**Attachments:** Schuyler tanks.xlsx

This is in response to your inquiry regarding the environmental review for the above referenced project. At this time there are no facts known that would impact this project.

I have completed a search on our database. I have attached here a search of underground and aboveground storage tanks for the city in question. If you would like more information about any of the sites listed contact me.

Other issues related to construction, such as plan reviews and installation permits, are also not addressed in this response.

If you find that the proposed construction may be affected by underground storage tanks or if you have further questions, please contact me.

Also, please feel free to email all of these requests for information to me.

Regards,
