match may be used for projects that demonstrate benefit to the overall community that may not be specific to the project activities proposed for CDBG funding. For example, where the application proposes owner occupied rehabilitation, local matching funds could be injected into a sidewalk or sewer system improvement. Such improvements would be within the community, but could be adjacent to or otherwise benefit low- and moderate-income persons. Activities benefiting from matching funds, not specific to the CDBG-funded project activities, shall be described in the application and negotiated as a part of the contract special conditions.

#### OOR Category Local-Cost Share Example

The table below provides an example of calculating for Housing Management, General Administration, and Local cost-share Match. Local cost-share Match is **not required** for OOR grants; however, if provided, the calculation is shown below.

† Housing Management cannot exceed 10% of housing activities, not to exceed $45,000 overall.

### Section 4.03 Program Income

Program income for the State’s CDBG program is regulated by the provisions of 24 C.F.R. §570.489(e). The text of this regulation should be consulted for definitions and for other guidance concerning program income. Grantees that receive a CDBG award will be governed by the policies written in the Department’s **Annual Action Plan** and the (5-year) **Consolidated Plan** section “Program Income”. Related policy guidance can be found in the **Nebraska CDBG Program Administration Manual** in Chapter 8 “Program Income”. Lastly, Program Income (and Re-Use Plans) are addressed within your CDBG Contract (per project).

The State CDBG objective for program income is to provide adequate financing for local development to ensure Nebraska’s economic prosperity and to use all resources in a timely manner. The State is seeking to provide a policy for use of program income that coordinates local and State resources to the fullest extent possible. The State is responsible for ensuring that program income at the State and local levels is used in accordance with applicable federal laws and regulations.
**Program Income – Definition:**

Program Income is defined as gross income received by a State, a unit of general local government, or a subgrantee of the unit of general local government (or “UGLG”) that was generated from the use of CDBG funds, regardless of when the CDBG funds were appropriated and whether the activity has been closed out, except in limited circumstances [See also 24 CFR 570.489(e)(2)]. When Program Income is generated by an activity that is only partially assisted with CDBG funds, the income must be prorated to reflect the percentage of CDBG funds used.

All Program Income is and remains subject to all requirements of the HCDA and CDBG regulations. Program Income which may become a part of a Department approved community CDBG revolving loan fund remains subject to all requirements of the HCDA and CDBG regulations. This means all loans made from such a fund, including second and subsequent generation loans, are, and continue to be, subject to all CDBG requirements.

All Program Income earned during the grant period must be expended on the project activities prior to drawing down additional CDBG funds under the grant. Program Income earned after the completion of the grant activities is subject to the same CDBG requirements.

Program income includes, but is not limited to, the following:

1. Proceeds from the disposition by sale or long-term lease or real property purchased or improved with CDBG funds except in instances where the proceeds are received more than 5 years after expiration of the grant agreement between the state and the unit of general local government” [See also24 CFR 570.489(e)(2)(v)];
2. Proceeds from the disposition of equipment purchased with CDBG funds
3. Gross income from the use or rental of real or personal property acquired by the unit of general local government or subgrantee of the unit of general local government with CDBG funds, less the costs incidental to the generation of the income;
4. Gross income from the use or rental of real property, owned by the unit of general local government or subgrantee of the unit of general local government with CDBG funds, less the costs incidental to the generation of the income;
5. Payments of principal and interest on loans made using CDBG funds, except in instances where “Payments of principal and interest made by a subgrantee carrying out a CDBG activity for a unit of general local government, toward a loan from the local government to the subgrantee to the extent that program income received by the subgrantee is used for such payments;” [See also 24 CFR 570.489(e)(2)(iii)];
6. Proceeds from the sale of loans made with CDBG funds, less reasonable legal and other costs incurred in the course of such sale that are not otherwise eligible costs under sections 105(a)(13) or 106(d)(3)(A) of Title I of the Housing and Community Development Act of 1974 (as amended);
7. Proceeds from the sale of obligations secured by loans made with CDBG funds, less reasonable legal and other costs incurred in the course of such sale that are not otherwise eligible costs under sections 105(a)(13) or 106(d)(3)(A) of Title I of the Housing and Community Development Act of 1974 (as amended);
8. Interest earned on funds held in a revolving fund account;
9. Interest earned on program income pending disposition of the income;
10. Funds collected through special assessments made against nonresidential properties and properties owned and occupied by households not of low and moderate income, if the special assessments are used to recover all or part of the CDBG portion of a public improvement; and
11. Gross income paid to a unit of general local government or subgrantee of the unit of general local government from the ownership interest in a for-profit entity acquired in return for the provision of CDBG assistance.

**Section 5.01 Submission of Applications and Selection of Grantees**

Applications must be submitted according to the provisions stated in Section 1.01 through Section 1.03. OOR pre-applications are required and will be accepted through August 3, 2018. OOR full applications will be accepted through October 5, 2018. Applications will be accepted during this period based on US Postal Service postmark date or date of delivery by other means.
DED shall return and not consider Applications if they fail to meet any of the following threshold requirements:

a. Activities proposed are eligible and comply with CDBG National Objectives and State CDBG priorities.
b. Applicant has no significant, unresolved audit finding.
c. Applicant has no legal actions under way that may significantly affect its capacity to execute project.
d. Applicant is following a detailed Citizen Participation Plan (CPP) and Anti-Displacement Plan.
e. Applicant has adopted an authorizing resolution for participation in the Nebraska CDBG program.
f. Where applicable for past-awarded projects, Applicant must clear all compliance issues found during risk analysis performance and compliance monitoring and DED must accept any responses thereof.
g. Applicant is current with all reporting requirements (i.e. semi-annual project status reports, closeout reports, audit reports, notification of annual audits, etc.).
h. On any open CDBG grants, Applicant has shown progress including expenditures through drawdowns.

