

Housing Resilience Planning (HRP)

CDBG-DR Housing Resilience Planning

The Housing Resilience Planning (HRP) program supports the development of plans related to **housing recovery**, **housing resilience**, and **affordable housing** that reduce hazard vulnerability. The overarching goal of the program is to **promote comprehensive community resilience**. The program will be conducted in three (3) phases:

1. Notice of Funding Opportunity (NOFO).

On June 20, 2024, DED issued a [NOFO](#) to the public. As described in the NOFO, an overview webinar was held on July 9, 2024.

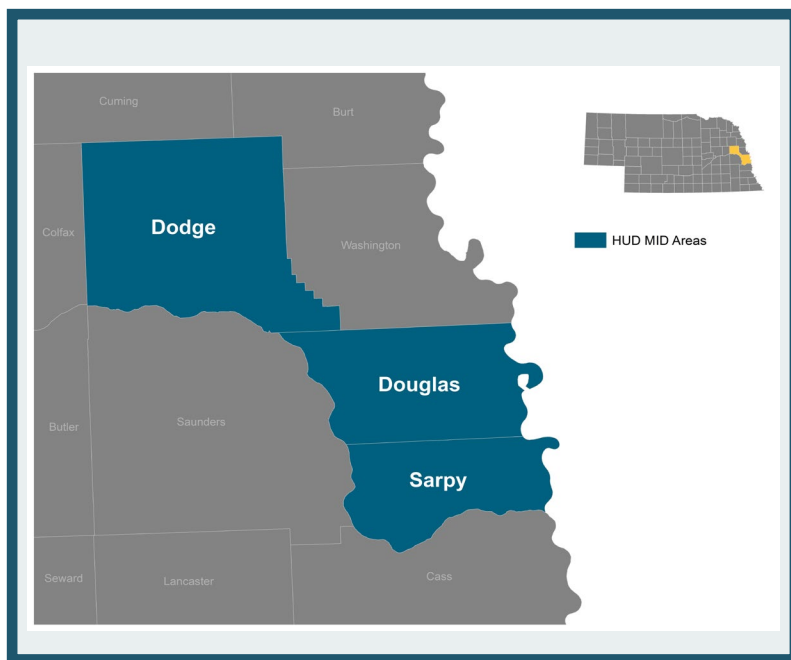

2. Applicant Selection.

DED reviews all applications, prioritizing them by:

- The project service area has a population that is greater than 51% Low-to-Moderate Income (LMI) persons.
- The project area experienced flooding in the HUD-defined Most Impacted and Distressed (MID) area.

3. Plan Development.

Selected applicants will become *Subrecipients*, and they will conduct the planning process and develop a housing plan.

**The map above indicates HUD-defined MID areas*

WHO IS ELIGIBLE?

All Applicants must be located within or among the HUD- or State- defined MID areas, including:

- Dodge County,
- Douglas County,
- Sarpy County, or
- Counties with a Federal Declaration (DR-4420)

Applicants must fall under one of the following eligibility categories:

- Counties;
- Municipalities;
- Education Institutions; and
- Economic Development Districts

WHAT ACTIVITIES ARE ELIGIBLE UNDER THE PROGRAM?

Planning activities **focused on reducing flood vulnerability** and at least one of the following:

- Housing recovery;
- Housing resilience; or
- Affordable housing
