NIFA-LIHTC	Other Federal Funds
NEMA-HMGP	FEMA Mitigation
Bond Tax Equity	Other Federal Funds
Managing Member Fee/Loan	Personal Funds
Historic Tax Credits	Other Federal Funds
City TIF	City Funds

Narratives

Disaster Damage:

After record-setting low temperatures that created frost depths approximately two feet deep and ice on rivers and creeks in winter of 2018-2019, Winter Storm Ulmer, a bomb cyclone – or “winter hurricane,” a term given to a rapidly intensifying storm – roughly equivalent in power to a Category 2 hurricane, moved across Nebraska between March 12 and 15, 2019. Recorded wind gusts during the cyclone approached 80 mph in many parts of the state and contributed to blinding blizzard conditions that closed highways and stranded motorists. Many roads and bridges, and other infrastructure, were damaged such that they were “out of service” or impassable for a considerable amount of time, causing remarkable disruption.

The bomb cyclone also brought heavy snow, blizzard conditions, rainfall, and above-freezing temperatures into much of the interior of the US. This part of the country already had significant snowpack on the ground due to above-average precipitation during the 2018-2019 winter season. Nebraska experienced its worst flooding event in 50 years between March and July 2019. As temperatures warmed in April and May 2019, the heavy snow and excessive rainfall from the 2018-2019 winter season contributed to rapid melting of ice and snow, resulting in flooded rivers and ice jams that breached levees, damaged infrastructure, and destroyed thousands of homes and businesses. The eastern side of the state was particularly impacted by flooding, resulting in fatalities, evacuations, and search and rescue missions.

In many areas, the flood damage was exacerbated by thick river ice breaking off in an atypically severe manner. Bridges were washed away by flooding or rendered impassable due to accumulated ice chunks.

Recovery Needs:

Grantees who receive an allocation through the CDBG-DR program are required to conduct an Unmet Needs Assessment (UNA) to assist in the identification and prioritization of critical unmet needs following a disaster and to identify long-term recovery efforts that will mitigate against future disasters. For DR-4420, the State of Nebraska’s UNA, as carried out and completed for the Initial Action Plan, identified \$269,043,934 in unmet need, specifically \$55,637,821 in unmet housing need, \$196,163,422 in unmet infrastructure need, and \$17,242,691 in economic revitalization need. Throughout the State, recovery efforts have been taken and continue to be initiated for public and private housing and infrastructure facilities. During the development of the Initial Action Plan, local jurisdictions reported having completed repairs on homes that were damaged or destroyed as well as repairing infrastructure facilities. However, additional need remains.

As a result of the UNA process, Nebraska plans to establish funding opportunities in the following core sectors to assist in its disaster recovery:

1. Infrastructure
2. Housing
3. Planning

Nebraska’s CDBG-DR program and funding opportunities are not designed or intended to create Program Income (PI) nor establish revolving loan funds (RLFs).

Low- and Moderate-Income (LMI) and Vulnerable Populations. Nebraska will prioritize activities under the housing programs that benefit LMI households, persons experiencing homelessness, and individuals requiring supportive housing, as identified in 24 CFR 91.315(e). Prioritization of vulnerable populations aligns with applicable Fair Housing requirements.

Most Impacted and Distressed (MID) Areas . Dodge, Douglas, and Sarpy counties will be the target for 80% of available CDBG-DR funding. HUD requires that 80% of CDBG-DR funds be allocated and spent in HUD-defined MID areas. HUD originally identified the MID areas as being the entirety of Sarpy County, zip code 68025 (Fremont, Inglewood, and Woodcliff) in Dodge County, and zip codes 68064 and 68069 in Douglas County (Valley and Leshara). Based on the UNA, Nebraska expanded the HUD-defined MID to include all of Dodge County and Douglas County.

Infrastructure Needs will be supported via the Infrastructure Match Program. Funding will be available to local jurisdictions for FEMA and non-FEMA projects. As the Initial Action Plan UNA and HUD’s early assessments both indicated, DR-4420 generated catastrophic impacts to infrastructure, resulting in significantly higher losses in that core category than economic and housing needs. Infrastructure damage was widespread, with 84 out of 93 counties and four tribal areas impacted, reporting damage to roads, bridges, levees, dams and many other critical infrastructure facilities. To address the extensive infrastructure needs within the state, the state is prioritizing CDBG-DR funding under DR-4420 for infrastructure recovery. However, following the launch of the Infrastructure Match Program, designed to support local jurisdictions by making available CDBG-DR funding to pay the requisite local cost-share towards FEMA Public Assistance (PA) and Hazard Mitigation Grant Program (HMGP) projects, the actual amount requested by applicants was significantly less than anticipated. While there were over 300 applications for funding, nearly one-third were ineligible and over 80 percent of those projects determined initially eligible for DR funding were for amounts less than \$50,000. During the implementation process, other

infrastructure projects not funded with FEMA were identified.