CDBG National Objective

All CD projects funded and CDBG-funded activities must meet a National Objective of the CDBG Program. *A project or project activity that fails to meet a national objective is ineligible for CDBG resources.* These national objectives include:

- Benefitting low- and moderate-income persons (LMI), including:
  - LMI Housing (LMH)

For more information about CDBG National Objectives, see Section 2.01 of the Application Guidelines.

Section 5.02 Special Policies for Thresholds for Selection

Special policies affecting thresholds for selection are:

1. The **Citizen Participation Plan** must contain provisions for the involvement of citizens, particularly LMI residents, in all phases of the project. Each local government submitting a single application or participating in a joint application, where applicable, must have and follow a citizen participation plan. The plan must provide for:
   a. Proper notice and access to all meetings and project records;
   b. Technical assistance on request to group’s representative of LMI persons;
   c. A minimum of two public hearings, each at a different stage of the program, for the purpose of obtaining citizen’s views, responding to proposals and questions specifically during the:
      (1) Application phase – the hearing(s) must cover community and housing needs, development of proposed activities to be undertaken, the amount of funds requested, the estimated amount proposed to benefit LMI persons, the amount and source of matching and leverage funds, if any, and the applicant’s plans for minimizing displacement of persons as a result of CDBG assisted activities and for assisting persons actually displaced; and
      (2) Implementation phase – the hearing(s) must review project/program performance and summarize any relevant updates or changes through the process, in supplement to any hearings held in accordance with the contract amendment request process.

      The minutes of the public hearing and the public hearing notice are to include each listed statement. Public hearings for joint applicants must be held in each participant’s jurisdiction and the application must be available for public inspection at each locality.
   d. A process for responding to complaints and grievances within 15 working days; and
   e. The needs of non-English speaking residents where a significant number of them can be expected to participate in public hearings.

2. The **Residential Anti-Displacement and Relocation Assistance Plan** must be adopted and certified by the local government and be available to the public. A certification and plan is required even if the applicant is not proposing activities which will result in demolition or in the conversion of an LMI unit to a use other than LMI housing. The plan...
must contain two components (a) one-for-one replacement unit requirement, and (b) a relocation assistance component.

a. **One-For-One Replacement** unit requirement applies to all occupied and vacant occupiable LMI dwelling units that will be demolished or converted to another use as a direct result of a CDBG assisted activity. Occupiable dwelling unit is a residential unit that is in standard condition or in a substandard condition, but suitable for rehabilitation.

1. An LMI dwelling unit is defined as a unit with a market rental, including utility costs, that does not exceed the Section 8 fair market rent (FMR) as established by HUD. Whenever assisted rehabilitation raises the rent above the FMR that unit must be replaced.

2. A “vacant occupiable dwelling unit” is a unit in standard condition or a unit in substandard, but is suitable for rehabilitation; or a dwelling unit that has been occupied (except for a squatter) at any time one year prior to the Notice of Approval date for an approved application.

3. A unit is “standard condition” is ready to be lived-in with only a minimal amount of deferred maintenance or repair required at a reasonable cost.

4. A unit “suitable for rehabilitation” is defined for purposes of this certification as a unit whose estimated repair, rehabilitation, weatherization, and/or general improvement costs do not exceed one-half of its replacement value after rehabilitation. The local government may use their own definition for “suitable for rehabilitation” provided such definition is made public and DED determines the definition to be acceptable.

5. Replacement LMI units must be provided within three years from the start of demolition or conversion and must be:
   i. Located within the same jurisdiction;
   ii. Sufficient in number and size to house at least the number of occupants that were or could have been housed; according to local occupancy codes;
   iii. Provided in standard condition or brought up to a standard condition; and
   iv. Designed to remain LMI for ten (10) years.
   v. Replacement units may include public housing and housing with Section 8 project-based assistance.

6. Assistance cannot be obligated to the demolition or conversion activity until the local government makes public and submits to DED information that identifies:
   i. The activity – the location and number of units by bedroom size;
   ii. The proposed demolition or conversion schedule;
   iii. The number and placement of replacement units and their size;
   iv. The source of funding and time schedule for replacement units; and
   v. The basis for concluding that each replacement unit will remain a LMI unit for 10 years.

b. **Relocation Assistance** must be provided to each LMI family displaced by the demolition or conversion to another use of any housing unit because of an assisted activity. Persons must be provided assistance as prescribed in the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (49 CFR Part 24) or 24 CFR 570.496a(c).

---

3. The **procurement process** for consultant selection must be outlined in accordance with Section 5.05 (3) Competitive Proposals. A grantee must use procurement procedures that are in conformance with State and local laws and regulations, Federal law and the standards identified for grantees within 2 CFR200.300–345.

