Owner Equity	Other Private Funds
NIFA-LIHTC	Other Federal Funds
Conventional Loan	Financial Institution Money
NEMA-HMGP	FEMA Mitigation
Managing Member Fee/Loan	Personal Funds
NEMA-PA	FEMA Public Assistance

Narratives

Disaster Damage:

After record-setting low temperatures that created frost depths approximately two feet deep and ice on rivers and creeks in winter of 2018-2019, Winter Storm Ulmer, a bomb cyclone – or “winter hurricane,” a term given to a rapidly intensifying storm – roughly equivalent in power to a Category 2 hurricane, moved across Nebraska between March 12 and 15, 2019. Recorded wind gusts during the cyclone approached 80 mph in many parts of the state and contributed to blinding blizzard conditions that closed highways and stranded motorists. Many roads and bridges, and other infrastructure, were damaged such that they were “out of service” or impassable for a considerable amount of time, causing remarkable disruption.

The bomb cyclone also brought heavy snow, blizzard conditions, rainfall, and above-freezing temperatures into much of the interior of the US. This part of the country already had significant snowpack on the ground due to above-average precipitation during the 2018-2019 winter season. Nebraska experienced its worst flooding event in 50 years between March and July 2019. As temperatures warmed in April and May 2019, the heavy snow and excessive rainfall from the 2018-2019 winter season contributed to rapid melting of ice and snow, resulting in flooded rivers and ice jams that breached levees, damaged infrastructure, and destroyed thousands of homes and businesses. The eastern side of the state was particularly impacted by flooding, resulting in fatalities, evacuations, and search and rescue missions.

In many areas, the flood damage was exacerbated by thick river ice breaking off in an atypically severe manner. Bridges were washed away by flooding or rendered impassable due to accumulated ice chunks.

Recovery Needs:

Grantees who receive an allocation through the CDBG-DR program are required to conduct an Unmet Needs Assessment (UNA) to assist in the identification and prioritization of critical unmet needs following a disaster and to identify long-term recovery efforts that will mitigate against future disasters. For DR-4420, the State of Nebraska's UNA, as carried out and completed for the Initial Action Plan, identified \$269,043,934 in unmet need, specifically \$55,637,821 in unmet housing need, \$196,163,422 in unmet infrastructure need, and \$17,242,691 in economic revitalization need. Throughout the State, recovery efforts have been taken and continue to be initiated for public and private housing and infrastructure facilities. During the development of the Initial Action Plan, local jurisdictions reported having completed repairs on homes that were damaged or destroyed as well as repairing infrastructure facilities. However, additional need remains.

As a result of the UNA process, Nebraska plans to establish funding opportunities in the following core sectors to assist in its disaster recovery:

1. Infrastructure
2. Housing
3. Planning

Nebraska's CDBG-DR program and funding opportunities are not designed or intended to create Program Income (PI) nor establish revolving loan funds (RLFs).

Low- and Moderate-Income (LMI) and Vulnerable Populations. Nebraska will prioritize activities under the housing programs that benefit LMI households, persons experiencing homelessness, and individuals requiring supportive housing, as identified in 24 CFR 91.315(e). Prioritization of vulnerable populations aligns with applicable Fair Housing requirements.

Most Impacted and Distressed (MID) Areas . Dodge, Douglas, and Sarpy counties will be the target for 80% of available CDBG-DR funding. HUD requires that 80% of CDBG-DR funds be allocated and spent in HUD-defined MID areas. HUD originally identified the MID areas as being the entirety of Sarpy County, zip code 68025 (Fremont, Inglewood, and Woodcliff) in Dodge County, and zip codes 68064 and 68069 in Douglas County (Valley and Leshara). Based on the UNA, Nebraska expanded the HUD-defined MID to include all of Dodge County and Douglas County.

Infrastructure Needs will be supported via the Infrastructure Match Program. Funding will be available to local jurisdictions for FEMA and non-FEMA projects. As the Initial Action Plan UNA and HUD's early assessments both indicated, DR-4420 generated catastrophic impacts to infrastructure, resulting in significantly higher losses in that core category than economic and housing needs. Infrastructure damage was widespread, with 84 out of 93 counties and four tribal areas impacted, reporting damage to roads, bridges, levees, dams and many other critical infrastructure facilities. To address the extensive infrastructure needs within the state, the state is prioritizing CDBG-DR funding under DR-4420 for infrastructure recovery. However, following the launch of the Infrastructure Match Program, designed to support local jurisdictions by making available CDBG-DR funding to pay the requisite local cost-share towards FEMA Public Assistance (PA) and Hazard Mitigation Grant Program (HMGP) projects, the actual amount requested by applicants was significantly less than anticipated. While there were over 300 applications for funding, nearly one-third were ineligible and over 80 percent of those projects determined initially eligible for DR funding were for amounts less than \$50,000. During the implementation process, other infrastructure projects not funded with FEMA were identified.