Housing Needs will be supported via the Affordable Housing Construction Program. As part of the Initial Action Plan, to determine how many housing units would require funding through the CDBG-DR program, DED conducted a data analysis to review the total number of homes served through existing State housing programs. DED estimated the total remaining unmet need in both the HUD MID and state MID areas to be 252 housing units. Upon the launch of the Affordable Housing Construction Program, the interest in funding to support construction of housing exceeded expectations. Thus, DED reallocated costs from undersubscribed programs to support that demand.

Planning and Capacity Building. Nebraska recognizes the importance of strong planning efforts to achieve equitable, effective, and sustainable long-term recovery. Therefore, has allocated funding for planning activities to further analyze and address flood hazard vulnerabilities that led to flood damages under DR-4420; and support an effective and resilient recovery from the disaster.

Responsible Organization

Nebraska Department of Economic Development1

Organization Type

Unknown

Proposed Budget

\$ 5,446,900.00

Location Description:

Activity Description:

This activity is to cover the state administrative cost of running the CDBG-DR Program, specifically the infrastructure, housing, and planning programs in Nebraska to provide assistance to Nebraska communities recovering from Winter Storm Ulmer (DR-4420). The state administrative costs will not exceed five percent (5%) of the total allocation. DED anticipates retaining the full 5% allocated for administrative costs associated with the CDBG-DR for purposes of oversight, management, and reporting. Any necessary changes will be reflected in Action Plan amendments.

Activity Description:

New multi-family construction with 20-year affordability period located in the HUD-MID (City of Papillion, Sarpy County). CDBG-DR is gap-financing along with other funding.

The project will consist of 130 units configured in multi-family and rowhome typology. 66-units will be designated for CDBG-DR. All units will have a washer and dryer, and ceiling fan in each bedroom. The project will feature a community room and basketball hoop. Lawn care, snow removal, sewer and water, and trash services will be paid for by development. The project proposes to target persons making less than 60% AMI. Further, 10% of units will be targeted to those 40% AMI.

Activity Description:

The 143-unit project is a partnership between Brinshore Development, LLC and Omaha Housing Authority to rehab the Pine Tower, an Omaha Public Housing building. The building is located one mile south of downtown Omaha and directly adjacent to the "Little Bohemia" area of Omaha. The development was originally built in 1970 and will be thoroughly renovated with new flooring, energy efficient lighting and appliances, new kitchens and bathrooms with a focus on quality-of-life upgrades for residents. Landscaping will also be refreshed. All 143 affordable units will be income-restricted and range from 40% - 60% AMI.

COUNTY OF PLATTE

Organization Type

Local Government

Proposed Budget

\$ 543,945.47

Location Description:

Platte County, NE State_MID

Activity Description:

Platte County and the City of Columbus with the support of the Lower Loup NRD will purchase, demolish and turn into green space the nine properties located in the SFHA that are included in this application. Seven of the nine properties are also located in the floodway of either the Loup River or Shell Creek. All properties sustained damages to their property, were forced to evacuate and were unable to return to their parcels for weeks. Many have been damaged beyond repair.

PAPIO-MISSOURI RIVER NATURAL RESOURCES DISTRICT

Other

\$ 8,223,454.85

Location Description:

Activity Description:

Sandbar removal near HWY 77 and Railroad bridge. Winter Storm Ulmer caused the RR bridge to wash out. During the duration of debris removal and bridge reconstruction the sandbar's growth was accelerated and has now decreased the capacity in that area to 1/3 of the pre-disaster flow rate. This endangers 300 homes.

Proposed Budget

\$ 1,000,000.00

Location Description:

Activity Description:

This activity includes those planning costs inherent to the development of the Action Plan (including amendments). The latter of which is allowed by HUD guidance, including, but not limited to, Notice CPD-2023-06 on Allocating Costs Between Program Administration, Activity Delivery, and Planning for CDBG-DR, CDBG-MIT, and CDBG-NDR Grantees. Certain costs associated with action plan development (including amendments), however, are administrative in nature and will be so allocated under that appropriate and separate activity.

The State of Nebraska has ongoing recovery and resilience planning efforts that are helping direct recovery efforts in the state. A comprehensive evaluation of storm impacts and thorough understanding of future hazards is the basis of this Action Plan, as amended.