Grantees must establish and maintain effective internal control over the CDBG award, providing reasonable assurance that all parties involved are in compliance with federal, state, and local statutes, regulations, and the terms and conditions of the CDBG award.
Overall, recipients of CDBG funds are responsible for ensuring competitive procurement for goods and services, in accordance with established rules and regulations using full and open competition. Complete documentation of this process is required.

In specific instances, Exhibit K may be required at the time of application along with related supplemental documentation. NOTE: there may be instances where the applicant submits more than one such exhibit, for example when separately procured consulting firms provide general administrative and planning activities.

Applicants shall complete Exhibit K1a/b if this process as described in Section 5.05 will not be used. The applicant must state why and identify and describe the process used for selecting a consultant. This also includes the process used for selecting of the consultant that implements the project. Exhibit K2 shall be completed if the procurement process is completed prior to submission of application. Procurement process must follow state and federal requirements with the exception of the Applicant/Grantee acting in their own capacity.

Supplemental materials must be provided that clearly demonstrate the applicant community carried out the procurement process, this includes documentation that a reasonable number of appropriate firms were contacted directly and in a meaningful manner. Documentation must also include a narrative indicating the method of procurement, reasoning for selecting that method, how and by whom the procurement process was carried out, and any other pertinent information about the procurement process, including a description of how the applicant made meaningful contact to a reasonable number of appropriate firms (e.g. five). As an example, meaningful contact may involve an applicant sending the request for proposal directly to firms known to complete the scope of work and follow up with a phone call or email that confirms receipt of the request.

WARNING: With the exception of contracts for general administration services, DO NOT execute any contract for goods or services prior to the Department issuing a written Notice of Release of Funds and Environmental Clearance. This includes contracts related to project costs or supporting project costs (construction management and housing management).

Section 5.03  OOR Program Priority Point System for Selection

Applicants meeting required thresholds are scored based on their capacity to describe the challenges and opportunities within the service area and describe how the proposed project addresses identified housing needs. Applicants provide specific information about the issues and/or problems addressed by the project, line item budget, preliminary schedule, and how the project fulfills the selected National Objective.

Project Description Instructions

Applicants are required to submit a project description identifying the nature and scope of the project, including match activities. Limit your project description to no more than one page. A complete and clear project description is the foundation of the application. The description should provide location specific information and geographic boundaries, as well as a delineation of all activities included in the overall scope of the project.

This description should include how the project proposes to address one primary objective and outcome as described in Section 2.03 of the Application Guidelines.

The review team utilizes your project description to determine eligibility of project activities and provides overall context to the selection criteria. This description is of vital importance to review and score an application based on the criteria and thresholds set forth in this program category. Applicants are encouraged to use this description as the basic framework for the forthcoming environmental review record (ERR) project description. Additional details about the benefits of the proposed project are articulated under the subsequent project narrative and any supplemental attachments provided by the applicant to substantiate project need, impact, readiness, and community support. IMPORTANT NOTE: attachments should supplement and not be considered as a replacement for narrative.
OOR Selection Criteria Matrix

The Matrix below describes each selection criteria as a numerical score within the OOR Program. The maximum number of points available within any application is 625 points. A minimum score of 200 points is required and certain criteria require a minimum score as noted below. All selection criteria will be scored in five point increments and shall be scored on a scale.

<table>
<thead>
<tr>

</table>

For each of the following sections a project narrative must be provided and any additional information as noted within each individual application question.

1. **Need/Impact**: Up to 175 points is possible. A minimum of 50 points must be earned in this section or the application will not meet threshold and will not be funded. The level of need/impact will be compared to other applicants.

   - Describe the local need for the proposed CDBG project.
   - Describe the public participation process and the specific action steps taken for public involvement that were used to identify and address community needs and allocate resources.
   - Describe any interest from potential beneficiaries and provide information on a waiting list, if there is a current list.
   - Describe how the proposed project impacts the targeted community(ies), region, and/or service area.
   - Describe other community development activities (both public and private) in the community. Provide specific example, such as infrastructure, libraries, community center, medical clinic, etc.
   - Describe the overall employment opportunities in the project area for the persons served by the proposed CDBG project. How does in-out migration impact the service area?
   - Describe planning efforts and any shared municipal services in the community.
   - Describe any nuisance abatement, ordinances, codes, or other enforcement programs in the community.

   Points in this section include:
   - 0-45—no clear description of the need/impact for the project.
   - 50-120—reasonably defined need/impact that is average compared to other applicants.
   - 125-175—above average description of need/impact.

2. **Collaboration**: Up to 100 points is possible. No minimum points in this section are required in order to meet threshold. The level of collaboration will be compared to other applicants *If the housing management organization has already been procured (Exhibit K1a/b or K2), please include in your answer the readiness and capacity of that organization in the below questions.*
- Describe the collaboration, community support, and partnerships that it takes to manage a project on a local level, including any previous projects.
- Describe the relationships that the unit of local government has with contractors, consultants and other professionals it uses for its CDBG projects.
- Identify current partnerships that will allow an owner occupied rehabilitation program to be successful in your community.
- Describe the level of support from the community to create an owner occupied rehabilitation program.
- Describe how any partners are involved in the project, pre-development, and post-award and how they assist in timely completion of the applicant’s proposed CDBG project.