Housing Needs will be supported via the Affordable Housing Construction Program. As part of the Initial Action Plan, to determine how many housing units would require funding through the CDBG-DR program, DED conducted a data analysis to review the total number of homes served through existing State housing programs. DED estimated the total remaining unmet need in both the HUD MID and state MID areas to be 252 housing units. Upon the launch of the Affordable Housing Construction Program, the interest in funding to support construction of housing exceeded expectations. Thus, DED reallocated costs from undersubscribed programs to support that demand.

Planning and Capacity Building. Nebraska recognizes the importance of strong planning efforts to achieve equitable, effective, and sustainable long-term recovery. Therefore, has allocated funding for planning activities to further analyze and address flood hazard vulnerabilities that led to flood damages under DR-4420; and support an effective and resilient recovery from the disaster.

Nebraska Department of Economic Development1

Organization Type

Unknown

Proposed Budget

\$ 5,446,900.00

Location Description:

Activity Description:

This activity is to cover the state administrative cost of running the CDBG-DR Program, specifically the infrastructure, housing, and planning programs in Nebraska to provide assistance to Nebraska communities recovering from Winter Storm Ulmer (DR-4420). The state administrative costs will not exceed five percent (5%) of the total allocation. DED anticipates retaining the full 5% allocated for administrative costs associated with the CDBG-DR for purposes of oversight, management, and reporting. Any necessary changes will be reflected in Action Plan amendments.

Proposed budgets for organizations carrying out Activity:**Responsible Organization**

Nebraska Department of Economic Development1

Organization Type

Unknown

Proposed Budget

\$ 1,000,000.00

Location Description:**Activity Description:**

This activity includes those planning costs inherent to the development of the Action Plan (including amendments). The latter of which is allowed by HUD guidance, including, but not limited to, Notice CPD-2023-06 on Allocating Costs Between Program Administration, Activity Delivery, and Planning for CDBG-DR, CDBG-MIT, and CDBG-NDR Grantees. Certain costs associated with action plan development (including amendments), however, are administrative in nature and will be so allocated under that appropriate and separate activity.

The State of Nebraska has ongoing recovery and resilience planning efforts that are helping direct recovery efforts in the state. A comprehensive evaluation of storm impacts and thorough understanding of future hazards is the basis of this Action Plan, as amended.

Proposed budgets for organizations carrying out Activity:**Responsible Organization**

Nebraska Department of Economic Development1

Organization Type

Unknown

Proposed Budget

\$ 1,000,000.00

Location Description:

HUD- and state-defined MID.

Activity Description:

Housing Resilience Planning (HRP) will support local jurisdictions and economic development districts in developing plans for housing recovery, resilience, and affordability. The plans will support communities in identifying and leveraging both CDBG-DR and other resources and strategies for housing recovery, resiliency, and affordability. The overarching goal of HRP activities is to promote comprehensive community resilience by addressing flood vulnerabilities in counties that were declared under DR-4420

DED will issue a Notice of Funding Opportunity (NOFO) for eligible entities representing communities within the HUD-defined MID area. Awards will be made on a competitive basis with the selection criteria published in the NOFO. This selection criteria will prioritize projects that benefit LMI populations and communities with the highest levels of damage from DR-4420.

Award. The maximum award for HRP is \$250,000 for project activities serving a single jurisdiction, or \$500,000 for project activities serving a larger, multi-jurisdictional area.

Eligible Area. HUD- and state-defined MID.

Eligible Entities. All counties, municipalities, economic development districts representing HUD- or State-defined MID areas, and universities.

Proposed budgets for organizations carrying out Activity:**Responsible Organization**

Nebraska Department of Economic Development1

Organization Type

Unknown

Proposed Budget

\$ 1,000,000.00

Location Description:

HUD-defined MID area is the primary focus, so 100% of this activity is allocated to the HUD-MID. DED anticipates identifying and targeting three communities within the HUD-MID, one from each identified county, to carryout planning processes. Given the nature of flood and floodmapping, DED leaves open the possibility that some elements of these planning activities may spill over into state-defined MID areas. Should that occur, it will be so documented and any costs tracked accordingly.

Activity Description:

Risk Awareness and Resilience Planning will use CDBG -DR funding for the reduction of risk resulting from private levee failure and other flood risks and vulnerabilities. This activity will be carried out in coordination with the University of Nebraska-Lincoln.

Activities in support of Risk Awareness and Resilience Planning (RARP) will target areas with risk exposure, particularly those residential areas with risk exposure from private levees. The activities will target counties that received a disaster declaration under DR-4420 and focus on flood hazard vulnerabilities that led to flood damage under DR-4420. The overarching goal of the program is to promote comprehensive community resilience, resulting in a built environment that is more resilient to the impacts of natural disasters. The activities are intended to identify flood risk and vulnerabilities in counties that were declared under DR-4420. In support of these goals, DED may use the resulting adoption of local or regional plans, codes, and/or ordinances as scoring criteria in other CDBG-DR or other federal or state programs it administers.