Proposed Budget

\$ 150,000.00

Location Description:

HUD- and state-defined MID.

Activity Description:

This is the parent activity for DED costs associated with this 'planning only' funding opportunity. Housing Resilience Planning (HRP) will support local jurisdictions and economic development districts in developing plans for housing recovery, resilience, and affordability. The plans will support communities in identifying and leveraging both CDBG-DR and other resources and strategies for housing recovery, resiliency, and affordability. The overarching goal of HRP activities is to promote comprehensive community resilience by addressing flood vulnerabilities in counties that were declared under DR-4420

DED will issue a Notice of Funding Opportunity (NOFO) for eligible entities representing communities within the HUD-defined MID area. Awards will be made on a competitive basis with the selection criteria published in the NOFO. This selection criteria will prioritize projects that benefit LMI populations and communities with the highest levels of damage from DR-4420. Award. The maximum award for HRP is \$250,000 for project activities serving a single jurisdiction, or \$500,000 for project activities serving a larger, multi-jurisdictional area. Eligible Area. HUD- and state-defined MID. Eligible Entities. All counties, municipalities, economic development districts representing HUD- or State-defined MID areas, and universities.

VILLAGE OF NIOBRARA	Local Government	\$ 350,000.00

Location Description:
 Niobrara, Verdigre, Verdell, Santee, Center, and Creighton, and areas of the Santee Sioux Reservation.

Activity Description:

Primary Applicant (Subrecipient): Village of Niobrara (Knox County)

Project Partners: Local governments of Niobrara, Center, Creighton, Santee, Verdigre, and Verdel, the Santee Tribe, and Knox County Development Agency.

Project Description: The study aims to not only provide safe and affordable housing for low-to-moderate income (LMI) families, but also to give them better access to information about flood zones, building costs, and land development areas. Each participating community in the project will have specific strategic plans and housing development documents created to assist community leaders and the Knox County Development Agency in increasing the supply of resilient and affordable housing in the area. The project will include a planning committee conducting community housing surveys and blight studies, analyzing flood plains and community resource mapping in participating Knox County communities, identifying infill lots and potential housing subdivisions, creating housing concepts and cost estimates, and developing organizational infrastructure that will be utilized for the development of an affordable housing LLC template.

CITY OF BELLEVUE

Organization Type

Local Government

Proposed Budget

\$ 500,000.00

Location Description:

City Limits and ETJ of Bellevue and Papillion

Activity Description:

Primary Applicant (Subrecipient): City of Bellevue

Project Partners: City of Papillion, Housing Foundation for Sarpy County, Sarpy County Government and Metropolitan Area Planning Agency.

Project Description: Development of a housing plan that will focus on reducing flood vulnerability and addressing affordable housing needs and conditions by incorporating sustainable, climate-resilient elements into long term plans in the communities of Bellevue and Papillion in Sarpy County, which were significantly impacted by the 2019 flooding. The plan will assist the communities as they work to address rising housing needs compounded by increased frequency and severity of climate events, by outlining obtainable short and long-term housing and infrastructure goals by the municipalities. The plan will also include proposed pre-approved housing development plans prepared for priority target areas that will meet local building requirements and include stormwater and engineering designs. This approach will increase the viability of neighborhoods and create social and economic benefits.

Proposed Budget

\$ 1,000,000.00

Location Description:

HUD-defined MID area is the primary focus, so 100% of this activity is allocated to the HUD-MID. DED anticipates identifying and targeting three communities within the HUD-MID, one from each identified county, to carryout planning processes. Given the nature of flood and floodmapping, DED leaves open the possibility that some elements of these planning activities may spill over into state-defined MID areas. Should that occur, it will be so documented and any costs tracked accordingly.

Activity Description:

Risk Awareness and Resilience Planning will use CDBG -DR funding for the reduction of risk resulting from private levee failure and other flood risks and vulnerabilities. This activity will be carried out in coordination with the University of Nebraska-Lincoln.

Activities in support of Risk Awareness and Resilience Planning (RARP) will target areas with risk exposure, particularly those residential areas with risk exposure from private levees. The activities will target counties that received a disaster declaration under DR-4420 and focus on flood hazard vulnerabilities that led to flood damage under DR-4420. The overarching goal of the program is to promote comprehensive community resilience, resulting in a built environment that is more resilient to the impacts of natural disasters. The activities are intended to identify flood risk and vulnerabilities in counties that were declared under DR-4420. In support of these goals, DED may use the resulting adoption of local or regional plans, codes, and/or ordinances as scoring criteria in other CDBG-DR or other federal or state programs it administers.