Points in this section include:
- 0-25—no clear description of collaboration for the project.
- 30-70—reasonably defined collaboration that is average compared to other applicants.
- 75-100—above average description of collaboration.

3. Readiness/Capacity: Up to 175 points possible. A minimum of 50 points must be earned in this section or the application will not meet threshold and will not be funded. The level of readiness/capacity by the community will be scored as compared to other applicants. If the housing management organization has already been procured (Exhibit K1a/b or K2), please include in your answer the readiness and capacity of that organization in the below questions.

- Describe the stability/continuity of the unit of local government city council/board members over the last 3 years.
- Describe the unit of local government’s strategic plan/comprehensive plan for housing development. If the local unit of government has a plan, please describe and provide the current status of the housing development indicated in the plan.
- Describe how the unit of local government has demonstrated the ability to make timely decisions. Describe, if funded, the oversight of the Owner Occupied Rehabilitation program. Describe the reporting process of the CDBG Administrator on the CDBG project.
- Describe the key roles and responsibilities of the applicant’s staff for this project (MUST include the CDBG Administrator staff).
- Describe how the unit of local government will ensure timely payments of project costs.
- Describe how the unit of local government will meet the housing needs of the community served without DED assistance.
- Anticipated staff changes, including but not limited to: promotions, new hires, programs, full-time to part time and vice versa, and retirements.
- Describe the staff training plan of the unit of local government.
- Provide a list of any consultants or services needed for this project and describe the detailed procurement process required.
- Describe the DED funded housing projects implemented over the past 5 years. Include the number of units.
- Describe the Non-DED funded housing projects implemented over the past 5 years. Include the number of units and identify the funding used.
Provide a list of Grantee-requested contract extensions (that were not due to DED-related delays) on any housing projects for years 2013, 2014, and 2015, including the reason the extension was requested.

Points in this section include:
- 0-45—no clear description of the need/impact for the project.
- 50-120—reasonably defined need/impact that is average compared to other applicants.
- 125-175—above average description of need/impact.

4. **Match**: Up to 50 points possible. Match is not required. No minimum points in this section are required in order to meet threshold. Points will be awarded to applicants based on the amount of match provided. For purposes of CDBG OOR applications, matching funds is defined as local funds (including “other” funds and or in-kind contributions) committed to the project activities. Matching funds may be considered only if they are spent during the project period (Date of Release of Funds through the project completion date). The amount of match must be given in dollars. The table below further describes this scoring criteria.

<table>
<thead>
<tr>
<th>Matching Funds</th>
</tr>
</thead>
<tbody>
<tr>
<td>50 points</td>
</tr>
<tr>
<td>10% or greater of total project cost</td>
</tr>
<tr>
<td>25 points</td>
</tr>
<tr>
<td>5-9.99% of total project costs</td>
</tr>
<tr>
<td>10 points</td>
</tr>
<tr>
<td>3-4.99% of total project costs</td>
</tr>
<tr>
<td>0 points</td>
</tr>
<tr>
<td>Less than 3% of total project cost</td>
</tr>
</tbody>
</table>

5. **MEF**: Up to 100 points possible. A Municipal Equalization Fund (MEF) score will be generated for each community that has applied for this program category. This aid formula provides a way of looking at needs and resources while at the same time ensuring that local governments provide a level of local resources. DED will incorporate the MEF calculation into the scoring criteria for this program category. **Narrative is not required under this section.**

6. **Achievements**: Up to 25 points possible. No minimum points in this section are required in order to meet threshold. Applicant must demonstrate any of the following items at the time of application submittal. These items include:

   a. Applicant is designated as an Economic Development Certified Community. For a complete list of communities and additional information visit the DED website at: http://opportunity.nebraska.gov/community/community-info/community-data.  
      **25 bonus points**

   b. Applicant is designated as a DED Leadership Community. For a complete list of communities and additional information visit the DED website at: http://opportunity.nebraska.gov/community/community-info/community-improvement.  
      **25 bonus points**

*In addition, also note that the achievement section is optional; projects can be funded in communities not awarded points. These points may bolster an application’s score as compared to other applicants, as requested funding amounts often exceed available resources.*
**Section 5.04  Use of Consultants**

CDBG funds cannot be used to fund application preparation and Release of Funds must be received before engineering/architectural services or other project activities are eligible for reimbursement.

There are a number of reasons why a community may want to use consultants to assist with preparing a Community Development Block Grant application or administering a grant, such as when:

1. Work requires special professional services, such as accounting, architectural, engineering, legal, or planning services;
2. Local staff is inexperienced in the area of grant writing or project administration, or is already committed to other ongoing activities; or,
3. Work involves a short-term, but somewhat specialized project activity that does not justify hiring experienced, full-time staff.

Communities selected for CDBG funding will receive written guidelines regarding the federal and state requirements for selection of consultants to assist with project implementation, such as engineers, architects, planners, housing management administrators, or project administrator. The federal requirements do not apply to communities selecting consultants to assist with the preparation of an application; however, these costs are not eligible for reimbursement.

The **procurement process** for consultant selection must outlined in detail in accordance with **Section 5.04 (3) Competitive Proposals**. In specific instances, Exhibit K Procurement Process may be required at the time of application along with related supplemental documentation. Applicants shall complete Exhibit K1a/b if this process as described in **Section 5.04 (3)** will not be used. The applicant must state why and identify the process that will be used for selecting a consultant. This also includes the process used or electing the application preparer if that firm or individual is a part of or included in the process intended for selection of the consultant that implements the project. Exhibit K2 shall be completed if the procurement process is completed prior to submission of application. Procurement process must follow state and federal requirements with the exception of the Applicant/Grantee acting in their own capacity. Additional information is available within **Section 5.02**.

Several points should be considered before selecting any consultant, engineer, architect, planner, housing management administrator, or other professional to help assure that the community will receive satisfactory service. Cost-plus contracts are prohibited.

1) **“Loss-Leader” Arrangements**

“Loss-leader” arrangements, where a consultant offers to prepare a grant application or preliminary engineering estimates at cut rates or at no cost in return for a future contract if the application is funded, are prohibited by federal regulations. Some firms may suggest this approach because costs incurred by a city or county prior to the award of CDBG funds, such as preparation of the application or preliminary engineering studies, not eligible for reimbursement. However, loss-leader arrangements violate federal regulations which require “maximum open and free competition.” Professional organizations also consider this practice unethical because it deprives the client of the benefits that can results from competition among competent, professional firms.

2) **Selection of Engineers, Planners, or Administrative Consultants Prior to Grant Award**

Generally, the use of **multi-services procurement** and contracting is prohibited, except for:

1) When local officials decide to procure the services of an engineer to assist them with both preparation of preliminary engineering plans (that is not grant application preparation) and project engineering, in the event their community is selected for grant award;
2) When a community wants to conduct one procurement process to cover both grant preparation and grant administration; and
3) When a community wants to conduct one procurement process to cover both grant application preparation and grant implementation (contingent upon CDBG award).
On occasion local officials decide to procure the services of an engineer to assist them with both preparation of preliminary engineering plans and project engineering, in the event their community is selected for grant award. Likewise, some communities want to conduct one procurement process to cover both grant preparation and grant administration. This approach is permitted under federal procurement regulations. Obviously, in both cases, the selection process would occur prior to grant application. Any agreement between the community and the engineer or consultant that includes preliminary and project engineering or grant writing and administration services would have to be contingent upon award of CDBG funds. Any such contract also would have to have the prior approval of the Department of Economic Development to assure that federal procurement procedures complied with, and that all required federal clauses are included in the contract. Local officials would have to follow the procedures briefly outlined below under Competitive Proposals.

3) Competitive Proposals

Procurement by “competitive proposals” is a method used to meet federal and state requirements for soliciting architectural, engineering, legal, management, or accounting services. If your CDBG application is selected for funding, this is the procedure that is most appropriate to solicit and select professional services for your project. You may also want to use this procedure to select a consultant to assist you with the preparation of a CDBG application.

Competitive proposals are advertised and requested from several qualified sources.

HUD regulations for competitive proposals require the following:

(1) Requests for proposals (RFP’s) or qualifications (RFQ’s) must be publicized and identify all evaluation factors and their relative importance.

For example: RFP evaluation criteria may include technical expertise of the firm and its personnel (25 points); past record of performance on projects of similar nature, including quality of work and cost control (25 points); familiarity with CDBG program (20 points); capacity of firm to perform the work within time schedule (20 points); and the nature and extent of services proposed versus estimated fees (10 points); etc.

In general, grantees should use RFP process for professional planning services.

(2) Proposals must be solicited from an adequate number of qualified sources (at least three);

(3) Grantees and sub-grantees must have a method for conducting technical evaluations of the proposals received according to the criteria specified in the RFP and for selecting awardees;

(4) Awards must be made to the responsible firm whose proposal is most advantageous to the program, with price and other specified factors considered; and

(5) Grantees may use competitive proposal procedures for qualification-based procurement of architectural/engineering (A/E) professional services, whereby competitor’s qualifications are evaluated and the most qualified competitor is selected subject to negotiation of fair and reasonable compensation.

The method where price is not used as a selection factor can only be used in procurement of Architectural or Engineering services (NOTE: this does not include professional planning services).

DED recommends sending RFP’s to firms serving your region of the State. In addition to advertising in your local newspaper, you should also advertise in at least one other newspaper that is widely distributed in your region of the state. The community would evaluate the firms responding and could then conduct interviews with one or more of the firms.
responding and select a consultant. The community then negotiates a contract with terms and conditions to its satisfaction. Be sure to score all proposals received in accordance with the terms described and published with the RFP or RFQ, depending on the method used.

A response to an RFP should not be confused with competitive bid. A bid is an estimate of cost in response to detailed specifications. A response to a RFP in the competitive proposal process in a description of how a consultant proposes to approach solving your problem. Competitive proposals refer to the comparison of qualifications and may include fees where required or deemed appropriate. However, the main focus in selecting the consultant is to evaluate the content of the proposal and the consultant’s qualifications and demonstrated competence.

4) References
Any time a consultant solicits your business you should always check references prior to contracting with them. Request a list of prior clients, showing the organization’s name, address, phone number and contact person, as well as a brief description of the work performed. A list of the most recent clients is preferable (especially previous CDBG projects).

Contact each reference. Some useful questions might be:

- Were you satisfied with the work?
- Was it performed on time?
- Was the consultant knowledgeable about the program?
- Were the tasks or work products prepared by the consultant useful?
- Did the consultant work with local staff to develop local capacity?
- Were the costs or charges reasonable? Did they stay within their original budget?
- Would you hire them again?

In addition, check to see if the work done for these clients is similar to what you want the consultant to do. The ability to write a grant application does not mean the same consultant has the capability to assist you with managing a grant.

Sometimes the firm you are interested in will be a new firm with few if any client references. New, small firms can be just as good as well established, large firms, so instead of asking for client references, you could ask for past employer references.

Checking references prior to contracting is the most important action you can take to avoid becoming involved with a less than satisfactory firm.

5) Involve Local Staff
Whenever you retain a consultant to assist you with preparing a grant application or managing a CDBG project, make sure that someone from the city or county works with the consultant and understands the community’s application or the management issues involved. You should have a local staff person become familiar with the regulations for the CDBG program and work closely with the consultant in developing the application or managing the project. A consultant is a technical resource.

Section 5.05 Requirements for Submitting Applications
To apply for funds under these guidelines, an eligible applicant must complete the APPLICATION FOR OWNER OCCUPIED REHABILITATION CATEGORY form. This form consists of five parts: Part I – General Information, Part II – Funding Summary, Part III – Project Budget, Part IV – Project Descriptions and Impact, Part V – Required Attachments and Exhibits, Part VI Additional Attachments (where applicable). All parts must be completed according to instructions before an application will be considered for funding. Applicants shall be contacted by DED if their application is incomplete. Incompleteness applies only to Part I – General Information, Part II – Funding Summary, Part III – Budget, and Part V – Exhibits. When all deficiencies have been corrected, DED will resume the review process.

Section 5.06 Post Award Requirements
Consideration should be given to a variety of Federal and State regulations that can have scheduling or cost implications. Among these are:
1. **Records**
   All information on grant-assisted activities must be retained for ten years following completion and closeout of the grant. During the grant period, performance reports are required semi-annually.

2. **2 CFR Part 200 Subpart F**
   Local governments and nonprofits that expend $750,000 or more must conduct a single audit of federal and local funds.

3. **Acquisition/Relocation**
   Regulations for acquisition and relocation emphasize anti-displacement and should be discussed with the Department URA representative at the beginning of the project. The Uniform Relocation and Real Properties Acquisition Act (URA) apply to all federally assisted activities that involve the acquisition of real property or the displacements of persons. If CDBG funds are used in any part of the project, the URA would govern the acquisition of real property, including easements, and any resulting displacement, even if local funds are used to pay the acquisition costs. The URA requirements may include: formal notification of the affected property owner(s), preparation of an appraisal to determine fair market value, and a written purchase offer based on an amount determined to be fair market value. The only exception is a voluntary transaction that meets certain criteria.

4. **Regulations Emphasize Anti-Displacement**
   However, if displacement is necessary, relocation assistance must be provided to persons displaced by rehabilitation, acquisition, demolitions, or the conversion of units for use other than low-to-moderate income dwelling units. Grantees will be required to replace every occupied unit that is demolished or converted with CDBG funds on a one-for-one basis within a three-year period.

5. **Procurement**
   Open and free competition on solicitation of professional services or construction bidding is also required. If the applicant intends to use CDBG funds to pay all or a portion of fees, or intends to claim fees as match, then CDBG procurement guidelines must be followed. For more information see Section 5.05 of the Application Guidelines.

6. **Environmental Review**
   Grant recipients are required to obtain appropriate environmental clearance for their projects and to maintain an Environmental Review Record for each project. The review process involves consultation with various agencies, groups and individuals regarding: historic properties, floodplain management, wetland protection, noise control, air quality, explosive and flammable operations, airport hazards, water quality, threatened and endangered species, wild and scenic rivers, farmland protection, environmental justice, contamination and toxic substances. The environmental review and Request for Release of Funds/Certification, if required, must be completed before the grantee, or any participant in the development process, incur costs against the project.

7. **Special Assessments**
   Where CDBG funds are used to pay all or part of the cost of a public improvement, special assessments to recover the non-CDBG portion may be made provided that CDBG funds are used “to pay” the special assessment on behalf of all properties owned and occupied by low- and moderate-income persons. For more information see Section 3.02(3).

8. **Equal Opportunity, Fair Housing, and Handicap Accessibility**
   Laws require that CDBG grantees administer their projects in a manner that affirmatively furthers fair housing and equal opportunity. All grantees will be required to undertake specific activities to further fair housing. Grantees must also assure that all activities and services are accessible to those with disabilities.

Most new construction or substantial rehabilitation of buildings must meet the 2009 International Energy Conservation Code or the most recent version of the International Conservation Code in effect, as required by 72-804-806 NRRS, and provide for Nebraska Energy Office (NEO) review of plans and specifications (at no cost) that meet said standards. This applies to lighting, heating, cooling, ventilating, or water heating equipment or controls, as well as building envelopes.

As an alternate compliance method when a licensed architect and/or engineer have designed a subject building, a Designer Certification may be submitted to NEO instead of building plans and specifications. The certification form, which will be provided by the NEO, will attest that the building design complies and provide summary information about the design.

When the Energy Office has determined that a subject building complies, or has received documentation of alternate compliance, it will provide a Verification of Construction form on which it must be certified that the building is constructed substantially according to the plans. At key points during construction, the building should be inspected to verify that insulation and other envelope components, and all specified lighting, heating, cooling, ventilation, and water heating equipment and controls are installed as indicated on the plans. The Verification of Construction form must be signed and returned to the Energy Office within twenty (20) days following substantial completion. Contact NEO at (402) 471-2867 for a copy of the code.

10. Continued Use
All community facilities assisted with CDBG funds must remain in the same use for five years after grant closeout. For more information see 24 CFR 570.489.

Section 6.01 Glossary of Terms

Annual Action Plan (AAP)
The Annual Action Plan updates the Nebraska Housing and Community Development Consolidated Plan, a five-year plan addressing the state's housing and community development needs.

Assessment Abatement
To pay fees levied against private property for the costs of public facilities activities (see special assessment). In order to maximize benefit to low- and moderate-income households, funds may be used to abate the assessments for these owner-occupied households.

Beneficiary
The ultimate consumer of HUD programs who receives benefits from a HUD Recipient or Sub-recipient.

Community Development Need
A demonstrated deficiency in housing stock, public facilities, economic opportunities, or other services that is necessary for developing or maintaining viable communities.

Comprehensive Strategic Approach
A comprehensive strategic approach is one that effectively utilizes community needs assessments, stakeholder participation, and planning processes. A comprehensive approach should include: significant needs identification, adopted or updated Comprehensive Plan, housing study, and capital improvement plan.

Consolidated Plan
The Nebraska Five-Year Consolidated Plan is a comprehensive planning document identifying the state’s needs in housing, homelessness, community and economic development. The State is required by the U.S. Department of Housing and Urban Development (HUD) to complete a Consolidated Plan every five years to receive federal funds for the Community
Development Block Grant (CDBG), HOME Investment Partnerships (HOME), National Housing Trust Fund (HTF), Housing Opportunities for Persons with AIDS (HOPWA), and Emergency Solutions Grant (ESG) programs. Two other State funded programs are included in the plan, Homeless Shelter Assistance Trust Fund (HSATF) and Nebraska Affordable Housing Trust Fund (NAHTF).

**Department or DED**
Nebraska Department of Economic Development. The state agency that administers the federal Community Development Block Grant State Program for communities under 50,000 population with funds allocated to the US Department of Housing and Urban Development.

**Disability**
Any condition or characteristic that renders a person an “individual with disabilities” as defined in 24 CFR Part 8.3 (Code of Federal Regulations). An “individual with disabilities” means any person who has a physical or mental impairment that substantially limits one or more major life activities; has a record of such impairment; or is regarded as having such impairment.

**Elderly**
For purposes of this program and qualifying a project as meeting the low- and moderate-income national objective by principally benefitting seniors, a senior citizen is a person aged 62 or older.

**Eligible Activity**
Those activities authorized in Section 105(a) of the amended 1974 Housing and Community Development Act. However, the State and local participants have developed priorities, listed in Section 3.04, that best serve their interests and increase the likelihood of being funded.

**Family**
A family is defined as all persons living in the same household who are related by birth, marriage, or adoption. An individual living in a housing unit that contains no other person(s) related to him/her is considered to be a one-person for this purpose. A dependent child who is living outside of the home (e.g. students living in a dormitory or other student housing), is considered for these purposes to be part of the family upon which he/she is dependent, even though he/she is living in another housing unit.

**Firm Public or Private Commitment**
An agreement by a private or public party to take part in a local community development project. The party must demonstrate the capacity to carry out the activity specified in the grant application. The agreement may take the form of a city council or county board resolution, letter from a governmental agency, or a letter of credit from a private lending institution.

**Flood and Drainage**
Facilities designed to influence or affect the flow in a natural water course (such as a river, stream, lake, or intermittent stream) and excludes storm sewers.

**Grant Closeout**
The process by that the department determines that the grant recipient and the department have completed all applicable administrative actions and all required work.

**Grant Contract**
The legally binding contract between the state and a grant recipient. It consists of the notice of grant award, special conditions to the contract, certifications to comply with applicable state and federal regulations, the project budget, and the grant application.
Household
All the persons who occupy a housing unit. The occupants may be a single family, one person living alone, two or more families living together, or any other group of related or unrelated persons who share living arrangements.

Housing and Community Development Needs Assessment
A statement by the applicant that lists the community’s development needs, including housing needs and needs of low- and moderate-income persons and strategies to address the needs. Required of all applicants to be eligible for CDBG funding under Title I of the Housing and Community Development Act.

Income
The total gross income (before taxes) of all members of a family who are age 15 or older. Income includes all monies received by all members of the family such as gross wages and salaries, bonuses, tips, interest, dividends, social security, other retirement, supplemental security income, welfare, disability, VA payments, unemployment, alimony, other. A family that is involved in a business where the finances are interrelated with the family budget (such as a farmer) should consider their income as net after expenses, as reported to the Internal Revenue Service.

Language Assistance Plan (LAP)
A written implementation plan that addresses identified needs of the LEP persons served.

Leverage
Funds that are committed to the project activities exceeding the required match. Leverage may include public and private funds, or in-kind services, such as materials, labor, or other items that are directly related to the project. Leveraged funds may be considered only if they are spent during the project period. (Date of Release of funds through the project completion date). The amount of leverage must be given in dollars.

Limited English Proficient Person (LEP)
Individuals who do not speak English as their primary language and who have a limited ability to read, write, speak, or understand English because of national origin.

Low- and Moderate-Income
For CDBG, a person is considered to be of low income only if he or she is a member of a household whose income would qualify as "very low income" under the Section 8 Housing Assistance Payments program. Generally, these Section 8 limits are based on 50% of area median. Similarly, CDBG moderate income relies on Section 8 "lower income" limits, which are generally tied to 80% of area median.

Low- and Moderate-Income Person
A member of a family having an income as described under the Low- and Moderate-Income definition.

Lower-Income Person
A member of a family having an income equal or less than the Section 8 “lower income” limit established by HUD (80% or less of the area median). Unrelated individuals shall be considered as one-person families for this purpose.

Municipal Equalization Fund (MEF) score
The Municipal Equalization Fund (MEF) was created in 1996 as a needs-based method of providing state aid to cities. The program is administered by the Nebraska Department of Revenue, with data provided by the Department of Revenue’s Property Assessment and Research Divisions, and the Nebraska Auditor of Public Accounts. Final aid calculations for Nebraska communities are posted in June of each year.

This aid formula provides a way of looking at needs and resources while at the same time ensuring that local governments provide a level of local resources. DED will incorporate the MEF calculation into the scoring criteria for this program.
Each city’s population is multiplied by the average per capita property tax levy for the relevant population group. Then each city’s property tax valuation is multiplied by the state average property tax levy. These numbers are used to make the preliminary determination for state aid under the MEF formula. If a city’s population multiplied by the average per capita property tax levy is greater than the state-wide average levy multiplied by its valuation, the community will earn points. If the difference is negative, no points will be awarded under the MEF scoring criteria for this program.

All of the incorporated cities in a state are divided into three population groups:

1. Municipalities with a population of 5,000 inhabitants or more;
2. Municipalities with a population between 800 and 5,000 inhabitants; and
3. Municipalities with a population of 800 inhabitants or less.

Populations are based on the last decennial census including those modified by annexations that have taken place since the last census and any special censuses completed by the US Census Bureau.

**Neighborhood**
A geographic location with the jurisdiction of a unit of general local government (but not the entire jurisdiction) designated in comprehensive plans, ordinances, or other local documents as a neighborhood, village, or similar geographical designation; or the entire jurisdiction of a unit of general local government that is under 25,000 population.

**Neighborhood-based nonprofit organization**
An association or corporation, duly organized to promote and undertake community development activities on a not-for-profit basis within a neighborhood. To be considered neighborhood-based, the majority of the organization’s membership, clientele, or governing body are residents of the neighborhood where activities assisted with CDBG funds are to be carried out.

**Project Cost**
Costs to complete the project and not associated with general administration of the grant (i.e. 0181 General Administration) or supporting project costs (i.e. 0380 Construction Management, 0580 Housing Management – Rehabilitation Management, and 0580a Housing Management – Lead-based Paint testing, risk assessment, and clearance testing).

**Project Description**
Applicants are required to submit a one-page project description identifying the nature and scope of the project. This description is utilized to determine eligibility of project activities and provides overall context to the selection criteria for scoring of applications. This description should include how the project proposes to address at least one objective and one outcome as described in Section 2.03.

**Service Area**
Area within the community designated to benefit from the project.

**Single Purpose Project**
One or more activities designed to meet a specific community development need.

**Special Assessment**
A fee or charge levied or filed as a lien against a parcel of real estate as a direct result of benefit derived from the installation of a public improvement or a onetime charge made as a condition of access to the improvement. The amount of the fee represents the pro rata share of the capital costs of the public improvement levied against the benefitting properties. For additional information see, Section 3.02 (3).

**Supporting Project Costs**
Costs that support project costs (i.e. 0380 Construction Management, 0580 Housing Management – Rehabilitation Management, and 0580a Housing Management – Lead-based Paint testing, risk assessment, and clearance testing). For reporting purposes, beneficiaries are not reported separately rather they are associated with the most appropriate activity. Supporting project costs do not include grant administration (i.e. 0181 General Administration).

**Target Area**
A defined geographic area within which an applicant has determined that, based on community plans or other studies, a need for community development activities exists. A target area may be a neighborhood of 100 or more families in a community or an entire community. The target area must encompass the entire area served by the project. For additional information, see Section 3.02 (4).

**Units of Accomplishment**
Awarded projects must report on accomplishments specific to project outcomes. There are seven accomplishment types, the number of accomplishments will depend on the project activities to be undertaken. These types include People, Households, Businesses, Organizations, Housing Units, Public Facilities, and Jobs. For reporting purposes, at the time of application, the number of accomplishments is considered “proposed” and upon completion of project activities, the accomplishments are considered “actual”.

**Vital Document**
Any document that is critical for ensuring meaningful access to the Recipient’s major activities and programs by beneficiaries generally and LEP persons specifically.
